Pest Activity

| Pest | Scanned Device | Non-scanned Device | Total | Evidence Only |
|-------------|----------------|--------------------|-------|---------------|
| House Mouse | 0 | 1 | 1 | 0 |

Location: LUNCH ROOM

House Mouse Qty: 1

Pesticide Application

- No pesticide was applied during this service.

Structural

Location: JANITORS CLOSET

- Created May 26, 2020. Please seal the gap around the pipe to remove a potential runway for mice and harbourage for insect pests.:concrete around waste water drain pipes in pipe chases has eroded away, causing rodent entry. need new concrete filled in.
Structural concern previously identified has not yet been addressed.
- Created May 26, 2020. Please ensure doors are kept closed when not in use to provide pest exclusion.:several doors near kitchen propped open allowing rodent entry
Structural concern previously identified has not yet been addressed.

Action Plan

- What your Representative did to resolve the problem?**
deployed additional monitors
- Next steps that will be taken by your Abell Representative?**
ensure propped doors are being kept shut when not in use
- What steps the Customer can take to help solve the problem?**
keep all doors closed to exterior when possible

Action Plan

- What your Representative did to resolve the problem?
checked for structural concerns

Next steps that will be taken by your Abell Representative?
informed contacts to ensure receiving doors are kept shut when not in use

What steps the Customer can take to help solve the problem?
ensure exterior doors are not propped open when not needed or for extended periods of time
