The Honourable David Eby, M.L.A.
Premier of British Columbia
Office of the Premier
680 Superior Street
Victoria, B.C. K1A 0A2

Dear Premier:

I'm writing to commend the B.C. Government's decision to approve the Haisla Nation's Cedar LNG Project. As the first Indigenous-majority-owned LNG export facility in Canada, the Haisla Nation is paving a path forward for economic independence and reconciliation with vision, hard work, and leadership.

At TC Energy, we have been honoured to support this journey by delivering natural gas to the Cedar LNG facility through Coastal GasLink. We look forward to further collaborations with the Haisla Nation as part of the Indigenous communities that have signed equity option agreements to own part of the Coastal GasLink project.

We have also been closely reviewing with great interest, BC's announcement of the new Energy Action Framework. I would greatly appreciate the opportunity to meet with you to discuss the framework and how the province and TC Energy can work together to support efforts to combat climate change in B.C. and around the globe.

TC Energy continues to play a vital role in delivering a shared energy future that will help end the reliance on coal-fired power plants. Through the Coastal GasLink and LNG Canada project alone, we will be able to reduce global emissions by 60 to 90 million tonnes of CO₂. That's more than B.C.'s total annual emissions that can be eliminated from a single LNG project.

I am looking forward to working with you in support of B.C. communities, climate action and global energy security.

Sincerely,

François Poirier
President and Chief Executive Officer

Hey Don,

Matt doesn't think he'll have time for this meeting with TC Energy in advance of their meeting with PDE (Thursday afternoon). Do you think you'll have time this week? He says it's totally fine if you don't.

Thanks!

Alyssa Hrenyk (she/her)

Hi Matt,

I will be accompanying Francois, TC Energy's CEO, to the meeting with PDE on July 13th at 2:15pm in Vancouver.

We will be discussing several topics including: CGL Phase 2, Electrification, indigenous and non indigenous employment continuity and skills training, working together to fulfill the new energy framework and BCs climate goals. We would also like to briefly discuss a permitted project to construct a new net-zero natural gas pipeline from the peace to Nisga'a territory to supply natural gas to the Ksi Lisms LNG facility.

I'd like to take the time to meet with you before the PDE meeting to allow you and I to say hi :) and the opportunity to learn more about the project, our partnership with Nisga'a, and our net zero plans.

I'd love to grab a more casual coffee/beer in Victoria or Vancouver soon.

As well, with LNG 2023 rapidly approaching, I'd like to propose the week of July 3 for a more formal meeting with my technical and implementation team who will be in Vancouver in July 5th and Victoria on July 6th, which would be an ideal opportunity to hear from about the ksi lisms project and our plans to supply its natural gas.

We could also meet in Vancouver during LNG 2023 - July 9th to 12th.

Looking forward to catching up,

LIAM ILIFFE - /'EYE-LIFF'/

Director, BC Projects
External Relations Canada
