Subject: 271254 MEETING REQUEST - Meeting Request with Minister Trevena Re: Climate Action in the Transportation Sector

Dear Minister Trevena:

The following message is being sent to you on behalf of Mayor Jon Lefebure:

"Good afternoon Minister Trevena;

I am writing on behalf of the BC Municipal Climate Leadership Council (BCMCLC) of which I am an active member. This group consists of 11 Mayors and Councillors who are committed to helping locally elected officials move climate action forward and, since 2010, have engaged over 500 locally elected officials from BC communities of all sizes.

On behalf of BCMCLC, I respectfully request a meeting with you to discuss the role of local governments in climate action and how they can work with the Province of BC in this regard. Communities of all sizes in BC are looking to address climate action in the transportation sector with tools such as electric vehicle fleets and infrastructure, active transportation planning and localized incentive programs. At the meeting, we would be joined by Dale Littlejohn, Executive Director of Community Energy Association (CEA).

We would be pleased to meet with you at a time and location which is convenient to the Minister. If there is an opportunity for this meeting to take place in October, please have your staff contact my Executive Assistant, Karen Robertson, at 250-746-3203 or by email at Karen.robertson@northcowichan.ca.

Many thanks,

Karen Robertson,

Executive Assistant (on behalf of Mayor Jon Lefebure)

Deadline ASAP

Request

What is cost of review?
Of that, what is Cowdell paid?
And was there any competition for the review contract or was it directly awarded?

Background

Recommendation

The ministry considered over two dozen people in the industry with expertise to do a technical review of this project, who had not previously worked on the project. Ten people were directly contacted about the position. The contract was awarded to Stan Cowdell, a professional engineer with expertise in major infrastructure projects. Mr. Cowdell brings the expertise necessary to conduct this technical review in an independent and timely fashion.

The contract with Mr. Cowdell's firm is for \$350,000, depending on work done by him and his staff. The review may also include additional technical work done by other specialists in the areas of traffic engineering, geotechnical, seismology, bridge and tunnel design and construction, which may increase the costs (to a maximum of \$1 million, including Mr. Cowdell's contract).

Reporter

Deadline ASAP**Request**

The news release on the Massey tunnel technical review does not mention the budget for the contractor. What is it?

How was this contractor chosen? Was it a direct award?

If it was tendered, how many respondents were there and who was shortlisted?

Background**Recommendation**

The ministry considered over two dozen people in the industry with expertise to do a technical review of this project, who had not previously worked on the project. Ten people were directly contacted about the position. The contract was awarded to Stan Cowdell, a professional engineer with expertise in major infrastructure projects. Mr. Cowdell brings the expertise necessary to conduct this technical review in an independent and timely fashion.

The contract with Mr. Cowdell's firm is for \$350,000, depending on work done by him and his staff. The review may also include additional technical work by other specialists in the areas of traffic engineering, geotechnical, seismology, bridge and tunnel design and construction, which may increase the costs (to a maximum of \$1 million, including Mr. Cowdell's contract).

On follow-up (if asked) about who the other people/engineering firms are?

Because of privacy legislation, the ministry cannot proactively release the names of each person or firm that was contacted for this work unless they give permission to the ministry.

Subject: St. Andrews - bus pass program

Hi Derrick and Alisma,

As discussed, here's the draft news release that the VRTC and St. Andrew's are planning to issue on Thursday about the bus pass program for that school. I understand that the Times may have gotten wind of this from one of the PAC members, but I can't find the story only.

We've done up the attached KMs in case the minister is asked about it. I've also attached the briefing note from Transit on the work that they're doing around the program. They've got a couple options that they've proposed and will be writing school districts to re-engage and ask them to propose alternatives if the options put forward don't work. Please let us know if you have any questions.

Thanks,

Reporter

Ethan Sawyer, Reporter
CBC - Vancouver
ethan.sawyer@cbc.ca
604-662-6784

Deadline ASAP

Request

Reporter is looking for a statement from the Minister if available.

Background

This is a follow-up to a media request from November 2, 2017.

REQUEST:

Reporter would like to interview Minister Trevena regarding her thoughts about the suggested implementation of taxing ride-sharing companies to help fund B.C. transit. The reporter has lined up Mayor Jonathan Cote to discuss the idea, and would like an interview with the Minister as well. Reporter would need to do the interview 4:30 PM.

Clip is for TV, and reporter is seeing if someone could meet her at the legislature. Phone interview also a possibility.

RESPONSE:

Declined to Comment
Minister not available.

Proposed response:

- Our ministry is working hard to bring in a ridesharing system that provides people with more options for getting around quickly, safely and affordably.
- This is one of many interesting ideas, which we will look at it as part of our consideration for modernization.
- That's why we've hired industry expert Dan Hara to engage with the taxi industry and stakeholders to make recommendations that will create a fair and level approach to ridesharing in British Columbia.
- We will be addressing some of the broader challenges that currently exist in the industry – such as changes to legislation, safety regulations, vehicle licencing and insurance products – in order to introduce ride sharing services in B.C.
- We look forward to reviewing all suggestions and feedback from industry and stakeholders along with the regulatory approaches of other jurisdictions as part of Dr. Hara's consultation process.

Reporter would like to interview Minister Trevena regarding her thoughts about the suggested implementation of taxing ride-sharing companies to help fund B.C. transit. The reporter has lined up Mayor Jonathan Cote to discuss the idea, and would like an interview with the Minister as well. Reporter would need to do the interview 4:30 PM.

Clip is for TV, and reporter is seeing if someone could meet her at the legislature. Phone interview also a possibility.

RESPONSE:

Declined to Comment
Minister not available.

Proposed response:

- Our ministry is working hard to bring in a ridesharing system that provides people with more options for getting around quickly, safely and affordably.
- That's why we've hired industry expert Dan Hara to engage with the taxi industry and stakeholders to make recommendations that will create a fair and level approach to ridesharing in British Columbia.
- We will be addressing some of the broader challenges that currently exist in the industry – such as changes to legislation, safety regulations, vehicle licencing and insurance products – in order to introduce ride sharing services in B.C.
- We look forward to reviewing all suggestions and feedback from industry and stakeholders along with the regulatory approaches of other jurisdictions as part of Dr. Hara's consultation process.

Deadline ASAP

Request

Reporter would like to know what the Ministry is doing to prepare for the snow that is (with more threatening) to hit Vancouver and the lower mainland.
Also, is this unseasonably early for us?

Proposed response:

- ? Our ministry is committed to keeping our bridges and roads clear and safe for travel this winter season.
- ? Ministry crews will be bringing in additional resources and crews this winter season and doing everything necessary to keep motorists safe, and our bridges and highways clear and open.
- ? In the event of snow, crews will be on site, clearing snow and ice from roads in a timely manner and will continue their dedicated work to clear and monitor the cables on both the Alex Fraser Bridge and the Port Mann Bridge.
- ? This year, our maintenance contractor has budgeted approximately 3200 cubic metres of salt and 900,000 litres of brine for this winter's maintenance with an additional 5000 cubic metres salt in reserve. This is roughly the same amount as what was used last winter season. The ministry is able to secure materials as and when required from our contractor.
- ? In addition, the ministry will install a collar drop system on the Alex Fraser Bridge, similar to the system used on the Port Mann, to clear snow and ice off the cables. The

system is made up of approximately 3000 collars that will be operated manually by rope access technicians.

Subject: RE: Conflict of Interest Report

Each MLA receives a copy of all the reports from the statutory officers.

Thank your lucky stars we moved on from the days when each MLA received

TWO HARD COPIES of each one. You don't need to file it, the content is available on line each time through the appropriate Officer's website (Ombudsperson, Auditor General etc).

Annual Reports are about the internal workings of the Offices so all about them.

You don't even need to print it or share it when there is no impact on your Ministry

Lastly, as always, you can get a paper copy of anything like this from the Legislative Library

Hope this helps

Hi Derrick & Alisma – we wanted to get this Minister Claire Trevena event opportunity to you, for you to let us know if this will work for the Minister.

We are pitching for this event to happen on Nov 16 or 17, as the new transit service starts up officially on Nov 20th. Morning time works best for media – but you can let us know what time works well in the calendar.

This would be the celebration/ launch event for the new bus service connecting Terrace with the Hazeltons. This is part of the broader \$6.4 million Highway 16 Transportation Action Plan. Please let us know if one of these dates works for the Minister, and we will get going on comms products & logistics.

Thank you!

Hi Lea,

We've received this new FOI request from a *Researcher* applicant for the following:
Copies of all records regarding Ministry staff or the Minister meeting with credit agencies and/or their representatives, including, but is not limited to, meeting agendas - draft and final, briefing notes, memos, letters, staff notes, emails, reports and meeting minutes. (Date Range for Record Search: From 10/01/2017 To 10/19/2017)

Please complete the fee estimate below:

1. Will you have responsive records? Y/N _____
2. If yes? How much time in hours? (best guess) _____
3. Approximate number of pages? (5, 50, 500) _____
4. Are you aware of any other program areas or other public bodies that should be advised of this FOI? If yes, please provide _____

The fee estimate is due by November 8th. If MTI FOI advises 'no fee', records are due by November 15th.

The LDD is December 14th.

All the best,

Deadline ASAP

Request

Reporter is hoping to interview a regional staff person about the state of Highway 97, north and south of Vernon -- reporter says it's in pretty bad shape with ice and snow.

Background

An extremely early start to winter meant heavy snowfall and falling temperatures, which caused vehicle incidents and highway closures in the Southern Interior Region last night and early this morning. Road conditions continue to be a concern in the region, and cool temperatures are expected to continue through the weekend.

Recommendation

- ? We are experiencing a severe early season snow fall.
- ? Heavy wet snow and dropping temperatures last night and this morning caused difficult driving conditions on all routes out of the lower mainland.
- ? Trucks spun out on hospital hill in Vernon, on Highway 97 just south of the Kal look out, and St Anne's hill on 97 near O'Keefe Ranch.
- ? 5 trucks are out in the Vernon area working to improve road conditions.
- ? We encourage people to continue to check DriveBC.ca for updates.

- ? We remind drivers that effective Oct. 1, winter tires are required on most rural highways and high mountain passes.
- ? Signs are posted across the province to identify those highways where winter tires required and the types of vehicle on which they are required.
- ? Both the Mountain Snowflake and mud and snow (M+S) tires are acceptable winter tires for cars and light trucks.
- ? We want to be sure that everyone is safe as they set out for winter driving and would like to remind motorists to always drive to the road conditions.
- ? In bad weather, drivers should slow down, leave a greater distance between themselves and the car in front of them, and use extra caution on the road.

Subject: Emerson Report / Contracting out Jobs / Infrastructure Privatization

Hi Claire and Harry,

Please let me introduce myself to you, my name is Tim Cheung; Vice President of Unifor Local 2002. Our Local represents the Aviation Industry in Canada.

I am sending this email to you because recently there was a labour dispute at the Greater Toronto Airport with Teamsters Local 419 representing 700 baggage handlers, cabin cleaners and other Ground Crew and the parent company; Swissport. While in the regular process of Collective Bargaining, Swissport attempted to impose a three-year wage freeze on the majority of its workers, cut benefits, and gain the right to change schedules on short notice.

Swissport workers voted to strike on July 27 after 95 per cent voted against Swissport's contract proposal.

To make matters worse, the Greater Toronto Airport Authority (GTAA) sided with Swissport management against their employees represented by Teamsters 419.

In an unprecedented move, the GTAA issued operating licenses to strike-breaking temp agencies to cover the labour shortage. Swissport started using temporary & poorly trained agency workers at Pearson Airport as early as April.

The temps would be allowed to work in the event of a strike, even if the collective agreement was only set to expire in July, which some would say that there was "allegedly" collusion between the GTAA and Swissport.

Talks immediately broke down. The workers have been replaced by hundreds of inexperienced scabs, creating many delays, safety and security concerns and lost baggage.

While continuing to Bargain, Swissport second offer was basically identical to the first offer and voted to reject the second proposal by 98 percent.

Just this month, finally a tentative deal was struck between the Teamsters and Swissport, and employees ratified the contract by voting 63 per cent in favour of a three-year deal on Sunday, Oct. 15th.

The new agreement includes minor improvements on wages, benefits and scheduling.

Collective Bargaining happens on a regular occurrence all across Canada, and for the most part there is rarely a labour disruption. What is unique about this case is the concern over the licensing practices of the Greater Toronto Airport Authority (GTAA), specifically their decision to license unregulated temp agencies with no airport experience.

Their desire to place profit ahead of the safety and security of those who work at and travel through Toronto's Pearson Airport has resulted in a needless protracted strike with hundreds of unqualified strike-breakers replacing Swissport Teamsters 419 workers supported that Swissport management feels no pressure to bargain with the Teamsters, thanks to the GTAA's licensed scab support.

The scope of this Labour Dispute will have future repercussions within the Airline Industry and abroad.

The only way to pave a resolution so that this does not occur again is to petition all parties within Government involved as the Airline industry is federally regulated, but Provincially the governments also have a vested interest.

Our Local looks forward to working with your party to ensure that the rights of all workers within Canada, and those who have a vested interest in British Columbia and would love to meet with you in order to discuss this issue affecting our Local union.

I have also included an email response from the Federal NDP regarding this issue.

"Thank you for reaching out to my office.

I have been following this issue closely for some time. My NDP colleagues and I absolutely share your concerns regarding the use of replacement workers at Pearson Airport and the discussions that have taken place around the privatization of the airport.

In 2016, Karine Trudel, MP for Jonquière and the NDP Deputy Labour Critic, brought forward legislation (Bill C-234) to change the Canada Labour Code to protect workers against

scab labour. This bill, which was defeated at second reading by the Liberals and Conservatives, would have made it an offence for employers to hire replacement workers to perform the duties of employees who are on strike or locked out. New Democrats strongly believe that the right to collective bargaining must be guaranteed and protected by the government.

Thank you for also raising the issue of airport privatization. New Democrats are opposed to the privatization of airports, including Pearson, and other public assets. The NDP Critic for Infrastructure and Communities, MP Matthew Dubé, has been consistent in his criticism of the Liberal government's privatization agenda.

Multiple experiences in other countries show that selling off airports results in deteriorating levels of service and higher user fees. The Liberal Government commissioned private research consultants with the express purpose of supporting the privatization of airports. In September 2016, the Liberals commissioned a study from the financial services company Crédit Suisse to assess the benefits of privatizing Pearson, as well as other airports. By asking a bank that would directly profit from this privatization to conduct the study, the Liberals created conflict of interest.

In addition, the current model ensures that our airport infrastructure remains in the form of public assets. Rather than turn over our airport infrastructure to the hands of private investors, we should seek to improve the current system.

My office and the NDP stand in solidarity with you. We must not allow Pearson to be privatized nor workers' rights to be trampled on.

Sincerely,

Sheri Benson, M.P. for Saskatoon West

NDP Labour Critic

Hello,

Just wanted you to be aware of this follow-up email below, from Tim Cheung (Vice-President of Unifor Local 2002), who has contacted both Minister Trevena's MLA office and Minister Bain's MLA office. He's still hoping to arrange a time to meet.

Not sure if you've heard anything from MLA Bain's CO, or if you are coordinating, but Writing Services will leave with you for handling.

Thanks,

Aaron Shepard

Hi Claire and Harry,

I am just following up with you as I have not received any response to my previous email regarding Contracting out work and Infrastructure Privatization.

I would love to arrange a time in which we could discuss these issues that are affecting the Airline Industry and other related Industries.

Our Unifor Local 2002 membership is the 2nd biggest Unifor Local in Canada and have many members in all communities within British Columbia.

I am looking forward to hearing from you and hopefully we can discuss the issues that affect us all.

Thanking you in advance,

Sincerely,

Tim Cheung

Subject: Emerson Report / Contracting out Jobs / Infrastructure Privatization

Hi Claire and Harry,

Please let me introduce myself to you, my name is Tim Cheung; Vice President of Unifor Local 2002. Our Local represents the Aviation Industry in Canada.

I am sending this email to you because recently there was a labour dispute at the Greater Toronto Airport with Teamsters Local 419 representing 700 baggage handlers, cabin cleaners and other Ground Crew and the parent

company; Swissport. While in the regular process of Collective Bargaining, Swissport attempted to impose a three-year wage freeze on the majority of its workers, cut benefits, and gain the right to change schedules on short notice.

Swissport workers voted to strike on July 27 after 95 per cent voted against Swissport's contract proposal.

To make matters worse, the Greater Toronto Airport Authority (GTAA) sided with Swissport management against their employees represented by Teamsters 419.

In an unprecedented move, the GTAA issued operating licenses to strike-breaking temp agencies to cover the labour shortage. Swissport started using temporary & poorly trained agency workers at Pearson Airport as early as April.

The temps would be allowed to work in the event of a strike, even if the collective agreement was only set to expire in July, which some would say that there was "allegedly" collusion between the GTAA and Swissport.

Talks immediately broke down. The workers have been replaced by hundreds of inexperienced scabs, creating many delays, safety and security concerns and lost baggage.

While continuing to Bargain, Swissport second offer was basically identical to the first offer and voted to reject the second proposal by 98 percent.

Just this month, finally a tentative deal was struck between the Teamsters and Swissport, and employees ratified the contract by voting 63 per cent in favour of a three-year deal on Sunday, Oct. 15th.

The new agreement includes minor improvements on wages, benefits and scheduling.

Collective Bargaining happens on a regular occurrence all across Canada, and for the most part there is rarely a labour disruption. What is unique about this case is the concern over the licensing practices of the Greater Toronto Airport Authority (GTAA), specifically their decision to license unregulated temp agencies with no airport experience.

Their desire to place profit ahead of the safety and security of those who work at and travel through Toronto's Pearson Airport has resulted in a needless protracted strike with hundreds of unqualified strike-breakers replacing Swissport Teamsters 419 workers supported that Swissport management feels no pressure to bargain with the Teamsters, thanks to the GTAA's licensed scab support.

The scope of this Labour Dispute will have future repercussions within the Airline Industry and abroad.

The only way to pave a resolution so that this does not occur again is to petition all parties within Government involved as the Airline industry is federally regulated, but Provincially the governments also have a vested interest.

Our Local looks forward to working with your party to ensure that the rights of all workers within Canada, and those who have a vested interest in British Columbia and would love to meet with you in order to discuss this issue affecting our Local union.

I have also included an email response from the Federal NDP regarding this issue.

"Thank you for reaching out to my office.

I have been following this issue closely for some time. My NDP colleagues and I absolutely share your concerns regarding the use of replacement workers at Pearson Airport and the discussions that have taken place around the privatization of the airport.

Deadline Friday, November 3, 2017 4:00 PM

Request

Reporter is looking for updates on two projects that are ongoing on Coquihalla - Dry Gulch Bridge and rest area before summit. He heard they are on hold now for winter, and wonders the following:

- Can we confirm these projects are on hold (due to weather)?
- When will the projects likely start up again, and what is the projected completion date with this pause?
- What happens to the area during the pause -- are any restricted lanes brought back into use, and what about the speed limit -- is it brought back to normal speeds?

Background

Recommendation

It has been a very busy construction season on the Coquihalla, and work is continuing on both of these key safety projects as we move towards completion.

Dry Gulch

- Work on the Dry Gulch Bridge Rehabilitation has been progressing well.

- The rehabilitation on this structure has been extensive, as it is the first major work done on the structure since it was originally constructed more than 30 years ago.
- All structural works will be completed this year.
- Only site cleanup will remain for 2018, which will be done once the snow is largely melted, likely in the beginning of May.
- All lanes will be available in December and speed limits will return to normal as part of the variable speed corridor.
- As work continues late into fall, our project team has ensured that traffic management will support the safe travel of vehicles in winter weather.

Box Canyon

- Work continues at Box Canyon until weather inhibits further activity.
- This winter, the chain-up area will be functional and larger than in the past.
- The final full build out will resume in the spring and is anticipated to finish in July.

Subject: FOR FEEDBACK: Proposed agenda for conf call of mayors and ministers on Nov 6

Geoff, Daniela, Craig and Derrick,

I know we ended up cancelling our last conference call of mayors and ministers, originally scheduled for October 26. I understood we were going to try to reschedule it this week, but I think that since we have another scheduled call on Monday at 8AM we would be better off to stick with that date and try to get ready for it. Let me know if that makes sense.

If it does, i would propose the same agenda and discussion questions as we had proposed for October 26 - see below. Based on what I have heard from officials, it sounds like these issues remain as the priorities for this group to discuss. Again, let me know how this looks so we can then prep for the Monday call.

Agenda:

1. Approve agenda
2. Phase Two Funding Strategy
3. Timelines
4. Pattullo Bridge Update
5. Regional DCC for Transit

1. Funding Strategy

s.13,s.17

s.13,s.16

s.13

2. Timelines:

We received a listing of ministry employees who have not yet taken the above noted course and the following MO staff are included on this list: Derrick Harder, Lindsey Jackson, Alisma Perry, Lynne Stone.

Did CIRMO provide you with in person training? If not, information and instructions for you are provided below-

IM117 Information Management: Protection of Privacy, Access to Information and Records Management.

This is a mandatory, self-directed, e-learning course that outlines information management requirements and introduces practices and controls to support and empower employees with the information they create and receive.

IM 117 focuses on records management requirements, the proactive disclosure of information, the duty to assist an FOI (Freedom of Information) applicant, a proper search for records, and concludes with a reminder of our collective privacy obligations, including what to do in the event of an information incident or privacy breach.

This course is available on the Public Service Agency's Learning Centre. To access, visit the [Learning System](#), log on through your government (IDIR) account and search for "IM 117". Please sign up and complete this one-hour course during your regular hours of work.

If you have any issues accessing this course, with course completion or with the Learning System being unavailable, please refer to these [Frequently Asked Questions](#). Within the FAQs, you will also find further course information, technical requirements and solutions. If you have any questions regarding this training, please do not hesitate to contact your supervisor or [MyHR](#).

It would be appreciated if they could take the course at their earliest convenience.

Morning Derrick

This morning at 11:30am it was made public that PPP Canada will be wound down by the end of this fiscal year. Following careful analysis, the Government felt that the Agency has met its mandate of promoting the adoption of the P3 model –playing a key role in making P3s a common practice in Canada. The Government of Canada is still a strong supporter of the P3 model and P3s will still be tools that our partners can use under the Investing in Canada infrastructure plan.

Subject: Question re: 271804 - Mayor Malcolm Brodie - City of Richmond / George Massey Crossing Review

Hello,

Mayor Malcolm Brodie has written to thank the Minister and to follow up on a meeting during Halloween, and has some further comments about the GMTR review.

Would your office prefer to respond directly or just FYI for now?

In terms of a formal written response, I should note that Mayor Brodie received a response from the Minister on this issue on Oct. 18, so there likely isn't much we can add in terms of new info for him.

Let me know what you think best.

Thanks very much,

Aaron Shepard

Hi, Jacqueline,

I have now contacted all the Regional District Chairs and/or alternates and a majority can meet with the Minister on Tuesday 21 November at 3pm. I will now write to them all and confirm this. I should be able to have an exact count in the middle of next week.

As far as an Agenda id concerned I will also send information ahead of time to the Minister and her Staff. Also, she might wish to tell me what she wishes to talk about.

Thank you for these arrangements so far.

Subject: Re: Regional District Ferry Group possible meeting

Dear Jacqueline,

Thank you for this reply. I think you and I might have met once before when I met Clare and 5 other MLAs in 2016 at the Legislature.

There could be a maximum of 13 people, with maybe 2 or 3 of them on the phone. Some might wish to bring along their Chief Administrative Officer as an observer which has happened before. That looks like a Boardroom meeting with the Minister's reps also.

A 3-3:45pm meeting looks fine.

The dates I am going to recommend to the Group are November 2 or 3, 7 or 8, 28 or 29

Those are Tuesdays and Wednesdays.

I will now send out a message to the Group and attempt to gain a majority decision for one of those dates. Then I will get back to you ASAP.

Thank you very much.

Subject: **Regional District Ferry Group possible meeting**

Dear Mr.Harder,

At the recent UBCM Minister Trevena and yourself offered to help arrange a meeting with the Regional District Ferry Group. As the "Coach" for the Group I am now hoping we can firm up a date in November and some other details.

The Group is made of up thirteen representatives of Regional Districts on Vancouver Island, the Northern Coast, the Central Coast, the Sunshine Coast, Metro Vancouver and the Islands Trust. In the past we have had meetings with various Ministers of Transport including two meetings with the Premier present. There was never intention by the previous government to repeal the Coastal Ferry Act.

Minister Trevena appears to be interested in discussing major changes to the Act and we would appreciate her listening to our views on that. As the Minister is well versed in the ferry system, our moaning about the existing system would not be productive

for her. I am prepared to persuade the Group that any meeting should be one focused on how the governance of the ferry system can be changed.

A one hour meeting starting at 11am in November would be useful for us, but you might have other suggestions. If you could provide me with 2 dates I can then advise the Group who will need to make travel arrangements.

There are times when Regional District CAO's have joined us, but I would need to know the numbers.

Thank you for your consideration of this initial email and I hope we can have a productive and positive meeting with the Minister.

Request

Reporter says: Thanks for looking into more info for this for me. I need to get this story done ASAP. Can you please get me more info on what's on the meeting agenda, apart from the fact that the minister is talking about transportation (I expect that is what a minister of transportation would be doing)...are they going to be talking about the potential of CRD taking on transportation authority, rapid transit ideas. Can you give me some specifics? Please get back to me by noon.

Background

This is a follow-up to a media request from November 2, 2017.

REQUEST:

Reporter would like to confirm what the minister is meeting about with the Victoria-area mayors, and how many mayors are attending. Reporter believes it is the minister who set up the meeting.

RESPONSE:

Provided Background

Minister Trevena is meeting with some mayors in the Capital Regional District to discuss transportation issues in the region. The province continues to work and engage with local governments as we work together to address transportation across the province.

Subject: MINISTER Meeting request: Round Table on Shipping Supply Chain

Hon. Claire Trevena
Minister of Transportation and Infrastructure

Dear Minister Trevena,

On behalf of Global Container Terminals (GCT) I am writing to request a meeting with yourself and representatives across the shipping supply chain.

Global Container Terminals would like to convene key leaders across the transportation supply chain from the Chamber of Shipping to trucking. GCT will organize the participants in coordination with your office.

The discussion will be introductory, collaborative and enable cross-sectoral engagement.

A meeting in November; the week of November 20th later in the week or the week of November 27th – many stakeholders are available.

GCT has asked me to help coordinate and organize this discussion.

I look forward to hearing back from your office.

All the best,
Katie Shaw

Subject: 270967 Invitation - Invitation to speak at Pacific NorthWest Economic Region (PNWER)

Hello,

The Pacific NorthWest Economic Region (PNWER) is hosting the 6th Legislative Leadership Academy in conjunction with the PNWER Economic Leadership Forum November 5 - 7 in Victoria. We would like to invite Minister Trevena to speak during the Transportation Session on at 11:00am on Tuesday, Nov. 7th at the Fairmont Empress. Over 100 provincial and state political and business leaders from the Western Canadian provinces and territories and Northwestern States will gather in Victoria to carry out in-depth, focused discussions on key subjects affecting our regional and bi-national economy.

We hope you can speak on rail infrastructure in B.C. PNWER has addressed the importance of modern rail infrastructure to the region in the past; the session in Victoria will focus both on short-term improvements to Amtrak Cascades and the long-term vision for High Speed Rail in the region. Our delegates would greatly benefit from hearing from you on the Government's transportation priorities regarding rail and market access. We hope you can give a 15 minute address in addition to participating in an audience discussion. Please see the attached brochure for further information.

Ron Pate, the Rail Director for the Washington State Department of Transportation and Charles Knutson, Governor Inslee's transportation advisor will be joining the session. We hope that you will be able to participate in the event. If you are unable to attend, please designate an appropriate speaker from the Ministry. If you have any questions please contact Jennifer Grosman at jennifer.grosman@pnwer.org or [206-443-7723](tel:206-443-7723).

Thank you,

Jennifer Grosman

Subject: New FOI Request: Call for Records TRA-2017-73416 | Site C Clean Energy Project

Hi Jen,

We've received this new x-gov FOI request from an *Individual* as an applicant for the following:

Reports, budget documents, slide decks, and incident reports regarding the Site C Clean Energy Project. (Date Range for Record Search: From 07/18/2017 To 10/16/2017)

Please complete the fee estimate below:

1. Will you have responsive records? Y/N _____
2. If yes? How much time in hours? (best guess) _____
3. Approximate number of pages? (5, 50, 500) _____

4. Are you aware of any other program areas or other public bodies that should be advised of this FOI? If yes, please provide _____

The fee estimate is due by October 26. If MTI FOI advises 'no fee', records are due by October 31th.

The LDD is November 28th.

If you have any questions or concerns, please let me know if I can be of assistance.

All the best,

Marion Ashton | (250) 952-0629 | Senior FOIPP Analyst | Information Management Branch | Ministry of Transportation & Infrastructure |

This afternoon we made the announcement to close the rail operations at our Englewood Operation in Woss.

We reached this business decision to improve the flexibility of our operations and create efficiencies in the processing and transporting of fibre on the North Island, resulting in the closure of the train. This change is consistent with ongoing efforts to reduce costs and strengthen the Company's overall competitiveness.

Attached is our news release. If you have any questions, please feel free to connect with me directly.

Hi Derrick & Alisma – here is a northern regional NR for your approval on the Minister's quote please.

This has been signed off by the region, and Ryan and I.

We are planning on putting this out to northern regional media the morning of Thursday Nov. 9th.

QUOTE for signoff:

"Multiple accidents have occurred on the existing bridge and this upgrade is a top priority for the Nisga'a Lisims Government and our ministry," said Minister of Transportation and Infrastructure Claire Trevena. "The existing single-lane bridge will be replaced by a new two-lane clear span bridge, providing safer crossing for residents of the surrounding communities."

Subject: 31124 Incoming 3 Following up on Joint Meeting Request

Minister Beare,

I am following up on my Sep 22 request for a joint meeting with you and Minister Trevena to review the SkyHugger Lions Gate Bridge Climb project.

The project appears stalled since February 2017. I have done everything that Ministry of Transportation has required of me for the past 2.5 years and the project appears now to be on hold. We are about to miss the 2018 tourist season in Vancouver unless we act soon. The Sydney Harbour Bridge Climb in Australia is one of the world's most successful tourist attractions. This idea is not a giant leap from normal. It is just unusual in North America, and therefore exciting and newsworthy.

After meeting with one of your team members in September, it was suggested that a joint meeting of Ministers might inspire some action. I remain optimistic that someone will rise to the opportunity of supporting this project to get our Trial Period underway. All that is required is for government to say yes, let's do this.

We are ready. We are standing by.

Warm Regards,

Kevin Thomson

250-861-3781 x 229

Marion Barschel, Producer
CBC - Kelowna
daybreakkelowna@cbc.ca
250-861-3781 x 238 c: 250-469-0354

Deadline ASAP

Request

Reporter would like to interview someone by 1pm today, for a pre-tape clip for radio on the Highway 97 expansion project through Kelowna.

Reporter is looking for the following info to be covered in the interview:

- Where are things at?
- How long is the project expected to take?
- Are there any difficulties that we're running into with this?
- What are the projected costs by the end of the project?
- Reporter noted that people were out paving at 4:30am this morning, but wants to confirm the progression of work.

Background

Recommendation

- The Highway 97 project taking place in Kelowna will improve safety and increase efficiency for motorists, and will better connect Kelowna's downtown core with surrounding areas.
- The work includes widening 4.5 km of Highway 97 to accommodate extension of the HOV lanes, and major upgrades to four intersections.
- Widening the highway and reconstructing congested intersections will increase capacity, make travel safer, and better connect the downtown core with the University of British Columbia Okanagan campus.
- These improvements will also make it easier to connect to areas north of downtown including the Quail Ridge residential area, the Kelowna Airport and the Industrial Park.
- The project was challenged by rainy weather in the spring, as the contractor had to delay excavations for drier conditions.
- The rest of the project has remained largely on track and we are happy with the work that our contractor and project team have done.
- The project is in its final stages and, weather permitting, is scheduled to open all lanes to traffic before the end of 2017.
- Crews were actively paving prior to last week's snowfall and will resume paving as soon as weather permits.
- The contractor is restricted to work at night-time to minimize impacts on traffic flows and commercial businesses.
- The budget for the project is nearly \$60 million with \$18 million in funding from the federal government.
- We appreciate the patience of all motorists and local businesses during this final stage of construction.

250-378-4288 c: 250-280-2475

Deadline ASAP

Request

Reporter would like to interview someone on what's happening with the work on Highway 5A.

Background

Recommendation

- ? On Nov. 14 and 16, between 7am and 5pm, Highway 5A at the Quilchena Bridge will be closed for maintenance.
- ? During the closures, VSA Highway Maintenance will be conducting important maintenance work which includes replacing two pier caps on the instream piers. While this work takes place, no traffic will be able to cross the bridge.
- ? There have been extensive conversations with stakeholders, including emergency services, about the closure.
- ? The ministry will communicate this closure to the public through Drive BC, Twitter, stakeholder notices, static signs, digital

message signs, and portable changeable message signs.

- ? Traffic control personnel will be staged at either end of Highway 5A during the closure to inform the travelling public and provide the ability to turn around if necessary.
- ? We very much appreciate the public's patience as we conduct this important work to ensure the safety and reliability of the corridor.

Hello Ladies,

We can now confirm November 27th at 5:30 pm, for the meeting with NNTC. We can also confirm the pre-brief with staff for 9 am that same morning. I will be booking rooms for both the pre-brief and the meeting and will confirm that with you shortly.

Please confirm what staff will be attending with your Minister once you know. We will provide your offices with materials as soon as possible.

Lucy, you can confirm with me, once you know, if MMM is available.

Thanks,

Connie Roberts

Importance: High

Hi Lisa,

Please see the attached. We are looking to do a joint meeting with MSF and MDD with the NNTC. Coming out of the FNLG MIRR staff have been working with NNTC to prepare a relationship Accord to be signed by Minister(s) and Chiefs in late November. NNTC tabled it at the Gathering, to which MSF signaled strong support in principle. MSF offered an in-person meeting to NNTC in Victoria, while the house was sitting, in order to celebrate the path forward. We want to show positive momentum with NNTC before Christmas.

Staff would like to see this set up the last week of November after Nov. 27th. MSF is available on the following dates and times that week.

Nov. 28th: 2:00 pm or 5:00 pm

Nov. 30th: 3:30 pm

Lucy/Lindsey, I'm cc'ing you both on this email as staff want to see if your Minister's could also attend, if possible, to support.

Thanks,

Connie Roberts

Subject: FW: Minister Trevena meeting

Hi Deborah

Further to my e-mail below, MCT is now scheduled to meet with PNWER reps tomorrow at 1:30pm. While we have not seen a specific agenda, it is possible that they will want to talk about transportation-related items that are being discussed at the PNWER sessions tomorrow morning. In addition to likely wanting to talk about High Speed Rail and the Vancouver-Seattle Harbour to Harbour Seaplane files (on which MCT already has briefing material), other possible topics of discussion include automated and connected vehicles (including a consultants report on an "Autonomous Vehicle Plan for the I-5 Seattle/Vancouver B.C. Corridor), and Electrification and Charging Infrastructure.

Given this last minute meeting request, I have been proactive and prepared the following bullets for Automated and Connected Vehicles, while Alan provided the following bullets on Electrification and Charging Infrastructure, in case they are required for yourself and/or MCT.

Automated/Connected Vehicles

- My Ministry was just recently made aware of the report entitled "Autonomous Vehicle Plan for the I-5 Seattle/Vancouver B.C. Corridor", and staff have not yet had an opportunity to review the report in detail.
- The "Autonomous Vehicle Plan for the I-5 Seattle/Vancouver B.C. Corridor" Report, which appears to have been drafted by a number of U.S. based consultants, suggests that:

- Seattle and Vancouver have an opportunity to reduce congestion, improve the traveller experience, reclaim productive hours and reduce accidents on the I-5 Cascadia Corridor by implementing a plan over the next decade to accelerate the introduction of autonomous vehicles on the corridor
- An autonomous vehicle plan for I-5 could initially allow autonomous vehicles to share HOV lanes
- Over time, as autonomous vehicles increase, this would evolve into HOV lanes being exclusively for autonomous vehicles
- While there are likely enough existing lanes between Seattle and Mt. Vernon, traffic planners in the future may want to add additional lanes to the four lane portions from Mt. Vernon to Vancouver to support dedicated autonomous vehicle lanes
- **Our Ministry participates on a federal/provincial/territorial Working Group on Connected and Automated Vehicles, which has been asked by Ministers across the country to coordinate a national approach to connected and automated vehicles.**
- In September 2016, the Council of Ministers Responsible for Transportation and Highway Safety established a Connected and Automated Vehicles (CV/AV) Working Group to build a path forward for coordinating CV/AV policy across jurisdictions. This includes:
 - Identifying the roles and responsibilities and sharing information among those involved in CV/AV policy development;
 - Identifying Intelligent Transportation Systems and infrastructure needs; and
 - Identifying policy and regulatory gaps and opportunities to align with international developments and standards.
- Over the past year, the CV/AV Working Group has been developing a draft report that will outline the key possible short, medium and long-term policy and regulatory implications of the introduction of automated vehicles on public roads. The draft report is intended to highlight some of the key issues that governments will need to focus on over the next several years, and is anticipated to be finalized, and released publicly, in the near future.
- At this time, the B.C. motor vehicle regulatory and insurance framework does not support the operation of autonomous vehicles in B.C.

Electrification and Charging Infrastructure

- **My Ministry is working with the Ministry of Energy, Mines and Petroleum Resources to develop a network of Electric Vehicle Charging Stations throughout the Province.** This work supports the Province's Clean Energy Vehicle Program which provides vehicle purchase incentives; charging infrastructure; hydrogen infrastructure; fleet support; research and training; public outreach and education.
- **The Ministry is also working on the electrification of Truck Stops that will assist Heavy Duty Vehicles so they do not have to idle to run their auxiliary equipment or power their cabs .**
- **The Ministry also permits Electric Vehicles to operate in High Occupancy Vehicle lanes without meeting the passenger requirement as a way to encourage the purchase of Electric Vehicles.** To date over 4,500 decals have been issued.
- **The Ministry is also examining other opportunities for electrification in the transportation sector such as Transit Buses and Ferries.**
- Current B.C. stats on EV Charging Stations:
 - Over 1,200 Level 2 stations
 - 30 Direct Current Fast Charging Stations, with an additional 34 planned
 - 7,000 electric vehicles in B.C. as of June 2017

Thx.

Subject: CN Rail- Meeting Request

Dear Mr. Harder,

On behalf of CN Rail I would like to formally request a meeting with you in Victoria on **the week of November 27th** to discuss CN Rail's current operations in B.C.

Spanning three coasts, CN is the only transcontinental railroad in North America offering a unique network reach. CN offers integrated transportation services including rail, intermodal, trucking, freight forwarding, and transloading and distribution. CN's team of approximately 23,000 railroaders transport goods worth hundreds of billions annually for a wide range of business sectors. Serving nearly 75% of the U.S. population and all major Canadian markets, CN is a true backbone of the Canadian economy- a vital component to the entire supply chain and the millions of Canadians who rely on it. In British Columbia specifically, CN services both the Port of Vancouver and the Port of Prince Rupert.

This year marks the sixth consecutive year CN's sustainability practices have earned the company a place on the Dow Jones Sustainability World Index- the first global index to tracking the leading sustainability- driven companies. CN's commitment to delivering responsibly means not only moving goods safely and efficiently, but constantly innovating to deliver more environmentally sustainable transportation, remaining committed to the health and development of employees, and helping to build stronger and safer communities.

Your government's support is critical to ensuring that international trade thrives and continues to provide thousands of family-supporting jobs in B.C. I look forward to hearing from your office about a convenient meeting time for an introductory discussion.

Thank you,

Subject: RE: FOR APPROVAL - TRAN Media Request: Evergreen Line questions

The only one that is a bit fuzzy to me is #6 – I think it reads that while there was a public art budget generally, it was not part of the contract. When the art required attachment to a station wall etc. that work was done by the contractor which required a change order but the cost was within the more general public art budget.
Is that the case? If so can we clarify a bit in the response?

Deadline Friday, November 3, 2017 6:00 PM

Request

Reporter says: I have received a copy of Evergreen Line change orders via FOI, after a successful OIPC adjudication.

I am contacting you to seek additional information and clarity on the changes, so that I have accurate information about the how, why and when behind the additional costs. (I have included Amanda Farrell, the project director, on this email.)

Could you please provide answers to my 6 p.m. tonight?

1.

Many change orders appear to be for work that should have already been in the contract or already was in the contract. Why were they justified?

2.

Also, regarding the Completion of Port Moody Bus Loop and Parking as a Permanent Facility for \$3,242,707.

Q: Why was this not publicly tendered as a standalone piece of work?

3.

Regarding Telus Conflict at P5-16 for \$860,128 and BC Hydro duct rerouting for \$363,891

.

Q: Isn't a survey of utility conflicts performed before contracts are awarded? Why did these happen?

4.

Regarding Guideway Parapet Noise Barriers for \$777,197

.

Q: Noise barriers are standard requirements at all sensitive locations. Why wasn't this determined earlier, at the time the project contract was awarded?

5.

Retaining walls in Port Moody for \$278,637 and in Burquitlam for 193,361

.

Q: Where are these retaining walls and why was there an additional cost for them?

6.

Regarding public art costs of \$148,214

.

Q: Why weren't public art costs part of the original budget?

7.

Regarding flagging at Seaview for \$306,916 and minor roadworks and paving changes for \$327,901.

Q: Were these costs related to the remediation after the tunnelling problems?

8.

Regarding Hoy Creek contamination removal for \$378,980

.

Q: How and when did Hoy Creek become contaminated? What type of contaminants were removed?

Sincerely,

Bob Mackin
reporter, theBreaker.news

Background

Recommendation

Suggested response:

The \$1.431 billion Evergreen Line was delivered \$79 million under the budget set in 2008. It was built as a Design Build Finance public-private partnership endorsed by the Office of the Auditor General in 2013. The province and the contractor agreed to an \$889 million for a set amount of work (\$886 m for Evergreen plus \$3 m for some municipal road work), detailed in the contract to ensure both parties were clear on the work required and responsibilities.

For large, complex infrastructure projects, the Province sets aside a contingency to accommodate local community requests and anything that couldn't have been anticipated when drafting the contract. In this case, approximately \$19M was spent on changes for items that weren't included in the original contract and approximately \$17M was spent on unanticipated items.

Answers to your specific questions follow:

1. Many change orders appear to be for work that should have already been in the contract or already was in the contract. Why were they justified?

Answer: There were 95 changes in all – some were no cost or credits, some were paid for by third parties. The overall value is 2% of the contract value which is extremely low for a contract of this size and complexity. Examples include: new scope items (such as additional noise barriers), upgrades to messaging systems in stations and additional CCTV cameras, access roads to reduce community disruption, addition of a down escalator at Douglas Lafarge station, additional environmental remediation work at Hoy Creek, and scope transfers such as the Port Moody bus loop.

2. Also, regarding the Completion of Port Moody Bus Loop and Parking as a Permanent Facility for \$3,242,707. Why was this not publicly tendered as a standalone piece of work?

Answer: The original contract scope included a temporary bus loop and limited parking area for commuters to use during construction. After the property was acquired and utility work was done, the Province finalized the plan for the permanent loop and parking, and realized the contractor could modify their current construction activities and complete the final loop and parking (with curb and gutter, street lighting and final paving). This saved the cost of finishing the temporary facility, eliminated the extra costs for a mobilizing a separate contractor, and avoided a delay in completing the permanent facility.

3. Regarding Telus Conflict at P5-16 for \$860,128 and BC Hydro duct rerouting for \$363,891. Isn't a survey of utility conflicts performed before contracts are awarded? Why did these happen?

Answer: The project team conducted utility mapping before the contract was awarded and supplied it to the contractor. This utility mapping included record drawings supplied by the utility owners, which at times did not reflect the actual final as-constructed location of the utility. This was the case at this location, where the contractor applied for a change under the contract where they incurred additional costs due to the utility being in a different location than the original mapping showed, which added more costs to the contractor to do the work.

4. Regarding Guideway Parapet Noise Barriers for \$777,197. Q: Noise barriers are standard requirements at all sensitive locations. Why wasn't this determined earlier, at the time the project contract was awarded?

Answer: Although the Province was committed to build noise barriers from the start, they were not included in the contract because the discussions with the cities and the community were still ongoing at the time the contract was tendered.

5. Retaining walls in Port Moody for \$278,637 and in Burquitlam for 193,361. Where are these retaining walls and why was there an additional cost for them?

Answer: In Burquitlam, the retaining wall was at the Burquitlam Propulsion Power Substation location, and in Port Moody, the retaining wall was at Inlet Centre Station. In both cases, the Province determined these walls were necessary after construction was already underway, and it was more cost efficient for the contractor to install the walls while the power stations were being built.

6. Regarding public art costs of \$148,214. Why weren't public art costs part of the original budget?

Answer: Funding for public art was built into the overall Evergreen Line project budget and was a requirement under the project's Environmental Assessment Certificate. Ministry staff worked with public art committees to determine how best to incorporate art within each community, and the committees in Port Moody and Coquitlam were not established at the time the project contract was awarded. In some cases, once the art was ready, we got the contractor to do the installation where it was being attached to the infrastructure.

7. Regarding flagging at Seaview for \$306,916 and minor roadworks and paving changes for \$327,901. Were these costs related to the remediation after the tunnelling problems?

Answer: The change order for flagging provided additional resources over those required by the Project Agreement in response to community and municipal requests for more general traffic management between April 2015 and September 2015. The minor roadworks and paving changes were also not part of the original contract scope but were added to address additional municipal requests and minor road adjustments throughout the project corridor in Burnaby, Port Moody and Coquitlam.

8. Regarding Hoy Creek contamination removal for \$378,980 How and when did Hoy Creek become contaminated? What type of contaminants were removed?

Answer: During construction of the Coquitlam Park & Ride Extension, contaminants (primarily hydrocarbons from the old auto wrecker business) were identified and needed to be removed at an additional cost.

Yeah, the Parsnip River Bridge replacement is around \$31.6-million.
That project closes on BC Bid Nov. 15 so we'll be doing a news release once the contract is awarded.

Hi Grant and Geoff,

Just got off the phone with Jim. We agreed that he and Bryn would come over here to have a discussion to get things moving. I encouraged him to bring over their best thoughts of how we might proceed.

We have tentatively agreed to Monday Nov 20. I think we may want to pencil in 2 hours to give us enough time. I would like to suggest 11-1 (we can do it in my office and we can have sandwiches brought in). Grant, can you give some thought to who you might want to join you? Geoff, would be good to have you sit in, but will understand if you have other demands on your time.

Keira,

When you hear back from Grant, could you contact Jim and suggest this time to him?

Thanks.

Don

Subject: Invitation

Hi Danielle,

On behalf of Trail City Council, we would like to extend the attached invitation to Minister Trevena to attend the grand opening of the Trail Regional Airport's new airport terminal building on Wednesday, November 29 at 3:00 pm. This terminal was the recipient of a \$1.18 million BC Air Access Program Grant in 2016 from the BC Ministry of Transportation and Infrastructure and we are very excited to be opening the new terminal to the public this month. The timing of the opening is planned so that guests that are invited from outside the region can fly in on Pacific Coastal's morning flight that day and return on the afternoon flight that leaves Trail Regional Airport after the ceremony at 4:00 pm.

We can also confirm that Peak Communicators will be on site as they have received approval to promote the event for Sour Magazine, Pacific Coastal's inflight magazine.

We hope the Minister can take time from her busy schedule to attend and to speak on behalf of the Ministry as we celebrate this opening.

Kind regards,
Sandy

Hi Derrick, as discussed here are ^{s.13,s.16} SOI signs that are manufactured and ready to be installed^{s.13,s.16} (more ready next month). Let me know when you get a sense of which ones you would like installed first and we can turn this around in a week.

The 49th Parallel	Ladysmith	Divides much of Canada and the US. However, a portion of Vancouver Island is uniquely situated south of this latitude.
The First Flight	Saanich	From this site, the first Canadian-built aircraft made its first flights in September of 1910; Victoria's first airport from 1928-31.
Western Speedway	Langford	Oldest race track in western Canada still in operation. Fans of all ages have enjoyed auto racing here since 1954. It is also home to Victoria Auto Racing Hall of Fame.
		s.13
		s.13

The Doukhobors	Grand Forks	A religious sect that were persecuted for their beliefs in their home country of Russia. They were an industrious group and contributed to the valley's history.
Canoe River Train Crash	Valemount	In November 1950, 17 soldiers and 4 engineers lost their lives when a westbound train carrying members of the 2nd regiment, Royal Canadian Horse Artillery, on route to the Korean War, collided with an eastbound train just east of the Canoe River.
Cretaceous Trackway	Tumbler Ridge	BC's first accumulation of dinosaur bones were found and the formation of the Peace Region Palaeontology Research Center.
The Nisga'a Highway	Terrace/ Rosswood	Will be the first SOI sign along Hwy 113 (Nisga'a Highway). Highlights the historic transportation and trading route
East Lillooet	Lillooet	One of eight internment camps established in BC by the Government of Canada to intern Japanese Canadians during WWII. At it's height it was home to 309 people.
Yellowhead Blue River	Blue River	A project of the Federal government, they employed Japanese-Canadian males 18 or over.

s.13,s.16 ready December 2017:

Ditida'a, Port Renfrew, 5000 Year Old Midden	Port Renfrew/Jordan River	The Pacheedaht (people of the seafoam) name is derived from an ancient tradition about a wall of seafoam that once flooded their river.
Harry Manson	Nanaimo	Snuneymuxw soccer player who competed in the late 1800s and early 1900s. Harry was one of the players who played in the first-ever Aboriginal vs non Aboriginal soccer match in Canada

Hello Derrick,

I flagged for Minister today that my Parliamentary Secretary for TransLink mandate letter includes the following:
Assess and report to the Minister on longer term investments in Lower Mainland transportation that may merit consideration, including expanded commuter rail, deployment of new electric power or low-emission fuel technologies and "smart city" technologies.

Given that some this is likely to cross over into the Ministry of Transportation Infrastructure, I would be more than happy to sit in on any briefings that you think might be appropriate. I would also be very interested in helping on any initiatives that are relevant.

Thank you,

Bowinn Ma, MLA

Subject: RE: Questions for Minister - TRAN Media Request: Logging trucks on Highway 19
Proposed response:
"The province of British Columbia is committed to making British Columbia's highways and roads as safe as possible, and the transportation network on

northern Vancouver Island is an important part of connecting North Island communities, moving goods, and providing access for tourists and others who visit this beautiful part of our province.

“We are aware that, since last spring, logging truck traffic has increased by roughly 40-60 vehicles per day on Highway 19 and nearby side roads north of Campbell River, and the decision by Western Forest Products to move away from rail and use logging trucks will further increase this traffic. These vehicles add more wear and tear on our roads and on our highways, and I am aware of the concerns being raised in communities along these roads.

“Ministry staff are closely monitoring these routes and are adjusting the maintenance work schedule to address areas that need it the most, including increasing the grading work we do on sections of the gravel side roads. We are also working to identify potential future road and maintenance improvements and working with the industry and companies to identify potential future road improvements over the long term.

“In addition, we are refocussing our Commercial Vehicle Safety Enforcement resources to monitor and enforce provincial standards and to make sure all commercial trucks operating on these highways and side roads meet all safety requirements.”

Deadline ASAP

Request

Reporter is looking to speak with Minister Trevena about an increase in logging trucks on the road due to the removal of a log train in the north Island. Hoping to speak with her at the leg today.

He says: Without the train the number of trucks will greatly increase. We're already getting calls from the public worried about the increased dangers.

Question:

- Are there any concerns about the increase of logging trucks travelling on the north island roads -- including dangers this may create to the public, and extra wear and tear on the highway?

Subject: North Shore Planning

Good afternoon Bowinn,

Thank you for sharing the draft documents (from yourself and TransLink) on the proposed approaches to integrated transportation planning in the North Shore. Agree, there are lots of similarities in the two documents, and likely a path forward through one or a combination of the proposed approaches.

The Ministry of Transportation and Infrastructure has a role as a partner in the planning of a North Shore integrated transportation plan, and would appreciate being engaged in the consultation process.

In terms of next steps, you may want to work either through your constituency office or through the minister's office to arrange the initial meeting with TransLink and local governments.

Sincerely,
Andrea

Hi Derrick & Alisma – this NR has passed all program and communications approvals. It has been written by Alex in our office.
We are slating this one for release on Tuesday Nov. 14.
TBC on date, but this is when program has told us the tender will be posted.
Quote for signoff:
"We know that traffic congestion is a major concern for people in the Capital Regional District, and particularly those in the fast growing western communities," said Minister of Transportation and Infrastructure, Claire

Trevena. "Prioritizing funds for bus lanes that will allow buses to bypass cars sitting in traffic will encourage more drivers to leave their cars at home and choose the faster, greener option."

Many thanks

Lisanne Bowness

Hello,

The Comox Valley Regional District would like to meet "at the earliest opportunity" to discuss funding options for the Comox Valley Water Treatment Project. (Briefing Attached).

They would be able to travel to Victoria with their delegation or meet locally, whichever meets the Minister's schedule.

Thanks,
Aaron

Nothing to me at all -- we usually don't get involved with CP unless a derailment has blocked a provincial highway and or there are impacts to motorists.

Our GCPE usually gets a head's up if there's a role for the province to play in messaging... Ryan/Kathy did you get anything – or hear from Technical Safety BC?

Reporter**

John Gleeson, Editor
Coast Reporter
editor@coastreporter.net
604-885-4811

Deadline Tuesday, November 14, 2017 12:00 PM

Request

Reporter is looking for someone to speak to regarding an accident on Highway 101 (near Sechelt) in late October.

See background below. Questions include:

- Has this area of Highway 101 been studied?
- Are any efforts being done to remedy the dangers in this area? (Reporter says two cars have gone off highway at this location.)
- There are cement barricades at some areas along this stretch, but not this one -- why?
- Is the ministry going to do anything to change this, or is it just driver error?

Background is fine.

Reporter says: A relative of the recent accident victim on Highway 101 near Middlepoint has contacted the SCRD and the paper with the letter copied below. I've also copied the brief item she references.

The SCRD has asked me to put something in the paper, if we run the letter, saying they are not responsible for roads. Since the letter is unsigned, I thought I'd instead develop it into a news story on the section of highway in question, since it has been the scene of two rather scary accidents in the past year.

I was hoping you could tell me if MOTI has studied that section of highway and whether any steps are deemed warranted or are being contemplated in order to prevent similar accidents in the future. Drivers have asked me, for instance, why there are concrete barriers at other points in the highway in that area, but none there.

Dear SCRD,

Re: 12000 blk Sunshine Coast Highway (pge 10, Coast Reporter).

Isn't it time the SCRD did something about this part of our highway, or is local government going to wait until one or more of our community members or visitors dies, is seriously injured, psychologically scarred, or loses a loved one (or two or three) - like my family almost did with this latest accident.

To protect the identity of the driver, I ask that you not disclose my name, but the day of this latest accident could have easily been the worst day of my family's life. Instead, our loved one survived shaken, in shock, but alive and recovering.

Do something! Please! Or make arrangements to have something done with the proper contractors.

Let us know that this accident was not for nothing by having the SCRD demonstrate that we matter and that our loved ones matter to local government. Shore up that part of the road with barriers or find another way to assure no one else will suffer.

I don't think I will be able to stop asking until you do something to protect our community (and possibly my family), and visitors from another tragedy.

With respect and hope,

Laurel

<http://www.coastreporter.net/news/local-news/vehicle-plunges-off-road-1.23082577>

Here is the link to an incident at the same curve on Highway 101 from last year that received wide attention:

<http://www.coastreporter.net/news/local-news/crash-survivor-shares-harrowing-tale-1.3536927>

Background

Recommendation

- ? **Our thoughts are with those affected by this incident along Highway 101 in Pender Harbour last week.**
- ? **The Ministry is having our traffic engineers review this curve on Highway 101 to determine if there are any feasible options to improve safety at this location.**
- ? **The curve of the road makes the installation of a concrete barrier challenging – the ministry would have to widen the road and reconstruct the existing retaining wall.**
- ? **That is why we are looking at alternative barrier solutions – and additional signage – to improve the safety of this stretch.**
- ? **Sharp curve warning signs on currently located at both ends of the curve, with a 30 kilometre / hour warning sign.**

- ? **We will also work closely with local government to ensure their input is provided into this review and will share any results once our review is complete.**

Danielle

Reporter

Sterling Eyford, Producer
CBC - Victoria
sterling.eyford@cbc.ca
250-360-2227

Deadline ASAP

Request

Reporter would like to interview the Minister or staff member regarding the recent announcement about the Douglas Street bus lanes -- specifically, someone who can speak to the policy behind this decision.

Interview would be live tomorrow (Wednesday) morning at 8:10 AM, for a 7-minute spot (no call-ins) with host Gregor Craigie.

Questions include:

- What directed the policy and mission behind this decision?
- Has the ministry heard and concerns (from residents, stakeholders, etc) about expanding the road to make this happen?
- How will this project mesh into the bigger project scope of the McKenzie Interchange?

No

There is a caucus mtg that night. Only Premier and Carole James will be at awards I believe

Morning,

Will you and Minister be attending the Premier's Awards on November 21st?

Thanks.

Jen

Great

What about this one?

Ditida'a, Port Renfrew, 5000 Year Old Midden	Port Renfrew/Jordan River John Horgan	The Pacheedaht (people of the seafoam) name is derived from an ancient tradition about a wall of seafoam that once flooded their river.

Subject: FW: Stops of Interest - Ready to go Signs

Hello –

As discussed with Amber yesterday, these are the upcoming Stop of Interest locations. The s.13,s.16 have been made and are ready to go. They say 2017 on them. The s.13,s.16 can be made on two-week notice. Cast iron signs.

Note s.13,s.16 in the premier's riding. I will bring this around to our others MLAs with locations in their ridings to gauge interest.

Of the signs in opposition ridings, the Nisgaa Highway in Terrace may be of interest for a large event.

Let me know if any of these are of central interest

Thanks
Derrick

Hi Derrick, as discussed here are ^{s.13,s.16} SOI signs that are manufactured and ready to be installed ^{s.13,s.16} ready next month). Let me know when you get a sense of which ones you would like installed first and we can turn this around in a week.

The 49th Parallel	Ladysmith Doug Routley	Divides much of Canada and the US. However, a portion of Vancouver Island is uniquely situated south of this latitude.
The First Flight	Saanich Rob Fleming	From this site, the first Canadian-built aircraft made its first flights in September of 1910; Victoria's first airport from 1928-31.
Western Speedway	Langford John Horgan	Oldest race track in western Canada still in operation. Fans of all ages have enjoyed auto racing here since 1954. It is also home to Victoria Auto Racing Hall of Fame.
s.13		
s.13		
The Doukhobors	Grand Forks Linda Larson	A religious sect that were persecuted for their beliefs in their home country of Russia. They were an industrious group and contributed to the valley's history.
Canoe River Train Crash	Valemount Shirley Bond	In November 1950, 17 soldiers and 4 engineers lost their lives when a westbound train carrying members of the 2nd regiment, Royal Canadian Horse Artillery, on route to the Korean War, collided with an eastbound train just east of the Canoe River.
Cretaceous Trackway	Tumbler Ridge Mike Bernier	BC's first accumulation of dinosaur bones were found and the formation of the Peace Region Palaeontology Research Center.
The Nisga'a Highway	Terrace/ Rosswood Ellis Ross	Will be the first SOI sign along Hwy 113 (Nisga'a Highway). Highlights the historic transportation and trading route
East Lillooet	Lillooet Jackie Tegart	One of eight internment camps established in BC by the Government of Canada to intern Japanese Canadians during WWII. At it's height it was home to 309 people.
Yellowhead Blue River	Blue River Shirley Bond	A project of the Federal government, they employed Japanese-Canadian males 18 or over.

^{s.13,s.16} ready December 2017:

Ditida'a, Port Renfrew, 5000 Year Old Midden	Port Renfrew/Jordan River John Horgan	The Pacheedaht (people of the seafoam) name is derived from an ancient tradition about a wall of seafoam that once flooded their river.
Harry Manson	Nanaimo Leonard Krog	Snuneymuxw soccer player who competed in the late 1800s and early 1900s. Harry was one of the players who plated in the first-ever

	Doug Routley	Aboriginal vs non Aboriginal soccer match in Canada
s.13,s.16		
Yorke Island	Sayward and Kelsey Bay Claire Trevena	Important coastal defence gun battery defending the entrance to Johnstone Straights during WWII.
