Subject: Interview request - TRAN Follow-up Media Request: E & N rail corridor

Will and Melanie,

Is MLA Dean interested in doing one more interview on the E&N rail corridor and the meeting last week? This reporter from CTV would like to speak with her, if so. Please let us know.

Thanks,
Danielle

Reporter

Robert Buffam, Reporter
CTV Vancouver Island - Victoria
robert.buffam@bellmedia.ca

Deadline ASAP

Request

Reporter would like to schedule an interview with MLA Dean about the meeting that happened last week regarding the E&N rail corridor. Note that reporter has already received information about this in background, but did not receive an interview yet.

Background

This is a follow-up to a media request from January 3, 2019.

REQUEST:

Reporter is hoping to get a statement from the Province regarding the E & N rail corridor. He says he gathers the Province met recently with the ICF about this.

QUESTIONS:

- 1) Is the idea of rail on the corridor still alive?
- 2) How much would it cost?
- 3) How much of the corridor would be returned to passenger rail? Just Langford to Victoria? All of it?
- 4) Is an assessment being done on the viability of rail on the line? If so, how much is that costing?
- 5) Is the Province meeting with ICF soon about this? When? Today?

RESPONSE:

Provided Background

In December, 2018, the ministry was a part of a historic roundtable meeting, bringing together the Premier, First Nations, local decision makers and the Island Corridor Foundation (ICF) to discuss the future of the E&N corridor on Vancouver Island. The government is committed to finding the best use of the corridor so that people on Vancouver Island can get moving more quickly and reliably. It was clear from the meeting that people are eager to see the corridor used to get people moving.

The ministry is taking the ideas and input received during this productive meeting and will provide opportunities for continued discussion in the coming months.

In the short term, the ministry is working with the ICF, who own and operate the land, to develop an updated engineering assessment of the corridor and explore the best action moving forward. This work will be led by the Province in close collaboration with local First Nations and the ICF, and funded by the Province.

As the details of the engineering assessment are still in the discussion phase, no dollar amounts are available at this time.

Subject: FOR APPROVAL - Media Request - Global - Kater

Hi folks – please see our proposed response to the Global media requests regarding Kater/VTA. This has been approved by ADM Bowman, the Board and ministry staff in the Branch.

Reporter
Richard Zussman, Reporter
Global TV | BC
richard.zussman@globalnews.ca
250-216-7328

Deadline ASAP

Request

Reporter has a few questions about Kater, due to this tweet: @TaxiDriversBC: Jan 6 - "VTA has signed an agreement on 4th Jan with 'KATER Ride-Hail' to provide service by newly 15% allotted taxis to VTA

members. Giving taxis to KATER is violation of PTB rules; don't worry KATER owned by politicians!
@TranBC @MikeSmythNews @jasjohalbc @HarryBainsSN @mvanhemmen"

QUESTIONS:

- 1) Can Kater operate under PTB rules?
- 2) What restrictions are there for a taxi company to use an app like Kater?
- 3) Does the province need to approve the use of Kater?

Reporter

Keith Baldrey, Reporter
Global TV | BC
keith.baldrey@globalnews.ca
250-387-1572 c: 250-360-7658
Deadline ASAP

Proposed response:

- The Vancouver Taxi Association (VTA) has informed the Passenger Transportation Branch that it recently entered an agreement with Kater to use its app-based technology in some taxis in the Lower Mainland.
- The Ministry, through the Passenger Transportation Branch, is taking steps to ensure that all current provincial and licensing requirements are met including a regular, government approved safety inspection of the vehicles, insurance that will cover the carrying of paying passengers and compliance with licence boundaries and other requirements until the fall of 2019 when new regulations will come into force that will allow ride-hailing companies to enter the market.
- Between October 2018 and December 2018, the Passenger Transportation Board, an independent tribunal, approved additional taxis to operate in Metro Vancouver. This was a short-term action undertaken by the Board as part of the taxi modernization process to allow taxi companies to increase their taxi fleets by 15%, one of three short-term action items recommended by Dr. Dan Hara to increase the number of taxis on the road to better meet consumer demand. More information is available at:

This work will be led by the Province in close collaboration with local First Nations and the ICF, and funded by the Province.

As the details of the engineering assessment are still in the discussion phase, no dollar amounts are available at this time.

Malahat Secondary Route

This Government understands that people on southern Vancouver Island are tired of talking about solutions for the Malahat. They want to see action. And they want to see it now.

Our Government continues to work with all stakeholders, including the Capital Regional District (CRD), to ensure all possible detour options for the Malahat are being explored and environmental, First Nations, and local community interests are understood.

The ministry anticipates sharing more information on this ongoing work in the very near future.

Subject: RE: For approval please - E&N Corridor Response

Will has confirmed the highlighted section. Is everyone ok with this?

In December, 2018, the ministry was a part of a historic roundtable meeting, bringing together the Premier, First Nations, local decision makers and the Island Corridor Foundation (ICF) to discuss the future of the E&N corridor on Vancouver Island. The government is committed to finding the best use of the corridor so that people on Vancouver Island can get moving more quickly and reliably. It was clear from the meeting that people are eager to see the corridor used to get people moving.

The ministry is taking the ideas and input received during this productive meeting and will provide opportunities for continued discussion in the coming months.

In the short term, the ministry is working with the ICF, who own and operate the land, to develop an updated engineering assessment of the corridor and explore the best action moving forward. This work will be led by the Province in close collaboration with local First Nations and the ICF, and funded by the Province.

As the details of the engineering assessment are still in the discussion phase, no dollar amounts are available at this time.

Reporter

Robert Buffam, Reporter
CTV Vancouver Island - Victoria
robert.buffam@bellmedia.ca
250-507-6715

Deadline ASAP

Request

Reporter is hoping to get a statement from the Province regarding the E & N rail corridor. He says he gathers the Province met recently with the ICF about this.

QUESTIONS:

- 1) Is the idea of rail on the corridor still alive?
- 2) How much would it cost?
- 3) How much of the corridor would be returned to passenger rail? Just Langford to Victoria? All of it?
- 4) Is an assessment being done on the viability of rail on the line? If so, how much is that costing?
- 5) Is the Province meeting with ICF soon about this? When? Today?

This is what the reporter is referring to - on the Island Corridor Foundation website: <http://www.islandrail.ca/update-from-icf-ceo-larry-stevenson/>

He wants to know - what is the Province's position on the E&N line? And did the Province commit to a track and bridge assessment as it says on the website?

Recommendation

In December, 2018, the ministry was a part of a historic roundtable meeting, bringing together the Premier, First Nations, local decision makers and the Island Corridor Foundation (ICF) to openly discuss the future of the E&N corridor on Vancouver Island.

This discussion marked a progressive step forward in ensuring that major stakeholders along the corridor have their voices heard and also understand differing viewpoints and perspectives.

The ministry is taking the ideas and information discussed at this meeting and is looking forward to sharing opportunities for continued discussion in the coming months.

In the short term, the ministry will continue to work with the ICF, who own and operate the land, to work towards an updated engineering assessment of the corridor and explore the best action moving forward.

As the details of the engineering assessment are still in the discussion phase, no dollar amounts are available at this time.

Subject: Building for the Future conference

Hi Sarah,

Happy New Year!

S.22

I wanted to touch base with you since S.22

There are some outstanding tasks that are on my plate for our upcoming Building for the Future conference on Jan. 25.

I've listed the items below and I am hoping you can provide feedback for each. Urgently, we need to get our moderators pinned down.

1. Claire Trevena and Melanie Mark are both on the agenda to provide remarks from government. Can you please confirm whether there needs to be any action on our part for these items? Can I assume both ministers will have prepared speeches? We will also need short bios for the program.
2. Vicki Willow is set to provide an overview of the Community Benefits Framework. We will need her bio and photo for the program. If you can share with me her email, I'll have our event planner, Nancy Antolicic, get in touch. Nancy will also want any PowerPoints or notes that Vicki wants to present/distribute.
3. We need moderators for the two panel presentations. We are suggesting S.13,S.22
S.13,S.22 If you are amenable to these folks as moderators, we will approach as to their availability.

Since Jan. 25 is fast approaching and there is still a lot of work to do, is it possible for you to let me know particularly about the moderators by end of day tomorrow?

Thanks, Sarah!

Hi William,

I wanted to flag for you a letter (attached) that Minister Garneau sent to your Minister the week before last about the creation of a taskforce on schoolbus safety. As you know, any solutions require federal, provincial and territorial collaboration and Minister Garneau wants this to be a key topic of discussion at the meeting of transportation ministers at the end of January.

Minister Garneau hopes that Minister Trevena shares his enthusiasm, and that Ministers can speak of effective and timeline measures that can be put in place to address this important issue.

Please let us know if you have any questions.

Hey Mike, Happy New Year.

Any concerns with S.22 If the name doesn't ring a bell do you know someone who might be familiar with him?

Cheers,

Will

Subject: Building for the Future conference

Hi Sarah,

Happy New Year!

S.22 . I wanted to touch base with you since s.22 There are some outstanding tasks that are on my plate for our upcoming Building for the Future conference on Jan. 25. I've listed the items below and I am hoping you can provide feedback for each. Urgently, we need to get our moderators pinned down.

1. Claire Trevena and Melanie Mark are both on the agenda to provide remarks from government. Can you please confirm whether there needs to be any action on our part for these items? Can I assume both ministers will have prepared speeches? We will also need short bios for the program.

2. Vicki Willow is set to provide an overview of the Community Benefits Framework. We will need her bio and photo for the program. If you can share with me her email, I'll have our event planner, Nancy Antolcic, get in touch. Nancy will also want any PowerPoints or notes that Vicki wants to present/distribute.
3. We need moderators for the two panel presentations. We are suggesting S.13,S. S.13,S.22 Vancouver. If you are amenable to these folks as moderators, we will approach as to their availability.

Since Jan. 25 is fast approaching and there is still a lot of work to do, is it possible for you to let me know particularly about the moderators by end of day tomorrow?

Thanks, Sarah!

Gentlemen,

Heads up I've requested a meeting with our Minister's regarding forest service roads accessing First Nations communities.

Might be worth a quick chat on this before the Ministers sit down.

Hi Danielle,

Thank for everything last week.

Can you remind me if you forwarded along that contact information for the Chief who was looking for federal funding?

Thanks

Attached is a letter from James Davies – Davie Shipyard. It's mostly a thanks for meeting and looking forward to briefing minister on progress in January.
It also includes and invite to tour MV Asterix in January – which of course the minister is not able to do.
Not sure if you would like any action on this other than regrets for the minister.
