Hi All,

Few things I hope we can work on today:

Evan – can you please print the schedule for the Premier? His morning changed slightly with him arriving a bit later. He is aware but will need a fresh copy.

There may be docs that we need to print for a few of his meetings. I'll keep an eye out for them and forward to you.

I am trying to confirm a call for the Premier today as well. He is aware I am working on it and will confirm with you once I've got it nailed down.

Elizabeth – flights for Washington & travel coming up. When I'm in later I'd like to connect on this to see where we're at. Please cancel the flight on the Jan 28th return to Vic and book the crew overnight. Will need a flight home on the 29th now. Ignore the hold on the reception and book helijet please. Jan 17th flight over is likely changing as well. I need to confirm timing of a morning engagement first but heads up that's coming your way. Can you if the 7:50am is available for our crew in the meantime? It's likely the best option.

Chris – top of mind for me is the Kennedy meeting and TLA. There'll likely be a few niggly things coming your way too. Let's sit down when I'm in later to review where we're at.

Don – could you please do an inventory of supplies if you haven't already and follow up with Surjit on the items we need removed and items we are looking for? If you haven't already – it would be good to send a report to Jen H on calls from yesterday and if you could connect with the constit office on the same to add to the report I would appreciate it. I'd also appreciate if you could follow up with whomever is looking after the global directory to ensure our new numbers are reflected there – to cut down all the forwarded calls you have been receiving due to the switch over.

See you later and happy Thursday!

A

Hi,

I've attached the full list here. It sounds like Minister Donaldson and Minister Sims may be there, but neither has signed up for the luncheon as of yet. However, people are able to register onsite, so they may end up doing that. Teresa confirmed that none of the MLAs will be there, but she doesn't have access to the Ministers' calendars.

I think all I can do at this stage is keep an eye out and brief PJH onsite. I've flagged with the organizer to please let me know as folks register. In the meantime, this list includes the 2 opposition MLAs who have signed up, as well as local government representatives.

Hi,

I've attached the full list here. It sounds like Minister Donaldson and Minister Sims may be there, but neither has signed up for the luncheon as of yet. However, people are able to register onsite, so they may end up doing that. Teresa confirmed that none of the MLAs will be there, but she doesn't have access to the Ministers' calendars.

I think all I can do at this stage is keep an eye out and brief PJH onsite. I've flagged with the organizer to please let me know as folks register. In the meantime, this list includes the 2 opposition MLAs who have signed up, as well as local government representatives.

Thanks,

Hi folks,

Sending this to all at the same time due to approaching deadline. I've just made changes to Q.10 and a couple other small edits.

Vivian and I have both gone over the speech and she flagged one more q to add as a result of changes so I'll leave it to her to send the final version with that added.

I expect it will need to be sent to Erik for final sign off?

Subject: SAP meeting request with Premier Horgan

Hi Evan,

I hope all is well, and you had a fantastic holiday season. My name is Ryan Pageau, and I am the SAP Industry Account Executive for the Government of BC. You and I would have met when Premier Horgan and Minister Ralston came to the SAP Vancouver office several months ago for their tour and briefing of the SAP Vancouver offices.

I wanted to reach out, as myself, and Andy Canham, President of SAP Canada (who was also here for the Premier and Minister tour), will be in Victoria at the end of the month to meet with Jill Kott, Deputy Minister of Citizen Services, and CJ Ritchie, ADM and CIO of Government of BC. This meeting is scheduled on Friday February 1st. Earlier that same week, on Monday May 28th, Minister Jinny Sims will be coming to the SAP Vancouver offices, for a similar tour and briefing of the SAP Vancouver office, with

the objective to develop a greater understanding of what we are working on here at SAP Vancouver, and how that could align to the Government of BC, and their objectives in 2019 and beyond.

With all these key touch points upcoming, I thought I would reach out to determine if the Premier had any availability, the afternoon of the 31st of January, or the morning of February 1st, while Andy and I are in Victoria, to reconnect for a brief meeting at his office, coffee, breakfast, whatever is most convenient. I know Andy is keen to continue the dialogue, and further build a relationship with the Premier, as SAP further strengthens our partnership with the province.

Please let me know if there is a date and time slot that would work well for yourself and the Premier. Thank you in advance Evan, I look forward to your reply.

This meeting is scheduled on Friday February 1st. Earlier that same week, on Monday May 28th, Minister Jinny Sims will be coming to the SAP Vancouver offices, for a similar tour and briefing of the SAP Vancouver office, with the objective to develop a greater understanding of what we are working on here at SAP Vancouver, and how that could align to the Government of BC, and their objectives in 2019 and beyond.

Hi Both

For tomorrow- Evan gave up his seat on helijet for Geoff. Evan will be on the next one out and will head straight to the convention centre.

Evan - please still ensure Premiers helijet is not delayed and he has all he needs before heading over.

Also heads up there will be some friendly USW workers handing out leaflets out front of the roundup convention. The leafleting is about Hecla Mining, who are a sponsor of the AME Roundup and have had their members in Idaho on a picket-line for coming up on 2 years. Wanted you both to be aware and give Premier a heads up.

Evan - confirming you have the additional briefing note from Okenge for the Premiers luncheon? I have one other piece of information regarding a COF trip to Washington DC that IGRS provided too. I will send to you and also forward directly to the Premier.

Don Bain is attending mining convention with you both and Elena Banfield is advance.

Good afternoon,

As the Executive Director of the Fraser Basin Council, I am responding to your recent email to Theresa Fresco of our office. We would be pleased and most grateful to meet with Minister Selena Robinson as the Fraser Basin Council is currently engaged in a number of local government activities of interest to Minister Robinson. We look forward to hearing from her office directly. Please suggest to them that they contact me directly by cell at 604-889-7455 or by email at dmarshall@fraserbasin.bc.ca<<mailto:dmarshall@fraserbasin.bc.ca>>.

In the interim, we would still wish to have a meeting with Premier Horgan as he explicitly requested a briefing during a brief informal meeting at this year's UBCM Convention at Whistler. During this discussion, one of the topics Premier Horgan expressed keen interest in is the Lower Mainland Flood Management Strategy that the FBC is managing on behalf of 50 funding partners (including the provincial government). We believe

that the Premier recognizes the importance of courageous and timely leadership on the part of all governments and the private sector to reduce and better adapt to coastal and river flooding in the Lower Mainland, hence his interest in receiving a direct briefing. Another initiative that we understand the Premier is interested in is a high profile opportunity for his leadership in working with others to bring back salmon to the Upper Columbia River Basin. We are working with three First Nations governments and Fisheries and Oceans Canada in close cooperation with the Columbia Basin Trust to restore salmon in this Basin for the first time in over 85 years!

To summarize, as the Premier did indicate to us his wish to meet on these matters, we hope that an opportunity to do so can be arranged at your earliest convenience. I look forward to your response.

Subject: Proposed Meeting With the Premier February 14 or 15 in Prince Rupert

Dear Mr.Brown,

I was given your contact information by one of our senior elected officials Ms.Corinne McKay, Secretary Treasurer who, along with our President, had a brief meeting with Premier Horgan during the 36th annual Mineral Exploration Roundup in Vancouver on January 28, 2019. At the brief meeting I understand the Premier indicated a willingness to meet with our leadership on either February 14 or 15, in Prince Rupert during the All Native Basketball Tournament.

I have been requested by our leadership to formally make the request for this meeting on either February 14 or 15. Our agenda for this meeting will include the Nisga'a Nation's Nasoga Gulf commercial land acquisition along with the Grizzly Bear hunting ban issue.

Please let us know which of the two days would be preferred and we can also make arrangements for a meeting room if you wish.

Thank you and I look forward to hearing from you soon.

Best regards,

Hello Evan,

It was great to meet you on the plane from Prince George to Victoria last Wednesday. I thought I would follow up on our brief conversation by sending you some information on the Construction Foundation. We are working in a lot of areas that should be of interest to the Premier.
This year we have a big focus on working with First Nations schools and communities and we would love to sit down with the Premier and see where we might align with the priorities of Government.
I have attached the 2018 annual report which was just released last Thursday in conjunction with our AGM.

Cheers,

Okay I'm up to speed with you now. All meeting requests have to go through the same process, it's part of government protocol so what I need you to do right now is submit a formal request to premier@gov.bc.ca outlining your discussion with the premier and what your meeting will be about and what date you were hoping to have him and that will get the process in motion.

You will get an email back from our scheduling branch once it is processed.

Thank you Charles!

Hello Evan,

In a discussion with the Premier at the Tahltan reception at the AME Round up we discussed having a mtg to discuss Hydro project possibilities and also discussions on the cranberry connector with the Gitwinksihlkw Village Government.

Since he is going to be in Prince Rupert at the end of the All Native Tournament in Prince Rupert he suggested we meet there.

I have included my CEO on the email response. She can complete the scheduling of the meeting with you.

I am not involved in the review/approval/ or scheduling side of things unfortunately.
That is done by a separate team of staff in the Premier's office

Hi Evan,

A few more ideas:

- Mineral exploration and development are an integral part of Canada's economic landscape and provide significant benefits to rural and urban communities in British Columbia and across the country. Minerals and metals are also critical to a low carbon future.
- Our government is fully aware of how important mining and mineral exploration are to this province – they are a vital part of responsible resource development, a key driver of our economy and essential to creating well-paying jobs and making life better for British Columbians.
- We believe that mining and mineral exploration are a central part of our province's clean, green future.
- And we are firmly committed to supporting mineral exploration and mining in this province, to help grow our economy, to create jobs for British Columbians and to help build our clean future.

Full speaking notes are attached with some further details.

Cheers,

Just pulled this from a KM document for Natural Resource Forum.
I'll change the wording up a bit, anything additional you want to add in there?

B.C. is a mining province. Mining employs more than 30,000 people and supports 1,100 businesses. Government is doing its part to encourage mining and mineral exploration, and B.C. companies are harnessing digital technologies to move mining forward.
