B.C. Premier Gordon Campbell called Fadden's statements irresponsible and said all Canadians deserve a complete explanation.

Yes, we all deserve an explanation of how 220,000 illegals have "slipped" through our Vancouver Airport?!

Fear mongering is very obviously not in the realm of RESPONSIBILITY:

Main Entry: re*spon*si*bil*i*ty

Pronunciation:

i-ˌspän(t)-sə-ˈbi-lə-tē\

Function: noun

Inflected Form(s): plural re*spon*si*bil*i*ties

Date: 1737

1 : the quality or state of being responsible: as a : moral, legal, or mental accountability b : reliability, trustworthiness

2 : something for which one is responsible : burden

What I want is all the power; and none of the respnsibility!

~ AHEM?

Sounds a little closer to home Mr. Campbell?

Mr. Campbell,

I see that you are giving Mr Fadden 1 day to explain his allegations that you have corrupt officials in your government, this comes as no surprise. I find it interesting that you defend the people of British Columbia against Mr Fadden's allegations, saying we deserve transparency. Well, I have asked you before, as have reporters, and I will ask again in the faint hope that you talk the talk about honesty and transparency....what were you really doing at the Bilderberg meeting earlier this month? It looks pretty bad on your behalf to have attended this secretive meeting and to not discuss what was on the agenda to the people of BC who incidentally paid for your secret trip. You make vague suggestions that you discussed the economy, the war, poverty, feeding the hungry...I call bullshit on all of that. These people don't care about feeding the hungry, they plan to use starvation as a weapon to get rid of the over-population in the world, "the useless eaters", this quote came from a past Bilderberg meeting. They don't care about the environment, they only care how to rape the environment as they have been doing, need I mention BP and the Gulf of Mexico...now I understand you are going to allow offshore drilling, we will have our very own pandora's well one day thanks to you. You have shoved a carbon tax down our throats (this is on the Bilderberg's agenda for all countries to pay carbon tax....I ask, to who and why?) and now you are shoving HST down our throats in spite of the fact there is a petition with almost 45% of the eligible voters names on it. I understand the number of voters on that list almost equals the number of voters who brought you into office...does that not bother you in the least? Your days as premier are numbered, the people of BC are tired of your lies and secret deals with big business but then that has always been your angle. You do not represent BC, you represent the parasitic elite and that is why you went to Bilderberg, just be honest for once and admit it. Leave Mr. Fadden alone, obviously CSIS has done an investigation and this is what they found, like I said, it comes as no surprise your government is corrupt, after all, they have a back-stabbing drunk-driving liar who will make deals with the devil at the helm. Come clean Mr Campbell, your children's children will one day look at what you have done with absolute contempt.

Thank you for your email regarding a few issues of concern to you.

We adopted the HST for three fundamental reasons: to contain the debt load we are passing on to the next generation; to maintain service levels for British Columbians in health and education; and, particularly, to encourage investment and job creation.

I want you to know that this was a difficult decision for us to make, but I believe that it is the right decision for BC.

If you would like more details about the goals and objectives of the HST, please have a look at the following site: <http://hst.blog.gov.bc.ca/> .

You have also mentioned energy projects. We have a very comprehensive and well-recognized environmental assessment process. The preservation of our high environmental standards are at the top of the decision making process and are not swaying from that on any application.

With regard to the Bilderberg Conference, attendance at this meeting is by invitation only. Issues discussed are things like the economy, foreign affairs, health care, and international trade. BC has done very well in dealing with the impact of the global economic downturn and that would account for the invitation this year.

Again, thank you for writing to share your views. I hope this response is helpful to you.

Subject: Mr. Fadden's Recent Comments

Hi Mr. Premier,

I am a Canadian a Chinese Canadian. I came to Canada from Taiwan more than 30 years ago.

Canada is truly one of the few best countries in the world. I am lucky to be living in this great country. However, a country does not become a great country itself. It is a result of decades of endless and continuous efforts of all people living in this country. Unfortunately, we can still hear some prejudiced comments or "theories" against certain groups of Canadians, or foreign countries from time to time. The most recent comments made by Mr. Fadden are another example. His inappropriate comments were wrapped with "patriotism" that might have confused many Canadians. In fact, he has damaged the country deeply. If there were evidences, CSIS should have arrested those people being accused by Mr. Fadden. If there is lack of evidence or the issue is still under investigation, Mr. Fadden should not have commented publicly. Mr. Fadden simply demonstrated how poor a judgement and quality his posses. Chinese Canadians are just like any Canadians, are loyal and patriotic to Canada a great country where all peoples are equal and rightfully treated.

Think that Mr. Fadden is the head of CSIS, a secret agency, it is really scary. Hope there is no White Horror in Canada!

Respectfully yours,

Subject: Concern for Canada

Hi there Mr. Horgan and Mr. Eby,

I hope it is safe to reach out to you both.

I am just one very small voice against this overwhelming wave of unprecedented certain foreign influence in Canada. Canada should only responsibly permit foreign land ownership of land, residential and business buildings, and resources to countries who allow the same Canadian ownership in their countries.

That would automatically eliminate certain countries of concern. We owe absolutely no apologies for protecting our country and our children's futures. If Canadians are not able to own land and resources in their country, then they can't own any here. As Canadians increasingly are aware, the recent government has not guarded Canada against the onslaught of immigration fraud, illegal activity, foreign ownership and infiltration into our politics and country. Like the Emperor's New Clothes, certain politicians just deny, but we see the obvious. Very concerning.

You may have seen this already interview with Peter Mansbridge and Richard Fadden of CSIS back in 2010. <https://www.youtube.com/watch?v=5xdnMuxTv1M>

Alarming, even though the situation has gotten much worse, certain politicians remain in power in Vancouver and Richmond and elsewhere in Canada. Please look into this.

Can someone please look into this.

PM and Premier of BC: Regarding Rigging governments prices and wear it... fixed it...

Do step in with purging The House of Commons/The Legislature of lobbying/influence peddling manipulating legislation and laws - enough is enough. From fixing the prices of houses/homes heating bills This must be what happens when government is also "fixed" and bent out of its democratic position by corporate/foreign financial intervention?

Regarding grocery store "out-lets" such as Loblaws and Save On Foods that store these food industry price/size rigged products like the "bread price fix" and a questionable \$25 "gift" card consolation prize behind door #??

What about each and every other product on these grocery store shelves that has had its price and size fixed? Less product for more money!!!

These duplicitous food industry companies' leaders have taken it upon themselves to knowingly dupe and rob its customers?

Sincerely Canadian
