Subject: Cumulative Impacts

Hi All,

Earlier this year, the Premier and Cabinet had asked that a process be developed to assess and monitor the impact of government policy decisions on businesses and the economy and to incorporate impact information in proposals being advanced for Cabinet and Cabinet Committee consideration.

I am writing to introduce the **Business and Economic Implications Framework** (BEIF) and to ask that you advise staff of the new requirements. The BEIF was developed by the Ministry of Jobs, Trade and Technology to provide a standard assessment approach. JTT will provide support and assistance as the BEIF is established, establish capacity to track cumulative impacts and review the BEIF after 6 months to ensure that it is meeting its intended purpose.

Effective January 1, 2019, ministries submitting **new** Requests for Decision, Requests for Legislation and Orders in Council intended for Cabinet and Cabinet Committee consideration will be expected to complete the screening and evaluation tools included in the framework. The framework and related screening tools and worksheets are available at <http://gwww.cabops.gov.bc.ca/templates/>.

Training tools have been developed to assist with implementing the framework, including in-person workshops and a self-serve training module on [@work](#). Registration for workshops can be done through the [Learning System](#) (Business and Economic Implications Framework – Workshop). Priority registration may be given to teams that are developing submissions that will be considered early in 2019.

Please circulate this email to your leadership teams, and direct any questions about the framework to Christine Little or Francois Bertrand at JTT. As your teams begin implementing the framework, requests for support can be directed to BEIF@gov.bc.ca.

Thanks.

Don

A decade ago, B.C. emerged as a global leader in tackling climate change. It took bold political leadership and innovative policy. When political will flagged, progress stalled, and pollution increased. Now Premier John Horgan's government has collaborated with BC Green Party leader Andrew Weaver to deliver a plan that will build on those foundations, resurrect B.C.'s role as a climate leader, and build a better, healthier, more competitive and more affordable province that will benefit all British Columbians: CleanBC.

It's leadership worthy of celebration, and you're invited to join us to raise a glass and do just that.

Hi All,

I had a chance to talk to a number of you on Friday about the need to be coordinate on our approach to apprenticeship.

A (partial?) list of what is in play:

- i. Community Benefits Agreements for large public projects (e.g. Pattulo) – MOTI lead;
- ii. Responding to the ICBA lawsuit on CBAs – MAG lead
- iii. Required apprenticeship ratios for all publicly-funded projects in excess of \$15 million – AVED lead;
- iv. A possible conference on CBAs in January – who is the lead for this?
- v. JTT work on targets for large private sector projects (e.g. LNG)
- vi. Discussions about designating compulsory trades – are there discussions going on about this? If so, who has the lead?
- vii. Is there anything else that people are aware of?

To pull this together I would like to take the following steps:

- i. I am asking Selina Basi in my office to pull together a summary of all the initiatives and each initiative's status. Could you please connect Selena with the best contact in your shops so that she can put this together?
- ii. After Selina has pulled this together, I would like to get everybody together for a meeting where we can agree on what changes are needed to ensure we have a fully coherent approach to building stronger pathways for more British Columbians to skilled trades credentials.

To put a timeline on this, I will schedule the meeting for Dec 13 from 1-3. Please let me know who from your Ministry/Office would be attending that meeting?

Thanks.
