This Update Logged : 2015-11-13 15:20
EMBC Operations Officer : PERRY

Details :

It has been determined that this is not a tailing pond breach from the South Island Aggregate facility and that this is a surface water issue. It has been reported that the surface run-off is not from the area of the contaminated soil storage on site and that this is not a waste management related incident.

Future MOE follow-up will now be handled through the MOE Regional Operations Branch.

This incident is to be downgraded to Code 1 following notification. No further updates are expected at this time.

Offense Details

South Island Aggregates near shawnigan lake has two toxic soil disposal sites. Recent rains caused an overflow at one of the sites causing potentially damaging pollutants to flow into shawnigan Creek. The Vancouver Island Health Authority has issues an order not to use the water due to this violation. Please contact the Shawnigan Residents Association for more info.
