Hi again,

I just wanted to check in again about the legislation being introduced that day about payday loans. Minister James is also planning to announce a presale condo registry that day, to stop the repeated flipping of condos pre-construction that drastically inflates costs.

The PO has asked that these two things be combined into one joint announcement under the broader umbrella of consumer protection, which fits nicely with the messaging coming out of the throne speech yesterday.

Let me know if you have any questions about this – we would plan for a mid afternoon presser as your legislation needs to be introduced first – timing is around 3pm that you could go up, correct?

Thanks

Rick

Yes, we do think it's a great opportunity to create some awareness on cannabis topics. I've let Glen know we are considering it.

Ian has written up a fantastic Op-Ed on driving laws + cannabis that meets Cannabiz word requirements, attached.

Hi,

Cannabiz magazine has offered the Minister another column in their next magazine. The previous is attached as a PDF—MMF talked about compliance with the law (page 12).

If MMF would like to be in the next issue, Caroline has suggested he could talk about drug affected driving, a general reminder of the laws, or a summary of how many people have been visiting/viewing cannabis clarity website and ads.

The editor and chief has said the deadline would be Feb 22, so there is some time to write if MMF chooses to go ahead, but the EiC has asked for a yes/no this week.

Let us know,

Hi Liam and Nimmi,

Please see attached for some docs related to upcoming/planned legislation and OICS this session. As you know, we have received some direction from GCPE HQ to limit announcements and events in the lead up to and follow up to the budget (Feb and March).

Included is the latest MA Pitch document on Consumer Financial Protection Plan Phase 2.... Do you know when this legislation is moving forward this spring? We are not sure at this point whether you have pitched it as a NR only, or NR and a golden gate media avail. Perhaps we can discuss at the call on Friday.

Also attached, are some KMs for both the Motor Dealer Act and Funeral Services in remote communities in anticipation of both OICs going forward.

Let us know if you have any questions.

Hello friends,

As discussed at the MA meeting last Friday, MIRR is looking to pull together a list of new spending in the budget, cross-government, on reconciliation priorities. Please work with your CD's to send Sarah Plank (sarah.plank@gov.bc.ca) some short bullets/paragraphs outlining any **new** spending by end of day Friday.

This will help us put together a fact sheet that collates all of the important investments, and support other materials, messaging and echo products as needed.

Subject: First Responders Memorial Grant Program Inquiry

Hi Nimmi,

The Federal Government created a Memorial Grant Program for First Responders back in April of this year. But, for first responders to be able to access it, a province must sign the Memorandum of Agreement with the Federal Government regarding it. The MOA is just to ensure that the full amount of the grant would not be off-set or subject to any reductions by any existing or future benefit schemes that operate at the provincial or municipal levels.

I understand BC has not yet signed on and we were wanting to follow up where it is at and if there's a timeline for signing onto it?

Here's a link to the program: <https://www.publicsafety.gc.ca/cnt/bt/mmrl-grnt-prgrm/index-en.aspx> and the original press release: <https://www.newswire.ca/news-releases/government-of-canada-highlights-the-new-memorial-grant-program-for-first-responders-679430853.html>

Hi Sara, as noted before he would be in the House that day, he is House Leader so the only opportunity would be during the lunch hour.
I can check on that?

Hi Caroline,
Our Minister's Office is asking if the 4th could work, somewhere on the island, around where MMF would already be?
That's the only date that could really work.
Let me know when you can.
Thanks!

Hi there: info from our MO.
- better to go to March.

- morning of March 8 if lower mainland.
 - we could probably make any day during the break weeks work
 - Nanaimo a possibility (again on a Friday or a break week)

Hi Isabelle, MMF will be in the House that day. Fridays during session are the days he generally can be in Vancouver.

Do you want us to look for a Friday in March, or during spring break?

The feedback we've received today is to perhaps push the event to Monday, March 4th, somewhere in the Greater Vancouver area. What do you think?

We asked today if the event could be held in Vancouver or Surrey. But the response was that if Victoria wasn't an option, the event should be on Vancouver Island...

I unfortunately don't have the rest of the itinerary to know how much flexibility there is – might know more Monday. I do like your suggestion of the legislature/press theatre Friday morning. I'd encourage it be included as an option for our consideration.

What if fed rep came to the legislature so they could do it on the Friday AM in our press theatre.

That might be more doable.

Minister is in the lower mainland so we'd have to check and see if he can be on the island. Same issue applies though, that it's a matter of resources as we have limited event folks and this is right after Budget for us and things will be busy and could be otherwise deployed.

Dear Minister

Please read the CBC news item about Lumby, BC. This is why people don't want cannabis growing on good food agricultural land. Who wants the stink and a waste of land for something that goes up in smoke and adds to air pollution. I know it's legal and many people were happy about legalization but many people are not smart. It is up to you educated politicians to decide what is the best use of agricultural land. There is not a lot of it in BC.

A huge vegetable farm in Ontario was recently converted to a cannabis farm. In Delta BC, a huge tomato producing greenhouse farm was converted to cannabis production. More food production lost. It is difficult for humans to eat and digest cannabis plants! The cannabis facilities are not allowed to use concrete floors so what are you going to do to prevent chemical or concentrated fertilizers from soaking into the ground and percolating into groundwater aquifers?

s.22

You offered nothing in the form of examining the issues associated with these cannabis operations and acting on it. You deferred to the municipalities having the say on these things. For God sakes you are the senior government here and this is not something the municipalities should be regulating. The NDP brought in the Agricultural Land Reserve so TAKE responsibility for it.

I am probably not the first person who has had this idea. Why would the province not mandate the location of these legal grow ops to areas where the towns have lost their industrial base? They have an abundance of workers, the business would be built on industrial land not agricultural land, some taxes would flow to the local communities that desperately need them. The NDP could improve their status in the interior as well as some smaller coastal locations. The idea of putting grow ops on farm land that is producing food for BC goes against reasonable thinking.

If this thought has been fully examined I apologize for taking your time but if not it is ripe for consideration.

Thank you.

Hi Sara,

No issues with meeting, for some reason staff sent it up as draft reply when I had sent it on for advice. I have attached a copy of the reply here for your information, it has been reviewed and approved by Mark. If you would like to send this formal response out please let me know and I will work with CCU to coordinate.

If you'd like to just reach out to the meeting requestor to set something up that works as well. If you do set up a meeting, please let me know and I will arrange for staff to attend and for an IBN.

Thanks,

Subject: Call for Records PSS-2019-90805 Due February 22, 2019
Hello, please note that this is a x-govt request.

Please find attached a Call for Records form that is electronic, fillable and saveable. The form has active links and pull-down menus. Please send your records **in one PDF document**, to the Justice/Social mailbox at justice.social.foi@gov.bc.ca. Thank-you.

Your Ministry has received a formal request made under the *Freedom of Information and Protection of Privacy Act* (FOIPPA). The request is for:

Provide copies of all communication between Andrew Weaver and the Minister/Premier/Minister of State or their staff. Restrict search to the Premier/Minister/Minister of State Offices. (Date Range for Record Search: From 12/01/2018 To 01/31/2019).

Please contact the analyst assigned to this request if you have any questions – **Liz Babecy (250) 952-6353**.

What Do You Need to Do?

Please complete the attached Call for Records form.

- If search and retrieval time is anticipated to exceed 3 hours and/or the total volume of records exceeds 200 pages, complete only Sections 1 & 2 of the Call for Records Form as we may be in a position to issue a fee estimate. Then, return the form to the Justice/Social FOI Mailbox at justice.social.foi@gov.bc.ca by February 15, 2019. Please await further instruction from IAO as the records will not be required until the fee estimate process has been completed. Once fees have been paid or waived, you will be contacted to continue the call for records process. You will also be advised you if the request is abandoned and/or closed.
- If no fees apply then proceed with the call for records process. Please complete the attached Call for Records Form and return it to the Justice/Social FOI Mailbox at justice.social.foi@gov.bc.ca by February 22, 2019. Send records via email in PDF format. One PDF document is preferable. If email is not possible, please send the records in electronic format (CD, memory stick) via house mail with a copy of this note.

Reminder

You should be aware that FOIPPA obligates us to assist the applicant and to respond without delay, openly, accurately, and completely. In the event that the ministry must defend the adequacy of its search to the Information and Privacy Commissioner at Inquiry, those involved in searching for records may be required to sign affidavits confirming they have conducted an adequate search for relevant records.

Questions and Concerns

Please do not hesitate to contact your analyst noted on the attached Call for Records form to discuss:

- whether the records may be routinely releasable;
- whether the information is being prepared for public release or is already publicly available;
- ways in which an applicant may want to narrow/focus their request to reduce potential fees;
- and/or any other questions or concerns relating to this request.

Hi Sara,

This is the first Vision Zero event held by a municipality in the Province. We suggest referring the invitation to ADM Patty Boyle to attend on the Minister's behalf. However, there is no harm in the Minister attending other than perhaps setting the expectation from other municipalities that he attend, as this is the first of potentially many invitations to come.

Please let me know what you decide.

Hi again,

I just wanted to check in again about the legislation being introduced that day about payday loans. Minister James is also planning to announce a presale condo registry that day, to stop the repeated flipping of condos pre-construction that drastically inflates costs.

The PO has asked that these two things be combined into one joint announcement under the broader umbrella of consumer protection, which fits nicely with the messaging coming out of the throne speech yesterday.

Let me know if you have any questions about this – we would plan for a mid afternoon presser as your legislation needs to be introduced first – timing is around 3pm that you could go up, correct?

Thanks

Program Inquiry

Hi Nimmi,
The Federal Government created a Memorial Grant Program for First Responders back in April of this year. But, for first responders to be able to access it, a province must sign the Memorandum of Agreement with the Federal Government regarding it. The MOA is just to ensure that the full amount of the grant would not be off-set or subject to any reductions by any existing or future benefit schemes that operate at the provincial or municipal levels. I understand BC has not yet signed on and we were wanting to follow up where it is at and if there's a timeline for signing onto it?
Here's a link to the program:

Hi Tonia . Teri has this file I think. I think I got this right but she can advise if I got something wrong. This is a matter that Minister Farnworth has asked us to expedite and I've offered to speak with dms or have Minister Farnworth speak with Ministers who have policy or legislation that creates barriers.

Hi Nimmi,

I assume you have been made aware by your Department that we have an announcement in the works for the 'Initiative to Take Action Against Gun and Gang Violence' funding (aka guns and gangs funding) agreement.

Just wanted to relay this personally and confirm this will take place March 4th in Victoria. I am told this will be during Minister Farnworth's lunch hour, which I anticipate is around noon.

Please feel free to call me if you would like to discuss any details around this. I am told our departments are taking the lead on planning. However I will be reaching out to MPs to invite them to join.

Hope you stay warm or enjoy this real Canadian Winter – whichever you prefer!

Hi there: info from our MO.

- better to go to March.

- morning of March 8 if lower mainland.

- we could probably make any day during the break weeks work

- Nanaimo a possibility (again on a Friday or a break week)

Hi there: info from our MO.

- better to go to March.

- morning of March 8 if lower mainland.

- we could probably make any day during the break weeks work

- Nanaimo a possibility (again on a Friday or a break week)

We asked today if the event could be held in Vancouver or Surrey. But the response was that if Victoria wasn't an option, the event should be on Vancouver Island...

I unfortunately don't have the rest of the itinerary to know how much flexibility there is – might know more Monday. I do like your suggestion of the legislature/press theatre Friday morning. I'd encourage it be included as an option for our consideration.

Minister is in the lower mainland so we'd have to check and see if he can be on the island. Same issue applies though, that it's a matter of resources as we have limited event folks and this is right after Budget for us and things will be busy and could be otherwise deployed.

Hi Nimmi,

Yes, we do think it's a great opportunity to create some awareness on cannabis topics. I've let Glen know we are considering it.

Ian has written up a fantastic Op-Ed on driving laws + cannabis that meets Cannabiz word requirements, attached. Can you take a look and let us know if this is good/Minister likes?

Thanks,

Subject: Media Request: Cannabiz column

Hi,

Cannabiz magazine has offered the Minister another column in their next magazine. The previous is attached as a PDF—MMF talked about compliance with the law (page 12). If MMF would like to be in the next issue, Caroline has suggested he could talk about drug affected driving, a general reminder of the laws, or a summary of how many people have been visiting/viewing cannabis clarity website and ads.

The editor and chief has said the deadline would be Feb 22,

so there is some time to write if MMF chooses to go ahead,
but the EiC has asked for a yes/no this week.

Let us know,

Colin

The year-to-year breakdown for inmate-on-inmate assaults from 2014 to 2018 at BC Corrections facilities? And if at all possible (please let me know why not if not) can the data be provided in a way that associates numbers of assaults per year with the correction facility the assault occurred in, for both the inmate on inmate assaults, and inmate on correctional officer assaults?

Background

Recommendation: Provide background:

BC Corrections' top priority is the safety of its staff, the community and the inmates in its custody. No incidents of violence or aggression are tolerated – each is reviewed and, where appropriate, reported to police, and inmates can be charged internally or face criminal charges.

Violent incidents are categorized as an action that results in some degree of intentional physical contact or force, such as throwing items, spitting, scratching, pushing or hitting. It's important to understand that most incidents of staff assault do not result in serious injury.

In 2017, overall violent incidents went down 7%. This reduction reflects the good work BC Corrections has been doing to address this issue since completing an in-depth analysis of staff assaults in 2016 – with the goal of finding ways to prevent future assaults from happening – and that work continues.

Looking for an update on the CSU hiring process.

Also would like to know if the CSU is responsible for enforcement of under 19 laws in relation to 420 festivals like the one at sunset beach in vancouver

About the CSU's hiring process:

- The CSU is actively recruiting to fill all vacant positions and a number of competitions are currently underway.
- Several key positions have been filled and these staff are actively engaged in development work to support the creation of this new Unit.
- Once fully staffed, it is expected that the CSU will be comprised of approximately 44 FTEs operating province-wide out of four regional offices.

About the CSU's operations:

- We are unable to comment on the enforcement actions that the CSU will or will not undertake in response to specific cases or situations.
- Generally speaking, the CSU will operate a regulatory compliance and enforcement program with an immediate focus on the illegal retail sale of cannabis without a licence and other associated activities.
- The CSU will undertake a range of activities such as conducting inspections and investigations, seizing cannabis that is possessed in violation of provincial legislation, issuing violation tickets, issuing notices of administrative monetary penalties, applying to the B.C. Supreme Court for injunctions and making

recommendations to the BC Prosecution Service when provincial and/or criminal charges are warranted.

- As we've said, while the CSU is not yet operational, illegal retailers that do not obtain a provincial licence will have to close, and as more legal retail stores open across the Province, you can expect to see increasing enforcement action by the Community Safety Unit.
- Additionally, police also have authority to enforce laws with respect to cannabis. This includes authority to make seizures, issue violation tickets and investigate and prosecute offences under both the provincial statutes and the federal criminal law. It's important to note that the Province does not provide operational direction to police forces; police set their own operational priorities based on their assessment of the needs of the community and they

Deadline ASAP

Reporter is hoping to talk with MMF for 10-20 min by phone tomorrow on his stories around missing peoples in BC.

Background

Statement from Mike Farnworth, Minister of Public Safety and Solicitor General:

"It is unfortunate that some families of missing persons in BC are feeling frustrated by the investigating police and we know that these types of investigations can be extremely difficult. The government cannot interfere in specific investigations but rather, through the Provincial Policing Standards, set overall guidelines on the approach to be taken. For example the Standards set out expectations for ongoing monitoring and review of the investigations, and ongoing communication with family members, except where the release of information could jeopardize the investigation or the missing person's safety. It's also important to note that the definition of a missing person under the Standards is very broad, which is the approach that Commissioner Oppal recommended. Other jurisdictions in Canada may use a different definition or criteria, which could make comparisons of missing person rates challenging.

"The province has taken a number of steps in response to Commissioner Oppal's report "Forsaken – the Report of the Missing Women Commission of Inquiry, many of which were related to missing person investigations. The province enacted missing persons legislation to enable police to get quicker access to records and information that could help locate a missing person to ensure their safety, provided privacy rights were not unduly infringed upon."

“The Missing Persons Act is one of two important legislative tools – the other is amendments to the Police Act – Part 8.1- that fulfill more recommendations from Commissioner Oppal in his Inquiry report. Once in effect, it will enhance oversight and accountability for serious investigations such as murders and missing person investigations where foul play is suspected, by requiring internal review of inactive investigations and adding a power for the Director of Police Services to order an external audit of the investigation by another police force. As well the Real Time Intelligence Centre was established to provide 24/7 analytical support to police investigating crime, including missing persons. The Provincial Policing Standards for missing person investigations have been in effect since September 2016. Standards have also been developed for major case investigations, which includes missing person investigations where foul play is suspected. These standards will begin to take effect in January 2019.”

“I also want to point out that by leveraging federal funding, the Province has developed a Family Information Liaison Unit (B.C. FILU) here in British Columbia - a provincial frontline victim service unit that provides a ‘one-stop information service’ for families of missing or murdered Indigenous women and girls. B.C. FILU staff support family members by acting as a liaison to request information they are seeking from government and system partners, and ensuring that this information is provided to them in a trauma-informed and culturally sensitive manner. In addition to assisting families with

gathering information related to the loss of their loved one, the FILU also supports proactive referrals to available community programs and resources to support healing, for example: trauma counselling, elder/cultural supports, and information about financial programs.”

Hello,

My name is Nicole Crescenzi, I’m a reporter for Victoria News.

I was wondering if anyone could tell me some information about this posting for the Victoria Police Board:

<https://www.brainhunter.com/frontoffice/seekerViewJobDetailAction.do?sitecode=pl526&jobId=2318503&page=search&external=>

Specifically:

- Who stepped down to create the two vacancies?
- I see there’s a specific request for more diverse applicants; why is this so specifically-outlined for this position? How diverse is the current police board?
- What is the honorarium associated with this role?

Thank you,

Background

Recommendation

The Ticket Buying Report, which came out in August, showed there is public interest in regulating ticket buying and selling for live events in B.C. The report also showed there is concrete public interest in greater transparency, including on how tickets are offered for sale to the general public, and around pricing.

Ministry staff have been and are consulting with stakeholders, the music industry and others as part of its policy work. Additionally, the staff have been taking a closer look at other jurisdictions that have recently made changes to their ticket buying/selling laws.

As outlined in today's Throne Speech, government plans to take action on this file soon.

Reporter is following up on loss of greyhound service in PG and BC Corrections prior use of greyhound to get inmates to their court of origin. PG police chief has said today that due to the loss of greyhound that their are inmates being released into PG from outside of PG who are not leaving PG now, and are becoming involved/increased the downtown crime scene.

Reporter is looking for response from BC Corrections on this claim.

Background

Recommendation:

Statement from BC Corrections spokesperson Cindy Rose:

"As inmates leave custody, BC Corrections is obliged to return them to what's called their 'court of origin' within the province – and staff strive in every instance to release them to their home community, or to another location considered reasonable or necessary, like a treatment centre.

"Inmates are given tickets for the bus transportation that is available, or airfare to some remote locations. In some instances, we have used transition beds, such as halfway houses, when a bus is not departing on the inmate's release date. Frequently, inmates are picked up by friends and family at the end of their custodial sentence. We are now giving gas cards (\$50-\$100) to family members to pick up the released individual and return them to their home community. This has proven very popular.

"Other transportation alternatives include taxi vouchers, rides from staff, and the pick-

up service that some community resources like treatment centres provide.

“All of this said, some released inmates may choose not to follow through with the transportation plan, and may choose to remain in Prince George. BC Corrections cannot require an inmate to use a specific transportation option or go to a specific location, nor can BC Corrections prevent the person from going somewhere unless doing so could contravene a condition of a court-ordered probation order.”

Amendments to the British Columbia Sex Offender Information Registration
Regulations and Schedule
Speaking Notes

ISSUE SUMMARY:

- This Order in Council amends the BC *Sex Offender Information Registration Regulations* and schedule.
 - Expands the information that a sex offender may provide by telephone;
 - Expands the list of persons authorized in BC to collect information from a sex offender; and,
 - Updates addresses for three police agencies that have moved.
- Expansion of information a sex offender may provide by telephone and persons authorized to collect information increases the administrative effectiveness of the program.
- Locations must be current to advise sex offenders where they can go to register.

BACKGROUND:

- The *Sex Offender Information Registration Act* (the Act) was enacted by the federal government in 2004 to regulate the registration of sex offenders residing in communities.
- Section 18(1)(d) of the Act authorizes lieutenant governors in council to make regulations regarding registration centres in their provinces.

- The British Columbia Sex Offender Information Registration Regulations (the regulation) designates BC police agencies as Registration Centres for the National Sex Offender Registry.
- The registry is accessible to all accredited Canadian police agencies through a provincial/territorial registration centre.
- The BC Sex Offender Information Registration Centre (BC SOIRC) is administered by RCMP "E" Division.
- The registry assists police investigation of crimes of a sexual nature by providing up-to-date information on convicted sex offenders and identifying all registered sex offenders living within a particular geographic area.
- The OIC satisfies BC SOIRC request to expand the list of information that may be collected by telephone to align with current practices and as authorized under the Act.
- The OIC satisfies police stakeholders request to expand the list of persons authorized to collect information from a sex offender to increase administrative efficiency.

Hello friends,

As discussed at the MA meeting last Friday, MIRR is looking to pull together a list of new spending in the budget, cross-government, on reconciliation priorities. Please work with your CD's to send Sarah Plank (sarah.plank@gov.bc.ca) some short bullets/paragraphs outlining any **new** spending by end of day Friday. This will help us put together a fact sheet that collates all of the important investments, and support other materials, messaging and echo products as needed.

Not sure on this particular issue but this is recent messaging from AGRI on the topic – perhaps it was used in previous correspondence:

- In July 2018, local and First Nations governments were provided the ability to prohibit cannabis production in new concrete-floored structures on ALR land if they so choose. The change allows individual local and First Nation governments to make decisions regarding cannabis production on the ALR that align with local planning and priorities in their communities, including the preservation of farmland. The changes only pertain to land in the ALR. Local governments have the ability to regulate or prohibit cannabis production on other land in their communities.
- This policy also prohibits local governments from banning commercial cannabis production in existing licensed operations (or in open fields or in soil based structures in the ALR moving forward.) Many local and First Nation governments have different approaches for regulating cannabis growth in their communities, be it on the ALR or lands that are zoned for industrial or other purposes. Non-soil based production does not require farmland; it can also occur on industrial zoned land where the local government allows it.
- We know that some of those authorized to grow under the ACMPR now wish to participate in the legal market for commercial purposes, which is why British Columbia advocated that the Government of Canada facilitate the participation of small-scale producers and processors in the legal cannabis industry and were pleased when they introduced new micro-cultivation and micro-processing licences. We also know that the cannabis sector can be a driver of economic growth and employment in B.C., as it has been in other jurisdictions, and we will continue to work with the federal government to advance the interests of B.C. producers. The Province has been working closely with the Union of B.C.

Municipalities through a joint working group and will continue to discuss policy and implementation issues at that table. Cannabis growers should consider which local government's bylaws and regulations regarding cannabis production align with their proposed operations, and plan accordingly.

- Adjusting to the end of nearly 100 years of prohibition is going to take some time and we recognize that all levels of government will need to monitor implementation and assess and refine cannabis policy and regulation over the months and years ahead.

Dear Minister

Please read the CBC news item about Lumby, BC. This is why people don't want cannabis growing on good food agricultural land. Who wants the stink and a waste of land for something that goes up in smoke and adds to air pollution. I know it's legal and many people were happy about legalization but many people are not smart. It is up to you educated politicians to decide what is the best use of agricultural land. There is not a lot of it in BC.

A huge vegetable farm in Ontario was recently converted to a cannabis farm. In Delta BC, a huge tomato producing greenhouse farm was converted to cannabis production. More food production lost. It is difficult for humans to eat and digest cannabis plants! The cannabis facilities are not allowed to use concrete floors so what are you going to do to prevent chemical or concentrated fertilizers from soaking into the ground and percolating into groundwater aquifers?

Consumer Protection

[...]

Building on reforms introduced last year, government will take further steps to crack down on unfair payday lending practices. New legislation will cap fees for cashing government cheques, provide oversight for installment loans, and improve consumer education.

Last year, government heard from thousands of British Columbians about the unfair sale and re-sale of concert and event tickets. People are frustrated that companies can buy up large numbers of tickets to popular events and re-sell them to fans at sky-high prices. This year, government will introduce new rules for live ticket sales, including a ban on software that lets companies buy tickets en masse, and more transparency for all companies selling tickets to live events.

Safer and Stronger Communities

From guns and gangs and organized crime, to the safe implementation of legalized non-medical cannabis, government is improving public safety for all British Columbians.

B.C. is strengthening prevention, protection and support for victims of crime, and marginalized and vulnerable women and children.

New transition houses are underway for women and children fleeing domestic

violence are being built in Prince George, Kitimat, Smithers, and Victoria. These are the first of 1,500 new units of much-needed housing for women and children fleeing violence over 10 years, including transition houses, safe homes, second-stage and long-term housing.

Subject: Follow-up

Hi Lori,

Just had a quick debrief with PS Rice and Krystal and wanted to follow up on the Ag recovery piece.

I had a couple questions just for clarity and wanted to touch base on the plan going forward for this. It would be good to chat before your briefing with PS Rice tomorrow.

Much thanks!

Hi Will,
Janet is in the House next up to respond to Budget. Garry will be going in to listen. Can we re-schedule the 5pm meeting today to tomorrow morning before 9:45 Caucus mtg? or after QP? Tks, Angela

Hi Liam,

Just wanted you to know that I'm meeting with the LRC vice-chair to get sign off on a few changes post last week's LRC to Heritage Conservation ams—and, we had hoped, to the Community Safety piece so it could be ready for introduction next Tuesday. I'm hearing agreement won't be reached on changes to the CSA by the time I meet with the Vice-chair, meaning the CSA won't be ready for intro as planned.

Thanks Mark.

Really looking forward to getting up to speed with a better understanding of this file.

Briefings with all the exec team members would be great – hopefully each division can provide a comprehensive overview with a deck. It would also be great to sit down with the lead person who manages the day-to-day of the DMO.

Other processes I would like better understanding in the ministry/MO are:

- General paper flow from DMO to MO
 - Minister briefings, DM check-ins, etc
- Correspondence process
- FOI process
- GCPE operations
- MO Financials
- Strategic direction / mandate items

I'm sure there's much more as I find out what I actually don't know... but this should be a good start.

... and I'll ask Linsey to find some time for us , Will, in the next couple weeks. Also, Toby will have an overview binder for you. And mtg with Toby sooner than later would be a good idea. We will set up individual briefings with other Exec team members during the Break weeks.
