| Affected Environment : | | Other : | Storm Drain |
| Type of Spilling : | Dumping | Other Spill Type : | |
| Accidents: | | | |
| Sector: | Unknown | | |
| Cause : | Oil spill into 2 storm manholes located upstream of the UBC south Campus sediment control pond, discovered by UBC utilities operators on May 16th. Storm manholes were pumped and flushed May 17. Subsequent water samples were tested for hydrocarbon contaminants. Result of investigations indicates that this was due to inadvertent dumping by a non UBC tenant located at 3800 Westbrook Mall. Probably less than 20 liters. | | |
