Number of individuals sent to solitary/separate confinement, and percentage of population in custody; Number and percentage of individuals sent to solitary/separate confinement broken down into reason for solitary/separate confinement (e.g. jeopardise institution/inmate safety/interfere investigation/discipline).**

**Notes on separation confinement/segregation data (Tables J, K, M, N, O, P, Q, S, T, U):**

1. These figures are based on an interim segregation and separate confinement business reporting mechanism and are therefore subject to some fluctuations due to the operational nature of this data.
2. Administrative includes those in separate confinement due to CAR Section 17, 18, 19.
