I know this takes a little time to watch but if you are a Canadian and particularly if you are a BC resident; you will be horrified.

Is this coming to other cities in BC or has it arrived?

This is the Documentary BC is talking about right now.

https://www.youtube.com/watch?v=PT8OU8Yhs_s

This is what needs to be cleaned up. ENFORCE the law. And stop the BS narrative around defunding the police. Our judicial system is in collapse. We are not safe.

I am moving out of Canada, but specifically out of BC specifically because of politicians' pushing a pro-drug culture narrative and for blatant disregard for enforcing laws. And the tolerance for thugs and violent behaviour. I worry about my kids who are staying behind.

Fix it! Please and thank you.

Vancouver is dying - provinces giving out drugs will see the same horror.

https://m.youtube.com/watch?v=PT8OU8Yhs_s&feature=youtu.be WATCH THE CURRENT LIFE IN VANCOUVER. Coming to a city near you under Liberal or NDP influence. Sicking.

Your province can have this too, just keep handing out drugs, needles and closing zones to help them get high. Alberta's Notley wants this and both Mayors in Edmonton and Calgary are NDP and Liberal followers of legalizing more drugs. Yeah us for having leaders with no common sense at all.

Hello Mr. Eby,

I have watched the documentary "Vancouver is Dying twice and I'm losing confidence with the way your government is handling the situation. Please help clean up the mess us downtown Vancouver residence are facing.

The documentary shows two sides of a horrible story and your side doesn't look good.

We will not vote for the NPD like we have done in the past, if changes are not carried out.

- dismantle safe injection sights as your government has turned our downtown Vancouver streets into an ugly walking dead mess.
- assist the city of Vancouver with dismantling illegal dangerous encampments.
- we need more law enforcement officers on our downtown streets and we need stiffer provincial laws to hold criminals accountable for their actions.

Downtown Vancouver has turned into an unsafe place and we have no peace of mind when we walk the streets to carry out errands. Everywhere we turn in our area we see tents, garbage, packs of addicts clogging our sidewalks, feces on the sidewalks, addicts shooting up outside our newly constructed condo, drug addicts walking aimlessly in our neighbourhood, assaults, break-ins and people begging for money. none of this is acceptable and the finger pointing has to stop. we are fed up.

It should be mandatory for all MPP's to watch the above mentioned video. Your government and the former City of Vancouver mayor have created a monster. We voted for a new mayor and will vote for a different provincial party next election if positive changes are not implemented.

Thank you,

Ken Sim and Council, David Eby and his new NDP government, and Joyce Murray and her national ndp/liberal government:

I have just watched "Vancouver is Dying/ Full Movie" by Aaron Gunn. He has put onto the You Tube screen what I have believed for years. Please watch this movie, what Aaron Gunn has found and reported on is TOTALLY TRUE. Please seriously think about what Aaron has found and reported on – it is TOTALLY TRUE. In this report, he has found the answers or perhaps better has asked the right questions and come up with a path that I believe is THE path that must be followed.

The federal, provincial, and civic governments must acknowledge their responsibilities and do what is necessary to bring help for mental health and addiction intervention, and finally, ensure judicial and police actions are undertaken to bring power back to the laws we have to make our city, province, and country safe again.

Please.

Thank you in advance
