The safe supply program is failing users, harming the public, spreading drug use through diversion and now supplying drugs to organized crime across the country.

It's time to stop the experiment.

Dear Premier Eby,

We want to voice our support for the "Self Care" bill being introduced. In our home we are constantly discussing the current drug nightmare in our Country & trying to think of solutions. s. 22

We also disagree with Safe Supply as it doubles the amount of drugs available to addicts. A recent drug bust in Campbell River found a large supply of pills handed out at the injection centre. They sell the pills, sometimes to youth, to get the money for hard drugs.

Everyday we see these poor unfortunate souls doubled over on the streets from Fentanyl. Please build more treatment centres, pass the self care bill & " Save them from Themselves!"

Sincerely
