Thanks Michelle.

Jeff,

We don't have any indication of a safety concern based on a last 10-year crash stat review – see below.

As a matter of fact, it appears that crash stats at this location are on a declining pattern between 2006 and present.

It also appears that semi roll overs are no longer a concern at this location as majority (85%) of the incidents involve passenger cars, SUVs and pick up trucks. We do not have access to any RCMP report of the recent incident and therefore not able to review or provide comments on recent incident.

Unless advised by the district, I consider this task complete on our end. You may wish to update the local elected officials.

No further action required at this time.

Thanks,

Faisal

Manager, Traffic Operations
