Earlier today at the end of Question Period, my passion for health care got the better of me and I made some intemperate comments that may well have offended members of this house or others. I apologize for that and withdraw those remarks unreservedly.

Wait did he just go into the house and apologize...?!?!

Come on you guys, someone should be able to give a heads up that is happening before it happens. I'm sitting in my chair about to go live in 3m on this.

Well...

Okay, now I'm having to do something on the premier and his f-bomb.  
So can we just double-check, the tape seems clear he said it but he is denying he said it?

And also, is he apologizing for it or have anything else to say in a statement?  
Just double-checking.
