Discussion

Northshore:

No concerns are expected through Tuesday.

Mainly dry early this morning with showers increasing to a steadier rain for the midday hours before rain tapers off in the afternoon. Looks mainly dry this evening before showers increase after midnight tonight. Expect occasional showers throughout the day Tuesday, but most showers will be light.

North areas:

Snow concerns will be highest in the late morning/midday hours for Whistler and Pemberton, as snow levels rise to 800-900 meters in the afternoon/early evening hours. Precipitation will also be mainly centered around the midday hours today and Tuesday with a relative lull in the overnight hours.

Mainly dry early this morning with light snow increasing to a steadier snow for the midday hours before snow tapers off in the afternoon. Snow mixes with and goes over to rain for Pemberton and Whistler late morning/midday with wet roads expected in the afternoon. Looks mainly dry tonight, but there could be some light snow showers early and late in the night. Expect a few rain and snow showers throughout the day Tuesday, but most showers will be light. Snow will mainly a concern for the morning hours.

Important Note

All "DAY" forecasts are from 0600 in the morning to 1800 late afternoon (6:00 a.m. to 6:00 p.m.)

All "TONIGHT" forecasts are from 1800 in the evening through 0600 the next morning.

Discussion

Northshore:

No concerns through Sunday night. Clouds and periods of rain will dominate.

North areas:

Snow develops second half of tonight and continues tomorrow. Snow levels will be rising. Initially, all north areas get light snow later tonight, with snow holding off for Cayoosh until late-night hours. On Sunday, snow levels rise, and both Pemberton and Whistler will turn to rain. Cayoosh remains snow. And on Sunday night, rain and snow showers break off in the evening hours, with variable clouds the rest of the night. Road ice will be a concern.
