**Subject:** Re: Skeleton Draft

Hi Amy,

I am attaching the draft, as promised, with 20 minutes to spare.

Note that I am including a PDF version, a PPT version, and a font file. The font file is for the two slides that feature bullet points. The slides won't look right unless the font file is loaded onto the computer.

I would have like to create a cover page that covered all the topics mentioned in the e-mail from yesterday but it was too short of notice. I had to switch up the style a bit, going to an isometric 3D, to manage such an array of subject matter.

s.22

Cheers, Peter.

Hi Brian,

Good to hear from you, s.22 I don't have any particular expectations. I did think AGRI might have something on agri-tech or ENV on s.12, but if they don't that's also good to know. The gov't wide nature of the request was mostly to ensure we didn't accidentally miss something. Let me know if you want to chat further.

**Subject: Ministry Technology and Innovation Funding**

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

Hi Amy,

I have another question, below, about the technology and innovation funding reporting please. Are you able to help?

Thanks!

*Megan*

---

**Subject:** question: Ministry Technology and Innovation Funding reporting - response due for Friday  
**Importance:** High

Hi Megan,

I can't think of any type of funding that we provide to organizations or businesses to support the technology industry. We would have stob 63 expenditures for operational purposes, but I'm thinking the service arrangements would be, for the most part, in-house through ISD or OCIO.H

**Subject:** Ministry Technology and Innovation Funding

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

**Amy Miller**

Executive Director

Policy and Coordination Office

**Sent:** Wednesday, June 12, 2019 2:00 PM  
**To:** Stewart, Melanie FIN:EX <[Melanie.J.Stewart@gov.bc.ca](mailto:Melanie.J.Stewart@gov.bc.ca)>  
**Subject:** RE: Work Camps

Hi Melanie,

I am happy to share what I know but unfortunately that isn't much at this point. DMs haven't met; but, I expect they will before month's end. Our office was supposed to meet with a couple of the EDs from the ministries in advance but I recently heard that's no longer going to happen. For what it's worth, the group that requested the original meeting is: Ryan Forman, Chris Trumpy, Greg Perrins, Rachel Shaw, Gio Puggioni, and Alanya Smith.

I can also make sure that our office includes you in any emails at the ADM/ED level and try to get you added to any DM emails.

Amy

**Subject:** Work Camps

Hi All,

As you are aware, the Firelight report and recent media articles have recounted unsettling accounts of historic and recent criminal acts, missing women, sexually abusive behaviours and other issues that were or were alleged to be linked to labour camps. When it is released tomorrow, the National Inquiry into Murdered and Missing Indigenous Women and Girls is expected to include similar content. Camp-based workers have also been subject to unsafe working conditions, inadequate sanitation, unfair pay and other problems associated with their employment.

Abuses of this type need to be surfaced and addressed, and government must take coordinated action to protect against future harm wherever possible. We must also recognize that criminality is not limited to labour camps and is not reflective of the overwhelming majority of hardworking people that make their living in camp-based employment ranging from large industrial camps, agricultural camps, firefighting camps, tree planting camps or highway construction crews.

I am aware that there are already a number of initiatives going on in different parts of government on these issues. I am concerned that if we do not coordinate this work in a coherent fashion we will not be as effective as we could be, and may indeed trip over ourselves. Accordingly, I have asked Christine to set up a Deputy Minister's working group to coordinate and align work across government and would ask that you make yourselves available to participate in this work. I would like to have a clear and consistent work plan and approach to communicate to Cabinet in the fall. You have been identified because your Ministry has an operational function such as sector-specific involvement in industrial or agricultural camps, responsibility for health or safety standards, or role in coordinating our efforts with external stakeholders including

the business community, post-secondary institutions, safety organizations, municipalities, labour or Indigenous communities.

Thanks.

Don

**Subject:** RE: Work Camps

The 3 of us might benefit from chatting first, as ministries might be a little mystified if they get another phone call from the PO asking what they are up to.

I made similar calls 5-6 weeks ago and spoke with Labour, PSSG, IRR (multiple calls), TRAN, AGRI, HLTH (multiple calls), and EMPR, so we will need to ensure that we are not asking the same things this time.

For back pocket, this was the 2-pager I came up with a while back. After doing this, I had more in-depth discussions with HLTH about a planned consultation they wanted to do in June (on pause until DMs meet).

**Subject:** RE: Work Camps

I heard from CK on this. I am going to work with Amanda to get the DM meeting scheduled but she wants us to coordinate with ministry staff to have an understanding of the current work and linkages in advance. I propose we reach out based on our assignments. For ease of reference, here are the ministries DW emailed.

- Labour
- JTT
- PSSG
- IRR
- FLNRO
- TRAN
- AGRI
- AEST
- HLTH
- EMPR

Selena, do you want me to reach out to AEST or do you want to?

Dear Public Sector Climate Leadership Steering Committee members,

Attached please find the agenda and attachments for the Steering Committee meeting on Friday, June 14<sup>th</sup>.

The primary purpose of this meeting is to review and approve proposed Policies for High Performance New Public Sector Buildings (attached).

In addition, the revised Terms of Reference for the Steering Committee (per draft presented at the April 29, 2019 meeting and subsequent feedback) should be approved. A clean version, dated June 14, 2019, is attached for your review. The Steering Committee Chair, Archie Riddell, asks that adoption of the revised Terms of Reference be a consent agenda item (i.e., not discussed at the meeting). If you have any questions or concerns about the revised Terms of Reference, please share them with Archie or me in advance of the meeting.

These materials are also saved on the [SharePoint site](#).

Thanks,  
Deborah

**Subject:** RE: GHG Wood/Steel Concrete

Hi Neil, Amy,

Happy to help in any way we can. We prepared a policy proposal for the Buildings working group to put BC in a leadership position to recognize the benefits from low-carbon material use in the built environment (attached). My Sr. Economist worked with our colleagues at FII and FPI to help put it together.

Also, we developed a tool to account for CO2e in the built environment a couple years ago. For context, I brought Werner Kurz from PFC in, along with some of our FLNR expertise and researchers at FPIInnovations as a project team to ensure some credibility. The objective was to develop a tool that could account for sequestered and/ or avoided emissions from material use. It works on a square foot

basis, so could be adaptable to a number of different building types or building systems. Without any policy change, we estimated that 0.27MT of CO2e are sequestered annually just from wood building materials. This of course could be improved upon rather significantly if we promote non-structural building materials such as biomass based foam insulation, biomass based nonwoven materials for flooring underlay and some more cutting edge projects we are developing in the structural category such as bio-concrete. A backgrounder on the tool is also attached.

Please let me know if you have questions, would like to discuss further or have any feedback to further refine things to ensure they support BC's leadership position.

Hope this helps and kind regards,

*James Sandland*

**To:** Dobson, Neil ENV:EX <[Neil.Dobson@gov.bc.ca](mailto:Neil.Dobson@gov.bc.ca)>  
**Subject:** RE: GHG Wood/Steel Concrete

As part of COFI, the Premier announced that the new Royal BC Museum would be built (to the extent possible) out of mass timber. So TAC is trying to get a handle on what that means from a number of different angles including CleanBC. Folks in my office have also mentioned a desire to see business cases capture the GHG intensity of the material we use in public sector infrastructure projects. If there's someone in OCHS/FLNRO that could help them, that's probably even better as this is not their area of expertise.

Brian,

James and his team are happy to support the work you're doing and give the team a briefing of their work and how it might be applied to your project. I am happy to arrange a meeting or leave it you and staff to set up. If you do arrange on your own, would you please include me in the meeting? I have both an RBCM and broader infrastructure interest on this. Thanks.

**Subject:** RE: GHG Wood/Steel Concrete

Hi Neil, Amy,

Happy to help in any way we can. We prepared a policy proposal for the Buildings working group to put BC in a leadership position to recognize the benefits from low-carbon material use in the built environment (attached). My Sr. Economist worked with our colleagues at FII and FPI to help put it together.

Also, we developed a tool to account for CO2e in the built environment a couple years ago. For context, I brought Werner Kurz from PFC in, along with some of our FLNR expertise and researchers at FPIInnovations as a project team to ensure some credibility. The objective was to develop a tool that could account for sequestered and/ or avoided emissions from material use. It works on a square foot basis, so could be adaptable to a number of different building types or building systems. Without any policy change, we estimated that 0.27MT of CO2e are sequestered annually just from wood building materials. This of course could be improved upon rather significantly if we promote non-structural building materials such as biomass based foam insulation, biomass based nonwoven materials for flooring underlay and some more cutting edge projects we are developing in the structural category such as bio-concrete. A backgrounder on the tool is also attached.

Please let me know if you have questions, would like to discuss further or have any feedback to further refine things to ensure they support BC's leadership position.

Hope this helps and kind regards,

*James Sandland*

**Subject:** Internal TLT Meeting Agenda

Hi all. Here is an overview for tomorrow's meeting. We booked two hours but will try to wrap it up in 90 minutes so everyone can get on to other projects. It would be great to have as many people in person as possible. However, I put in the call information just in case.

### Objective

To share views on process to date and Phase 1 findings in order to inform Government approach to Phase 2 and beyond

### Agenda

- Introduction (5 minutes)
- LCIS Process (15 minutes)
  - Modelling Approach
  - Project management
    - To date
    - Going forward
- Phase 1 Results (30 minutes)
  - Cost
  - GHG
  - Government view of "competitiveness" (cost vs. other?)
  - Sector-specific findings/conclusions
  - Cross-sector findings/conclusions
- Phase 2 Approach (30 Minutes)
  - Topic Areas
  - Buddy System Approach

- Sector Views on
- Participation (How and How Much)
- General Discussion – if required (30 minutes)
- Next Steps (15 minutes)
  - July 4 SLT Preparation
  - June 28 DM Prep Meeting
  - SLT Presentation Review Process
  - Phase 2 Projects

In the short term, the main goal is for us to share our general and sector-specific views so that we can ensure the Phase 2 “list” is balanced. I think the overall topic areas are likely correct but what we look at under each one needs to reflect the interests of both sides. We have this meeting and a proposed meeting on June 18<sup>th</sup> to put some thinking around how we would like our respective DMs to position the LCIS work at SLT. This will set the tone for Phase 2 work over the summer and in to the fall.

s.12; s.13

Talk to you tomorrow.

Hi Megan

Thanks for the question. You're correct, you don't need to include it if it's not feeding into a broader tech initiative (eg. CITZ Sprint with Us program). Hopefully that does the trick, if not let me know and we can go through in more detail.

**Subject:** Ministry Technology and Innovation Funding

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind

support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

**Subject:** TLT Prep for Tomorrow

Hi all. I wanted to give you a quick heads up prior to tomorrow's meeting.

### Meeting Objectives

The overall objective is to confirm where we're at with the various sectors and identify what needs to be done to wrap up Phase 1 with enough time to brief internally prior to SLT on July 4<sup>th</sup> (that was just confirmed last week).

The four areas to "check off" remain the same:

- Understanding and reasonableness of data sets;

- Understanding and reasonableness of model mechanics (including model limitations);
- Understanding of reasonableness of assumptions; and,
- Understanding and reasonableness of results.

s.12; s.13

### Working Timeline

Timelines have been an issue all along as we all know. That said, I think it is fair to say that we're close to the "drop dead" date. We can't go back to SLT without those materials locked down. To that end, here is the working timeline.

June 6:	TLT Meeting #6
June 10-14:	Complete Outstanding Bilateral Meetings and Provide Content to MNP
June 11:	Govt TLT Member Check In
June 18:	Govt TLT Member Check In
June 20:	Phase 1 Results Complete
June 21:	SLT Deck – Draft 1
June 25:	SLT Deck – Draft 2
June 28:	DM Committee Technical Briefing
July 2:	SLT Deck – Final
July 4:	SLT Meeting

### Substantively Complete

- Met Coal (New, Existing, GHG)
- Copper (New, Existing, GHG)
- Aluminum (Existing, GHG)

### Near Completion (1 more meeting)

- Lumber (Existing, GHG)
- Pulp (Existing, GHG)

### Additional Work Required (2 or more meetings)

- Upstream NG (New, Existing, GHG)
- LNG (New, GHG)

We will provide a table with more detailed summaries of where things stand but this should give you a flavour of where things sit heading in to tomorrow.

### Phase 2 Participation

The TLT is scheduled to wrap up at the end of Phase 1. However, I suspect most if not all of you will continue to be involved in the Phase 2 (and perhaps beyond) as internal technical experts. I think this is

preferable because I have found it easier to make headway in the bilateral meetings than in the group meetings.

s.12; s.13

I think that is enough for tonight. As always, thanks for your support on this. We continue to learn a ton about your respective areas as part of this process and look forward to continuing to work with you as this process moves forward.

**Subject:** RE: Ministry Technology and Innovation Funding

Hi Amy,

We have our program areas working on the request. One question that has come up a couple of times is the level of information you require. For example, we provide an annual grant to Creative BC and they administer programs which do support BC's tech sector, but in order to find out the extent of it, we would need to go to them to do some analysis. Would it be sufficient to highlight that we provide \$3.4M in annual funding to Creative BC of which a portion could be used to support the tech sector?

Thanks,

**Subject:** Ministry Technology and Innovation Funding

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

Morning,

I've heard from a few staff how much they appreciated having you come to the meeting and hear how their work fits into the bigger picture. For me personally – it was really helpful as this is a new ministry for me and I am still learning about it. Hearing how government wants to move forward and priorities was very helpful. As far as the forum goes – the casual approach you took was great and I know folks appreciated the opportunity to ask questions.

Hi Amy,

Wanted to share the Chinese Canadian Museum sub going the CCSSP on June 12 in confidence.

We have been through ADMCSSP and DMCSSP and have engaged directly with CCSSP members individually with Minister Chow over the last two weeks in order to obtain feedback. To date, we have received positive responses. I will share the what we heard report from community consultation as well as the feasibility report in the coming week...they are just going through final revisions.

I would like to touch base with you this week to get your advice on the TBS next steps.

**Subject:** RE: GHG Wood/Steel Concrete

Hi Neil, Amy,

Happy to help in any way we can. We prepared a policy proposal for the Buildings working group to put BC in a leadership position to recognize the benefits from low-carbon material use in the built environment (attached). My Sr. Economist worked with our colleagues at FII and FPI to help put it together.

Also, we developed a tool to account for CO<sub>2</sub>e in the built environment a couple years ago. For context, I brought Werner Kurz from PFC in, along with some of our FLNR expertise and researchers at FPIInnovations as a project team to ensure some credibility. The objective was to develop a tool that could account for sequestered and/ or avoided emissions from material use. It works on a square foot basis, so could be adaptable to a number of different building types or building systems. Without any policy change, we estimated that 0.27MT of CO<sub>2</sub>e are sequestered annually just from wood building materials. This of course could be improved upon rather significantly if we promote non-structural building materials such as biomass based foam insulation, biomass based nonwoven materials for flooring underlay and some more cutting edge projects we are developing in the structural category such as bio-concrete. A backgrounder on the tool is also attached.

Please let me know if you have questions, would like to discuss further or have any feedback to further refine things to ensure they support BC's leadership position.

Hope this helps and kind regards,

*James Sandland*

At this time, minimal social media on PJH at FemDeliver.  
I will continue checking and monitoring.

TWITTER:

Video of FN protest interaction today with PJH.

FYI: JB the First Lady is the FN woman who confronted PJH. She is a well-known hip hop artist in Vancouver, with a fairly significant following.

**Subject:** FW: Can I get your help?  
**Attachments:** MIN - Tech & Innovation Funding.xlsx

Hi Jon,

I have to send out a request for info to EFOs/CFOs later today and am wondering if you'd be able to take a quick look at the email and spreadsheet? I've had in put from a couple of CFOs, but would appreciate any thoughts/suggestions you might have to make this as easy as possible for people...particularly given your experience with similar exercises at TBS. Thanks and no worries if you're too busy.

Amy

~~~~~

Hi Everyone,

As some of you may know, government has asked that ministries provide an update and summary of their technology and innovation funding. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. This update is intended to be broad and should include all spending on services and activities that support the tech and innovation sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, reduction/elimination of fees for gov't services, in-kind support).

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than noon June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

**Subject:** Re: PCO meeting June 11 (830-10am)

I would suggest that we keep the regular scheduled Tuesday time - and then if nothing else is more pressing we could ask Christine if she wants to put the time aside for continued discussion on the Friday

Amy and Paul - Christine had mentioned the need to do a thorough walk through ministry by ministry ... I would think if we start this and manage our regular content in the Tuesday meeting by the 14 we will have had time to review the 30-60-90s and have that walk through then ?

**To:** Miller, Amy PREM:EX <[Amy.Miller@gov.bc.ca](mailto:Amy.Miller@gov.bc.ca)>  
**Subject:** RE: tech and innovation funding

Sure. A few questions/comments on the excel spreadsheet.

Your draft email helps provide the context. Things to clarify in email:

- Do you want them to differentiate between tech and innovation or are you treating them the same? We will be treating them as the same
- Do you want operating or capital or both? To you want them to differentiate? Both

Questions I'd have without the additional clarification:

- What do you want them to fill out in the expense column? Is that expense type like grant, or contract or recipient? Or are you looking for program initiative name with a more detailed description in the next column? Name of the initiative
- Is partner ministries to indicate that another ministry may also be providing funding? How would you ensure amounts aren't duplicated under two ministries. Yes, ministries should only be providing their spend so we would aggregate to get a total program spend but I expect in those circumstances I will have to go back and forth with the ministry to confirm it's captured accurately to avoid duplication
- For the \$ columns, I'd set up the formatting so that it defaults to 2 decimal places for the users to use as you've indicated it should be to 2 decimal places. May also want to add an auto sum in case the ministry is trying to reconcile the different items to some internal total.
- Is the tax credit on row 28 supposed to be there? What do they need to fill out for that? No, I mean to delete it

Hi Kristin,

Thanks again for agreeing to have a look at the attached spreadsheet. For context, I am hoping to send the below email as guidance to EFOs/CFOs (which I would also love to get your feedback on) in the next day or so. Please be brutal, I want to make it as clear/easy as possible for people to complete. Thanks!

Amy

~~~~~

Hi everyone,

As some of you may know, Don has asked that ministries provide an update and summary of their technology and innovation funding. This exercise is intended to support the development of a common understanding of government's total sector investment. This update is intended to be broad and should include all spending on services and activities that support the tech sector inclusive of ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissioners, etc.

Ministries are asked to complete and return the attached template to me no later than end of day June 14<sup>th</sup>. If you have any questions, please feel free to email or call.

Hi Amy,

No problem, happy to help.

Re the email:

- total sector investment – could be more specific about what you mean? E.g. total support (direct or indirect) for the technology and innovation sector, whether new initiatives of this government or longstanding?
- Commissioners – I think you mean Commissions.
- Also, do you want it to include not only spending but also other incentives (e.g. tax (if there are any), that might reduce revenues)?

No comments on the excel doc itself, unless you wish to add columns about direct/indirect and/or new/existing per my comments above.

Shannon

Hi PCO –

I have been hit-and-miss with sending over track-changes versions of the forecast. For various reasons it doesn't make sense some weeks (for example when we meet to go through the document in person).

I will be honest – this week I got too busy, s.22 . If you're OK with it, we can treat this week's forecast as a baseline, and I will get back to a regularly scheduled track-changes version every Thursday starting next week.

Thanks,  
Daphna

Amy

Attached is the status of the list of mills you requested.

If you have any questions please let me know. Jiali Leng looked at the current curtailment list and made some calls to the district.

As with so many mills the status is changing quite quickly given weakness in the markets so this is the current state.

All the best

Peter

**Subject:** RE: Ministry Technology and Innovation Funding

Hi Corrine,

Thanks again for providing this information. I just had a few follow up questions:

Operating:

- Are Doors Open to Technology, Smart Communities and BC Tech STOB 80? DOT = STOB 65 BC TECH = STOB 77 Smart Communities, I need to confirm with program area
- Is BC PNP Tech Pilot STOB 65? Need to confirm with program area
- Did JTT provide any funding for the Tech Summit outside of the Innovate BC contribution? Yes. A total of \$545k, with a total of \$495k recovered from other ministries. (JTT portion = \$50k)
- Yes, would you be able to provide an estimate of the tech related trade shows? Total estimated funding will be more than enough, no need to break it out into the various shows. The trade shows estimate for this fiscal which includes Clean Tech, Digital Media, Information and Communications Technology = \$152k Capital
- AEST has reports different figures for BCKDF than JTT. Should I use the AEST figures as they fund? Let me confirm with program area

| 18/19 | 19/20 | 20/21 | 21/22 |
|-------|-------|-------|-------|
| 36.30 | 65.93 | 31.70 | 64.24 |

Thanks!

**Subject:** Ministry Technology and Innovation Funding

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

**Subject:** Ministry Technology and Innovation Funding

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

Amy, we're just finalizing. Almost all of our spending is on internal IM/IT for the ministry.

We have one very small contract with a vendor for a test system, that we are not going to go forward on and will likely write off. We're just pulling up the accounting information on that now. I'm not sure if that's material for the exercise if it's not then MCFD should show as N/A.

**Subject:** Ministry Technology and Innovation Funding

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

Hi Amy

Please find attached JTT's Tech and Innovation funding document.

Note:

We also indirectly spend funding to support trade shows that relate to the tech sector. If this is something you feel should be included, please let me know and we could pull together some estimated amounts.

Thank you

Attached is the status of the list of mills you requested.

If you have any questions please let me know. Jiali Leng looked at the current curtailment list and made some calls to the district.

As with so many mills the status is changing quite quickly given weakness in the markets so this is the current state.

All the best

Peter

**Subject:** Process and Committees [The Long Memo]

Hi All,

As discussed at DMC on April 26 and May 17, 2019, this memo will clarify the process for scheduling items for Cabinet Committee review and the expectations for Deputy Ministers (DM) Committees that

support Cabinet Committees. While some of the content may be relevant, this memo does not address the various DM Committees that exist for non-Cabinet coordination of Ministry business. I will address the roles and membership of other DM and ADM Committee roles at another time.

s.13

s.13 . Going forward, approval from my office will be required for items to be placed on the Cabinet Agenda.

### ***Prioritization of Cabinet Submissions and Ministry Workloads***

Cabinet Submissions must represent a government priority, be necessary at the time they are being advanced, accurately reflect the costs, impacts and benefits of the initiative being proposed and demonstrate that they:

- Are practical and realistic in a BC context *and* in our fiscal environment;
- Will contribute to raising the standard of living for British Columbians;
- Will not impose avoidable costs on business;
- Will not compound affordability challenges for British Columbians; and,
- Wherever possible, will benefit all regions of B.C.

Cabinet Committee time will be reserved primarily for decision items. Ministries may be invited to bring concept presentations to Priorities and Accountability Committee to evaluate whether to proceed with development of a full submission. Information updates would be scheduled at Cabinet Committees only with approval and where they would equip Ministers to make subsequent decisions or provide information that Ministers may need to communicate publicly.

s.13

s.13 Our task is to equip Cabinet Committees to make good decisions between competing priorities, which requires that time and attention be put into developing submissions that provide clear issue framing, thoughtful advice and comprehensive business case and policy analysis of the impact that decisions may have on other government ministries or stakeholders.

My office (DMPO) will be taking a more-active role in priority setting. Deputy Ministers are asked to provide your Cabinet Confidential 30-60-90-day work plans or other priority trackers to Amanda Shortt monthly, with the first being due on June 3, 2019. This should include Cabinet Committee items as well as ongoing Ministry programming and is incremental to and more detailed than the “forward agendas” that DM Committees and Ministries provide to their Cabinet Operations contacts. Please highlight Cabinet items in yellow, so that Cabinet items can be easily differentiated from Ministry work items. We will review work plans with you during regularly scheduled meetings.

### ***Role of DM Committees***

While DMPO will determine whether issues will be scheduled on the Cabinet Committee agenda, I want to be clear that DM Committees have a mandate to make decisions about whether submissions are ready to proceed to Cabinet review. While Cabinet Committees and Cabinet make the ultimate decision about whether to proceed with initiatives, DM Committees and our office are expected to review Cabinet Submissions to ensure that they meet the value-creating tests outlined above, and to confirm that they:

- Address a current government priority;
- Represent a near-term action or necessary decision;
- Represent the best available course of action to achieve government's objectives;
- Will be implementable in the form presented;
- Include an assessment of the impacts that the proposal may have on other ministries and on stakeholders; and,
- Contain a thorough and well-considered business case and policy analysis.

As referenced above, concept presentations are occasionally invited to come forward to Priorities and Accountability Committee for discussion of whether government wants to undertake further development of an idea or initiative. While these may be routed to DM Committees for review, it should be noted that concept presentations will be at an earlier stage of development, will not involve a full Cabinet Submission and will not include all the policy work or analysis. The major input from DM Committees would come at the Cabinet Submission stage, if the concept is given approval to proceed. All concept or information submissions for Priorities and Accountability require advance approval from DMPO.

For Cabinet Submissions, DM Committees are expected to provide thorough peer review and honest feedback to ensure that materials are as complete as possible. To facilitate the level of discussion that I am asking your groups to undertake, all non-essential, advisory or staff observer roles at DM Committees are to be discontinued. DMs are expected to take an active role in assessing whether submissions are ready to proceed to a Cabinet Committee or require additional work and are expected to provide guidance or support for such additional work where it is needed. These responsibilities are not to be delegated to subordinate committees.

DM Committees may recommend that a submission is not ready to proceed to a Cabinet Committee. In this case, DMPO will assess whether the submission would be delayed for additional work or removed from the agenda. If a Minister wishes to proceed with a submission without resolving concerns raised at the DM Committee, I will discuss the rationale for doing so jointly with the Minister and Chief of Staff. The DM Committee Chair would prepare a Cabinet Confidential written summary of issues and provide this to DMPO and to Cabinet Operations for circulation to members with the submission. The DM Committee Chair would be asked to address the Cabinet Committee about any unresolved concerns. For clarity, preparation of these summaries is DM-level work that is not to be delegated to subordinate committees, a ministry secretariat or the DM Committee recording secretary.

I would also like to provide the following clarifications on membership, scheduling and materials distribution for DM Committees:

- I will appoint membership for the DM Committees, which will include the designated Deputy Ministers and a representative from my office. A list is provided at the end of this memo.
- I will appoint the DM Committee Chair (no changes are anticipated at this time).
- The Chair may invite non-member DMs to participate based on topics being discussed.
- A DM Committee recording secretary will be present at meetings.
- All other observer, advisor and staff support roles at DM Committees are to be discontinued.
- DMs should attend in person (rather than by phone) whenever possible.
- Alternates may only attend when the DM is traveling or on vacation. DMs are expected to make participation in these committees a priority.
- Meetings should be rescheduled if more than three DMs are unable to participate.

- Meetings must not conflict with Cabinet Committee meetings or other Cabinet-related DM Committees. DM Committee schedules must be changed to reflect shifts in the Cabinet Committee schedule.
  - While Cabinet Committees take priority, Cabinet Operations will take the DM Committee meeting schedule into account when making short-notice changes to the time or date of Cabinet Committee meetings.
- All DM Committee materials must be circulated at least a week in advance, in a complete or near-complete form.
  - Exceptions would be provided for
    - Urgent or unanticipated business (i.e. emergency response).
    - Confidential business that would not be circulated through normal distribution.
- Other than the excepted items above, if materials are not circulated in advance, the item is to be deferred to a subsequent DM Committee and Cabinet Committee agenda.
- DM Committees are to have reviewed materials and Ministries are to have incorporated feedback prior to materials being submitted for the Cabinet Operations three-week deadline.
  - Approval from DMPO is required for the submission of materials that have not been through the DM Committee review process.
- When submissions are provided to Cabinet Operations, the Ministry will include a summary of feedback provided during DM Committee review, how this has been incorporated or why it has not been incorporated if that is the case. The DM Committee Chair will receive a copy of the updated submission and a copy of the summary of how feedback has been addressed.
- The DM Committee Chair will be informed of further changes or additional information requests resulting from Cabinet Operations review. Major revisions may trigger re-evaluation by the DM Committee, and may delay the item from a scheduled Cabinet Committee date.
- The DM Committee Chair will attend the Cabinet Committee. Other DMs may be invited to attend (beyond the presentation of their own items) where appropriate based on the agenda.

As well as reviewing the decision items being advanced for Cabinet Committees I would ask DM Committees to develop a cross-ministry understanding of work in progress across the Ministries on your committee to support early identification of synergies, opportunities or potential conflicts between ministry work plans. I am not asking you to carry out integrated work planning, simply that you discuss ministry projects and initiatives regularly at the DM Committee level.

### ***Functions and Responsibilities of PMDO***

Alex MacLennan and the Cabinet Operations team oversee Cabinet and Cabinet Committee scheduling, procedures, the templates and content requirements for Cabinet Submissions, materials distribution, and the minutes and records of decision. Cabinet Operations includes Executive Directors Charlotte Powell, Paul Finkel, Daphna Mills and Monica Gervais as well as a team of Directors and staff who provide procedural content development advice for Ministries on Cabinet Submissions, Orders in Council and Requests for Legislation and coordinate with other parts of Government to ensure that the best and most complete advice is provided when items go forward to Cabinet Committees. Cabinet Operations will work with Ministries to ensure that required content is provided before submissions are placed on the agenda, and to manage the procedural and timing steps of advancing Orders in Council and Requests for Legislation. I have asked Alex and his team to strengthen the procedures for tracking the timing of legislative items, and to establish a pre-submission checklist for Ministries.

Christine Kennedy, Eric Kristianson and the Policy and Coordination team provide strategic advice, engage in policy development, support policy consistency across government and work with Ministries to manage their sequence of priorities and the planning and development of ministry submissions and initiatives. Executive Directors Amy Miller, Selena Basi and Paul Squires and Director Allison Witter are assigned Ministry portfolios and engage with the ADM Committees and other Ministry staff involved in producing materials for Cabinet Committees or Working Groups. In addition to working with Ministries in the early stages of their priority initiatives, the team takes a lead role in some projects that involve central coordination or engagement from multiple ministries such as the Catalyst Paper sale to Paper Excellence, implementation of the Premier's commitment to the use of mass timber, economic strategy and other similar initiatives.

### ***Role of Assistant Deputy Ministers (ADM) Committees***

ADM Committees are coordinating bodies that provide a pre-screening function before submissions are reviewed by DM Committees. ADM Committees provide cross-ministry coordination and feedback on how initiatives may impact their own or other ministries, but do not have a decision-making function.

ADM Committees should be aware of submissions in progress across member ministries, have early discussions of the scope and intent of submissions, provide input to the impact analysis carried out by the responsible Ministry, and have an opportunity to provide feedback and constructive suggestions about the best way to achieve Government objectives. If ADM Committees have significant concerns with the approach, intent or potential impacts of submissions, those concerns should be advanced to their DMs for resolution or discussion with my office.

The Ministry responsible for the Cabinet Submission is responsible for producing high-quality content, engaging colleagues in other Ministries and my office, carrying out comprehensive impact analysis and providing the required content. ADM Committee members will advise and assist but are not expected to carry out this work. ADM Committees do not have a central policy role and are not expected to carry out consolidated work planning across Ministries.

- The committee will be made up of ADMs assigned by their DMs and a representative from the Policy and Coordination office. I will select ADM Committee Chairs.
- The Cabinet Operations Executive Director responsible for the Cabinet Committee will attend the ADM Committees as an observer.
- Other non-member advisory roles may include staff from Legal Services Branch and related Crown Corporations, subject to approval from the Chair of the DM Committee.
- Deputies will rotate their ADM Committee representative based on operational needs and to support staff development.

- ADMs are expected to attend meetings in person whenever possible. As with DM Committee meetings, if more than three ADMs will be absent, meetings should be rescheduled.

***Government Communications and Public Engagement (GCPE)***

s.13

Ministries are responsible for developing government policy in coordination with my office and GCPE is responsible for publicly communicating Cabinet's policy decisions. GCPE also provides valuable public engagement services that can assist Ministries in shaping policy development.<sup>s.13</sup>  
s.13

s.13

While GCPE will not be members of the DMCSSP, DMCSI, DMCNR or related ADM Committees, the agency has an important role, primarily through the Communications Directors, in providing the draft communications plan that is required to accompany Cabinet Submissions. For particularly high-profile or complex initiatives, GCPE Central should be invited to participate in the DM Committee discussion with other presenting staff.

These clarifications are part of the ongoing process of tightening our focus and providing our best advice to Cabinet. I am very proud of all that Ministries have achieved over the past 22 months – you have done a tremendous amount and delivered significant benefits for British Columbians. Adjusting our procedures is part of stewarding our capacity so we can continue to deliver positive results going forward.

Deputy Ministers will also be copied on a memo that I will send later to Ministers and staff which provides an abbreviated version of the discipline outlined here as well as speaking to the respective responsibilities of Ministers Offices and the public service. In the meantime, I would appreciate it if you did not circulate this memo around. If you have any questions or advice, we can talk about it at tomorrow's DMC.

Thanks.

Don

Good afternoon. I was speaking with Lori on Wednesday, and she was curious if any of you who are planning to join our Exec mentor session on July 2<sup>nd</sup> had shared any "burning questions for Lori" with me to send along to her ahead of time. (see your meeting invite for the list of questions....).

If you have a question or two that reflects your curiosity about our Deputy Minister's thoughts or experiences on leadership, please email them to me so that I may share them with Lori ahead of time.

Thank you, and I look forward to seeing many of you then!

**Subject:** RE: Ministry Technology and Innovation Funding

Sorry I didn't get back to you Amy. I did get a response back about last year's costs for the trade shows. Because they are embedded in the total expenses it's extremely hard to dig out to that level of detail. They could refer back to planning documents, but it would be a high level, ballpark figure. If you still want one, let me know and I'll ask them to do some digging

**Please delete Smart Communities from the list.** It is a duplicate; it is part of the \$6.090M Innovate BC line item.

Thanks !

**To:** Ferreira, Corinne D JTT:EX <Corinne.Ferreira@gov.bc.ca>  
**Subject:** RE: Ministry Technology and Innovation Funding

Hi Corrine,

Thanks again for providing this information. I just had a few follow up questions:

Operating:

- Are Doors Open to Technology, Smart Communities and BC Tech STOB 80?
- Is BC PNP Tech Pilot STOB 65?
- Did JTT provide any funding for the Tech Summit outside of the Innovate BC contribution?
- Yes, would you be able to provide an estimate of the tech related trade shows? Total estimated funding will be more than enough, no need to break it out into the various shows.

Capital

- AEST has reports different figures for BCKDF than JTT. Should I use the AEST figures as they fund?

| 18/19 | 19/20 | 20/21 | 21/22 |
|-------|-------|-------|-------|
| 36.30 | 65.93 | 31.70 | 64.24 |

Thanks!

Hi Amy

Please find attached JTT's Tech and Innovation funding document.

Note:

We also indirectly spend funding to support trade shows that relate to the tech sector. If this is something you feel should be included, please let me know and we could pull together some estimated amounts.

Thank you

Corinne

**Subject:** Ministry Technology and Innovation Funding

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

Hi Ranbir,

Thanks again for sending in all your responses. I just had a few, mostly technical, follow-up question on CBT, EMPR and FPCC. I will send the FPCC questions in a separate email.

Operating

- ICE Fund – BC Marine Energy Roadmap was highlighted yellow, was this just a hold over from your work or is there something I should be aware of?
- Is the CBT Tech Summit Support a STOB 65?

Capital

- Can you confirm the three CBT programs/initiatives (broadband, impact investment, and community technology) are funded from CBT's capital vote?

- Which STOB are the three CBT programs/initiatives?

#### Incentives

- We may change this tab to only include tax incentives. If that change occurs, should the EMPR items move to the operating tab? I assume everything is being funded through the ministry's operating vote or Contingencies.
- I noticed only 19/20 was included for CEV, did EMPR only get one year of funding in B2019?
- ICE Fund – Canfor Pulp was highlighted yellow, was this just a hold over from your work or is there something I should be aware of?
- ICE Fund – D-Wave is this a STOB 80 and in partnership with SDTC similar to the other investments?
- Built Environment heading, is this the name of the division that is responsible for the programs?
- I notice you only have 18/19 and 19/20 for the Building Innovation fund, CleanBC Remote Community, and BCICEI. Does the funding expire in 20/21?

Thanks again for all the help.

Amy

Hi Amy.

As requested, please find attached the information for EMPR and one of the crowns that we have an indirect management relationship, specifically Columbia Basin Trust which is officially reporting to MCFD (we will let MCFD know that we have included CBT in our response).

For our other crowns, it is a NIL report for BC Hydro and Oil and Gas Commission.

Once you have had a chance to review and have any follow-up questions, please let us know. thanks

**Subject:** Ministry Technology and Innovation Funding

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

We're looking for the list of sawmills, pulp mills, OSB, Plywood and pellet mills that are operational. One other request for any of the maps, can we use different symbols rather than colours? We have a few folks that are colour blind and want to make it as easy to read/understand as possible. Thanks again!

Amy

Attached is the status of the list of mills you requested.

If you have any questions please let me know. Jiali Leng looked at the current curtailment list and made some calls to the district.

As with so many mills the status is changing quite quickly given weakness in the markets so this is the current state.

All the best

Peter

**Subject: Adjustments at ADMCNR**

The Premier's Office has reviewed all DM and ADM Committees with an eye to refresh and refocus membership and mandates.

Following some already implemented adjustments at DMCNR I am writing to advise on adjustments at ADMCNR. The revised membership is noted below and you will note that it has been streamlined in order to improve the functioning of the Committee. Additional participants are to attend only for the purpose of presenting a submission and only for their portion of the meeting. This will allow for a more productive use of time. I will attend the next ADMCNR meeting to provide further details and will be meeting Peter in the interim.

In closing, I would like to acknowledge Scott for his dedication and hard work as past Committee Chair. I know members will support Peter as incoming Chair.

Following consultation with DM's , I can confirm membership going forward for ADMCNR as follows:

Chair: Peter Robb (EMPR)

Members:

MIRR: Trish Balcaen

FLNR: Eamon O'Donoghue

AGRI: James Mack

ENV: Jennifer McGuire

EAO: Scott Bailey

OGC: Ken Paulson

PO: Selena Basi

AG: Geoff Moyse

FIN: Melanie Stewart

Secretary: Allison Tripp (FLNR)

Alternates: (to attend if Member is not available)

MIRR: Rob Draeseke

FLNR: Chris Stagg

AGRI: Arif Lalani

ENV: Jim Standen

EMPR: Simon Coley

OGC: Ines Piccinino

Thank you,

John Allan, Chair, DMCNR

**Subject:** Strategic Framework for Tourism in BC

Hi Amy,

I am a policy analyst in the Tourism Branch at the Ministry of Tourism Arts and Culture.

As a part of the implementation efforts of the Strategic Framework for Tourism in BC we are developing a Cross-Government Strategic Engagement Plan. This plan includes reaching out to ADMs in Ministries that directly and indirectly impact the tourism sector in BC to seek opportunities for alignment with an ultimate goal of strengthening the tourism sector in BC.

Would you be able to help me identify which ADM from the DMO is more appropriate to include on our ADM engagement distribution list? Is it Christine Kennedy or Eric Kristianson?

Thank you so much for your help!  
Valerie

**Subject:** SI 3 week

Hi Amy –

Did you manage to get your iPad synced again? If you could let me know by 3pm if you have any issues with your items for the 3 draft binder week, I'll send it out. I believe our conversation landed on "This is probably fine to go" but you wanted to confirm with the documents in front of you. Let me know if I misunderstood.

Thank you very much,  
Daphna

Hi Amy,

I am clear on your question on the STOB 77 grants but hoping to get some clarity on what you are looking for with the operational STOBs for FPCC and CBT in EMPR. As these are both crowns they maintain their own financial systems and do not have the same codes as us.

Thanks,  
Michelle

Hi Ranbir,

I am just hoping to confirm the STOB for the FPCC items.

- FV Training workshops STOB 65?
- FV Language Tutor STOB 63?
- FV Grants STOB 77?
- FV Software STOB 63?

Thanks.

Hi Amy.

Please find attached the information for the crown First Peoples Cultural Council (FPCC) reporting to the Ministry of Indigenous Relations and Reconciliation.

It is a NIL report for the ministry itself.

Just let us know if you have any follow-up questions. thanks

**Subject:** Ministry Technology and Innovation Funding

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

**Subject:** Thoughts? -- Work Camps - Meeting Summary

Not quite the "this morning" that I had in mind for emailing this to you, but your thoughts are welcome and I will email to Christine and cc you when received. Would love to get this down to 2 pages if you have ideas.

Will probably email some of the MIRR material to Christine too.

**Subject:** Mtg Tomorrow

Hey Amy,

Would you have time for a quick 10-15 minute meeting with me, possibly before or after your meeting with Christine tomorrow? If that doesn't work would you be able to do a phone call today before 2:30 or anytime tomorrow?

I'm working on a records management project for OOP and hoping I can ask you a couple questions about the processes in Christine + team's area.

Thanks so much for your help!!

**Subject:** Ministry Technology and Innovation Funding

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

**Subject:** RE: Ministry Technology and Innovation Funding

Sorry I didn't get back to you Amy. I did get a response back about last year's costs for the trade shows. Because they are embedded in the total expenses it's extremely hard to dig out to that level of detail. They could refer back to planning documents, but it would be a high level, ballpark figure. If you still want one, let me know and I'll ask them to do some digging

**Please delete Smart Communities from the list.** It is a duplicate; it is part of the \$6.090M Innovate BC line item.  
Thanks !

**Subject:** RE: Ministry Technology and Innovation Funding

Hi Corrine,

Thanks again for providing this information. I just had a few follow up questions:

Operating:

- Are Doors Open to Technology, Smart Communities and BC Tech STOB 80?
- Is BC PNP Tech Pilot STOB 65?
- Did JTT provide any funding for the Tech Summit outside of the Innovate BC contribution?
- Yes, would you be able to provide an estimate of the tech related trade shows? Total estimated funding will be more than enough, no need to break it out into the various shows.

Capital

- AEST has reports different figures for BCKDF than JTT. Should I use the AEST figures as they fund?

| 18/19 | 19/20 | 20/21 | 21/22 |
|-------|-------|-------|-------|
| 36.30 | 65.93 | 31.70 | 64.24 |

Thanks!

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

Hi Amy – here goes.

We don't have everything you are looking for but here is our best at the moment. Also we don't do forecasting on this data as a matter of course but can happily do so on request. But lets start with this and see what you think:

- Attached is a data file to attend to the business and industry employment data
- Also some website links in case they were hard to find:
  - o GDP data : <https://www2.gov.bc.ca/gov/content/data/statistics/economy/bc-economic-accounts-gdp>
  - o Employment and labour data:  
<https://www2.gov.bc.ca/gov/content/data/statistics/employment-labour>
  - o Business formation and Failures:  
<https://www2.gov.bc.ca/gov/content/data/statistics/economy/business-formations-failures>

Hi Elizabeth,

It was great meeting you in person the other week. I am wondering if you might be able to answer a couple quick question for me. I was on the BC Stats website and looking at the available data and I am wondering if BC Stats has the *chained GDP* or any of the *business and employment by industry* data is available by development region similar to the employment/unemployment data? Also , does BC Stats do any forecasting of these data sets? I am trying to link and get a sense of employment trends in the development regions. Thanks for the help!

**Cc:** Masi, Joe FIN:EX <Joe.Masi@gov.bc.ca>  
**Subject:** DAVE stats

Hi Amy,

As we've discussed, forecasts of the costs of the Film Incentive BC tax credit (a.k.a. film and television tax credit) and the production services tax credit are provided in table A7 of the budget (on p. 126 of Budget 2019). However, there is no "official" DAVE forecast as Anita and Dave don't forecast in that level of detail.

Productions that claim the DAVE credit are entitled to the basic credit (35% for Film Incentive BC plus 28% for production services) plus the DAVE credit (16%), for a total credit worth 51% or 44% of total labour.<sup>s.13</sup>

s.13; s.17

As mentioned, the question also made its way to my colleague, Joe Masi, in our Revenue Division, so he'll be sending up the same answer.

Cheers,

David

**Subject:** Ministry Technology and Innovation Funding

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

**Subject:** FW: ACTION REQ'D - Ministry Technology and Innovation Funding

Hi Dawn,

High level descriptions of the "production services tax credit", and the "film and television tax credit" programs are in the email below from Joe. Both of these tax credits have a Digital Animation and Visual Effects (DAVE) component; however, we do not have any figures that actually break the DAVE component out from the total credit. It is my understanding that Tax Policy is currently working on breaking that figure out, so there is no point in us duplicating that effort. I can send you tax policy's numbers once I have them if you like.

Francis Camilleri

**From:** Masi, Joe FIN:EX  
**Sent:** June 24, 2019 5:27 PM  
**To:** Camilleri, Francis FIN:EX <[Francis.Camilleri@gov.bc.ca](mailto:Francis.Camilleri@gov.bc.ca)>  
**Cc:** Pasquotti, Ric I FIN:EX <[Ric.Pasquotti@gov.bc.ca](mailto:Ric.Pasquotti@gov.bc.ca)>  
**Subject:** RE: ACTION REQ'D - Ministry Technology and Innovation Funding

Please let me know if this summary is adequate, or if you would like something for precise?

The only “component” of either the film & television tax credit or the production services tax credit that could be interpreted as supporting the Tech Sector specifically would be the Digital Animation, Visual Effects and post-production (DAVE) tax credit.

A version of the DAVE tax credit is available in both the film & television tax credit or the production services tax credit. The DAVE Tax Credit provides refundable tax credits on a corporation’s digital animation or visual effects activities that qualify for the basic film & television tax credit or the production services tax credit. The DAVE credit is for eligible labour directly attributable to digital animation, visual effects and post production activities.

This would mean that a corporation would be receiving either the Basic Tax Credit (if they were applying for film & television) or the Production services tax credit if they were applying for that credit in addition to the DAVE tax credit component for eligible labour directly attributable to digital animation, visual effects and post production activities. So it could be interpreted to mean that both the film & television tax credit and the production services tax credit support the tech sector as they are credits available to digital animation and visual effects on top of DAVE.

The regional, distant location, training and scriptwriting tax credit components would not be considered as strictly supporting the Tech Sector as they are based on the location of filming or not specific to digital animation.

**Here is a quick summary on both the film & television tax credit and the production services tax credit:**

The **film and television tax credit** is for eligible corporations that produce eligible film or video productions in BC. The credits are for domestic productions with qualifying levels of Canadian content.

The **production services tax credit** is for accredited production corporations that produce accredited film or video productions in BC. The credits are available to both domestic and foreign producers and there is no Canadian content requirement.

**The film and television tax credit program consists of six distinct tax credits (or components):**

1. Basic tax credit (35% eligible BC labour)
2. Regional tax credit (12.5% eligible BC labour)
3. Distant location regional tax credit (6% eligible BC labour)
4. Film training tax credit (up to 30% eligible BC labour – with a cap)
5. Digital animation, visual effects and post-production (DAVE) tax credit (16% eligible BC labour)
6. Scriptwriting Tax Credit (35% eligible BC labour)

**The production services tax credit program consists of four distinct tax credits (or components):**

1. Production services tax credit (28% eligible BC labour)
2. Regional production services tax credit (6% eligible BC labour)
3. Distant location production services tax credit (6% eligible BC labour)
4. Digital animation, visual effects and post-production (DAVE) services tax credit (16% eligible BC labour)

---

Hi Christine,

As discussed, I heard back from Finance and have updated the excel doc. Again few things to note:

1. The difference between this version and the previous, is that I removed the non-DAVE components of the FIBC or PSTC from the total investment. These amounts are saved on Sheet 1, should we want to see them or include in the future.

2. s.13

3. I have also included the BC Tech Fund actual/forecast which was missed in JTT's original submission.

I don't anticipate any further changes to the numbers at this point, but expect a few updates the supplementary information for the Crown investments.

Amy

**Subject:** Tech Funding

Hi Christine,

Attached is the draft of the tech funding review. Two things to note:

1. The cost of the Digital Animation and Visual Effects (DAVE) tax credits are imbedded in FIBC and PSTC (film tax credits), so the full cost of those credits are currently included. I have asked Finance to pull them apart but it might take a little while.
2. EMPR submitted all the CEV spending, I did not to include most of them as they didn't seem to fit the criteria. I have put those submissions on a separate tab (sheet 1) if we want to revisit.

Amy

Hi Amy,

I've been forwarded your request to provide the amount of funding going to the BC Tech Sector.

The BCIF has some figures, but none are perfect (as described in the email chain below) – do you have any time we could have a quick phone call so I can get a sense of what the best information for us to provide would be?

Thanks,  
Evan

**To:** Machin, Evan W JTT:EX <[Evan.Machin@gov.bc.ca](mailto:Evan.Machin@gov.bc.ca)>; Deering, Angela JTT:EX <[Angela.Deering@gov.bc.ca](mailto:Angela.Deering@gov.bc.ca)>  
**Subject:** RE: Ministry Technology and Innovation Funding

Hi Evan

Is it possible to estimate the amount of capital calls going only to BC companies? I think providing data that mixes investment in BC and non-BC companies is probably a bit confusing. The other option is to use the goal 4.1 d data, since its the estimated amount of investments into BC companies only. In which case it's \$30M, \$100M and \$60M.

Under Other Comments, your second sentence can be "The forecasts to the left reflect investments anticipated to be made by the BC Tech Fund, its fund managers, and syndicate partners in BC companies."

What are your thoughts on using the direct and indirect investment data instead?

Matthew

**Subject:** FW: Ministry Technology and Innovation Funding

Hi Evan,

I have been asked by the Premier's Office to summarize all JTT funding that relates to the spending on services and activities (and investments) that support the tech sector. I have neglected to add in your piece from BCIIIF – (for the \$100M BC Tech Fund ). Would you mind adding it in as a line item in the attached document? They are looking for the actual and forecasted investments for 18/19-21/22.

Thank you  
Corinne

Hi Amy

Please find attached JTT's Tech and Innovation funding document.

Note:

We also indirectly spend funding to support trade shows that relate to the tech sector. If this is something you feel should be included, please let me know and we could pull together some estimated amounts.

Thank you  
Corinne

**Subject:** Ministry Technology and Innovation Funding

Hi Everyone,

As some of you may know, government has asked that ministries provide a funding update and summary of investments that support BC's tech sector. This exercise is expected to support the development of a common understanding of government's total (direct and indirect) sector investment. The update and summary is intended to be broad and should include all spending on services and activities that support the tech sector (e.g. ministry programs, grants, contracts, agreements, Crown agencies, Boards, Commissions, etc.) as well as any other sector incentives that might reduce government revenues (e.g. tax credits, targeted reduction/elimination of fees, in-kind support). Ministries are not required to include IM/IT systems spending unless it is part of a broader program/initiative to grow the BC tech sector.

The attached document has three worksheets: Operating, Capital, Incentives. If your ministry does not have activities in any of these categories please indicate N/A in the applicable worksheet. For guidance in the column labeled Direct/Indirect, a direct investment might include programs directly delivered to people or businesses while an indirect investment might include funding a Commission that promotes innovation.

Ministries are asked to complete and return the attached template to me no later than 12:00 pm, June 17<sup>th</sup>. If you have any questions, please feel free to email or call. Thank you for your help and cooperation.

**Subject:** Follow-up May 29 Draft 10 Principles Human Resources Workshop

***Sending on behalf of Tom Lee***

"I'm writing to provide follow-up on the results of the May 29 workshop on Human Resources that was held at the Songhees Wellness Centre. I'd like to thank everyone again for their participation and provide a brief status update.

Attached is a summary of the morning mapping session that outlines current activities, existing tools and resources, key successes and challenges. The summary reflects the content the group developed in the four areas of recruitment, retention, learning and communications. If I have missed (or mischaracterized) anything please let me know.

Our planning team (T'oilila McIntyre, Priscilla Sabbas-Watts, Deborah Schwartz, Jennifer Melles and myself) are consolidating the information from the afternoon roadmap session into a

draft document that will outline action areas, and are working with the graphic recorder from the session to capture the roadmap in graphic form. Once we have a workable draft we will share it with everyone. Stay tuned!

Thanks again for your participation and we will follow up with the additional material from the session and next steps soon.

Tom”

---

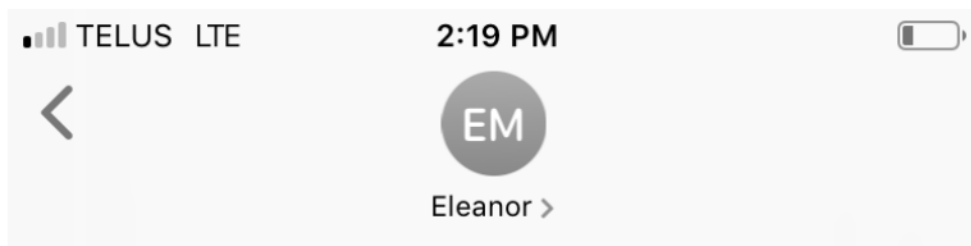

Hi Shelley,  
Donnie should be up to \$75k.  
Amy

**Subject:** Any changes to planned contract for 19/20

Hello, all – this is what I have from your office for possible contracts this fiscal – any changes?

- Donnie Wing – up to \$70K
- Peter Stoyko – up to \$50K for design work
- Danielle West Consulting - up to \$20K for design work
- TBD - \$30K for design work or other tasks

Sorry I missed your voicemail!!!  
Did you get into your email,  
etc???

Tue, Jun 18, 10:39 AM

Heya, do you know when

s.22

s.22

s.22

Thanks!

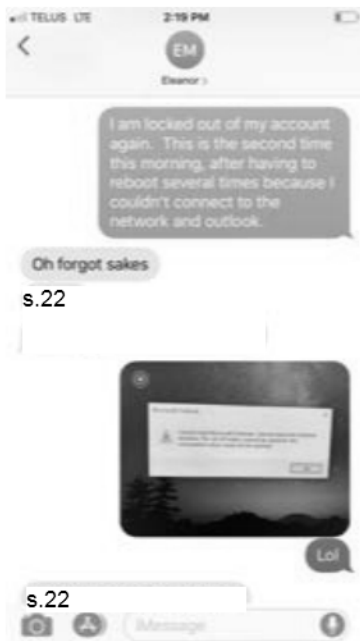

Thu, Jun 20, 10:46 AM

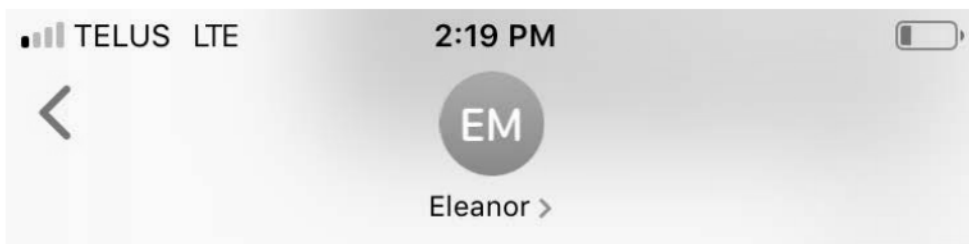

I am locked out of my account

iMessage

s.22

Have you called 77000?

Not yet, I am going to give it another go and wait for the 10 minute lock out to end

Ok. Keep me posted

Tue, Jun 25, 9:45 AM

My computer is locked out again!!!

s.22

I will send prem tech to you

s.22

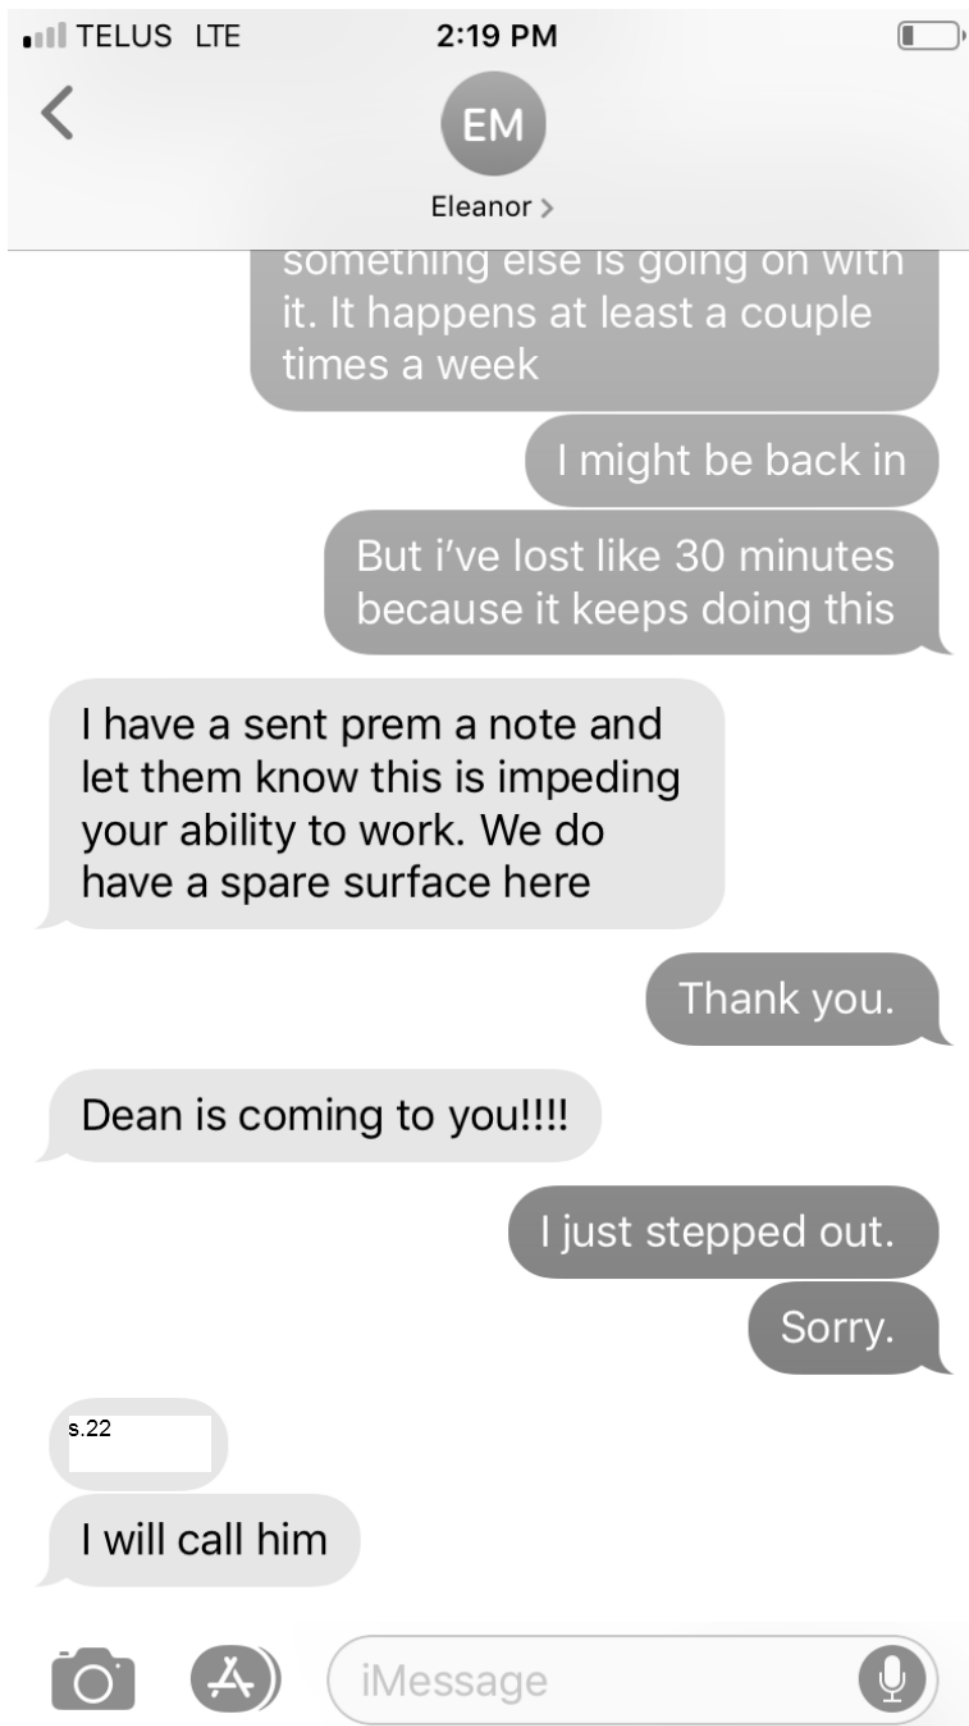

clearly something else is going on with it. It happens at least a couple times a week

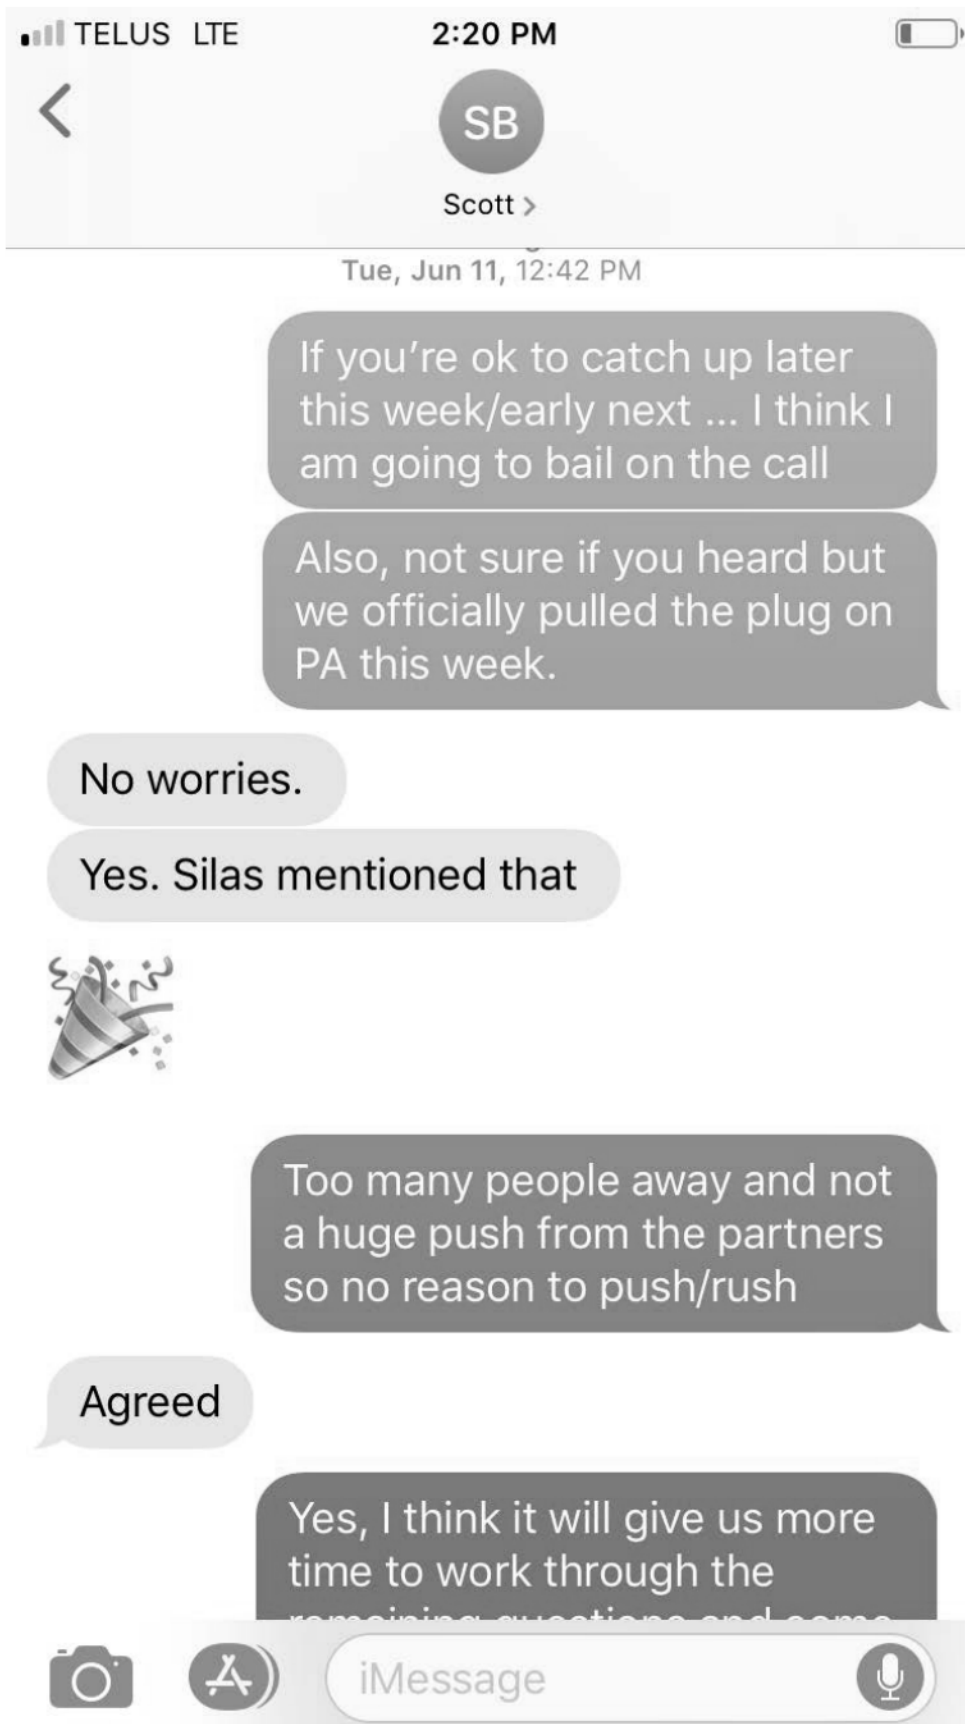

I might be back in

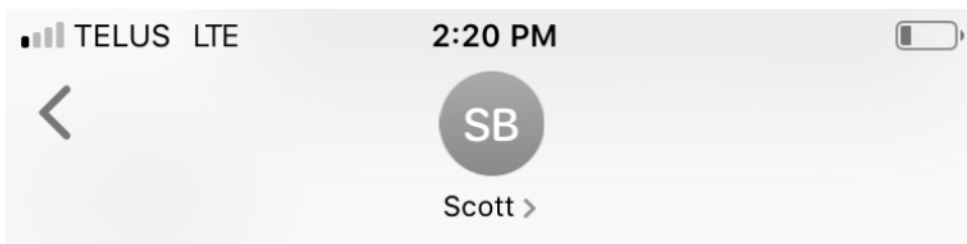

iMessage

Yes, I think it will give us more time to work through the remaining questions and come up with some options

Thanks. I will set some time in our calendars to talk phase 2

Ok. s.22

s.22

s.22

Thanks.

Thu, Jun 20, 4:16 PM

Were you still planning to send that email re: OSB materials?

Yes. s.22

s.22

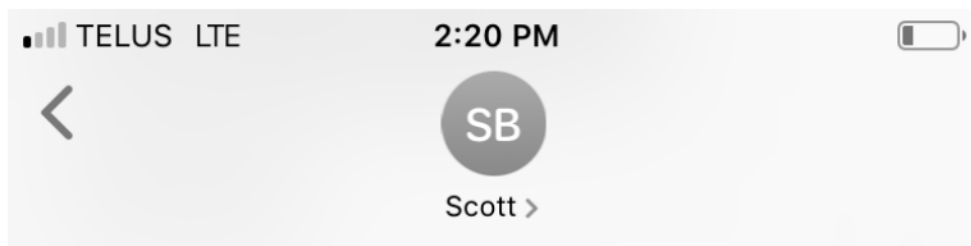

will have you something no later than end of day tomorrow.

s.22

👍 thanks, I don't want to lose track

I actually wrote it down on a "to do" list. s.22

s.22

No doubt!
