Ya, I gingerly try to persuade people that a write in campaign can more effective than a phone in—but that's my take personally, although some online research bears it out.

Oh, Chris is under the impression that Sage might be interested in the Kitimat caller, if you don't mind "blasting" a note on it to her, at your convenience.

Hello all,

I just received a phone call^{s.22} from Kitimat BC, and he was so annoyed with John and the NDP government about the cost of gasoline. I tried to talk to him about our messaging and he wanted nothing to do with it.

He said that he was going to blast out our constituency office phone number and tell everyone he knows to call our office and complain. He said that if all calls went to one office, they would then get the message.

Subject: Key messages - gas pricing

Key Messages:

- I understand people's frustration when they see gas prices shooting up while the price of oil stays flat or even goes down.
- However, a one cent increase in the carbon tax doesn't explain it.
- I think it has more to do with oil companies taking advantage of constrained refining capacity to pocket huge profits.
- We don't control the market, but we are committed to working hard every day to make life more affordable for people.

- We're eliminating MSP fees and avoiding the old government's planned ICBC and BC Hydro rate hikes, while making historic investments in affordable housing and childcare.
- We're also increasing the climate action credit for families - this year a family of 4 will receive up to \$400.

What sort of relief are you considering?

- Unfortunately, there is no simple answer.
- The situation is complicated and driven by a lack of regional refining capacity and gouging by oil companies - that's what we need to look at.
- We've been clear that we think Canada needs more refining capacity.

Will you take taxes off gasoline?

- The challenge is, if we took a few cents off taxes, there's nothing to stop oil companies from raising prices even further and pocketing the profits.
- We don't want to be in a situation where people are subsidizing oil companies.
- Subsidizing oil companies at the cost of public transit doesn't make sense.

Subject: 2019 BC Community Achievement Awards - checking in

Good Morning Amber,

I hope all is well with you. The BCAF is busy readying for the presentation ceremony for the 2019 Awardees of the BC Community Award. As you may remember from last year, the award is presented at Government House, with Her Honour presiding, and the Premier is invited to present the awards should schedules align. The ceremony takes place at 2:00pm on May 1st and I understand that the Premier is committed to being in the House that day which is also the date (evening) the BCAF Board plans to meet in Victoria at the Royal BC Museum. The board meeting is scheduled to accommodate the government members of the BCAF board both in its location and time and will start when the House rises at 7:15pm on May 1st.

The 2019 independent selection committee for the BC Community Award met last week and our office is working through the list of 25 to contact and advise them of their recognition! Once all have been informed, the BCAF announces the 2019 awardees (release date is week of March 25th - tbc). As per last year we are hoping that the Premier would again like to participate in this announcement and I will follow up with the contact you provided last year, Jennifer Holmwood Jen.Holmwood@gov.bc.ca - to request a quote, unless I hear otherwise from you.

Again, as per last year and our other award programs, - the BCAF presents a certificate to the recipients which is co-signed by the Premier and the Chair of the BCAF Board (Anne Giardini, OC, OBC, QC). We are in the process of re-designing these certificates and should have them ready for the Premier's signature within the next two weeks and will be confirming that date with you soon. In addition, the Premier's office compiles congratulatory letters for each of the recipients. Last year we worked with Susan Farmer - Susan.Farmer@gov.bc.ca and again will follow up with Susan unless advised otherwise.

Finally, as you may be aware, the BCAF is now located in the World Trade Centre, suite 602, just one floor below the Vancouver cabinet offices. *If it is easier for us to deliver the certificates to someone in that location for the Premier's signature - please let me know.* Otherwise we will courier them to your attention as we have done in the past.

Thanks for your help - let me know if you have any questions. My colleague, Rup Kang, is copied into this email as I am out of the office from March 13 - 20, and she is ready to assist so please hit reply all with your response!

All the best,
Cathryn

I'm pretty sure she was aiming for the April final for the greeting, I'm wondering if someone should confirm it with her.

Hi Don, apologies as I didn't look up the phone number before. It is coming up as an invalid TELUS number. Is this possibly a Rogers number and if so, would you like to port it to TELUS?

The reason I ask is if so, you will receive a \$200 bill credit to help offset any cancellation charges and all we need is the account number.

Subject: RE: Phone Blitz for Friends of Sooke Hills Regional Park - Malahat Detour Stakeholders

Hi Bruce,
Here is some messaging – if you are receiving calls:

- **We've heard from many British Columbians that there is a reliability problem when it comes to this highway.**
- **We need traffic to be flowing along the Malahat so people don't get stuck waiting for hours during a closure and so important goods and services can keep moving. A lengthy delay or detour does not work for people.**
- **The ministry is exploring all options – including existing roads and potential new routes – to get people moving when incidents result in the closure of the Malahat.**
- **The ministry continues to work with First Nations and local stakeholders in the region to understand the environmental issues and concerns of increased traffic in these areas.**

- It is important to note that any highway infrastructure within CRD lands or parks would be used only as a temporary detour route and will not be a permanent road that is open to the public.
- There are plenty of challenges when it comes to navigating through Goldstream Park – where there is a watershed, mountains and a salmon spawning ground.
- We are literally working between a rock and a hard place and exploring all of our options.
- I am optimistic that our staff can find the right solution to keep people moving.

In asked: In light of the CRD Board's decision to oppose new highway infrastructure in Sooke Hills park and the water supply area will you stop work immediately?

- We are very aware of the importance of protecting the region's clean water supply.
- The ministry embarked on initial feasibility work with approval from the CRD Board and the board has directed CRD staff to continue participating with our working group.
- We continue to have a positive working relationship with the CRD staff as we work together to explore a potential alternate route.

Hi Eleanor,
WestCoast Appliance repairman came and gone; there was a debris blockage in the lower hose.
Running a cycle now to test operation.
Thanks for your support.
Nice relief...he spoke highly of Bosch, said he didn't get many calls for repair.
Cheers,
Don

Hi Moe,
Happy Monday.
No April fools pranks from me today!
FYI, s.22 has resurfaced after a two month break.
Left a voice mail message last Friday after the office closed.
Litany of issues, some new, some old, laced with profanity.
Let the others in the office know he could be calling, esp. the new ones who may not be familiar.
Best not to engage in any fashion; I'm going to make an enquiry to see if the Nanaimo MLA office is running, let them know, maybe you've heard.
Thx,
Don

Well, she was going to re-send yesterday later in the day after I spoke to her and follow it up with a call this morning...so the question to her would be...where is it, the resend?

Maybe Shandi could call and enquire about the greeting they wanted and Chris is here today to field the event invite request, but it will likely be a regrets as JH is on his provincial tour till that date—but don't quote me on that.

Hi Jake,

This caller had an email to the PO bounce back, so she decided to relay the contents verbally in this VMM.

I called her and gave her the correct email address and encouraged her to resend the message.

She mentions speaking to Greg Nelson on this matter; perhaps we should share the email with him when (and if) it arrives as a follow-up to his contact with her.

Hi Penny,
Trust this note finds you well, that you are enjoying the slow to reach spring weather.
Further to this note and your offer to “help you call forward the next time you need it,” can you pls send me the instructions as I’m going to print them out and have them available on my phone in the event that I don’t make it into work one day and the other staffers can easily effect the forward as required.
Thx,
Don

Hi Don, I hope all is well with you. I have some information for you regarding my site visit when I assisted you to add the Vancouver Cabinet Office as a delegate to answer your phone calls. I spoke to Bonnie and she said it would have been better if we call forwarded your line over versus adding VCO as a delegate as they also have delegates for the main line of 775-1600. I will help you call forward the next time you need it. I have spoken to Danny and we have changed the name of the main line from VCO boardrooms to Prem Vancouver Cabinet Office (see snipped copy of GAL).

Hi Penny,

Are you available for some assistance this morning?

I'm having trouble transferring calls from the PO line to another number.

It's not working internally (PO line to Elizabeth); I've tried several combos (logged into Skype via the PO line and my UC; Skype turned off, etc.)

Also, we are wondering if it's possible to transfer calls from the Victoria PO office phone to one of the lines in the Vancouver VCO.

I tried two times with the following numbers, neither worked.

604-775-1600 (preferred)

s.17

In both instances I used Forward, Forward to a Contact, and put in the numbers, Elizabeth's and the Vancouver numbers.

We are trying to set this up for tomorrow.

Thanks for your help,

Don

Subject: Pipeline

Hello my name is s.22

I am contacting the Premier John Horgan and the BC NDP party in regards to two concerns. The first is the gas pipeline being developed in Northern B.C.

s.22 for oil and gas exploration. s.22 sustainable industry. This oil pipe line only creates short term jobs and long term pollution for the local area.

The Native bands in the area have repeatedly and constantly protested the oil pipeline. Lawyers are very expensive. Every time you drag the first nations people into court the NDP acts like they're doing their family's a favor.

s.22 responsible government not oil companies. Not Indian politics. We all know there's been leadership problems within first nations Indian agents community since church priests raped them in residential schools.

On an economic level the oil pipeline makes no sense. The water of the Morice river is worth more money than dangerous Alberta bitumen oil. The west coast fisheries is worth more money than dangerous Alberta bitumen oil. Why are B.C. taxpayers repeatedly being forced to subsidize oil and gas companies? The jobs these companies create are gone in 4 years or so but the debts of a oil spill last forever.

The NDP wonder why no one wants to Vote for their brand of socialism. This is why. We need jobs, we don't want be poor. The only industry your people are into developing are industry's that fail. Fast ferries and oil companies.

Which brings me to my second concern. Why are there no Pot stores being opened in B.C.? Allot of us voters are tired of Drug Revenues (and Jobs) going to the Hells Angels and other organized crime groups. You guys have no respect for how dangerous these people are.

Colorado is a example of legalization working. They've been using profits from the pot trade to build schools roads etc. Your job in the government is to negotiate with municipalities if they have any concerns. Not help the Hell's Angels dump their Surplus drug supply by dragging voters through red tape.

People in the HIV Aids community have suffered enough . Let them by Pot from people other than the Hell's Angels.

I worked in the cannabis industry and i know for a fact that many players in the game are ripping off people with AIDS. By silk screening the triochromes off the pot they create a weaker product. They can sell this pot to people with AIDS, Cancer, Multiple Sclerosis without any government oversight. If the pots weak the people will just buy more. I'm sick of it.

To this day the government of BC Government cannot show me one "food grade" strain of cannabis. Smoking drugs is not "healthy".

None of the product on the British Columbia Website is labelled as being food grade. Cannabis like grain for instance cannot be washed after it's been processed. Did the person who harvested this product wash their hands?, or is there pesticides on this product? This Is actually allot more important safety wise to the public than "supposed CBD profile."

Looking through the BC Governments website i saw a couple products that were labelled "organic" but none of the actual raw cannabis is labelled "foodgrade".

There are capsules, and a handfull of processed oil products.However many people don't want to eat or consume processed products.

They want a simple dried herb that they can use to make there own pastas, cakes or cookies.

The BC Governments website has a very verbose and technical explanation of CBD,THC and Sativia vs Indica details. While very sexy it has nothing to do with safety which is actually more important.

Lab work is very expensive. Knowing the mold content is more important than the products supposed CBD profile. Information about the THC content is fine, but details such as "food grade trimmed" or "foodgrade whole leaf cannabis" would be more practical to your average baker.

Government officials know the ill side effects of smoking. Their consumer Marijuana distribution/sales/ and marketing should promote this message.

The NDP got a great source of income when pot was legalized. B.C. unlike many parts of the world B.C. has water. Why don't you help small time farmers and other local sustainable green initiatives? These are people that are willing to work with community's. Instead you shell out money to clown show oil companies that just stir-up fights with the Indians.

Act like a political party not a redneck party.

Sincerely

Hi Don,

With the Globe and mail I have to put in a request monthly for a receipt. If you go to my newspaper file. Bottom right wall hanging files inside the file on the left is a phone number or email address to request an invoice.
Thanks for helping with this.

Morning Vanessa,

I will check the star phone when Geoff's door opens. Previously, when the device acts up, you have to unplug and plug it back in and wait for 5 minutes, I've informed Geoff and Amber H about this 'fix'; but I'll have a look and call PremTech if needed.

Often system work on the weekend causes some digital phones to go off line. I can set a reminder to check Geoff's star phone each Monday morning ahead of time.

Found this

<http://www.newareacodes.ca/en-CA/new-code.htm>

At the bottom

Introducing a new area code within a region already served by another code creates only minor changes. Adding an area code using the overlay method does not cause any numbers to change for existing customers. And, local calling areas also remain the same.

- Only new telephone lines are affected by this addition
- **Existing numbers keep the same area code and are not changed in any way**
- Local calling areas remain the same
- The 9-1-1 emergency number remains a three-digit number throughout the area
- For your local calls, you will always enter 10 digits (area code + local number)

The protocol group doing the inventory and removal of the Premier gift items in the vault will require some packing boxes for the items where the original boxes are damaged and can't be reused.

Would you be able to supply them with moving size boxes for this purpose?

If you have the boxes but there is some remittance required we can arrange for payment, we'd just have to find out which group would pay.

They figure about a dozen boxes, required anytime before or at the first of next week.

Let me know how you can assist us with this.

Hi Shelley,
I've been asked to ask you about the procedure for today's salad lunch. Do you want us to bring our items up prior to noon, or just show up with the items at noon?
Also, did you decide on a place? Where would we show up with our items?
Anything else we need to know.
Thx,

Hi all,

I did speak with s.22 yesterday for quite a while going over the applications we have been working on with her. I've been waiting for the documents I need from her to submit her applications and reminded her of these things yesterday (and have in VMs in the past)s.22 I have asked her to get me in contact with the person who she says has been helping hers.22

s.22 I've been writing out clear lists for her and also asked her to come into the office again as working with her over the phone hasn't been very productive.

To my knowledge she has been calling s.22
s.22 So, unfortunately she seems to be sending a lot of calls but struggling to actually gather the information required. I would expect more calls despite our continued sustained effort to help her with s.22

You can bring a salad or salad fixings (lettuce, chick peas, shredded cheese, cold cuts, chicken, sliced cucumber, dressing – the list goes on and on – if you've had it in a salad, feel free to bring it!) and your own plate. And just so we don't get 20 people bringing lettuce, let me know what you are thinking of bringing and I will let you know if we have too much of it already.

Thanks for looking after us...just got a call from HP they' said a fuser kit was ordered and a tech will contact us in a day or two to arrange a visit. However, the fuser kit was replaced a month ago and it's reading full, it's the transfer kit that's reading low near empty—not sure what any of these means relative to the smudging problem.

I called the HP number and they weren't able to change the order, said the tech on arrival would order any other parts required. I told her I would welcome any onsite visit and that I would make sure the copier was fixed before any tech signed off on the service again.

Thx again.

Hi Zubin,

Thanks for your attention.

I don't track incoming cartridges, maybe I should. I can't recall if one came on March 15. It could have been delivered to another office in the building. The toner warning label for the black has been showing for about 2 weeks.

The street address is 501 Belleville Street, the rest of the address is correct. We've never had an issue previously having these items delivered to this office.

Good afternoon Don,

We have received your escalated ticket for MPS toner re: MPS4978 this afternoon at 2:21PM.

I wanted to confirm I have initiated a manual order for Black toner c/o address: *West Annex Rm 156 - Parliament Buildings Victoria BC V8W 9E1*. Today's order has a designated ETA of 1-2 business days.

I double-checked HP's auto-delivery system, and noted the auto-delivery is enabled and operational. An automated order was sent on March 15th but I am concerned that your physical address does not have a street name – is this how other deliveries (office supplies, etc) get addressed to you also?

I will keep your ticket open pending your confirmation of the address clarification. Please let us know ASAP if a change is required, and provide the complete physical site address if you would like it changed. We can then follow up with HP on your behalf.

Hi Zubin,

Thanks for your attention.

I don't track incoming cartridges, maybe I should. I can't recall if one came on March 15. It could have been delivered to another office in the building. The toner warning label for the black has been showing for about 2 weeks.

The street address is 501 Belleville Street, the rest of the address is correct. We've never had an issue previously having these items delivered to this office.

Subject: INC0018768 - MPS4978 - Black Toner required - PREM

Good afternoon Don,

We have received your escalated ticket for MPS toner re: MPS4978 this afternoon at 2:21PM.

I wanted to confirm I have initiated a manual order for Black toner c/o address: *West Annex Rm 156 - Parliament Buildings Victoria BC V8W 9E1*. Today's order has a designated ETA of 1-2 business days.

I double-checked HP's auto-delivery system, and noted the auto-delivery is enabled and operational. An automated order was sent on March 15th but I am concerned that your physical address does not have a street name – is this how other deliveries (office supplies, etc) get addressed to you also?

I will keep your ticket open pending your confirmation of the address clarification. Please let us know ASAP if a change is required, and provide the complete physical site address if you would like it changed. We can then follow up with HP on your behalf.

Thank you,

Subject: Inventory of Premier JH's Gifts

Hi Genevieve,

Further to the ongoing inventory or Premier gifts.

There are three boxes (and some large items—about 30 items total) of gifts to the current premier being held in the Correspondence office.

Further to previous discussion amongst PO staff, it has been requested that these items be moved to the vault as soon as we have space after the current inventory of past premier items (those from the vault and VCO).

Upon a suggestion from Elizabeth based on an earlier conversation with Amber Nash, I mentioned it to Jenny Pescod this morning, if they have extra time at the end of the planned inventory, could they include an inventory of these new items. She agreed it would be possible pending time and approval; or alternately it could perhaps be scheduled at a later date.

In consultation with your staff, could you please let us know whether and how you wish to handle this request to inventory the additional items, if agreed, either next week (time permitting) or at a later date.

Either way, we would make arrangements to move the items to the vault by the end of next week, sooner on request if the group is to able to inventory them next week.

Susan, Vanessa: FYI or comments/suggestions.

Susan offered that Gary (with my assistance) could handle the moving of the these items from her office to the vault.

Thx,
Don

You can bring a salad or salad fixings (lettuce, chick peas, shredded cheese, cold cuts, chicken, sliced cucumber, dressing – the list goes on and on – if you've had it in a salad, feel free to bring it!) and your own plate. And just so we don't get 20 people bringing lettuce, let me know what you are thinking of bringing and I will let you know if we have too much of it already.

Time/Date – noon, April 17

Hi Jake,

Ms Boyum called to ask why, with attitude, her emails didn't elicit a response; I told her about informational/commentary vs. expressed request for a response, etc.
I offered to make an enquiry.

I see, dating back to 2013, there are 129 items in CLIFF relating to "Boyum," 70-odd to Ocean Adventures; most are flagged info/comments, some have been actioned, and maybe responded to.

Equally important, many (most) are batch emails or chain emails, also explaining the lack of response.

I guess this is more of an FYI, unless you have something to add...

Hi Gurbrinder,

Elizabeth asked me to send you this 2019 cruise ship schedule.

Note that this Thursday, May 2, 3 ships arriving with over 9,000 passengers. This occurs frequently throughout the season.

Cheers,
Don

Hello Don,

This is what I called you about. The EA had not approved the new user request yet, so I cancelled it and resubmit it to include the access requirements. Otherwise we would have to wait until the IDIR has been created before requesting the access to be added on.

This has been submitted under iStore ticket #951924 which includes the LAN access request.

Please advise the EA to approve the request otherwise I will not be able to request an emergency order and let me know so I can call it in.

Here's where we're at with the Transfer In for Naveen

- IDIR Transfer in
 - o Submitted for Apr 30 date required: approved and in process
- Order him a cell phone
 - o Elizabeth is actioning this
- Order him a Surface and docking station
 - o Request forms submitted for ordering the Surface; docking station: he will only need a docking station if he runs more than one external monitor, to be determined
- Ensure desktop is complete with desk phone (needed?) and at least 1 screen
 - o He will automatically receive a UC phone number and a device of his choice—Naveen has to choose which device he wants: handset or 1 of 3 headsets
 - o PremTech is standing by to finish the desktop set-up; we may need to purchase a monitor, borrow one, or from surplus

Let me know if there are any questions/omissions.

Sheridan/Staff at Rob Fleming's MLA office,

s.22 called the Premier's office twice this morning (April 29) stating she was coming to the legislature to force a meeting with the Premier.

I think I was able to dissuade her from coming by promising to contact your office and inform you that she is confused and dissatisfied with her condition regarding relocating.

Could you please speak to her this morning asap and find out what the problem is, perhaps suggest to you that you are the principle contact in resolving her issue, not the Premier.

I'm confident you are able to assist her in achieving her objectives, it would not be appropriate for her to appear at the Legislature.

Can you apprise me of any advances in this matter? Thanks.

Just spoke to ^{s.22} staff; they are doing all they can to assist him.
I'll consider sharing with LAPS, although less likely he'd travel here from the Lower Mainland.

Good day West Annex Staffers,
The bi-weekly shredder truck is expected tomorrow.
Where applicable, if you have a collection of shredding in your office it should go in one of the receptacle bins (under stairs and in the hall across from Debbie's desk) for disposal.
I'll come around later today to check the offices and assist with dumping bins as required.
Thanks,

With the implementation of the telephone Voice Over Internet Protocol (VoIP) here at the Legislature, there are new updates regarding "Call Trace Procedures".

In order to ensure enough brochures are distributed to each office, please let me know how many phones are in your area of responsibility. Your area of responsibility would be the yellow highlighted portion on your evacuation maps.

I will send you enough to cover off all phones and this way you will be able to replace the current "Yellow Telephone Threat Guides" with the new "Green Telephone Threat Guides"

Good morning 77000 and Shannon,

GCPE is trying to transfer a user from GCPE to Office of the Premier. This has to take place on Friday afternoon (26th).
Issue as below: when they try and do the transfer out form they get:

"No PI-IDIR DIRECTORY AND AUTH. SERVICE service found for s.15 in your organization."

The client exists in GAL and AD as below.

Please advise ASAP on how to facilitate this transfer effectively and quickly.

Many thanks,

Hello again,

Unfortunately, iStore throws me “No PI-IDIR DIRECTORY AND AUTH. SERVICE service found for s.15 in your organization.”

Upon querying Install Base, only one entry for Remote Access Services appears for s.15 The IDIR is in active directory and part of GCPE.

I’ve never ran into an issue such as this and at this point, I’m not sure how to proceed. David, Bonnie, what’s the best course of action here? Is cancelling the account and ordering a new user on the PREM end an option?

Thank you,

In consultation with David Henry I’m requesting the transfer date for “Friday April 26, approx. 1-2 pm to be completed by end of day”
David suggests you request the same and include Emergency status request office of the premier

Here’s a copy from my comments box:

“Pls Schedule the transfer late in the day April 26 approx. 1-2 pm, but in time to be completed by end of day.
GCPE Transfer out request will coincide with these times.
Workstation number is a loaner unit from GCPE; new unit will be forthcoming

Sorry to be so late with this, if you’ve already submitted your request you can submit a modification I understand.

Thx,

Hi Don,

Thanks for checking in. I've just received approval from our HR team for the transfer and from Rick Devereux, on Jarrett maintaining his current mobile number. I'll flag the number as OK to transfer out of our Telus account.

I think setting the transfer OUT date in my iStore order to EOD this Friday, April 26th make sense. Let me know if this works for you and I'll submit the order this afternoon. Jarrett has said he does not require

Until a new mobile device and workstation can be issued from PREM, Jarrett can use our equipment – Hopefully this will minimize disruption.

Hello Chris,

Sorry but I do not have the time to follow-up with the call with Chief Leon of Sts'ailes. When we visited their community on March 22, Chief Leon invited PJH to come to Sasquatch Days - June 15-16, 2019 in Harrison Hot Springs.

He is following up and will be in Victoria later this week. He has additional material PJH asked about. I was supposed to receive it and I am a little confused with the attached voicemail from him that he wishes to drop off the material at the West Annex.

Can you arrange for him to drop off the material? I can pick it up when I am back in the Victoria the week of April 29.

Thank you.

Chief Ralph Leon,

Further to our phone conversation about sending the premier the invitation for Sasquatch Days, here is the premier's email address:

premier@gov.bc.ca

Correspondence and scheduling will handle the request.

Thank you,

Don

Hi Jake,
FYI
Waiting to hear back on this from Jen/Tim.
Thought you'd appreciate a listen.
BTW, Jen did a phone regrets relative to the email request you located for the Apr 14 event.
Thx,
Don

Hi Jen/Matt,
Bringing this to your attention because I have a note that I FYled you on this group previously (but could find the record of that).
Could you have a listen to this msg and one of you stop to chat about how to proceed with the issue.
My inclination would be to have him submit the request in writing, but I thought I'd get some feedback prior based on the history of communication with this group.
Thx,

Hi Don,

I believe this is the gentlemen that was calling last week and I called and gave regrets now that I am looking up his name.

I spoke with him on the phone and let him know the Premier needs AT LEAST two weeks notice and he understood.

I believe after the event he left that voicemail.. I won't email him and we can chat later
