Hi Ladies,

With the addition of Okenge and Mark joining DMCPSC, we are looking to provide them (and Erik – since he didn't receive one previously) an orientation for DMCPSC. We are hoping to provide the orientation on Feb 5th during the meeting time (1:00 to 2:30 pm). We will be rescheduling the actual meeting. If that time works, I will send a meeting request.

Thanks.

1. Log onto Oracle iExpense

The screenshot shows the Oracle iExpenses application interface. At the top, there are four tabs: Applications, Data Warehouse, Business Intelligence, and Expense Authority. Below the tabs, the title "iExpenses" is displayed. A paragraph describes the application: "The iExpenses application provides for the claim and reimbursement of business travel expenses to employees. A self-serve solution employees to submit expenses, check claim status, view payment information and access notifications." To the right, another paragraph states: "Employee reimbursements will be deposited directly into their PeopleSoft identified bank account." Below this, a third paragraph says: "At the end of each business day, approved Expense Reports are imported to Accounts Payable as 'Expense Report' type invoices and made available for payment the same business day." On the left side, there is a word cloud containing terms related to the application, such as "report", "profile", "payment", "IEXPENSES", "corporate", "cash", "policy", "reimbursement", "notification", "travel", "preferences", "system", "CFS", "financial", "receipts", "accommodation", "track", "allocations", "authority", "rules", "employee", "meals", "transportation", "submit", "manage", "create", "status", "expenses", "invoices", and "approval".

2. Click onto FI – AP – IExpense

The screenshot shows the Oracle E-Business Suite interface. At the top, the title "ORACLE E-Business Suite" is displayed. Below the title, there is an "Enterprise Search" section with a dropdown menu set to "All" and a "Go" button. Below the search section, the title "Oracle Applications Home Page" is displayed. On the left side, there is a "Main Menu" section with a "Personalize" button. The menu items are: BCGOV - Self Service Common Functions, FI - AP - IExpenses (with a sub-item "Expenses Home"), FI - PO - Internet Procurement, FI/FS - iStore Customer, and FI/FS - OM - Order Inquiry. On the right side, there is a "Worklist" section with a "Full" button. The worklist table has columns "From", "Type", "Subject", and "Sent". It looks like Francois deleted yesterday's meeting out of his calendar, so I'll have to send a new invite. Also – I realized the meeting should actually be an hour long not 30 mins, if that is okay with your team. Would a different hour long time block work for Selina and Amy?

Hi Lori, a quick follow up after last week's DMCSI.

If you think it would be beneficial to have a bit of a brainstorm/collaboration about the pieces that need to have more thinking, and a structure for some of the x- ministry engagement that will need to be done before the April Cabinet presentation, happy to help in any way our office can (with new direction, framing the questions that need to be addressed etc). I would imagine that you've got it well in step, but feel free to let me know.

A huge thank you to Dean and Brett for getting a tricky video conference running between the Federal and Provincial Government! It was a tricky set up and we appreciate the care and attention that went into making sure this VC was able to go ahead with all participants. They worked extremely well with Kirk Lee, Network Analyst, DFO, who trouble shot issues on his side!

It was an unexpected ask so thank you for making sure this went well for all the parties involved.
