Dear (NAME),

Federal legalization of non-medical cannabis is coming next year. In preparation, we are working on how to regulate the product once the Government of Canada makes it legal. The provincial government's approach is to focus on protecting young people, making health and safety a priority, keeping cannabis out of the hands of criminals, and keeping our roads safe. You and your community are essential in helping us address the many issues and make the important decisions that will need to be made in the coming months.

To provide some background, in April 2017, the Government of Canada introduced two Bills in relation to the legalization of cannabis; Bill C-45 (the *Cannabis Act*) and Bill C-46 (amending the *Criminal Code* impaired driving provisions). The Bills are currently making their way through the federal parliamentary process with the goal of bringing Bill C-45 into force in July 2018, making non-medical cannabis legal in Canada as of that date. The federal government plans to bring into force the amendments related to drug-impaired driving as soon as Royal Assent is received.

As you know, this Provincial Government is committed to working closely with Indigenous peoples. This was most recently evidenced by the BC Cabinet and First Nations Leaders Gathering where Premier Horgan and all Ministers within the Government reaffirmed our goal of working together. In addition to the commitments made at the Leaders Gathering, all Ministries, including the Ministry of Public Safety and Solicitor General, have been directed by the Premier to implement the Truth and Reconciliation Commission's Calls to Action and the United Nations Declaration on the Rights of Indigenous Peoples.

In the spirit of working together and fulfilling our Government's commitments, I would like to extend an invitation as the Province develops its regulatory framework on cannabis legalization. Under the proposed Federal *Cannabis Act*, provinces and territories will regulate distribution and sale of non-medical cannabis within their respective jurisdictions, subject to minimum federal conditions. Provinces and territories will have the authority to:

- increase the minimum legal age established by the Government of Canada for purchase and possession of non-medical cannabis;
- regulate public consumption;
- establish additional restrictions on personal cultivation, and possession limits; and
- address cannabis impaired driving in provincial road safety laws.

As a result, the Province will need to make a number of decisions on how non-medical cannabis is regulated.

As part of this engagement, we invite you to provide a written submission and share your perspectives on the regulation of non-medical cannabis. In the event you wish to provide a written submission, we have enclosed a discussion paper which identifies a number of priority policy considerations for the development of a regulatory regime for non-medical cannabis in BC.

Please note that in order to promote the transparency of this engagement process, written submissions will be posted on our website. Submissions can be emailed to cannabis.secretariat@gov.bc.ca or mailed to the Cannabis Legalization and Regulation Secretariat no later than November 1, 2017 at 4:00 pm at the following address:

Ministry of Public Safety and Solicitor General
Attn: Cannabis Legalization and Regulation Secretariat
PO Box 9285 Stn Prov Gvt
Victoria BC V8W 9J7

Please ensure your submission does not exceed five pages and does not include third party information or personal information, such as personal telephone numbers or stories that identify specific citizens. In addition, if you have any questions regarding your submission or any other aspect of the regulation of non-medical cannabis, please contact the Cannabis Legalization and Regulation Secretariat at cannabis.secretariat@gov.bc.ca.

To further support the Province's cannabis engagement initiative, an online cannabis engagement site has been launched. This site provides valuable information regarding non-medical cannabis regulation and includes helpful links to cannabis related reports and publications. A feedback form on the site enables all British Columbians to share their views about non-medical cannabis directly with the Province. The engagement site is <http://engage.gov.bc.ca/BCcannabisregulation>.

There is a lot of work ahead of us, and we look forward to a productive engagement process and to working collaboratively with you. Your input is valuable and the responses we receive through this engagement will help to inform the development of a regulatory framework that best represents the interests and priorities of British Columbians.

Thank you for sharing your perspectives with us.

Sincerely,

Mike Farnworth
Minister of Public Safety
and Solicitor General
