**Subject:** Hwy 1 @ 260 St ditching

Hi Don,

I discussed the ditch work to address the flooding at Hwy 1 around 260 St with Thomas, and he's advised to proceed with this. We will be covering the costs, and I believe Thomas and Calvin talked about this earlier today so everyone should be on the same page.

Once the depths of the underground Telus line have been figured out, let's discuss whether or not a culvert will be needed. Let me know if I can look into anything else on my end.

Thanks,

Kellen Truant
