Subject: Sat. Phone Exchange and Orientation—June 7

Hello,

On June 7, Emergency Management BC staff will be providing a 45 minute orientation on satellite phones.

IMPORTANT: During the session, your Minister's Globalstar satellite phone will be replaced with a new Iridium phone, so please bring your Minister's satellite phone to the session.

Session Outcomes

At the end of the session you should have a basic understanding of:

- How the satellite phones work.
- How to program the phones (hands-on).
- Who to contact for support—so that you are able to support your Minister.
- The importance of ensuring your Minister has their satellite phone at all times.

Future

- Following the session, it is hoped that you will support one another as you learn how to use the phones and orient your ministers.

- EMBC will follow-up with regular satellite phone orientation and testing (schedule to be determined)—or alternative support service option.

Session Materials

You will receive the following:

- Presentation, including the agenda (attached)
- Satellite phone operational instructions (in advance of the session).
- Senior Officials' Guide for ministers and deputy ministers (attached).
- Satellite phone dialing instructions and the contact list of ministers' satellite phone numbers (during the session)
- Senior Officials' ID card (to allow ministers access through road blocks, etc.) (during the session)

I think this will be a helpful and interesting session.

Please feel free to contact me if you have any questions.

As the time available for vacation tightens up, context may become more important – ie/ if a Minister is truly away and not able to be contacted or get back fairly quickly, maybe that is different from someone who is vacationing in the Okanagan with cell coverage? Or if a Minister is taking on more than one Ministry for a relatively short period and the Ministry is unlikely to have a crisis. Just some thoughts that went through my mind last week ...

Hello ,

In our weekly meeting MSF had a discussion about the Industrial Camps and plans going forward, I was asked to bring this forward to you and Amber to see if we can have a discussion about next steps. It is not clear to staff which Ministry is to take the lead, so Health has gone off and started reviewing, a consultant was hired and a report will come out about what work is being done across government, Michelle Carr has been following what the company is doing, It was mentioned to me that a new MA position should be created for this work, also heard that someone in the PO staff was looking into this work, and I was also told that the Premier office was going to hand this work all over to PS Dean to lead???? It is not clear to staff who is the lead, but they are continuing to work on it? A lot of the focus has been internal to what government is doing, yet construction of camps will begin and First Nations communities and all communities in the north have not heard from a central voice of what the governments plan will be???

This work started with EMPR under the LNG office that was headed by Dave N at the time, but since then it has not had clear direction on how to engage communities on what is being done, and if a Ministry was to take the lead what does that mean? How will that work, if you are the lead but not the ministry that holds the development of regulations, enforcement and compliancy ,

There are a number of questions to answer and this is cross ministries, EMPR, Health, Environment/ EA, FLNRORD, MIRR, can we clarify next steps

Subject: FW: Briefing with MSF re: Industrial Camps

Good Morning Amber,

We requested an update on what we are doing to prepare for the construction camps, I am feeling the shift has been away from community involvement in planning to an internal process focussed on the many layers of Government Ministries and while that work is important and needs to be done, communities are left feeling ignored.

This latest letter from LBN highlights how disconnected they feel and this is a Nation that has been invited and involved in the Indigenous Communities and Industrial Camps working group, imagine all the communities that have not been at this table. I had asked many months ago that a gathering of all the communities along the route be organized so that the BC government can share what has been done by government and the focus has remained on this internal review.

I personally, feel that we are leaving it to the company to do a better job, to make sure communities are not being impacted, but again this is planning done outside of community and we are not building the capacity in communities to prepare for and minimize impacts. And it is very clear from the letter attached Lake Babine is willing to be on the ground hosting these important sessions in community.

We asked staff to:

1. Start planning for outreach to the 20 communities along the route of the pipeline, including possible community engagement sessions
s.12; s.13
3. More than 2 nations and First Nations LNG Alliance be invited to the next working group session on April 17th here in Victoria
(a session that maybe you might be interested in attending also ?)

If you have any question please let me know

Draft note for cabinet retreat - please correct and send to MDE, MSF, MBR and their MAs; Vanessa can you please follow up?

Dear colleagues,

The agenda for the upcoming cabinet retreat on June 18 and 19 has time blocks of at least one hour for deeper discussion of each of three key issues: s.12; s.13

We would like each section to begin with a very brief "scene setting" presentation, perhaps five slides — s.12; s.13 s.12 — to pose the political problem we would like cabinet to grapple with. There will be facilitated discussion in small groups and a concluding report-back on each topic.

I would appreciate your assistance to generate the slides for the section you are responsible for and to quickly introduce the issue before cabinet. Vanessa Geary is leading preparations for the retreat and can assist as required.

Thanks for your consideration,

Geoff

Importance: High

Hi - Laxkwalaams & Metlakatla have put a full-page ad in the Black Press paper in Prince Rupert opposing the transfer of the Nasoga Gulf Lands. I have typed out the text below, and there's also a photo of it. The reporter is asking for an interview with Minister by tomorrow morning, ^{s.13}

s.13 . Our issues note is attached, but I don't think the messaging really answers the issue at all, so I will connect with program about it to figure out some messaging. Thanks, Sarah.

Text of Ad:

B.C. Government Proposes to Sell Nine Tribes Land to the Nisga'a Nation

Since time immemorial the Nine Tribes of the Coast Tsimshian have effectively managed our resources and lands, including the Nasoga Gulf Lands.

The Government of B.C. is now proposing to sell our Nasoga Gulf Lands to the Nisga'a Nation. We strongly oppose the transfer of our land and will defend it vigorously. It would cause irreparable harm to us and unjustifiably infringe on our Aboriginal Title while undermining provincial reconciliation efforts with the Nine Tribes of the Coast Tsimshian.

Instead, we propose a path forward that will see a mutually beneficial alternative to the proposed Nasoga Gulf Lands transfer. One where everyone, including the Nine Tribes, Nisga'a Nation, the region and the Province will benefit.

Our proposed solution does not involve transferring the Nasoga Gulf Lands to the Nisga'a Nation.

We have shared our proposed solution with the Provincial Government, but it has fallen on deaf ears. IN fact, neither the Minister of Indigenous Relations and Reconciliation, Scott Fraser nor the Minister of Forests, Lands, Natural Resource Operations and Rural Development, Doug Donaldson, will meet with us. Let's prevent this Government from repeating the mistakes of the past.

Let's work together and build a collaborative and mutually beneficial future for all in the region and for B.C.

Laxkwalaams & Metlakatla

Subject: RE: North Pender water/Gardom Pond

Hi Geoff
Sorry to bug you s.22
I will explain the situation now and you can do whatever when you are in a position to do so.

The situation concerns Gardom Pond in the Harbour Hills subdivision on North Pender Island. It has a small dam and the new Dam Standards required an assessment. The assessment said it needs to be repaired and the folks in FLNROps began pressuring the water licence holders s.13

s.13 " - another story!) to pay six figure sums to repair the dam. Four private property owners paid for the assessment but balked at the repair.

s.16

s.16

The problem of paying to fix the dam is the primary issue but here is the interesting part. As a requirement for subdivision, the MOTI required conservation covenants on the pond and its surrounding lands as it is a spectacular wetland ecosystem. When the Provincial government brought in the Riparian Area Regs they applied them to the Gardom Pond and area and the local government Islands Trust put Riparian DPA regulations in place and the Regional District established a park. It is a sensitive ecosystem with layers of covenants and protective regulations applying to it yet the CRD is sending in an excavator to start the drainage of the Pond/Lake.

s.16

s.16

But

hydrologists are now saying the drainage of Gardom Pond will lower the water table and affect the aquifer to the point where up to 100 local property owners could lose their wells.

The loss of our water resources and sensitive ecosystem is s.22

s.22 The government of bc must decide which set of provincial regulations and covenants apply.

But Adam Olsen is saying that he has talked to the Minister responsible (FLNROPs) and it up to the NDP Ministers. s.16 and you get the picture.

It will break loose but political ramifications are also at play.

s.16 until a smarter solution can be worked out.

- Lax Met took out full page ad in Prince Rupert paper yesterday - directly aimed at province and potential land sale to Nisga'a
- Op Ed in Province yesterday - I don't have details
- Lax Met has initiated direct action on Hwy 16 near Terrace - informing motorists of their views
- RCMP are involved and in touch with SLEM
- Nisga'a has reached out to Met Lax proposing June 11th meeting. Understand that nations are working to confirm date
- Nasoga sub going to ELUC on Tuesday afternoon
- GPCE is engaged and are working to develop strategic messages

please let Nedinska or I know if you need more info.

Thank you Amber. Are we able to request Minister Sims to participate in the Jun 20th Cabinet meeting via conference call? This will allow Minister Sims to travel to Witset the night of June 19th and be available for the community celebration and announcement after Cabinet on the 20th.

This is an important event for the Witset First Nations and a true honour for Minister Sims to be invited to take part in celebrations with the community and to acknowledge the important investment made by the province to provide cellular service to the people in the community.

Thank you for considering this request.

Hi - please see note from Geoff regarding the Cabinet Retreat on Tues June 18th and Wed June 19th at the Vancouver Cabinet Office.

Dear colleagues,

The agenda for the upcoming cabinet retreat on June 18 and 19 has time blocks for deeper discussion of each of three key issues: s.12; s.13

s.12; s.13

Each section will begin with a very brief “scene setting” presentation, ideally five slides and 10-15 min (can be a bit longer for the s.12; s.13 session, see below) — to pose the political problem we would like cabinet to grapple with. There will be facilitated discussion (Suzanne Hawkes is once again facilitating the retreat) in small groups and a concluding report-back on each topic.

I would appreciate your assistance to generate the slides for the section you are responsible for and to quickly introduce the issue before cabinet. Vanessa Geary is leading preparations for the retreat and can assist as required.

Thanks for your consideration,
Geoff

Specifics for s.12; s.13 **Dialogue:**

Date: Tues, June 18th

Time: 2:00 – 4:00pm

s.12; s.13

Part 1: Presentation: ideally 15 slides and max 30 minutes (*MBR and Don Wright*)

Part 2: Small Groups (5 or 6 participants per group) 45 minutes (*Suzanne Hawkes to introduce*)

s.12; s.13

Part 3: Large group debrief 45 minutes
(*Suzanne Hawkes to lead*)

- Debrief
- Identify / clarify next steps

Note: our thinking was that the presentation would set out the macro level state and vision and the small groups would get into more of the political reality on the ground and how to integrate the former into the latter. However, this is not set in stone, and your suggestions on how to frame are welcome.

Please send slides by 3pm on Monday, June 17 to Vanessa and feel free to be in contact if you have any questions - my landline is 604-775-1662 and cell is 604-619-0513.

Hi Sage,

There seems to be a panic in the SA community in regards to construction slow down. Mr Thind did a talk show today on Red FM on stress test and though stress test comes under federal jurisdiction the conversation veered towards local conditions and a number of people called in to say that because of turmoil in the market, developers have held their properties with a result that tradespeople aren't getting work. This is causing a lot of panic in the community. Mr Thind mentioned that prices of only the multi million dollar properties have reduced and not other homes and it is still impossible for people to get into the housing market. He said that there needs to be some incentives for first time home buyers and only then can this issue be resolved.

Good afternoon:

Following the multi-Ministers' meeting on May 27th, the attached letter was drafted for their signatures.

Please see comments below from Kevin Volk's department.

As discussed, once this gets to our MO, IGRS has requested they seek feedback from the PO to ensure this letter doesn't create any conflicts with larger federal negotiations.

Upon approval from PO, our DM can send an email to his colleagues, sharing a copy of the letter, and letting them know that our MO staff will be circulating it for signature to the other MOs.

Deadline is June 14 to send the letter so it has arrived with the federal ministers in time for MLB to meet with Minister Joly on June 17.

Hope this all makes sense. Let me know if you have any questions.

Thank you

Lea

I wanted to check with you first if there are any dates or times in the options I'm proposing to them below that you know you can't make. If so, would you be able to suggest some alternatives?

Option 1 (same day and time, twice a month):

~~With PO: Thursday, June 6, July 4, August 1, September 5 @ 11:15AM-11:45AM~~

New: Thursday, June 13, July 11, August 8, September 12 @ 11:15AM-11:45AM

Option 2:

With PO: Wednesday, June 12, July 3, August 7, September 4 @ 10:30AM-11:00AM (during Cabinet)

Option 3 (just another randomized standing time):

With PO: Tuesday, June 11, July 9, August 13, September 10 @ 2:00PM-2:30PM

I'll send an email out tomorrow if I don't hear from you before then – we'll see what kind of availability comes back from the EAs, I'll get in

touch with you again, and we can go from there to find something that works.

Announcement will be July 4th, around 10am.

I'll connect folks as soon as I get the list of who will be planning from PO and CoV.

I've requested leave for MSKC from SI that morning.

I will send to Michelle Massey if you are ok with it.

On the issue of Minister's presentations, I had indicated that they needed to have them to me on Monday by noon. But I think we should ask for drafts by Friday so Geoff can review – what do you think?

Subject: two more files

Amber, Geoff –

I'm wrapping up my files and have mostly handed off community relationships to Naveen. There are a few outstanding sectors that I have been in close contact with that I want to be sure are reassigned. They include the work I've been doing on the Gender Equity file and particularly with the women's organizations, the close contact I've maintained with the environmental community and the government relations professionals.

My recommendation is that Charlotte play a role in the gender equity file – she's been driving the 16 days of Activism and has a solid understanding of the field. I will leave the environmental relationships to be determined by yourselves. I know many of us have personal relationships (certainly Vanessa), but I have found it very helpful to have a single point person for regular communication. On the GR files, they seem to be working across government but again, having a single point of contact in our office has been very helpful at times.

If I hear back from you before Friday, I will definitely make some introductions, hand-offs.

Thank you,
Mira

This work began last night Amber, after the approach was raised at ELUC and after a subsequent Site C negotiations meeting that the same staff are involved in. The ministries are assessing what is possible under the Environment and Land Use Act vs Forest Act, and as always are working as fast as practical. As I mentioned by phone, this was initiated late yesterday afternoon and as you know we have all had a pretty busy day since. The same materials will be needed for an ELUC decision as well as for the Premier, Geoff and Don, and are already underway. Thanks.

Any insight you can offer would be appreciated...

We were corresponding almost daily with Minister Donaldson's office regarding a meeting on caribou/SARA.

The Minister's office confirmed interest to meet (and that we'd get a date), but last week communication went cold.

Anything you can share here – or support to arrange the meeting?

Thanks, Val

We were trying to figure it out but the timing at 1pm is tricky as lunch that day goes from noon – 1pm and they don't want to be outside (it may rain), so the only space that really works is the media room (the big boardroom that abuts the back) but that seems too close for comfort to where the Retreat is taking place. I guess we could rework the agenda and break from 1230 to 130pm, thereby being able to accommodate in the media room as the meeting wont be happening at the same time??

Hello again Amber, it turns out we need to have MKC's media avail off-site due to the fact that all of VCO is being used for the Cabinet retreat. Rick Devereux is booking a room for this at the Pan Pacific, and as a result MKC is going to need a longer leave from Cabinet, 12:30 to 1:00. I am hoping that this extension can be approved. Good afternoon Amber,

I hope you are well.

I am writing to request leave from cabinet tomorrow morning for Minister Heyman. I apologize for the delayed request; this was an oversight on the part of our office.

We anticipate doing a briefing on the TMX decision with MGH, followed by a media scum. I would like to request leave for him from 10:00 – 11:30 AM, but this window might need to be adjusted tomorrow morning as the federal announcement rolls out.

Please let me know if this can be accommodated.

We have some internal staff changes happening this week.

Edena Brown has moved into an MA role in the Office of Minister Conroy. Edena will continue to support Minister Conroy in her role as the Minister Responsible for the Columbia River Treaty and the Columbia Basin Trust.

On Monday James Infante is moving to a new role as MA for the Minister of State for Childcare, a role he knows well from his past few months in the SDPR Office.

Jasleen Arora is s.22

Congratulations to Edena and James and thank you and best wishes to Jasleen on her next steps.

Hi Amber,

I wanted to flag for you that BC Hydro is planning to award the contract tomorrow for the construction of the [Peace Region Electricity Supply \(PRES\)](#) transmission line. BC Hydro followed its normal procurement processes and the successful proponent was Voltage Power, a non-union firm from Manitoba. Attached is an IN from BC Hydro with full details.

I have confirmed that there will be no public announcement. But BC Hydro is planning to inform each proponent on Thursday whether or not they were successful in getting in the contract.

I am also giving a heads-up to my colleagues in LBR, MOTI, FIN, and AVED. Please let me know if you need more info.

Thank you,

Geoff: I believe you inquired about 360 feedback. There is a corporate supply arrangement (CSA) for Executive Coaching and many of the coaches provide 360 feedback services. You may want to consider a narrative 360 rather than using a 360 tool, as it involves the coach meeting with respondents, and then having the ability to provide more meaningful feedback.

Hi Claire,

Good to connect with you today.

Attached you'll find the draft news release and backgrounder that will be part of tomorrow's 9 a.m. announcement in Vancouver, along with the final version of Blair Lekstrom's report. These materials are embargoed until the premier begins speaking at 9 tomorrow.

As you'll see from the release, the materials include the announcement that our government has signed the bilateral agreement, and will implement a moratorium on new industrial activity in parts of the region for two years, unless repealed. The intent is to repeal the moratorium only in the case of a more permanent solution.

Hope this helps.

Do either of you have Amber Hocking's email?

The Presidents are getting choked. They want a meeting with Horgan. I've been communicating well with the Deputy Minister John Allan who is the point person for the government on this file and things are happening in the background.

But because the Liberals are concentrated heavy in the locations where the layoffs are, they are trying to make political hay with the NDP Gov't not really showing up – at least in the media or to the communities.

They need to put a public face to this. The Libs are controlling the narrative and our members are not happy with the Gov't, although it should be on them, it should be on the Libs. But we need them to at least make that point publically and make some announcements that they care.

Right now, the feeling on the ground by our affective members is that they don't.

THE B.C. Liberals said on Wednesday that Premier John Horgan and the NDP continue to ignore the BC Liberals' calls for action as the forestry sector slides deeper into crisis. Despite an ever-growing list of shift curtailments and complete shutdowns of mill operations across the province, Finance Minister Carole James announced on Tuesday the NDP has ruled out any new funding to assist the province's forest sector – instead, offering only her sympathies to workers.

"The workers, families and communities suffering as a result of John Horgan's complete failure of leadership need tangible relief, not sympathy," said Forests, Lands and Natural Resource Operations Critic and Nechako Lakes MLA John Rustad. "John Horgan has sent out his finance minister to deliver the bad news and meanwhile, he won't even answer his phone. This is an insult to workers in my community who deserve better."

So far in 2019, there have been at least 88 weeks of operational downtime announced at various mill operations throughout B.C. In addition there are now five permanent closures, significant shift reductions and hundreds of millions of board feet curtailed.

Sympathies from Horgan and the NDP don't cut it. Hard-working B.C. families struggling to deal with this crisis deserve action, not words, added the B.C. Liberals.

They are also sending this statement around:

THE B.C. Liberals said on Wednesday that Premier John Horgan and the NDP continue to ignore the BC Liberals' calls for action as the forestry sector slides deeper into crisis. Despite an ever-growing list of shift curtailments and complete shutdowns of mill operations across the province, Finance Minister Carole James announced on Tuesday the NDP has ruled out any new funding to assist the province's forest sector – instead, offering only her sympathies to workers.

"The workers, families and communities suffering as a result of John Horgan's complete failure of leadership need tangible relief, not sympathy," said Forests, Lands and Natural Resource Operations Critic and Nechako Lakes MLA John Rustad. "John Horgan has sent out his finance minister to deliver the bad news and meanwhile, he won't even answer his phone. This is an insult to workers in my community who deserve better."

So far in 2019, there have been at least 88 weeks of operational downtime announced at various mill operations throughout B.C. In addition there are now five permanent closures, significant shift reductions and hundreds of millions of board feet curtailed.

Sympathies from Horgan and the NDP don't cut it. Hard-working B.C. families struggling to deal with this crisis deserve action, not words, added the B.C. Liberals.

Hello again – please see attached a list of govt wide initiatives identified by Ministers yesterday as being linked to Reconciliation. The list is impressive but rough and probably incorrect or nonsensical in some places (those of us taking notes were scrambling to keep up!). Would you please review the initiatives listed under your ministry (not all Ministers were able to provide items, so a few of you are starting from scratch) and clean up/expand what is there, take out what shouldn't be and add what is missing. It is not crucial to get every single initiative, but we are attempting to get a substantive list that showcases the actions taken across govt. The goal is to have this list complete by Tues, so **please send me what you have by mid afternoon Monday** and I will complete (and resend to all of you).

Thanks very much and here's to a wonderful National Indigenous Peoples Day!

They are also sending this statement around:

THE B.C. Liberals said on Wednesday that Premier John Horgan and the NDP continue to ignore the BC Liberals' calls for action as the forestry sector slides deeper into crisis. Despite an ever-growing list of shift curtailments and complete shutdowns of mill operations across the province, Finance Minister Carole James announced on Tuesday the NDP has ruled out any new funding to assist the province's forest sector – instead, offering only her sympathies to workers.

"The workers, families and communities suffering as a result of John Horgan's complete failure of leadership need tangible relief, not sympathy," said Forests, Lands and Natural Resource Operations Critic and Nechako Lakes MLA John Rustad. "John Horgan has sent out his finance minister to deliver the bad news and meanwhile, he won't even answer his phone. This is an insult to workers in my community who deserve better."

So far in 2019, there have been at least 88 weeks of operational downtime announced at various mill operations throughout B.C. In addition there are now five permanent closures, significant shift reductions and hundreds of millions of board feet curtailed.

Sympathies from Horgan and the NDP don't cut it. Hard-working B.C. families struggling to deal with this crisis deserve action, not words, added the B.C. Liberals.

Subject: 12:30 call

- Jeff Bromley, Chair of the Wood Council will have two concerns:
 - 1) Stumpage increase for July 1st, which as you know is going ahead, and
 - 2) Mill Closure Policy and working with his local area Presidents to ensure steelworkers are treated fairly
- John Allan has had several conversations with Jeff, including Marty Gibbons, President of the local covering the Vavenby closure.
- John and Jeff will have regular, weekly calls on an on-going basis and Marty is reportedly reasonably happy with the latest Canfor offer to the union regarding the closure of Vavenby.
- Larry Pedersen is also being retained as a "fairness" commissioner (although this is not his formal title) to interact with Mayors and steelworkers and to give advice to the ministry on managing their issues.
- Larry is the former Chief Forester and Deputy Minister of Agriculture and is very well-respected by all concerned.

MESSAGES:

- USW have been engaged, and will continue to be engaged regarding mill closures, tenure transfers under Bill 22
- Labour interests locally will be invited to engage on the interior forest policy initiative, once engagement formally starts
- TSA level coalitions are forming and starting to self-identify to government; labour interests are expected to be part of these coalitions

Hi again Mayor Simpson,

My earlier message is copied below. I had suggested that it would be useful to arrange to have John Allan and / or Larry Pedersen invited to this meeting and have them provide information on how government will be addressing mill closures with companies, employees, contractors, truckers, communities and First Nations.

Late last month we engaged former Chief Forester Larry Pedersen to provide advice on employee, contractor and community impacts of rationalization of interior forest industry capacity. Larry works directly with John Allan and our office, and will be engaged with companies to ensure that fair and reasonable steps are taken to support displaced workers, accommodate contractors and truckers and address First Nations and community issues. Larry will also be part of a government-wide process of working with communities (facilitated through FLNRO) on alternative economic opportunities for communities that are losing their economic base as a result of forest industry rationalization.

At the initial stages of responding to closures and curtailments, John Allan and Larry Pedersen have the closest level of involvement and will be best positioned to speak to next steps. I don't know who is coordinating the Mayors / COFI meeting, but if it is possible to arrange an invitation for John and Larry that would be great.

I'm sorry I wasn't able to call back in response to your message earlier – I was in back to back meetings for much of the afternoon. If you would like to discuss though, I'd be pleased to call you at a convenient time over the weekend.

My earlier note had said: If possible, it would be great to have John Allan and Larry Pedersen invited to attend the meeting in Prince George. They will be the best equipped to speak directly to government's process around forest industry closures and the next steps in the interior policy process.

Christine

Hey Christine, for some reason my iPad used my old personal email when I sent my last note. I saw a response pop up from you, but I can't access it again.

What I saw was an offer for John Allan and possibly someone else attending the Mayors meeting next week? Could you resend it please.

It would be great to have someone attend who can engage the Mayors productively in a forward looking conversation, rather than them simply circling the drain with COFIs help ... ;-)

Hi Amber,

Just on the sectoral bargaining issue, I thought you might be interested in the New Zealand government's 2018 decision to form a [Fair Pay Agreement Working Group](#) to provide recommendations on the design of a sector-level bargaining system, in order to establish minimum terms and conditions for all workers in an industry or occupation.

Here's the working group's December 2018 report on fair pay agreements:

**Re: Provincial government approval of additional “exploratory” work
by
Taseko Mines Ltd. in relation to the “New” Prosperity mine proposal**

Dear Sir:

On their final day in office, the former Liberal government approved a Notice of Work for Taseko Mines Ltd. in the Teztan Biny (Fish Lake) and Yanah Biny areas. In a situation unprecedented in Canadian history, the proposed mine development plan for this area has been subjected to two separate federal environmental assessments. The Prosperity Mine proposal was rejected by the Federal Government in 2010 and the “New” Prosperity Mine proposal was rejected in 2014 after Taseko had been given the opportunity of a second attempt to convince an independent expert panel of the viability of their mine development plan. It is worth noting that the 2009 terms of reference for the Panel Review of the Prosperity project required the panel to consider “*technically and economically feasible alternative means of carrying out the project and any technically and economically feasible measures that would mitigate any significant adverse effects*”. The “New” Prosperity mine development plan was one of the options reviewed by the first panel and was considered at that time to involve greater long-term environmental risk than the preferred option. It appears that the work proposed by Taseko, and approved by the previous government, is not “exploratory” in nature rather it is related to design and

implementation of a mine development plan that has been rejected. In fact the Canadian Environmental Assessment Agency considered the proposed activities described in the Notice of Work to be in connection with the carrying out of the New Prosperity Gold-Copper Mine project and that the corresponding environmental impact would result in contravention of relevant federal legislation.

This proposed work involves extensive additional disturbance in a place of profound cultural and spiritual significance for the Tsilhqot'in people and once again they are forced to defend their territory. In December 2011 the Honourable Justice Grauer of the BC Supreme Court noted that *each new incursion serves only to narrow further the habitat left to them in which to exercise their traditional rights. Consequently each new incursion becomes more significant than the last. Each newly cleared trail remains a scar, for although reclamation is required, restoration is impossible. The damage is irreparable.*

The Council of Canadians participated in the hearings conducted by both panels and have supported the Tsilhqot'in in their struggle for at least the last ten years. The "New" Prosperity review panel determined that *"the Project would have adverse effects on the Tsilhqot'in current use of lands and resources for traditional purposes, archaeological and historic sites, and cultural heritage and that these adverse effects could not be mitigated and therefore would be significant."* The federal review panel also accepted testimony from Dr. Nancy Turner, who identified Teztan Biny and the surrounding area as a Cultural Keystone Place for the Tsilhqot'in people, a place that has extremely high cultural significance. The Fish Lake area is important to the Tsilhqot'in people and they have clearly voiced their opposition yet Taseko Mines and the provincial government continue to ignore this reality. How is creating more disturbance by doing additional exploration going to resolve or mitigate the First Nation issues identified by both panels?

In February 2016, the BC Government signed an historic accord with the Tsilhqot'in Nation, the Nenqay Deni Accord (or the "People's Accord"), an agreement that "establishes a shared vision, principles and structures to negotiate a comprehensive and lasting reconciliation between the Nation and the Province." Approval of this Notice of Work was obviously not consistent with the intent of this Accord.

We support your governments commitments to fully adopting and implementing the United Nations Declaration on the Rights of Indigenous People, the Calls to action of the Truth and Reconciliation Commission and the Tsilhqot'in Supreme Court decision on aboriginal title. Apparently legal authority exists to reverse the previous governments approval of Taseko's proposed work in this sensitive area. We urge you to act in a manner consistent with your governments commitment to true and lasting reconciliation with First Nations in BC by intervening on behalf of the Tsilhqot'in in their ongoing struggle with Taseko Mines Ltd.

Yours truly,

Keith Monroe

Hi both –

The UBCM is fast approaching, Sept 23 to 27. The theme set by the UBCM is Community Resilience. Eric and Christine K have approached me to talk about a PJH forestry forum with impacted communities and are hopeful this is content that will make it in to the speech.

I'd like to have a chat with you and with PJH about the speech and how we want to go at it sooner than later. I'll ask Debbie when it might be possible to grab 30 minutes.

I'm on the UBCM comms working group started by MAH and we've begun the scan of possible announceables already in the system.
