Hope you're doing well.

Would it be helpful to send along bullet points for you to share with the constituent? I can get a response moving along.

Hi Arora,

Any comments on messaging for this message from a constituent?

Congratulations on your win in the last provincial election and thank you in advance for your public service.

I am writing to let you know of my frustration in the slow progress and what appears to be neglect on the part of the province in terms of cycling and the changes to the motor vehicle act.

I am equally frustrated with the premiers priority on dealing with Ride Sharing and Uber when cyclists have been lobbying for changes to the MVA long before Ride Sharing was a concept.. Why they have jumped the queue is suspicious.

Please speak for me to your colleagues and champion the cause for a more inclusive MVA.

Dear Mr. Farnworth, Honourable Minister of Public Safety & Solicitor General - Port Coquitlam

I am touching base again as you may not have received my earlier email of March 19, since I sent it prior to your two week session break.

Ticket scalping, ticket bots and other key security problems inherent in the event industry are the focus of our software solution which uses Blockchain and Smart Contract technology to combat these issues.

Since my last email, Ashton Addison CEO EventChain International, was the opening keynote speaker at this year's TechLaw conference in Singapore. The closing keynote speaker was Brad Smith, President and Chief Legal Officer, MICROSOFT. : <https://techlawfest.com/>

Since EventChain development commenced in July 2017, we have met all of our development milestones and are on target for full production release on August 31, this year.

Would you be interested in a brief call to explore how or whether our project could be used to help accelerate your initiative for addressing these issues?

We are but one; but much like Robin Hood, no matter the odds; we are committed and relentless in our pursuit

to fight for the right of everyday people to support professionals and industries by attending their events, without being fleeced and to raise meaningful barriers to criminal activities that typically plague the industry.

Who are we? We are Click4Time, an 8 year established software developer and global online service provider in the service sector for scheduling and business management optimization. Our solution is EventChain SmartTickets at EventChain.io

Ashton Addison has been published as one of the top thirteen experts and influencers in Blockchain technology and the community worldwide. EventChain International SmartTickets is based in Vancouver B.C.

My name is Geoffrey Spooner, partner, director and owner of Click4Time and VP Sales & Marketing EventChain

My direct line is 604-649-1978.

If interested, please call at your convenience.

Thank you for your time and consideration.

* For travel within Canada or between Canada and the United States, a Canadian tax of \$3.00 CAD may apply to baggage fees. For travel between Canada or the United States and Mexico, the Dominican Republic and Barbados, an applicable local sales tax of \$4.00 CAD may apply to baggage fees. For all other itineraries to/from Mexico, the Dominican Republic and Barbados as well as itineraries to/from South America, an applicable local sales tax of \$21.00 CAD may apply to baggage fees. All above tax amounts are based on the maximum applicable tax amounts per itinerary type. Actual amounts may vary and will be charged in the currency used in your departure airport. Tax amounts are subject to change without notice by local government.

Currency

Fee amounts are displayed in the currency of the first departure city on your ticket. On the day of travel, applicable fees will be assessed in the local currency of the country/region you are travelling from. Certain exceptions may apply where the departure airport does not charge in local currency. The currency exchange rate will be determined by the date of travel.

Stopovers

Checked baggage fees may be reassessed when itineraries include an enroute stopover of more than 24 hours.

Note: If you **exceed your baggage allowance** (in number, size and/or weight), additional checked baggage charges will apply. The policy and fees will be those of the carrier identified in the checked baggage information section.

Hi Sara,

No worries, I'm wondering what they mean by "Vancouver" ☺ - is this at their office in Burnaby? Or are they willing to come out to PoCo? If they are willing to come to PoCo, that is always preferable ☺. But, if it's at their office in Burnaby it's not that bad either. But if they come out to PoCo, maximum number is 3 attendees.

Does that help? Looking at early June? Maybe June 8th, depending on location will determine time.

Keep care,

Hope you are doing well.

I was wondering if you could help me a bit on this one particular meeting. It's not an urgent meeting but they have requested to meet on a Friday when the Minister is on the other side. Could you give me a date that you think would be best for this and do you know if I should suggest them to meet at the constituency office or in Vancouver? Sorry to be a pest, I know you are busy, I just don't want to set it up and have it be a total inconvenience.

Thanks Talea!

Hi Sara,

Following up on your previous email. Engineers and Geoscientists BC would welcome an opportunity to meet with Minister Farnworth in Vancouver on a Friday if possible.

At your convenience, if you would like to send me possible dates and times for a Friday meeting in Vancouver that work for the Minister, I can coordinate with our executive team to confirm a date, as well

as attendees from the association.

Let me know if you need anything else from me at this time.

Thanks,
Laurel

Hi Sara,

Thanks for your email. Engineers and Geoscientists BC appreciates the opportunity to meet with Minister Farnworth either in Victoria or Vancouver.

I'm in the process of aligning calendars on my end and once I have our preference for location, I'll be back to you as soon as possible this week so that we can work on confirming a date and time, as well as provide you with a list of attendees.

Back to you shortly.

Good afternoon,

I am receipt of your request for a meeting with Minister Farnworth.

Due to the House sitting, the Minister is not able to leave the Legislature from Monday thru Thursdays so I would have to schedule something in Victoria unless we are able to set something up on a Friday as the Minister will be back in Vancouver.

Please advise of your preference of locations, along with names and titles of all staff that will be accompanying you.

Thank you and feel free to contact me with any questions.

We look forward to hearing from you in the near future.

Dear Minister Farnworth:

I am writing on behalf of Engineers and Geoscientists BC to request a meeting to discuss how we are supporting your government's priorities and opportunities to better collaborate with your Ministry. We very much appreciated the opportunity to host you recently at the UBC Earthquake Engineering Research Facility. While there we touched on the various ways our Ministry is supporting your

government's priorities related to emergency preparedness and we would like to continue that discussion. We would welcome the opportunity to meet with you in Victoria or Vancouver at a time that is convenient for you.

As you are aware, Engineers and Geoscientists BC (formerly known as APEGBC) administers the Engineers and Geoscientists Act which regulates the practice of professional engineering and professional geoscience in BC. We have a clear mandate to uphold and protect the public interest by setting and maintaining high academic, experience and professional practice standards. We are one of the largest regulatory bodies in BC with 34,000 members who work in every corner of the province. When we meet we would also like to brief you on changes we feel would improve our regulatory framework that would allow us to ensure we are able to properly fulfil our mandate to protect the public interest.

Engineers and geoscientists play a key role in the economy and we are a committed partner of the BC Government. We support many of your priorities in a number of fundamental ways, for example:

- Helping make BC schools seismically safe by providing expert advice to the Ministry of Education since 2004;
- Supporting labour mobility through innovative partnerships that help internationally-trained professionals integrate into BC.
- Developing practice guidelines for Legislated Flood Hazards and Risk Assessments to help manage our changing climate.
- Providing support to the Ministry of Forests, Lands, Natural Resource Operations by assisting with guidelines for forest resource roads; and
- Supporting the province's many infrastructure projects through the work of our members.

If I can offer any additional information, or answer any questions that you or your staff may have, please don't hesitate to contact me.

I look forward to your reply.

Sincerely,
Ann

Dear Hon. Mike Farnworth,

The Canadian Association of Medical Cannabis Dispensaries (CAMCD), would like to request a meeting with you in Vancouver if possible, otherwise we are more than happy to take the trip over to Victoria once again.

We met with you back in November last year and appreciated the time you spent listening to us. We have been listening to our community and

collaborating with regulators and have learned a lot in this time. We are asking for another meeting to discuss BC's Cannabis Sector moving forward.

We would appreciate the opportunity to meet with you as soon as possible.

Please contact me to arrange a meeting.

I have selected a few options from the Government website for hotels. Let me know which one you prefer and I can book. Typically, I believe Jennifer Rice's assistant books her travel and hotel. I understand she has a new assistant so I am not sure if I should have her book this trip for Jen or if I should schedule both. I'll contact her and see what she thinks. Will Jennifer also be flying out of Vancouver?

Hey Talea

I'm not actually sure how they do it. Michelle is away today so I just don't want to break protocol. I know PSR has travel with s.22 but I am not sure who arranged it. The only reason I can see there being issue with our office booking is budget wise and purchases on the purchase card. I have tried calling Michelle but can't reach her. Certainly, it wouldn't be a problem to book them both at the same time and probably easier but I don't know who to bill too. I asked Nimmi who said I need to ask Liam first but it's Michelle who knows, and we can't reach her.

Hi Talea,

The location appears to have services. The process is that I will send you a docu-sign agreement for the service and when you send that back we will book the order. It may come back that we need to do a site check first – and if so – we will let you know and the team will call you (or whomever will be the site contact) to set that up. If we can go right to install, we will book that as well.

Let me know if that is OK and I will send you the docu-sign agreement. Can you please confirm the full name and address that you want the billing in?

Thank-you,
TerriLynn

Hello,

I was given your contact information as the person to reach out to in order to set up internet access in the office I work in in Port Coquitlam.

I work in a constituency office and am currently working off their guest wifi but need to set up my own account out of the same office.

I am located at 107A – 2748 Lougheed Highway, Port Coquitlam, V3B 6P2.

Details that I have been given are outlined below for Shaw, the **SmartWiFi 75** will be sufficient.

Please let me know next steps to set this up.

I look forward to hearing from you.

Best regards,

Talea Pecora

Hi Talea, I hope you are well. You probably know this, but Janis Cleugh is doing a story on the province's cannabis regulations. She asked me if Ron and Mike met with that regard, which I confirmed as Dec 18th. She asked me what was discussed, which I said I could not disclose. She was fine with that. Just a heads up.

Dear Mr. Farnworth, Honourable Minister of Public Safety & Solicitor General - Port Coquitlam

I am touching base again as you may not have received my earlier email of March 19, since I sent it prior to your two week session break.

Ticket scalping, ticket bots and other key security problems inherent in the event industry are the focus of our software solution which uses Blockchain and Smart Contract technology to combat these issues.

Since my last email, Ashton Addison CEO EventChain International, was the opening keynote speaker at this year's TechLaw conference in Singapore. The closing keynote speaker was Brad Smith, President and Chief Legal Officer, MICROSOFT. : <https://techlawfest.com/>

Since EventChain development commenced in July 2017, we have met all of our development milestones and are on target for full production release on August 31, this year.

Would you be interested in a brief call to explore how or whether our project could be used to help accelerate your initiative for addressing these issues?

We are but one; but much like Robin Hood, no matter the odds; we are committed and relentless in our pursuit to fight for the right of everyday people to support professionals and industries by attending their events, without being fleeced and to raise meaningful barriers to criminal activities that typically plague the industry.

Who are we? We are Click4Time, an 8 year established software developer and global online service provider in the service sector for scheduling and business management optimization. Our solution is EventChain SmartTickets at EventChain.io

Ashton Addison has been published as one of the top thirteen experts and influencers in Blockchain technology and the community worldwide. EventChain International SmartTickets is based in Vancouver B.C.

My name is Geoffrey Spooner, partner, director and owner of Click4Time and VP Sales & Marketing EventChain

NEWS RELEASE

B.C. reaches milestone with introduction of provincial cannabis legislation

VICTORIA - With public health and safety as the top priority, the Province has introduced legislation to provide for legal, controlled access to non-medical cannabis in British Columbia.

"The legislation introduced today provides a sound foundation for the regulation and safe implementation of legalized cannabis in British Columbia," said Mike Farnworth, Minister of Public Safety and Solicitor General. "This marks a major milestone, and puts our province in position to not only be ready for federal cannabis legalization in late summer, but does so in a way that reflects the Province's goals for legalized cannabis that prioritize public health and safety, particularly for our children and youth."

The proposed Cannabis Distribution Act (CDA) will establish the Province's exclusive jurisdiction over wholesale distribution of cannabis, and provide authority for public retail sales.

The proposed Cannabis Control and Licensing Act (CCLA) establishes provincial control over the sale, supply and possession of non-medical cannabis, and establishes licensing of private cannabis retailers, including registration and training requirements for those who will work in cannabis retail. The act outlines restrictions on the possession, personal cultivation and consumption of cannabis by adults and prohibitions for minors.

In addition, the act includes an extensive compliance and enforcement regime to ensure legalization of non-medical cannabis protects children and youth, prioritizes public health and safety, keeps cannabis out of the hands of criminals and keeps roads safe. A key component of this enforcement regime will be a new community safety unit that will target illegal sellers.

The Province engaged local governments, and Indigenous governments and organizations as part of the development of the CDA and CCLA. Engagement with these governments and organizations is ongoing.

In addition, amendments to the Motor Vehicle Act (MVA) will address drug-affected driving in British Columbia. A first phase of proposed amendments to the MVA will provide police with additional tools to remove drug-affected drivers from the road.

"As I've said before, the date set by the federal government for cannabis legalization will just be the beginning. B.C. will monitor implementation and make any necessary adjustments to provincial regulations to ensure our provincial goals are being met," said Farnworth.

The legislature will now take time to debate and review the proposed pieces of legislation, before they are finalized and passed into law. Provincial implementation timelines are dependent upon the proposed federal legislation receiving royal assent.

In anticipation of federal legalization, the Province will focus on the development of the regulations and supporting policies to prepare for the legalization of non-medical cannabis in British Columbia. Prior to legalization, Government will also launch public awareness and education campaigns related to the health impacts of cannabis use and the risks of drug-affected driving.

Additionally, the Liquor Distribution Branch, B.C.'s wholesale distributor of non-medical cannabis, is expected to open the first government-operated retail store by late summer, and is working to implement an e-commerce solution to offer online sales to the public. The brand identity and logo for BC Cannabis Stores, developed in-house, will be featured on store fronts and within print material. For further details, visit: <http://www.bcldbcannabisupdates.com>

Until laws change, the use of non-medical cannabis is still illegal in British Columbia.

Quick Facts:

- * The proposed federal Cannabis Act was introduced on April 13, 2017, and is expected to come into force in late summer 2018.
- * The proposed federal Cannabis Act will create a strict legal framework for controlling the production, distribution, sale and possession of non-medical cannabis across Canada.
- * Federal regulation of edible cannabis products is expected to follow within one year.
- * Under the proposed federal act, provinces and territories will regulate distribution and retail of non-medical cannabis, minimum age, public consumption, personal cultivation, possession limits and drug-affected driving in their respective jurisdictions.

BACKGROUNDER

British Columbia establishes legislative framework for the legalization of non-medical cannabis

Provincial legislation and the consequential legislative amendments related to the legalization of non-medical cannabis have been introduced, to ensure a regulatory framework is in place in time for federal legalization of non-medical cannabis. The following regulatory decisions are included in the legislation and amendments:

Cannabis Distribution Act (CDA)

As previously announced, the Province has decided that the Liquor Distribution Branch will be the wholesale distributor of non-medical cannabis in B.C. and will run provincial cannabis retail stores.

The proposed act will establish:

- * A public wholesale distribution monopoly; and
- * Public (government-run) retail sales, both in stores and online.

Cannabis Control and Licensing Act (CCLA)

The proposed act is guided by the Province's priorities of protecting children and youth, promoting health and safety, keeping the criminal element out of cannabis, keeping B.C. roads safe, and supporting economic development.

The proposed act will:

- * Set 19 as the provincial minimum age to purchase sell or consume cannabis;
- * Allow adults to possess up to 30 grams of cannabis in a public place;
- * Prohibit cannabis smoking and vaping everywhere tobacco smoking and vaping are prohibited, as well as at playgrounds, sports fields, skate parks and other places where children commonly gather;
- * Prohibit the use of cannabis on school properties and in vehicles;
- * Authorize adults to grow up to four cannabis plants per household. However, the plants must not be visible from public spaces off the property, and home cultivation will be banned in homes used as day cares;
- * Establish a cannabis retail licensing regime similar to the current licensing regime for liquor;
- * Provide enforcement authority to deal with illegal sales;
- * Create a number of provincial cannabis offences which may result in a fine ranging from \$2,000 to \$100,000, imprisonment of three to 12 months, or both; and
- * Where necessary, to comply with charter rights and human rights law, exemptions will be provided to individuals who are federally authorized to purchase, possess and consume medical cannabis.

The CCLA also includes consequential amendments to various statutes, including:

- * Liquor Control and Licensing Act, to ensure administrative consistency between that act and the CCLA;
- * Residential Tenancy Act and Manufactured Home Park Tenancy Act, to prohibit cannabis smoking under existing leases that prohibit smoking tobacco and to prohibit the personal cultivation of cannabis under existing leases, except for federally authorized medical cannabis. For new leases, the existing provisions of each act that allow landlords and tenants to negotiate the terms of leases will apply;
- * Police Act, to set provincial priorities for policing and require municipal police boards to take provincial priorities and the priorities of the municipal council into account as they develop their own priorities;
- * Community Safety Act, to reflect that with legalization cannabis will no longer be a controlled substance under the federal Controlled Drugs and Substances Act;
- * Provincial Sales Tax Act, to add a reference to cannabis in the definition of "small seller" consistent with liquor; and
- * Business Practices and Consumer Protection Act, to recognize that the CCLA is a complete licensing scheme.

Motor Vehicle Act amendments

B.C. will increase training for law enforcement, and will toughen provincial regulations to give police more tools to remove drug-affected drivers from the road and deter drug-affected driving, including:

- * A new 90-day Administrative Driving Prohibition (ADP) for any driver who police reasonably believe operated a motor vehicle while affected by a drug or by a combination of a drug and alcohol, based on analysis of a bodily substance or an evaluation by a specially trained police drug recognition expert (DRE); and,
- * New drivers in the Graduated Licensing Program (GLP) will be subject to a zero-tolerance restriction for the presence of THC (the active ingredient in cannabis).

Michelle/Sara,

The new Cannabis Control and Licensing Act is scheduled for LRC on April 10. I've uploaded the LRC Briefing Note and supporting materials on the PLOS SharePoint (key points, section notes). The materials have been approved by the DSG.

The LRC Briefing Note (also attached) is for the Minister's signature. The Minister is familiar with the legislation and was updated at last Thursday's briefing.

We are seeking the Minister's sign-off at the earliest opportunity today. The final materials are now due to Cabinet Operations.

Thank you,
Meagan

Hi Arora,

Any comments on messaging for this message from a constituent?

Congratulations on your win in the last provincial election and thank you in advance for your public service.

I am writing to let you know of my frustration in the slow progress and what appears to be neglect on the part of the province in terms of cycling and the changes to the motor vehicle act.

I am equally frustrated with the premiers priority on dealing with Ride Sharing and Uber when cyclists have been lobbying for changes to the MVA long before Ride Sharing was a concept.. Why they have jumped the queue is suspicious.

Please speak for me to your colleagues and champion the cause for a more inclusive MVA.

Hi Talea,

The location appears to have services. The process is that I will send you a docu-sign agreement for the service and when you send that back we will book the order. It may come back that we need to do a site check first – and if so – we will let you know and the team will call you (or whomever will be the site contact) to set that up. If we can go right to install, we will book that as well.

Let me know if that is OK and I will send you the docusign agreement. Can you please confirm the full name and address that you want the billing in?

Thank-you,
