Good day folks – as this is:

1. A BC Oil and Gas Commission regulated company, and
2. An emergency level incident

Wondering why the first call was not to the Commission since we are the lead regulatory agency, not ministry of environment. An email ten minutes after a 3rd party (MOE) was notified, and half an hour after the call was logged by EMBC (as per your timeline on the DGIR) is not sufficient for emergency level incidents.
