Deadline ASAP

Request

Reporter says: As a follow-up, when you say "the regulations allow the ministry to designate specific highways as requiring winter tires, but does not provide an option to designate specific type of winter tire" — whose regulations are those? Shouldn't that be something the province has control over? If municipalities in the corridor wanted the designation changed, would that be possible?

Background

This is a follow-up to a media request from January 8, 2018.

REQUEST:

Reporter says: Does the Ministry have any stats about accidents involving M&S tires on the Sea to Sky Highway? Apparently ICBC doesn't have anything, and the RCMP isn't required to identify if tires are a contributing factor when filling out accident reports. No one seems to have any hard data on tires and accidents.

How does the ministry determine what tires are required for a highway? In the case of Highway 99, it is currently M&S or Snowflake — some people are now saying it should be strictly Snowflake from Oct-March. Is there a chance the ministry revisits this designation?

RESPONSE:

Provided Background

A winter tire is defined as a tire labelled with either the 3-peaked mountain/snowflake symbol or the mud and snow (M+S) designation. The ministry receives collision data from the RCMP and ICBC, and in the event of a crash, the RCMP will note if a vehicle does or does not have winter tires, but reports will not specify the type of tire.

We encourage drivers to get the best tires they can for their vehicles. People that regularly travel highways like the Sea to Sky during winter months, we suggest the use of mountain/snowflake tires, because they provide the best traction in severe snow conditions. For those that can adjust travel times to more favourable conditions, an M+S tire is a viable and safe option, and meets the Rubber Manufacturers Association (RMA) and Rubber Association of Canada (RAC) all-season tire definition.

In all cases, winter tires must also be in good condition with a minimum tread depth of 3.5 mm. The RCMP conducts periodic road checks, and will turn vehicles around if they are found to have improper tires. Winter tire regulations went into effect October 1st, and drivers who don't have the proper winter tires on their vehicle can receive a fine of \$121. Drivers who don't have the minimum tread depth on their tires (3.5mm) can receive a fine of \$109.

It is the responsibility of the operator of a vehicle to understand the conditions on roads they regularly drive and equip their vehicle for those conditions. Drivers are also reminded to drive to the conditions. In bad weather, this means using caution and slowing down.

The province has posted 389 winter tire signs on our highways. Nearly half (49 per cent) of British Columbia drivers now own winter tires, compared to 38 per cent in 2014.

Recommendation

Q: As a follow-up, when you say "the regulations allow the ministry to designate specific highways as requiring winter tires, but does not provide an option to designate specific type of winter tire" — whose regulations are those? Shouldn't that be something the province has control over? If municipalities in the corridor wanted the designation changed, would that be possible?

The regulations around winter tires are established by the Province of B.C., and current regulations were developed based on technical analysis through the Road Safety and Speed Review, which you can find here: <https://www2.gov.bc.ca/gov/content/health/about-bc-s-health-care-system/office-of-the-provincial-health-officer/current-health-topics/road-safety-and-speed-review?keyword=rural&keyword=speed&keyword=and&keyword=safety&keyword=review>

Both mountain/snowflake and M+S (mud and snow) tires, with a minimum tread depth of 3.5mm, are safe and viable options for winter driving. The current definition allows drivers to use the tires that best match their regular travel. While we encourage drivers that regularly travel mountain passes to use mountain/snowflake tires, there are winter days where the highways are in good condition and M+S tires are perfectly safe.

Municipalities are within their rights to establish specific winter tire requirements, but they would only apply to vehicles traveling within those municipal borders, and would exclude vehicles traveling on provincial highways within those borders.

Deadline ASAP

Request

Reporter says:

Regarding the repair work, could you please let me know the estimated cost, and if the southbound lane of the overpass will remain open during the repairs?

As well, what will be the impact, if any, of traffic flow to the Highway 99 northbound lanes during these repairs?

Has the ministry received many complaints regarding the overpass situation?

We've already had some response from local residents questioning why the bridge isn't just being replaced with a four-lane structure. If you could speak to that as well, that would be much appreciated.

I'm on deadline this morning, so if you could let me know as soon as possible, that would be much appreciated.

Background

Recommendation

We expect to be able to maintain the single lane southbound on 152nd Street during construction. On Highway 99, at times there will be a nighttime reduction to one lane in each direction using a diversion for northbound traffic through the median to use one of the southbound lanes.

The ministry is aware of concerns about the impact to traffic as a result of the damage and upcoming repairs, as well as local support to increase the bridge to four lanes. Ministry staff are working closely with the City of Surrey to plan and prioritize improvements in the area, including a possible future expansion at the interchange. At this time the ministry's focus is to undertake the emergency repairs required and reopen all lanes to traffic as quickly as possible. The ministry is still finalizing the total estimated cost of repairs.

We appreciate everyone's patience while we monitor and manage traffic volumes as best as possible.

MEDIA REQUEST #3:

Reporter

Geoff Hastings , Reporter
Global TV | BC
geoff.hastings@globalnews.ca
604-220-8304

Deadline ASAP

Request

Reporter would like to do an on-camera today with someone who can speak to the 152nd underpass. Time and place to be determined. Clip will be for tonight's evening broadcast.

Suggested speaking points – 152nd St:

- The Ministry of Transportation and Infrastructure has determined a schedule for repairing the 152nd St. underpass at Highway 99 in Surrey.
- Crews will begin repairs soon – in the coming weeks.
- They will remove and replace the damaged girders, and demolish and reconstruct the deck over the damaged area.

- New girders are currently being fabricated and will arrive on site in February, and repair work is anticipated to finish in April.
- The ministry thanks motorists for their continued patience while these extensive repairs are completed. Every attempt is being made to manage traffic volumes and to minimize disruption to travellers. Please watch for construction workers, traffic controllers, signs and changing traffic patterns, and get the latest traffic advisories by visiting www.DriveBC.ca and by following @DriveBC on Twitter.

If asked for the specific day work will start:

- We are still having meetings with the various contractors who will be working on the project and will have a start date soon – we expect by early February.

If asked about traffic management:

- We are still finalizing the traffic management plan, but expect to be able to maintain the single lane southbound on 152nd Street during construction. On Highway 99, at times there will be a nighttime reduction to one lane in each direction using a diversion for northbound traffic through the median to use one of the southbound lanes.

If asked about cost:

- The ministry is still finalizing the total estimated cost of repairs.

If asked about future 4-laning of the bridge / why doesn't the ministry expand the bridge while making the repairs:

- We are aware of local support to increase the bridge to four lanes. We are working closely with the City of Surrey to plan and prioritize improvements in the area, including a possible future expansion at the interchange. At this time our focus is to undertake the emergency repairs required and reopen all lanes to traffic as quickly as possible.

If asked if the ministry has been receiving complaints:

- We are aware of concerns about the impact to traffic as a result of the damage and upcoming repairs.
- We appreciate everyone's patience while we monitor and manage traffic volumes as best as possible.

Suggested speaking points – Bailey Bridge:

- The Bailey Bridge replacement project on King George Boulevard in south Surrey will begin once the 152nd St. underpass has been repaired, and all lanes on Highway 99 and 152 St. have re-opened.
- A new steel structure will replace the one-lane northbound bridge and will eliminate the need for a vehicle-weight restriction.
- Work is tentatively scheduled to occur May through June, and the adjacent two-lane structure on King George Boulevard will remain open to traffic during construction.

If asked why the Bailey Bridge repair has been delayed:

- To keep traffic flowing and minimize delays, the Bailey Bridge replacement project on King George Boulevard in south Surrey will begin once the 152nd St. underpass has been repaired, and all lanes on Highway 99 and 152 St. have re-opened.

If asked about cost:

- The ministry is still finalizing the total estimated cost of repairs.

To: Stone, Lynne TRAN:EX
Subject: YMCA Federal Infrastructure Funding

Hi Lynne,

I have something I am hoping you can look into for me. Minister Robinson met with Stephen Butz on Friday. Stephen is the President of the YMCA of Greater Vancouver. The YMCA has several projects in development (South Vancouver, Coquitlam, Surrey, Chilliwack). They had applied for \$15 million through the federal government in infrastructure grants. As I understand infrastructure funding from the federal government is channeled through the provincial government.

The YMCA was a high priority for \$15 million in funding under the previous government. However, with the new government coming into place, they do not know if their standing remains. I know unlike when the previous government came to power and tossed everything in the works we are committed to doing better. With that said I was hoping you could check with Derrick or someone in the DM's office about the status of the Greater Vancouver YMCA's federal funding application.

Thanks as always,

Hi Derrick,

Two for approval please.

D

MEDIA REQUEST #1:

Reporter

Bruce Fuhr, Editor
The Nelson Daily
editor@thenelsondaily.com
250-354-7025

Deadline ASAP

Request

Reporter is asking for specs on the ferry, as well as the cost of the project and the years in service of the older ferry.

Background

This is a follow-up to a media request from January 15, 2018.

REQUEST:

Reporter says: I have photos of the Glade Ferry launching today.
Can you provide a press release of the launching, ie, ferry, specs, when new ferry begins operation, etc.
The Nelson Daily publishes daily.

RESPONSE:

Provided Background
The new cable ferry at Glade has been assembled on site and is being transferred to the river today.
It will be undergoing final testing on site. It is expected to be in service in early February.

Recommendation

- ? The old cable ferry at Glade was built almost 70 years ago, in 1949.
- ? The new ferry is a bit larger, carrying nine cars instead of eight. It can also carry commercial vehicles at full highway loads.
- ? In addition, while the ferries are docked during off-peak hours, they will be powered completely by on-board batteries. This will reduce noise at the terminal, and lower the vessels' greenhouse gas emissions.
- ? Specs of new 'Glade II':
 - o Length : 28.8 m
 - o Breadth: 10.5 m
 - o Speed of transit: 5.5 knots
 - o Vehicle capacity: 9 vehicles
 - o Number of Passengers: 48

MEDIA REQUEST #2:

Reporter

Flavio Nienow, Editor
Lakes District News (Burns Lake)
newsroom@ldnews.net
250-692-7526

Deadline ASAP

Request

Reporter says: Requests for proposals will be tendered this week for highway maintenance contracts in Service Area 24 - Lakes (the ministry issued a press release today about it).

Could you tell us exactly when that will happen? And how would we have access to new maintenance contract for our area?

Background

Recommendation

The RFP for Service Area 24 (Lakes) will be on BC Bid by the end of this week. This is one of 26 RFP's that are going out to tender over the next two years. The successful proponent for Service Area 24 will be awarded the contract in spring 2018.

There will be a public information session on January 19, 2018 at 1:30pm for the RFP phase of the competitive selection process for highway maintenance contracts.

For more information on updates, timelines, and to register for the public information session, go to <https://www2.gov.bc.ca/gov/content/transportation/transportation-infrastructure/contracting-to-transportation/highway-bridge-maintenance/highway-maintenance-contracting>

The maintenance agreements, specifications, Local Area Specifications, contract values, and boundary maps can be found online:

<https://www2.gov.bc.ca/gov/content/transportation/transportation-infrastructure/contracting-to-transportation/highway-bridge-maintenance/highway-maintenance>

Local district staff are also available to discuss with members of the public the specificities of the contract for their service area.

Subject: Westshore Transportation

Mitzi

As discussed CRD is pushing forward asking for Municipal consent to become the Regional Transportation Authority and form a 'Service' that would enable them to collect taxes in the Region. It is my understanding that Regional Districts are NOT to venture into Services around only 2 areas, policing and roads (by Provincial designation) and what appears on the BC Government website.

At the CRD Board, staff and some members have stated that it is the desire and has been said by Minister and Ministry that the CRD needs to move forward with this asap. I have NOT heard any such statement in any of the several meetings and or conversations I have participated in with the Minister and or her staff.

Colwood Council will be discussing the CRD request for consent at our next meeting Jan 22nd, I would like you to clarify (as the liaison to our Transportation discussions) Has the Minister or her staff messaged CRD staff or members of the Board that a Regional Transportation Authority Service be formed under the Regional District. I need to know by 10am this Thursday so that my report can be included with our agenda.

Municipal consent needs to be unanimous and if it is not the CRD has stated it will undertake an 'Alternative Approval Process' to force this through. This is a low threshold maneuver that will simply add taxation to an already overburdened taxpayer without providing any real solution as they have no jurisdiction over Provincial or Municipal roads. Any lobbying of senior levels of government for funding can already be achieved through direction of the Board, any planning should be done by people movers like BC Transit not bureaucracy.

I want real solutions for real issues around transportation and look forward to working with you and Ministry to achieve.

Thank you,

Carol

PS - Not sure what news the Premier might be releasing regarding Sooke Highway/Westshore traffic might be but I am hopeful there is something there to support connecting Transit with 'bus on shoulder' as a start toward rapid transit. 🙏

On Jan 17, 2018, at 12:51 PM, Gardea, Daniela MAH:EX <Daniela.Gardea@gov.bc.ca> wrote:

Hello MAs,

The Union of British Columbia Municipalities (UBCM) is holding its annual **UBCM Executive outreach meetings** with government (previously known as UBCM Advocacy Days) in Victoria, **February 21 – 23**.

While gathered in Victoria, members of the UBCM Executive team will seek to meet with Ministers, Parliamentary Secretaries, Caucus Chairs, MLAs from all parties, and others to raise awareness of, and begin or continue dialogue on current key priorities identified by UBCM's membership.

Your Minister may receive an invitation to attend a meeting with members of the UBCM Executive to discuss their priorities. Please let us know if you plan to schedule this meeting.

While booking meetings on these dates might prove challenging, we'd like to encourage you to consider finding a time to meet with the UBCM Executive. We have flagged for UBCM that it will be very difficult for Ministers and MLAs to leave the precinct during sitting days and can support you in booking a room large enough (≈ 10-20 people) for the meeting here in the Legislature.

MAH Ministry staff (along with staff you deem to be in attendance with your Ministers) **may attend the meetings as a resource to coordinate UBCM requests and update Minister Robinson.** Please also let us know if this will not work for your minister and we will adjust accordingly.

We will provide you with a coordinated document on relevant topics with **key messaging** in early February.

UBCM will also host an all-party reception on Wednesday evening, February 21 at the Hotel Grand Pacific, 7:00 – 9:30 pm. This will be the fifth time UBCM has hosted this annual gathering for all members of the Legislative Assembly and the event is traditionally very well attended.

Invitations are expected to be sent this week from UBCM.

Let me know if you have any questions.

Daniela

Hi there,

MLA Simons would like to arrange a meeting with Minister Trevena and ministerial staff to discuss a few topics.

Specifically:

Bike Lanes in Sechelt;

Pender Harbour;

Langdale Ferry;

and Midgley.

We can be very flexible in terms of date and time and a teleconference meeting is fine if the Minister won't be in Victoria much before the start of session.

Thank you for your time,
Tamara

Subject: Highway 4 Construction Communications

Minister, Derrick and Alisma,

As an outcome of last week's presentation to the Alberni Clayoquot RD, some local media have begun reporting on next year's planned closures to Highway 4. We will begin to proactively communicate publicly in January when the first information sessions are scheduled, but in case you have questions or are hearing concerns about the Ministry's plans, here is a topline overview of Highway 4 communications which will be updated when more details are available in January:

- **Information sessions** – in Tofino & Ucluelet late January, dates and venues TBC. Promotion via ads, Info Bulletin and social media. Products will include the usual print boards and Key Messages/QAs.
- **Stakeholder meetings** – occurring/ongoing to discuss the construction schedule with First Nations, local governments, Parks Canada, first responders, tourism and business associations. A contact list will be developed so updates can be distributed via email.
- **Project website** – including dedicated email address and phone message line, and proposed traffic schedule – to go live Dec 22, TBC (this is to ensure Parks Canada can provide a link when their online reservation service opens January 8). Future additions to the website may include an FAQ and a fly-over simulation.

- **News release** – to announce contract award and start of construction (location too remote for an event). Follow up NRs on milestones/completion.
- **Traffic advisories** – at start of construction and ongoing as needed.
- **DriveBC & signs** – DriveBC notices will be posted and 5 changeable message signs will be placed on the route with contact info
- **Proactive media relations** – prior to Info Sessions and any media releases, will offer to pre-book interviews with local media.
- **Social media** – ongoing (questions beginning to pop up on FB) through to end of construction.

Interim key messages (until January):

- We're having conversations with communities and stakeholders like first responders and business and tourism associations to finalize the construction timeline, including overnight traffic stoppage periods and a protocol for emergency response.
- We will be hosting public information sessions in the new year. More details will be available in the coming weeks regarding these information sessions and the proposed construction schedule.
- The \$30-million Kennedy Hill safety upgrade is on track for construction to start Spring 2018 and be finished in Summer 2020.

Don't hesitate to give me a call with questions.

Best,

Katie Robb

Deadline ASAP

Request

Reporter is looking for interview on the program renewal. Interview is pre-tape, ideally before 2:30pm but otherwise possible for tomorrow. Needs high-level details about the program.

Would also like to know:

Why are smaller communities able to have greater access now?

hskrinjar@vistaradio.ca

Reporter would like to have any additional info about the program, and asking for suggestions for advocacy groups who could speak to this.

Background

Recommendation

BikeBC:

- BikeBC supports communities throughout the province with funding for the construction of new cycling infrastructure – such as: bike lanes, separated bike paths, shared roadways, and now,

enhancements like wayfinding signs, repair stations, bike racks, etc. BikeBC prioritizes projects that improve safety for cyclists.

- BikeBC is a cost-share program that provides successful applicants with 50% of project funding in communities with more than 15,000 people, and up to 75% for communities with less than 15,000. Providing smaller communities with more funding is a new program enhancement to help enable participation for communities of all sizes.
- Some of the benefits of the program include encouraging healthy living and helping address climate change by getting people out of cars and onto bicycles (cutting greenhouse gas emissions).
- Over the past five years, the program has announced \$26.74 million in funding for 113 cycling projects. Due to the cost-sharing nature of the grants, this has resulted in over \$53 million invested in cycling infrastructure in communities throughout B.C.
- BikeBC continues to be a program championed by the provincial government as it helps make local transportation safer, greener and more affordable.

B.C. Air Access Program:

- The British Columbia Air Access Program (BCAAP) provides capital funding to assist B.C. aviation facilities, including airports and water aerodromes, with improvements to their infrastructure.
- Through this cost-sharing program, facility operators can invest in safety and infrastructure enhancements that help strengthen local, regional and provincial economies.
- BCAAP was launched in 2015 and has provided \$24 million in funds to 44 airports throughout British Columbia. Past announced projects include improvements for crack sealing at Vanderhoof Airport and a significant terminal building expansion in Terrace.
- B.C. has more than 300 public airports, heliports and water aerodromes, which play a significant role in connecting communities and in supporting the economy.
- B.C.'s airports handle 20% of Canada's airport traffic, and nearly a quarter of all take-offs and landings.
- Recent enhancements to the program support environmentally conscious projects geared toward greening airport operations and reducing greenhouse gas emissions within B.C.'s aviation sector.

For more information about cycling in B.C., visit: www.gov.bc.ca/cyclingfunding

Hello Alisma,

I wrote you on September 26, 2017 regarding Conversion from Co-operative to Bare Land Strata at Sunshine Valley. To date I have not had a response, other than Lynne Stone advising on October 16th that you were looking into this inquiry and would be in touch soon.

The Alpine Estates residents will be having a board meeting on January 26th and if possible would like a response prior to that date. Could you please look into this inquiry as soon as possible.

Thank you so much.

To: Perry, Alisma TRAN:EX <Alisma.Perry@gov.bc.ca>
Subject: Conversion from Co-operative to Bare Land Strata

Hello Alisma,

MLA Jackie Tegart has been approached by representatives from the Alpine Park Estates in Sunshine Valley (located east of Hope). The Alpine Park Estates was developed in the 1980s and is, with the exception of a few lots, fully built out with 67 residences. Alpine Park Estates currently has a cooperative land ownership model which property owners would like to convert to a bare land strata subdivision. Converting to a Strata will allow their community members access to the equity in their homes as well as allow purchasers opportunities to access mortgages with conventional banks. At this point in time with their current land ownership, they cannot do either one with any type of bank.

In order to have Alpine converted to a bare land strata, The Ministry of Transportation requires that a local hazard assessment be done. This requirement would cost in the range of \$150,000 - \$200,000, which would create a hardship for property owners; and should not reasonable be required because in this case the homes are existing, with some having been there for nearly 40 years.

The subdivision process allows for an exemption of the hazard assessment requirement to be made by the Ministry of Transportation. The Alpine Park Estates' residents have asked MLA Tegart to explore whether the Minister of Transportation would either grant an exemption because of the unique circumstances in this case; or alternatively, assist residents by exploring other options such as providing a covenant to indemnify the province, to overcome this barrier. Could you please advise whether either of these options can be considered.

Thank you so much for your assistance with this issue.

Regards,

Lori Pilon

Subject: 2 upcoming BC Transit events for consideration

Hi Derrick – we wanted to put forward these 2 BC Transit events for consideration:

*BC Transit event – **Victoria Bus Lane event** – happening Wed, January 24 at 10 AM (event plan attached) – The Minister will be in Cabinet on this day, so wondering if there is a local MLA that may want to go to represent?

*BC Transit event – **Electric Bus (Victoria)**- happening sometime in March (event plan to come) – We are recommending the Minister participate in this event, as it really ties into the “greening transportation” theme for the ministry/ provincial mandate. Are there some good dates in March that will work for Minister Trevena? BC Transit is pulling together the event logistics now, and it would be good to nail down a date in advance.

Just let us know – thanks so much

Subject: Fw: Mobility Pricing Independent Commission - Phase One Report

Hi Selina,

Happy New Year!

I just wanted to let you know that we have sent the Mobility Pricing Independent Commission's Phase One full report and the accompanying news release to the entire BC NDP caucus.

I also want to take this time to follow-up with you to request a second BC NDP caucus meeting in Victoria for either the week of February 25th or the week of March 5th. The Commission will have new information about specific decongestion charging approaches based on its research to share with the caucus and hear their input. Similar to last time, the meeting would be led by the Commission Chair and Vice-Chair Allan Seckel and Joy MacPhail, and the Executive Director Daniel Firth.

I look forward to organizing this next meeting with the both of you. We are going to try our best to have all three caucus meetings on one day, like we did back in November, to keep costs for the Commission down. If

you could let me know whether the week of February 25th or March 5th works better and which days, that would be great.

Thanks kindly.

Best Regards,
Sophia Cote

Subject: Mobility Pricing Independent Commission - Phase One Report

Good morning,

I am writing to share copies of a report and news release that were issued this morning by the Mobility Pricing Independent Commission, outlining the results of Phase One of the *It's Time* project. Link to the full report can be found here [Phase One Full Report](#) and the news release is attached.

The report summarizes initial research on congestion in Metro Vancouver, learnings from other cities in the world, and decongestion charging approaches that the Commission will be studying in the next phase of the project, starting this month. The report also details findings of the extensive public engagement conducted in fall 2017. Between online engagement and multiple workshops, the *It's Time* project received feedback from more than 6,000 Metro Vancouver residents, stakeholders and elected officials in Phase One.

We have heard loud and clear that in order for a decongestion charging policy to be successfully introduced in Metro Vancouver, factors such as affordability, fairness and ensuring ongoing investment in public transit need to be taken into account. These themes are discussed in more detail in the attached report, and will be considered during the next phase of study, which focuses on understanding different decongestion charging approaches and how they would impact congestion in Metro Vancouver.

These approaches will be discussed with you and your colleagues during the elected official workshops the Commission is planning for mid-February and/or early March.

Thank you.

Regards,

Sophia Cote

MLA Jackie Tegart has been approached by representatives from the Alpine Park Estates in Sunshine Valley (located east of Hope). The Alpine Park Estates was developed in the 1980s and is, with the exception of a few lots, fully built out with 67 residences. Alpine Park Estates currently has a cooperative land ownership model which property owners would like to convert to a bare land strata subdivision. Converting to a Strata will allow their community members access to the equity in their homes as well as allow purchasers opportunities to access mortgages with conventional banks. At this point in time with their current land ownership, they cannot do either one with any type of bank.

In order to have Alpine converted to a bare land strata, The Ministry of Transportation requires that a local hazard assessment be done. This requirement would cost in the range of \$150,000 - \$200,000, which would create a hardship for property owners; and should not reasonable be required because in this case the homes are existing, with some having been there for nearly 40 years.

The subdivision process allows for an exemption of the hazard assessment requirement to be made by the Ministry of Transportation. The Alpine Park Estates' residents have asked MLA Tegart to explore whether the Minister of Transportation would either grant an exemption because of the unique circumstances in this case; or alternatively, assist

residents by exploring other options such as providing a covenant to indemnify the province, to overcome this barrier. Could you please advise whether either of these options can be considered.

Thank you so much for your assistance with this issue.

Regards,

Lori Pilon

Subject: 2 upcoming BC Transit events for consideration

Hi Derrick – we wanted to put forward these 2 BC Transit events for consideration:

*BC Transit event – **Victoria Bus Lane event** – happening Wed, January 24 at 10 AM (event plan attached) – The Minister will be in Cabinet on this day, so wondering if there is a local MLA that may want to go to represent?

*BC Transit event – **Electric Bus (Victoria)**- happening sometime in March (event plan to come)
– We are recommending the Minister participate in this event, as it really ties into the “greening transportation” theme for the ministry/ provincial mandate. Are there some good

dates in March that will work for Minister Trevena? BC Transit is pulling together the event logistics now, and it would be good to nail down a date in advance.

Just let us know – thanks so much

Subject: Question - Balfour ferry approach

Hi Derrick,

Wanted to check in on this upcoming item – **Balfour ferry future improvements/ info session information bulletin.**

Minister to announce that public engagement will get underway soon on proposed service changes for the inland ferry at Balfour. Following a previous community consultation, government had committed leaving ferry service at Balfour. Remaining in Balfour requires changes to ensure safety in the shallow channel. Service changes that begin this March will be presented to the community. The community will also be able to offer comment on additional longer-term work.

Craig is writing up an information bulletin for this one – for Jan 25-31 (TBD on date).

We will like to do proactive media for this once the IB is issued – to get the word out to the local community.

Would you like for Minister Trevena to be the spokesperson, or would you like the local MLA, Michelle Mungall MLA for Nelson-Creston?

Just let us know – thanks!

Hi Kassandra,
Thank you for sending this note clarifying the meeting topic. Staff have raised concerns about the ferry dependency aspect of the conversation.

Our program area has provided the following advice:

s.13

Would you like to proceed with a meeting with our Education, Recruitment and Retention Initiatives ED, Kevin Brown and ADM David Byres to discuss the content of our Bullets? Our staff won't be able to address the ferry dependency at this time.

Please let me know how you would like to proceed.
Many thanks,

Hi Derrick -

Attached is an approved IB letting the public know about an upcoming open house in Maple Ridge on Jan 31st. It is scheduled to go today at 2:30 pm.

These Highway 7 upgrades are part of a fed/ prov \$70-million strategy for the Pitt Meadows, Maple Ridge and Mission corridor to accommodate increasing traffic demands and regional growth in this area.

Attached is a KM /QA doc that includes questions about the Salvation Army building and the homeless camp. Project staff indicate that this project will not impact the Salvation Army building or the camp in its current location.

FYI here is the new project website, which has just gone live this morning:

Hi Lea,

We've received the following new FOI request from a Researcher as an applicant:

*A copy of the most up to date binder used by the Minister in Question Period.
(Date Range for Record Search: From 10/01/2017 To 12/14/2017).*

Note this is a cross- government request. Records are due by **January 8th**.

The LDD is January 30th.

If you have any questions or concerns, please let me know if I can be of assistance.

Thank-you,

Marion and Gislene

Sent: Wednesday, December 20, 2017 10:43 AM
To: MTI FOI REQUESTS TRAN:EX
Subject: Call for Records TRA-2017-74466 Due January 8, 2018

Hello,

New FOI Request Received

Your Ministry has received a formal request made under the *Freedom of Information and Protection of Privacy Act* (FOIPPA).
The wording is verbatim.

As you have already specified that TRA does not have records to this request please wait for further instruction.
I will confirm whether a transfer to GCPE or a coordinated NRR pointing to records in another Org will be the path we go down.

X-Gov - XGR-2017-74441

Legislated Due Date: January 30, 2018

What Do You Need to Do?

Please complete the attached Call for Records form.

- ? If search and retrieval time is anticipated to exceed 3 hours and/or the total volume of records exceeds 200 pages, complete **only** Sections 1 & 2 of the Call for Records Form as we may be in a position to issue a fee estimate. Then, return the form to the **IAO Business Team Mailbox** by **Date**. Please await further instruction from IAO as the records will not be required until the fee estimate process has been completed. Once fees have been paid or waived, IAO will contact you to continue the call for records process. IAO will advise you if the request is abandoned and closed.
- ? If no fees apply then proceed with the call for records process. If the request proceeds, please complete the attached Call for Records Form and return it to **the FOI Analyst assigned with a cc to the IAO Business Team Mailbox** by **January 8, 2018**.
- ? Send records via email in PDF format. If email is not possible, please send the records in electronic format (CD, memory stick) via house mail with a copy of this note.

Reminder

You should be aware that FOIPPA obligates us to assist the applicant and to respond without delay, openly, accurately, and completely. In the event that the ministry must defend the adequacy of its search to the Information and Privacy Commissioner at Inquiry, those involved in searching for records may be required to sign affidavits confirming they have conducted an adequate search for relevant records.

Questions and Concerns

Please do not hesitate to contact IAO to discuss:

- ? whether the records may be routinely releasable;
- ? whether the information is being prepared for public release or is already publicly available;

- ? ways in which an applicant may want to narrow/focus their request to reduce potential fees; and/or
- ? any other questions or concerns relating to this request.

Thank you for your assistance,

Shari Colliness, FOI Specialist
Business / Infrastructure Team
Information Access Operations

Subject: RE: 1097202 - MLA Simons Info Bullets - Nurses Sechelt Loan Forgiveness

Hi Kassandra,

Thank you for sending this note clarifying the meeting topic. Staff have raised concerns about the ferry dependency aspect of the conversation.

Our program area has provided the following advice:

s.13

I would recommend the meeting with MLA Simons is focused on the Health specific issues re recruitment and retention. His comments regarding assured loading for TAP have been appropriately addressed to Transportation.

Would you like to proceed with a meeting with our Education, Recruitment and Retention Initiatives ED, Kevin Brown and ADM David Byres to discuss the content of our Bullets? Our staff won't be able to address the ferry dependency at this time.

Please let me know how you would like to proceed.

Many thanks,

Andrea Andrachuk | Manager, Executive Program Operations
Office of the Deputy Minister
Ministry of Health

Hi Derrick,

The Premier has received correspondence about Ginger Goodwin Way (recognizing, signage, naming etc).

We had planned to indicate in the response that we are currently looking at options for this. Do you want me to indicate anything more specific about this event or the plan or stay tuned for further information?

Subject: New XGOV Request | TRA-2018-80220 | (Olsen Communications) - Request Opened

Hi Jen,

IAO has proceeded to open this x-gov request from a *Researcher*:

All communication between Adam Olsen and the Minister or their staff. (Date Range for Record Search: From 07/18/2017 To 07/31/2017)

As you've indicated in your email below, this will likely be a 'no records' response. If it is, I've attached the Call for Records form for DM approval. If there are records, please proceed to advise the following:

1. Will you have responsive records? Y/N _____
2. If yes? How much time in hours? (best guess) _____
3. Approximate number of pages? (5, 50, 500) _____
4. Are you aware of any other program areas or other public bodies that should be advised of this FOI? If yes, please provide _____

The fee estimate is due by January 26th. If there is 'no fee', records are due by January 31st.

The LDD is February 26th.

All the best,

Marion Ashton | (250) 952-0629 | Senior FOIPP Analyst | Information Management Branch | Ministry of Transportation & Infrastructure |

Deadline Thursday, January 18, 2018 5:00 PM

Request

The reporter is doing a story on unique, innovative ways in which cities and provinces in Canada are dealing with winter conditions.

She heard somewhere that places in B.C. are using beet juice - are we?

She is also looking for any analytics we can provide for our highways - how many tons of sand we use, etc.

Background

Initial response:

TranBC Blog: <https://www.tranbc.ca/2014/02/12/beet-that-the-most-unusual-tool-in-our-winter-snow-fighting-tool-box/>

Contractor of the Year NR: <https://news.gov.bc.ca/releases/2015TRAN0178-002078>

B.C. Highway maintenance facts:

- The ministry's maintenance contractors take care of nearly 47,000 kilometres of road and 2,800 bridges in some of the most challenging terrain in Canada.
- Crews apply 750,000 tonnes of winter abrasives over 1.2 million kilometres and 100,000 tonnes of salt.
- Since 2001, the annual expenditure on road and bridge maintenance has been increased by \$79 million - a 25% increase over the last 15 years.
- The ministry's expenditure on road and bridge maintenance has increased by almost 60% since maintenance was first privatized in 1988.
- There are more than 2,000 contracted employees and hundreds of piece of equipment operating around the clock to keep highways open, safe and reliable.

Recommendation

Follow Up Questions:

Q: Why is beet juice used in some areas and not others?

The ministry works with a number of different contractors, and we use a "performance" type of contract, which means we don't tell our contractors how to do the work, and instead set the end result of the work. The contractors then determine the best way to achieve that result, which fosters innovation in equipment, processes, and materials.

VSA determined that beet juice was an efficient way to achieve the winter requirements in our contract. Theoretically, any of the other contractors could do this as well, but at this point only VSA has adopted that method as it is very effective in the challenging winter conditions of the Coquihalla Highway.

Q: How does it work? Is it expensive?

The sugars in beet juice, when mixed with liquid salt (brine) vastly lowers the freezing temperature of water, so this allows VSA to achieve bare pavement quicker, and use less salt on the road which is more environmentally friendly.

As for cost, our contractors are not required to document their equipment and material expenses with the ministry.

Good morning Lea,

Please find attached the redline records (3 pages) and sign form for final Deputy Minister approval.

Ministry harms were identified within the records. However, after consultation with CITZ the FOI analyst recommends releasing the records in their entirety. See attached approval form for further information.

- MoTI requested consultation with CITZ as the topic of this FOI request is a CITZ initiative. CITZ Deputy Minister's Office reviewed the records and advised they had no harms concerns with the release of the attached records.

Request wording: *Regarding the August 23, 2017 meeting with Minister Jinny Sims re: Fibre, as mentioned in the Minister's calendar: The agenda and minutes, all emails, all briefing notes, internal and external correspondence regarding the meeting, copies of presentation materials, handwritten notes and post-meeting report summary. (Date Range for Record Search: From 08/01/2017 To 11/08/2017).*

Please return the signed approval on or before **January 11**, so the IAO has time to complete the processing of the file.

FYI - this file will be posted on Open Information.

Please contact me if you have any questions or concerns.

Subject: FW: 2 upcoming BC Transit events for consideration

UPDATE – BC Transit has changed the Victoria Bus Lane Event to Tuesday Jan 23 at 10 AM now, to accommodate Mayor Lisa Helps.

Updated EP attached. Is the Minister or another rep able to make it/ participate?

Alex – do you mind slotting this one into the corp cal/updating the date & time?

thanks

Subject: 2 upcoming BC Transit events for consideration

Hi Derrick – we wanted to put forward these 2 BC Transit events for consideration:

*BC Transit event – **Victoria Bus Lane event** – happening Wed, January 24 at 10 AM (event plan attached) – The Minister will be in Cabinet on this day, so wondering if there is a local MLA that may want to go to represent?

*BC Transit event – **Electric Bus (Victoria)**- happening sometime in March (event plan to come) – We are recommending the Minister participate in this event, as it really ties into the “greening transportation” theme for the ministry/ provincial mandate. Are there some good dates in March that will work for Minister Trevena? BC Transit is pulling together the event logistics now, and it would be good to nail down a date in advance.

Just let us know – thanks so much

Subject: Attention AC CLIFF ID 273598

Hello,

s.22 _____ (OSINT and Forensic Analyst) would like to meet with the Minister for 15 minutes to discuss "new law" required for regulations involving school buses, stating there is an ambiguity in the Motor Vehicle Act.
*Note he has also sent the same request to the PO, and they have asked our ministry to respond to the writer if Minister Trevena isn't going to meet with him.

Please let us know if you'll be arranging a meeting, or if you would like Writing Services to draft a response instead.

Thanks very much,
Aaron

Hi Derrick,

MKC has asked that I get in touch and let you know the January 22nd date will not work for her and the Glade ferry event. Unfortunately we are experiencing weather issues for her flying in and out of Castlegar and she fears that she might have to leave that morning or the day before to make sure that she is in Victoria the afternoon of the 22nd.

Things are quite busy right now and she is leaving for Ottawa on the 23rd so getting to Victoria on the 22nd is crucial.

Give me a call if you have any questions or concerns.

Cheers,
Edena

Thanks Alisma, I think it would be very helpful if the Minister and the Premier came out to see the extent of the issue. This is a very serious situation.

We need to get going on the feasibility study as soon as possible.

Without the rail relocation, government is tempting fate of a potential Lac Megantic in White Rock/South Surrey. I know the Minister doesn't want to see that happen and nor do we so I urgently ask you to have the Minister respond to our request for the 300k to fund the feasibility study. I would also appreciate knowing if the Minister has spoken to Minister Garneau, as our folks have already given him a heads up and I think they are positively inclined.

I will reach out in a couple of weeks, to see if you have a firmer idea of the Minister's schedule.

Thanks,

Tracy

Subject: RE: Rail Relocation and Invitation from Mayor Baldwin of White Rock to visit site

Dear Tracy,

I'm Minister Trevena's MA. Thank you for this invitation to her and the Premier to tour the area of the proposed rail line in White Rock. We aren't sure when Minister Trevena will next be in the Lower Mainland, but we'll definitely try to schedule this when planning the next visit.

Best wishes,

Alisma

Subject: Rail Relocation and Invitation from Mayor Baldwin of White Rock to visit site

Good afternoon Claire,

I listened with great interest to Governor Inslee on the hi speed train yesterday and note the Premier's concerns in the attached article about the 'windy rail alignment' on our side of the border. The feasibility study which we presented to you a month ago could address both the issues of the safety & environmental concerns of the existing freight rail line but also look at a commuter hi speed side by side rail line including a rail station from the border into Vancouver offering solutions for south surrey, White Rock and Cloverdale commuters.

The Mayor of White Rock, Mayor Baldwin has reached out to me today to invite you and the Premier to White Rock to tour the area and speak directly about these issues. Is that a potential please – I think it would highly informative?

As we get into the rainy season, I worry intensely about the possibilities of severe slides....we already had a slide just a few weeks ago.

Please let me know if we can arrange a visit for you and the Premier to tour the area to see the challenges first hand.

Thanks, Tracy

Subject: Question - Balfour ferry approach

Hi Derrick,

Wanted to check in on this upcoming item – **Balfour ferry future improvements/ info session information bulletin.**

Minister to announce that public engagement will get underway soon on proposed service changes for the inland ferry at Balfour. Following a previous community consultation, government had committed leaving ferry service at Balfour. Remaining in Balfour requires changes to ensure safety in the shallow channel. Service changes that begin this March will be presented to the community. The community will also be able to offer comment on additional longer-term work.

Craig is writing up an information bulletin for this one – for Jan 25-31 (TBD on date).

We will like to do proactive media for this once the IB is issued – to get the word out to the local community.

Would you like for Minister Trevena to be the spokesperson, or would you like the local MLA, Michelle Mungall MLA for Nelson-Creston?

Just let us know – thanks!

Deadline ASAP

Request

Reporter says:

Apologies for not replying sooner. So for B.C. and Uber/Lyft, etc., I'd like to know:

- What's the status of the consultations? When can people in B.C. start using Uber and Lyft for rides?
- What are the main hangups right now?
- Will it be available throughout the province, or only in particular areas?
- What do you think about small/rural communities such as Enderby looking to use Uber instead of building a local public transit system?

Proposed response:

- We know consumers want more options for getting around quickly, safely and affordably – this includes ride hailing.
- The existing framework for taxi service in BC is outdated and needs to be modernized before ride hailing becomes available.
- That's why, last fall, government hired industry expert Dr. Dan Hara to consult with stakeholders including the taxi and ride hailing industry, to make recommendations on how to improve the existing framework for taxi services so that when ride hailing is introduced in BC the taxi industry can thrive and compete.
- In addition, an all-party provincial committee on ride hailing was struck and recently held a series of public consultations in Vancouver hearing from various stakeholders and members of the public, to study ride hailing in a broader context. This committee is publishing a report in the middle of February.
- Recommendations stemming from all these consultations will be used to create a made in B.C. solution to modernize the regulations that affect passenger directed vehicles in B.C. and serve as the basis for a final report the government intends to release in the spring of 2018, with legislative changes expected in the fall that will modernize the industry and bring in ride hailing.

● **Deadline** ASAP

Request

Reporter would like to know more about the Glade Ferry.

- Why was this put in?
- What are the perks of the new ferry?
- Will there be a maiden launch ceremony -- who will be the first passengers?

Background

Recommendation

- The old Glade ferry is almost 70 years old. It is at the end of its service life and had to be replaced.
- The new ferry is a bit larger, carrying nine cars instead of eight. It can also carry commercial vehicles at full highway loads.
- In addition, while the ferry is docked during off-peak hours, it is powered completely by on-board batteries. This will reduce noise at the terminal, and lower the vessel's greenhouse gas emissions.
- This new ferry, named 'Glade II,' will ensure a safe, reliable and efficient crossing of the Kootenay River for many years to come.
- Over the next few weeks, the crew will familiarize themselves with the vessel as it is tested, and it will take over service permanently in early February. There will be no formal maiden launch.

Deadline ASAP

Request

Reporter says:

I am working on a story today about ride sharing and about a new ride share that appears to have popped up in Vancouver.

<https://reryde.com/>

I'm wondering if the Transportation Ministry is aware of ReRyde? And if so, if there are any plans to shut it down?

Proposed response:

The ministry, through its Passenger Transportation Branch, has received complaints about ReRyde and has an open investigation that is currently ongoing. We are also aware there are several other companies under the names Longmao, Udi Kuaiche, U Drop, RaccoonGo, GoKabu, Dingdang Carpool, and AO Rideshare that have developed ride-sourcing apps, and have been busy recruiting drivers for hire and connecting passengers with these drivers. It is important to note that it is the driver, not the app, that is subject to penalties for operating illegally on the road.

The PTB has issued over 20 cease and desist orders to vehicle owners and 11 violation tickets to drivers, for \$1,150 each. It is important that the people signing up as drivers for these companies understand that they are assuming all of the risk related to providing the rideshare service. In other words – the driver is subject to all penalties for operating illegally on the road – and they are subject to fines of \$1,150, as well as further penalties for not disclosing the commercial use of their vehicles to their insurance provider.

Customers need to know that if they choose to get a ride through these apps they are choosing to take a trip in a vehicle that has not been licenced to operate legally and safely in B.C.

Deadline ASAP

Request

Reporter says:

I understand the Ministry is the lead in removing a homeless camp off Highway 97 in Vernon near Vernon Toyota Thursday afternoon. I have some questions:

1...Can you confirm the property the camp was located on is owned by the Ministry of Transportation?

Yes, it is.

2...One of the last of the homeless camp residents said notice was given five days ago. I take that to mean notice of eviction?

Yes, under Sec. 63 of the Transportation Act, "Unauthorized use of Ministry Right of Way". The campers were advised by the ministry of concerns that this was not a safe location and that they should find another location to camp or go to a homeless shelter. This was done on December 22nd. Advance notice was given by the RCMP approximately 5 days ago. Official notification of 48 hours was given at noon, Tuesday January 16, 2018.

3...The person I talked to had nowhere to go. Has the ministry made any effort or recommendations to the people in the encampment?

The safety and well-being of the individuals is of utmost concern to this ministry. The RCMP and social service agency were on site last week to offer shelter. The City of Vernon was consulted and part of the process, as their boundaries run further north. They did not go to the site with the ministry or the RCMP.

4...Any idea how many people were living there? I counted two large tents and about four smaller ones...

There were three people on site when the notice was given.

5...What happens to all the stuff being cleaned out of the property. Is it to be disposed?

They were given 48 hours to remove their property and bags were provided. The material left will be disposed of.

Hey Derrick – if you wouldn't mind being the point of contact it's probably best.

Here is what we are looking to do:

Information bulletin (no quotes) – a Senior PAO in our comm shop will write this and get through appropriate approvals.

We will share this through you & Alisma once it's ready to go. This will outline that public engagement will get underway soon on proposed service changes for the inland ferry at Balfour.

The writer will also do up a key message document and a QA (if asked...) which we can also share.

This way, when the IB goes out to the local media, the local MLA will be aware of the questions that could come up, and our suggested responses.

Right now, we are looking at next week likely for release.

No event is planned – this is not big enough for a full event.

Importance: High

Hi Sage, Derrick,

We’ve made some minor updates to the media materials following yesterday’s technical briefing with the Premier and Ministry staff on Highway 14. I’d like to bring these up to date materials (news release, event plan, q+a) to the event briefing with the Premier on Thursday morning pending your feedback on the attached. Documents in this email to review are:

- Updated news release and backgrounder
- Highway 14 poster with identified improvements (note needs to be finalized by tomorrow morning 10:30am to meet print deadlines)
- Updated speaking notes
- Key messages/Q&A
- Event Plan
- Guest list – invitations are in final drafting stage and the events team will circulate tomorrow, pending a few confirmations on First Nations

We’re also looking for your direction on:

- **Outreach to Mayor Tait**, who has agreed to MC: has someone from either our MO or the PO reached out to coordinate, or would you like us to?
- **Podium sign**: given the location of the event, would the Premier prefer a customized podium sign (something like “making life easier for South Island commuters”), or the generic BC gov’t one?

Thanks in advance to you both and don't hesitate to call if you have questions or would like to talk through.

Best,

Katie Robb

As referenced in the review last week, Manitoba Public Insurance (MPI) recently filed with the Public Utilities Board, and received approval early this week, for a rideshare insurance product that requires rideshare drivers to purchase a separate class of coverage. The product features a unique time bands feature so that drivers can purchase coverage for different times of the day, depending on which times of the day a driver wants to drive in. Drivers can also purchase all time bands should they want to drive without time restrictions.

While Uber certainly appreciates the thought, work and creativity that MPI put into designing this globally unique product, Uber is respectfully of the view that the product is not practical for Uber's business model or the drivers using the Uber app. Based on the current design of the MPI rideshare insurance product, Uber is doubtful that it will enter the Manitoba market. This is due to the friction that obtaining a new insurance product that must be updated depending on usage time will cause for drivers. Uber is also concerned that, in the absence of Uber purchased blanket coverage, ensuring compliance with insurance requirements will be unfeasible.

As outlined in our discussions last year, and during feedback given in the review last week, it is very important to Uber to have a commercial, blanket insurance policy in place that covers drivers while they are engaging in ridesharing activity. The type of insurance that we have found globally to be the most effective is a blanket model that covers all rideshare drivers during rideshare activity. Under this model:

- Personal policy covers personal use
- Blanket policy covers rideshare use
- Blanket policy is Uber purchased with robust limits and coverage
- Priced on KMs driven - KMs tracked by Uber systems

This model used in the vast majority of US states and has also been approved for use in Ontario, Alberta and Quebec. A schematic of Alberta program is below.

This was also the model that we discuss with ICBC last year.

The above is really nothing that you would not have heard in the review last week. Just wanted to reiterate our views.

Best,

--

Deadline ASAP

Request

Reporter would like to know about the removal of the Highway 97 homeless camp.

Questions include:

- Why were the homeless people removed now?
- What kind of warning or notice were they given? (How long ago?)
- What will happen to the remaining items left on the location?

Recommendation

Why were the homeless people removed now?

The safety and well-being of the individuals is of utmost concern to this ministry. The ministry was concerned about snow and related road material hitting the camp when road maintenance was being conducted during snow storms. The individuals had been asked to move earlier this winter, but did not do so until we introduced the more formal process.

What kind of warning or notice were they given? (How long ago?)

The individuals were notified under Sec. 63 of the Transportation Act, "Unauthorized use of Ministry Right of Way". They were advised by the ministry of concerns that this was not a safe location and that they should find another location to camp or go to a homeless shelter. This was done on December 22nd. Advance notice was given by the RCMP approximately 5 days ago. Official notification of 48 hours was given at noon, Tuesday January 16, 2018.

What will happen to the remaining items left on the location?

The individuals were given 48 hours to remove their property and bags were provided. The material left will be disposed of.

Hi Derrick - does this work for you? Apologies for the formatting.

Sheila

Possible to change the following:

If asked about access to the ski club for people with disabilities?

- The Ministry of Transportation and Infrastructure is the lead in developing policy regarding public transit.
- If BC Transit services are required for the 2019 World Para-Nordic Skiing Championships, organizers and stakeholders are encouraged to communicate needs to the City of Prince George who will work with transit planners to ensure accessible transportation to Caledonia Nordic Ski Club.

Can we pls change to:

We want to make sure that the event is accessible for everyone who wants to attend. If the City of Prince George needs help planning for accessible transportation, BC Transit can work with the city to find solutions.

Deadline ASAP

Request

Reporter would like an interview with someone who can speak to the Malahat construction projects in general, including the following:

- How long is construction expected to continue?
- What are the timelines of the projects?
- What is the impact to motorists, and what feedback has the ministry heard?

Interview could be today until 5pm, or tomorrow.

Background

Recommendation

Suggested speaking points:

- Construction began on the Malahat Village safety improvement project last April, and is progressing very well.
- This upgrade to Highway 1 between Aspen Road and Shawnigan Lake Road involves 5 kilometres of four lanes with wider shoulders, 3

kilometres of median barrier, new frontage roads, safer intersections, a new U-turn, and improved overhead lighting.

- Right now crews are focusing on completing the rock blasting and excavations near Shawnigan Lake Rd with only a few more blasts left at the north end of the project.
- Workers are also currently removing utility lines along Okotoks Rd, then will start clearing trees along that area in February, followed by a couple more months of blasting from Okotoks Rd south towards Aspen Rd.
- Since the start of construction, we've been advising drivers through DriveBC to allow for 20 minutes of additional travel time through the construction site, and to expect delays from 9am to 3pm and from 6pm-6am, Monday thru Friday. Blasting always occurs outside of peak travel periods.
- There is also a 60 kilometre-per-hour construction speed zone in effect 24/7.
- Traffic has been flowing well all through the fall and so far this winter, with fairly minimal delays. The ministry has received limited feedback in recent months regarding traffic disruptions.
- We expect work to be finished later this year --- likely by the end of summer.

Reporter

Dianne St. Jean, Other
Valley Sentinel (Valemount)
publisher@valley-sentinel.com
250-566-4425

Deadline ASAP

Request

Reporter says: I understand from a conversation with the CAO of Valemount that they are awaiting approval by your department for plans to accommodate a new large development along Highway 5, south of the Village, on 17th Avenue.

I am working on an article on the development and have a couple of questions regarding this, and another proposed project near that one.

- 1) What factors are taken into consideration for the decision to give approval to changes on the highway (i.e. traffic flow and type of traffic)?
- 2) A workers' accommodation camp for the Kinder Morgan pipeline projects is also being planned that is only meters south from the proposed 17th Avenue development. What legal or logistical issues or challenges must be considered in having both high-traffic turnoffs so close together?

Background

Recommendation

With any development that occurs next to a provincial highway within a municipality, the land use decisions with respect to the community and the development are the responsibility of the local government.

In the Village of Valemount's examination and permit process, they must notify the ministry of any anticipated affects that may occur to the highways.

The ministry has been notified and provided comments to the Village of Valemount for their consideration of the first two phases of the proposed development at 17th Avenue and Highway 5.

The factors the ministry takes into consideration are highway safety, efficiency and functionality.

As part of the ministry review, staff evaluate how proposed developments may affect local traffic volumes, intended use, government legislation and regulations, provincial design standards, and whether the existing highway infrastructure is capable to accommodate the proposed changes anticipated as a result of the development.

The Ministry is looking forward to working with the Village of Valemount to facilitate the development of this project, as well as any future development proposals that may be identified while continuing to ensure the safety of the travelling public on Highway 5 and the municipal street network.

Subject: Conversion from Co-operative to Bare Land Strata

Hello Alisma,

MLA Jackie Tegart has been approached by representatives from the Alpine Park Estates in Sunshine Valley (located east of Hope). The Alpine Park Estates was developed in the 1980s and is, with the exception of a few lots, fully built out with 67 residences. Alpine Park Estates currently has a cooperative land ownership model which property owners would like to convert to a bare land strata subdivision. Converting to a Strata will allow their community members access to the equity in

their homes as well as allow purchasers opportunities to access mortgages with conventional banks. At this point in time with their current land ownership, they cannot do either one with any type of bank.

In order to have Alpine converted to a bare land strata, The Ministry of Transportation requires that a local hazard assessment be done. This requirement would cost in the range of \$150,000 - \$200,000, which would create a hardship for property owners; and should not reasonable be required because in this case the homes are existing, with some having been there for nearly 40 years.

The subdivision process allows for an exemption of the hazard assessment requirement to be made by the Ministry of Transportation. The Alpine Park Estates' residents have asked MLA Tegart to explore whether the Minister of Transportation would either grant an exemption because of the unique circumstances in this case; or alternatively, assist residents by exploring other options such as providing a covenant to indemnify the province, to overcome this barrier. Could you please advise whether either of these options can be considered.

Thank you so much for your assistance with this issue.

Regards,

Lori Pilon

Hi Jacqueline,

My apologies I missed your question!

The Mayor would like to discuss transit, specifically the Metro Vancouver 10 year transit plan – phase 2 funding.

Kevin Quinlan, the Mayor's Chief of Staff, will be accompanying the Mayor.

Kind Regards,

Shea

Hi Shea,

Thank you for your prompt response. This is to confirm that the meeting will be held in room 306 of the Legislative Buildings on Wednesday, January 24, 12-1300. Mayor Robertson may enter at the front with security, they will call our office to advise us of your arrival, and either I, or my colleague Lindsey, will accompany you to the office.

Could you please advise on the topics the Mayor wishes to discuss with the Minister, and who will be accompanying His Worship?

Thanks,

Reporter

Lachlan Labere, Reporter
Salmon Arm Observer
lachlan@saobserver.net
250-832-2131 x 215

Deadline ASAP

Request

Reporter is looking for some information on the highway access to a mobile home park on Highway 97B. Recently, an elderly driver was t-boned in an accident getting into/out of the mobile home park, which the reporter says raises an issue that has been plaguing these residents for years.

Reporter says the challenge is that the mobile home park is located on the busy highway, and no additional infrastructure is in place to help people slow down -- from signage or a flashing caution light to a merge lane. The area requires residents to slow and turn from and onto the highway. The exact location is close to 10th Ave SE, and is across from a busy golf club at 34th Ave which reporter says does have some signage on the road.

It's possible that some residents in the past have contacted the ministry, but reporter cannot confirm this, and would like to help these residents receive some support that might address the road issues, if possible. He would like to know the following:

- What could be done about this location?
- Has it been looked at in the past, or is it being looked at for any improvements (heard a possible study may have been done some time ago)?
- Is it possible that simple slow-down signage or flashing light or other option would be considered for this area?
- What is the proper protocol for addressing this with the ministry (if residents haven't already)? Is there a specific place to send a letter or note of concern, and how does it get resolved?

Background

Recommendation

Intersections like this are reviewed by the ministry to ensure they are operating safely and efficiently.

Ministry staff have reviewed this location and confirmed that the sight distances are very good in both directions and the number of collisions is low.

Sight distance is a measurement of how far drivers can see in each direction and standards are set to ensure that drivers have the chance to see oncoming traffic with enough time to make a decision about whether or not it is safe to proceed onto the highway. We will continue to monitor this intersection and consider options as needed.

We always appreciate the public's feedback. Anyone who has a specific comment or concern may send it to our Okanagan Shuswap District office for consideration:

Okanagan Shuswap District Office
 #300 – 1358 St. Paul Street
 Kelowna, BC V1Y 2E1
 Or call the office at 250-712-3660

Deadline ASAP

Request

Reporter would like to know the latest on the rock slide near Spences Bridge; specifically, how long until it's open, how bad the situation is there, what it will take to clean up, what people will do in the meantime.

Background

Recommendation

- Every effort is made to protect the safety of the travelling public; it is our top priority.
- A fairly significant rock fall occurred yesterday, closing Highway 1 both directions 6km east of Spences Bridge. Detours are available.
- DriveBC is estimating 3pm today for the reopening of Highway 1. Travelers should check DriveBC.ca for updates.
- Traffic control was established at the scene.
- There were no injuries, and one vehicle was significantly damaged as a result of the slide.
- Approximately 150 – 200 cubic metres of rock fell on the road.
- Our geotechnical team was on site quickly to assess the situation.

- Once the geotechnical assessment determines that it is safe, and there is no risk of further rock fall, the maintenance contractor will clear the road.
- Rock fall is a natural event but rock slope stabilization projects are prioritized and carried out to reduce potential rock fall hazards. The stabilization work typically involves activities such as rock scaling, slope meshing, and rock blasting.

Reporter

Tom Mark, Reporter
Beach FM 107.5 FM Vernon (CJIB - formerly KISS)
news@1075kissfm.com
250-545-5901

Deadline ASAP

Request

Reporter says: I need to talk with someone this morning about the Ministry's take down of a homeless camp in Vernon along Highway 97. I understand contractors were hired to take it down yesterday afternoon. If Jack Bennetto is the person to talk with, I already have his number and can call him. I'd appreciate an nearly response back on this one please

Background

Recommendation

- The safety and well-being of the individuals is of utmost concern to this ministry. The ministry was concerned about snow and related road material hitting the camp when road maintenance was being conducted during snow storms. The individuals had been asked to move earlier this winter, but did not do so until we introduced the more formal process. We have worked closely with the RCMP, City of Vernon, and social service agency to provide shelter alternatives.

What kind of warning or notice were they given? (How long ago?)

The individuals were notified under Sec. 63 of the Transportation Act, "Unauthorized use of Ministry Right of Way". They were advised by the ministry of concerns that this was not a safe location and that they should find another location to camp or go to a homeless shelter. This was done on December 22nd. Advance notice was given by the RCMP approximately 5 days ago. Official notification of 48 hours was given at noon, Tuesday January 16, 2018.

What will happen to the remaining items left on the location?

The individuals were given 48 hours to remove their property and bags were provided. The material left will be disposed of.

Subject: CN incident near Hazelton

Dear Minister Trevena:

I wanted to reach out to let you know of an incident this morning in northern BC.

CN crews are currently responding to the scene of a derailment involving several cars on a westbound coal train that happened about 8 AM this morning near New Hazelton. There are no reports of injuries and no dangerous goods are involved. Twenty-seven cars are involved in the incident and emergency response crews, including environmental teams, are responding to assess the situation and begin a clean-up—some coal has spilled from the cars and the initial assessment is the coal has not entered any waterways. The cause of the incident remains under investigation.

Please don't hesitate to contact us with any questions.

Thank you.

Deadline Friday, January 19, 2018 4:00 PM

Request

Reporter says:

I've been dealing with Joanne Whittier in Citizen Services as I look into land sales in 13/14/15.
I'm looking for information on the #4 Road property sale from 13/14, that sold for \$1.95M dollars.
She said I reach out directly to the ministry that made the sale.

- Q: Are there any details about the evaluation of the property when it was sold?

I'm looking into the 1.10 ha of closed road at McCallum & TCH sold in 13/14.

- Q: Do you have a map to show which parcel was sold? It appears to now be a part of another lot.

I'm hoping to get some information on the sale of the property at King George & Hwy 10 (PID 024-045-705) that is now 5629 King George Blvd.

What was the date of sale – and do you have the information of who it was sold to? Also, was any assessment done on this parcel at the time?

Background

Recommendation

#4 Road – Richmond

- Independent appraisal valued parcels at: \$2,000,000

McCallum Road - The 1.1ha we sold is shown in red below.

<image001.jpg>

King George & Hwy 10 (PID 024-045-705)

Sale Date: 2015/03/02

Purchaser: Tien Sher Number 10 Group Ltd.

Independent appraisal valued the land at: \$800,000

Media Advisory -
s.13;s.16

Hi to all. Looks like
there is positive news
regarding the

s.13;s.16
that job action has
been delayed and
there are no service
disruptions right now.
BC transit has an
updated notice that
they are planning on
sending out this
afternoon or tomorrow
am. Jamie if you get
any calls you can refer

them to BC Transit on
this. Thanks!

On Jan 21, 2018, at 2:32 PM, Weiss, Jamie GCPE:EX <Jamie.Weiss@gov.bc.ca> wrote:

Hey Derrick,

Reporter Megan Turcato from Global Okanagan is running a story tonight on the completion of Morgan Bridge. She's looking for a responses regarding the delays that occurred during construction.

Here is my suggested response, utilizing previous messaging:

Construction is now complete at the Morgan Bridge near Armstrong.

The ministry added an extra span on the bridge, which will improve water and debris passage, and we have reinforced the river banks.

The ministry could not commence initial construction on the replacement bridge until flood waters subsided. Site conditions encountered during construction forced changes to the engineered design for the bridge repairs, and unexpected soil conditions also required additional piles to be driven to safely support the bridge.

The ministry appreciates the public's patience as we ensured all the appropriate steps were taken to make Morgan Bridge safe for the public and better able to withstand potential future events.

Subject: Re: Comments on CV Hospital articles

Nothing here that I can answer from MoTI - we do not play any role w/r/t hospital or health infrastructure. I don't know what specific P3 screens or requirements have been in place for hospitals and I don't know the procurement history for the comox hospital.

As I recall, there was no government-wide requirement that projects be done as P3 but there was a requirement that everything over \$50m go through an analysis by Partnerships BC.

There was a federal rule on P3 (again, I think it was only analysis?) but that has been gone since 2015.

Subject: Comments on CV Hospital articles

Hello MLA Leonard,

I assume you've read the first two articles in a four-part series I'm writing on problems surfacing at the new Comox Valley Hospital (and similar problems at Campbell River General).

What are your comments on our investigation that has revealed that questionable decisions, mistakes and compromises made during the planning process have created operational inefficiencies that have resulted low staff morale, overwork and cost taxpayers excessive overtime?

Also, please comment on the following:

Will the NDP government rescind the B.C. Liberal/Gordon Campbell edict that all provincial infrastructure projects must be public-private partnerships? That is one of the root causes of the flawed planning of the hospitals and an ongoing source of frustration for staff.

Will the NDP government direct the Ministry of Health to provide the Vancouver Island Health Authority (Island Health) to provide more funding to the Comox Valley and Campbell River hospitals to hire additional staff to care for the overcapacity of patients, and the systemic understaffing created by the poorly designed floor plan?

** Will the NDP government direct VIHA to provide immediate funding for 100 or more additional residential care beds in the Comox Valley, as well as greater access to adult daycare Programs and additional respite beds?

Finally, will the NDP ask for an independent review of the flawed planning process and of VIHA executive's complicity in the matter?

I'm working on a deadline of Wednesday, but a shorter deadline -- Tuesday noon -- on the residential care beds issue (** starred item).

If you haven't read the articles, they are prominent on the www.decafination.net home page.

Thank you,
G

Reporter

Greg Fry, Reporter
CFJC TV and Radio (Kamloops)
Greg.Fry@JPBG.ca
250-851-3204 x 227

Deadline ASAP

Request

Reporter would like to speak with someone about the slide on Highway 5 Northbound, closed 3.5 km South of Merritt due to a rock-slide.

Background

Recommendation

- Every effort is made to protect the safety of the travelling public; it is our top priority.
- A fairly significant rock fall occurred last night at about 11pm, closing Highway 5 northbound about 3.5km south of Merritt. Detours are available on both Highway 1 and Highway 3.
- There were no injuries or vehicles damaged as a result of the slide.
- The geotechnical assessment has taken place, and VSA Maintenance has been cleared to remove the rock fall.
- Single lane traffic is expected to resume between 10:30 and 12:30, and travelers can expect minor delays due to traffic volumes between Hope & Merritt.

- Rock fall is a natural event but rock slope stabilization projects are prioritized and carried out to reduce potential rock fall hazards.
- The stabilization work typically involves activities such as rock scaling, slope meshing, and rock blasting.
- Drivers should also be aware that Environment Canada has issued a snowfall warning for the Coquihalla Highway today from Hope to Merritt, with up to 30 cm of snow expected throughout the day.
- We encourage people to slow down, use caution, and drive to the conditions.

CBC - Vancouver

Deadline ASAP

Request

I'm working on a story about the municipalities in the Fraser Valley asking the province to expand the Trans-Canada Highway to three lanes in both directions through their region.

I've noted that city councils have sent letters to the ministry requesting this.

It's my understanding that the former Liberal government had agreed to expand the highway from Langley to Abbotsford.

Where is the current ministry at with this project?

I'll be working on this on Monday for radio and web. I'm hoping to hear back from you by 1 pm Monday.

I'm at 604.662.6806 or 604.802.8575 if you have any questions.

Background

Recommendation send the same response provided to the Langley Advance News on Jan 11th

Suggested response:

This area has experienced a lot of growth in recent years, and the Ministry of Transportation and Infrastructure is committed to improving this section of the Trans-Canada Highway so people can get to where they need to go without sitting in traffic.

That's why we're well underway on a 6-laning project on Highway 1 from 202nd to 216th Street through Langley. This \$59-million project is cost-shared between the Province, Canada, and the Township of Langley. It includes building a new interchange at 216th Street with access for cyclists and pedestrians, widening 4 kilometres of highway from 202nd to 216th, and extending the HOV ramps to and from 202nd Street. When these highway upgrades are completed in 2019, traffic flow and travel times will be improved both along Highway 1 and between Langley communities north and south of the highway, and there will be more mobility options with the HOV, pedestrian and cycling improvements.

In terms of expanding the highway past 216th Street, future Highway 1 corridor improvements are being looked at as part of the broader assessment of the transportation network. At this time, provincial funding has not been committed to any additional projects, nor are there any cost-sharing arrangements in place with other levels of government. Any additional projects on Highway 1 will be announced at a future date.

Good afternoon, Derrick

Happy New Year!

Thanks for your reply on the UBCM drafts. We have 59 UBCM drafts that are in progress:

- 53 letters were sent up December 20 for Minister Trevena's signature. Please let us know if you'd prefer us to finalize with her electronic signature and mail out.
- Six drafts that you had provided feedback for, that were returned via email with updates for review.
 - We will send up the final packages for five of them s.13 you and Alisma to review.

s.13

as soon as the ADM has approved it.

Please feel free to give me a call if needed – we look forward to hearing back from you.

Hi Derrick and Alisma,

Please approve the roll-up of the following.

Thanks,
Danielle

MEDIA REQUEST #1:

For your approval – Janelle Erwin is available tomorrow at 8:20 a.m. to do this interview. (As mentioned previously, she will be the media spokesperson at the public information sessions on Jan 23 and 24 in Tofino and Ucluelet. Earlier this month we pre-arranged an interview for Jan 24th with the Westerly News.) I understand Minister Fraser will be more involved in this going forward, so wanted to make sure you are good with us getting Janelle out on these.

Reporter

Megan Thomas, Producer
CBC - Victoria
megan.thomas@cbc.ca
250-414-4707 c: 250-661-6185

Deadline ASAP

Request

Reporter would like to interview Janelle Erwin about the work happening on Highway 4.

Background

Recommendation

Suggested speaking points:

- We are preparing to start construction on the Highway 4 – Kennedy Hill safety improvement project this spring, to create a safer and more reliable connection between Port Alberni and the west coast of Vancouver Island.
- The safety upgrade includes:
 - widening the travel lanes and shoulders, with additional space to install roadside barrier between the highway and the lake,
 - straightening and flattening out the road,
 - removing the overhanging rock which is a hazard for taller vehicles such as commercial trucks,
 - reducing rockfall onto the highway, and
 - providing a new rest area with a view point.
- In order to widen and improve this 1.5 kilometre section, over 300,000 cubic metres of earth and rock needs to be moved (about what it would take to fill more than 130 Olympic-size swimming pools).
- Overnight traffic stoppages on Highway 4 will be necessary for blasting and other construction activities.
- Before all the plans are finalized though, the ministry is hosting 2 public information sessions.
- We encourage anyone interested in the project to come out either:
 - tonight (Tuesday) in Tofino at the Tin Wis Best Western from 4-7p.m.
 - or Wednesday in Ucluelet at the Community Centre... again from 4-7 p.m.
- We'll have lots of details about the project, and ministry staff will be there to answer questions and receive feedback.
- If you can't attend in person, materials will be posted to the project website prior to the first open house and feedback can be provided by phone at 250-751-7152, toll-free at 1-855-451-7152, or by email to kennedyhill@gov.bc.ca.
- Discussions about the project and traffic management have been ongoing over the past year with First Nations, emergency responders, Parks Canada and business and tourism associations.
- This input, along with the feedback from the public information sessions, will be used to finalize the construction timeline, including overnight traffic stoppage periods and a protocol for emergency response.
- Providing a specific and consistent schedule will help people make their travel plans well in advance, including tourists visiting the area.
- During construction, impacts to traffic will be communicated extensively using DriveBC, the project website, Twitter, changeable message signs, toll-free hotline, traffic advisories and stakeholder emails.

If asked – what exactly will people get to see at the open house?

- The information sessions will provide details about timelines, proposed traffic management, and specific design details such as the amount of rock to be blasted.
- We'll have 15 display boards showing:
 - Diagrams of the rock cut
 - Summaries of the environmental and archaeological studies
 - Traffic volume analysis, and the proposed traffic management strategies
- We've also prepared a 3D "computer simulation" video showing what it will be like to drive the new and improved road.
- And ministry staff will be there to answer questions and receive feedback.

If asked – what would happen if there's an emergency while the highway is closed?

- Ministry staff are working closely with first responders to develop an emergency protocol that will ensure emergency vehicles have access through the site at all times during an incident.
- There will also be a contingency plan to open the highway for an evacuation should a disaster event occur.

MEDIA REQUEST #2:

Reporter

Charmaine De Silva, Reporter

CKNW AM 980

Charmaine.DeSilva@corusent.com

604-230-8025

Deadline ASAP

Request

Reporter asks: On the McCallum Road property – I want to know if there was an independent appraisal of the property's value done at the time.

Request

Reporter asks: I wanted to get some more information about some other property sales from 14/15.

I'm specifically interested this time in the two different sales from 14/15:

15801 105A Avenue, Hwy 1 – \$977,600

16025 – 104 Ave - \$653,770

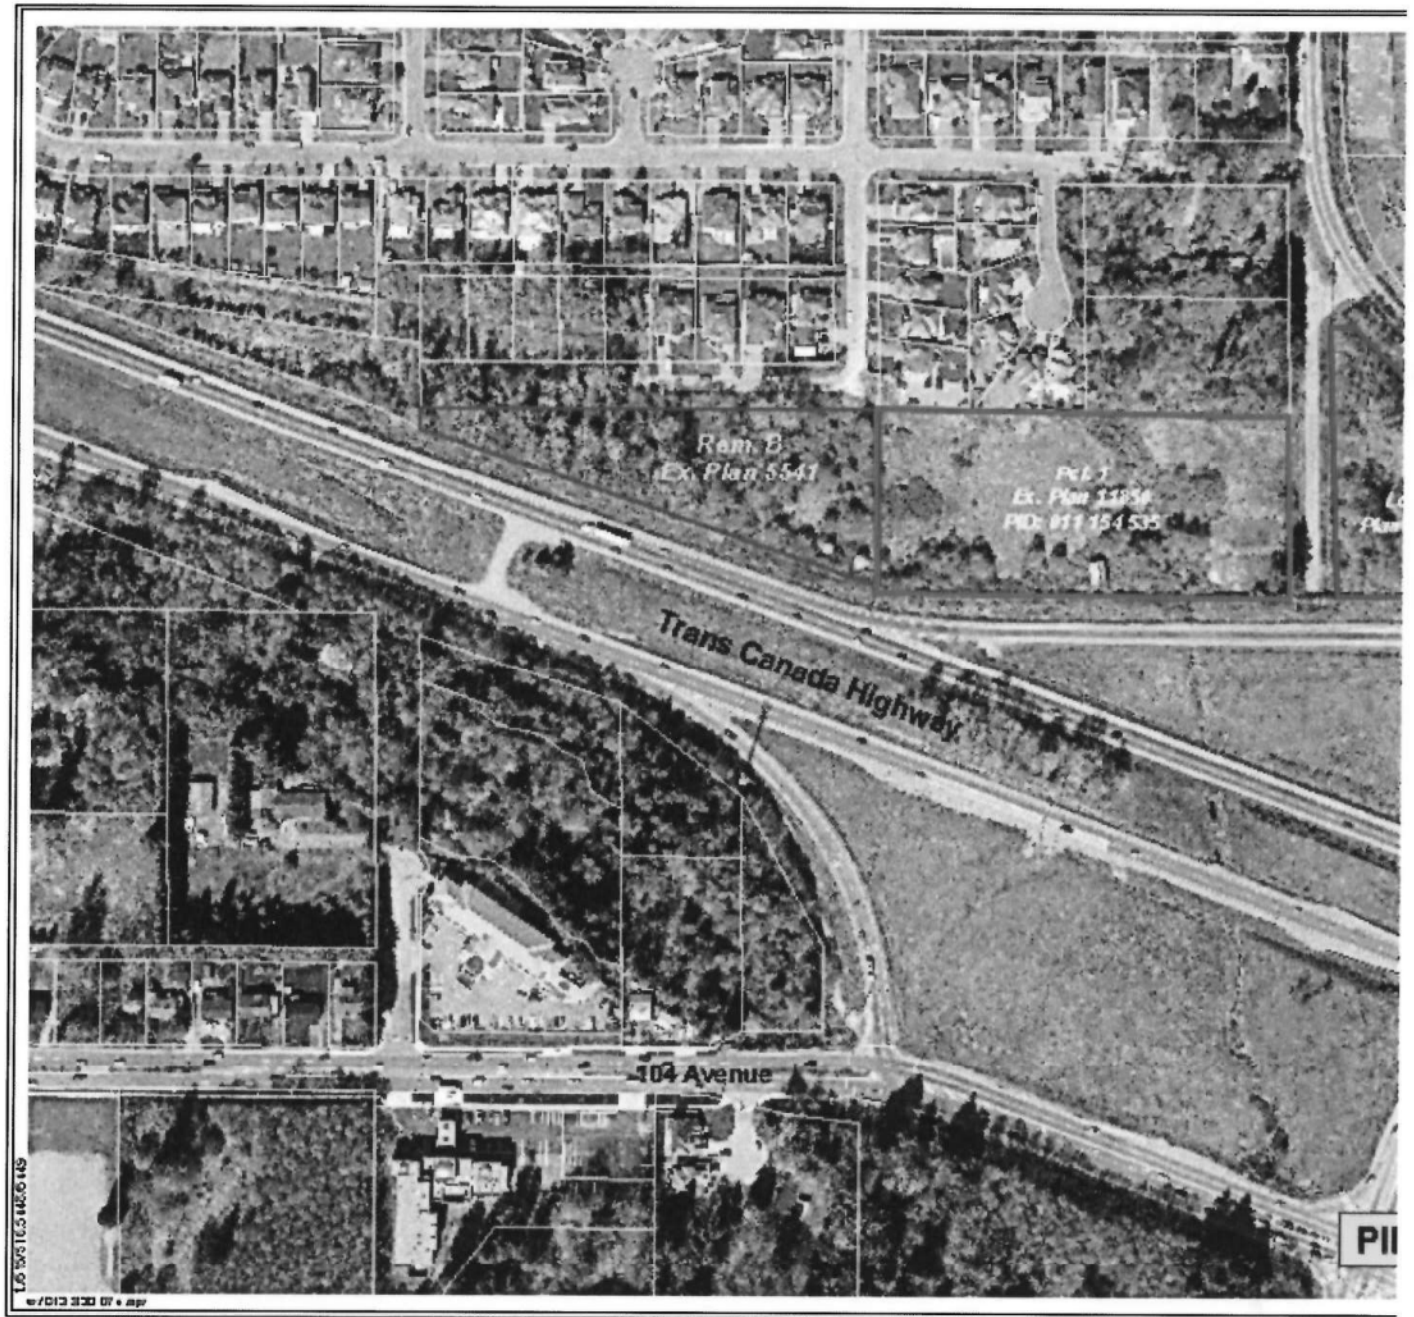

From information Citizen Services was able to give me, the PID at time of sale for these plots was the same – 013-830-074. Now, of course they are different. But, if you look at a map, there is some land in between them – which I assume also belonged to the province.

-When was this sold? And are you able to give me details about that? Was all of it sold to the same purchaser, and if so – who?

Also, was any adjacent or nearby land owned and sold by the province in the past 5 years (or within recent memory)?

Response

1. An independent appraisal was completed on the McCallum Road property and the value determination was \$2,035,000.
2. It sounds like you are referring to the purple land on the map between our two previous parcels shown in red. The ministry never owned the parcel in purple based on Land Title Office records, and therefore the ministry cannot provide historic purchase and sale information. The ministry has not sold anything else contiguous with these parcels within the last 5 years.

Hi Derrick, hope this finds you well. It's been a while since we crossed paths but I'm now with Brad Lavigne at Counsel Public Affairs, working on a variety of issues, including some related to transportation.

We're going to be in Victoria on Feb 1st doing a bunch of meetings at the Leg and I'm wondering if you might have time for a quick visit. Let me know if that works for you.

In the meantime, if it's possible to have a short phone call in the next couple of days just to get some background on a few things, I'd be very appreciative.

Cheers,
DCB

Hi Derrick – just a quick FYI that TI Corp is planning on giving Fairchild Radio an update today on the amount of unpaid tolls, and the process.

From: Greg Johnson [<mailto:gjohnson@ticorp.ca>]
Sent: Friday, January 19, 2018 10:10 AM
To: Chambers, Craig GCPE:EX
Subject: Fairchild Radio - toll collections

Craig – interview request from Fairchild Radio. They're looking to follow-up on the Van Sun story.

OK to give them a clip?

- At the start of September, the total amount of outstanding tolls was approximately \$45M. By the end of December, we'd collected about half of that.
- Drivers who haven't paid their outstanding tolls by the end of January may find a hold on their driver's licence and car insurance (ICBC's Refuse to Issue process). Drivers can avoid additional late fees by getting in touch with TReO to make payment either online or by phone.
- Continuing to collect tolls is a matter of fairness as the vast majority of drivers have paid their tolls on time since the start of tolling. However, we also recognize that some drivers simply won't pay. It's worth noting that since the start of tolling TI Corp has generated about \$500M in toll revenue and has a collection rate of more than 98%.
- TI Corp has taken steps to reduce its overhead costs and tolling workforce. Over the past few months we've scaled back our customer service operations. Both the Coquitlam and Surrey walk-in centres have been closed and the call centre has reduced hours. During toll operations there were about 100 employees working at TReO, and now about 15 employees remain to collect payments and issue refunds to customers.

Subject: Conversion from Co-operative to Bare Land Strata

Hello Alisma,

MLA Jackie Tegart has been approached by representatives from the Alpine Park Estates in Sunshine Valley (located east of Hope). The Alpine Park Estates was developed in the 1980s and is, with the exception of a few lots, fully built out with 67 residences. Alpine Park Estates currently has a cooperative land ownership model which property owners would like to convert to a bare land strata subdivision. Converting to a Strata will allow their community members access to the equity in their homes as well as allow purchasers opportunities to access mortgages with conventional banks. At this point in time with their current land ownership, they cannot do either one with any type of bank.

In order to have Alpine converted to a bare land strata, The Ministry of Transportation requires that a local hazard assessment be done. This requirement would cost in the range of \$150,000 - \$200,000, which would create a hardship for property owners; and should not reasonable be required because in this case the homes are existing, with some having been there for nearly 40 years.

The subdivision process allows for an exemption of the hazard assessment requirement to be made by the Ministry of Transportation. The Alpine Park Estates' residents have asked MLA Tegart to explore whether the Minister of Transportation would either grant an exemption because of the unique circumstances in this case; or alternatively, assist residents by exploring other options such as providing a covenant to indemnify the province, to overcome this barrier. Could you please advise whether either of these options can be considered.

Thank you so much for your assistance with this issue.

Regards,

Here it is --

Grieve: But he knows the West Shore traffic bottle neck is one of the biggest growing pains the regions sees. **Horgan** thinks the answer is on the E&N line, but is not committed to any long-term solutions.

Horgan: We've had challenges around getting the train back and up and running. There's a business case that sort of doesn't make sense. We need to use the corridor, whether its on rapid bus -- pull up the tracks and just have busses go -- or invigorate the rail bed. A lot of money in that. Then, get the cars rolling. I believe if we build it, people will use it.

Grieve: On the topic of transportation, **Horgan** is far less intrigued on ushering in ride sharing.

Hogan: Now, I appreciate that people want to get home and its tough to find a taxi, but we need to make sure if we make this transformation we're not putting other people out of work or, in the case of businesses that have been established to move people around, they don't lose their livelihood.

Bare Land Strata

Hello Alisma,

I wrote you on September 26, 2017 regarding
Conversion from Co-operative to Bare Land Strata at
Sunshine Valley. To date I have not had a response,
other than Lynne Stone advising on October 16th
that you were looking into this inquiry and would be
in touch soon.

The Alpine Estates residents will be having a board
meeting on January 26th and if possible would like a
response prior to that date. Could you please look
into this inquiry as soon as possible.

Thank you so much.

Regards,
Lori

Hello Lynne,

I have just learned that you are the new EA for the Ministry of Transportation and Infrastructure (TBC). Welcome aboard, I look forward to working with you!

I am forwarding an email regarding Conversion from Co-operative to Bare Land Strata at Sunshine Valley that was sent earlier to Alisma Perry. I understand that everyone is getting settled, but to date we have not had a response.

Could you please look into this and provide a response at your very earliest convenience.

Thanks so much.

Regards,
Lori

[<Alisma.Perry@gov.bc.ca>](mailto:Alisma.Perry@gov.bc.ca)

Subject: Conversion from Co-operative to Bare Land Strata

Hello Alisma,

MLA Jackie Tegart has been approached by representatives from the Alpine Park Estates in Sunshine Valley (located east of Hope). The Alpine Park Estates was developed in the 1980s and is, with the exception of a few lots, fully built out with 67 residences. Alpine Park Estates currently has a cooperative land ownership model which property owners would like to convert to a bare land strata subdivision. Converting to a Strata will allow their community members access to the equity in their homes as well as allow purchasers opportunities to access mortgages with conventional banks. At this point in time with their current land ownership, they cannot do either one with any type of bank.

In order to have Alpine converted to a bare land strata, The Ministry of Transportation requires that a local hazard assessment be done. This requirement would cost in the range of \$150,000 - \$200,000, which would create a hardship for property owners; and should not reasonable be required because in this case the homes are existing, with some having been there for nearly 40 years.

The subdivision process allows for an exemption of the hazard assessment requirement to be made by the Ministry of Transportation. The Alpine Park Estates' residents have asked MLA Tegart to explore whether the Minister of Transportation would either grant an exemption because of the unique circumstances in this case; or alternatively, assist residents by exploring other options such as providing a covenant to indemnify the province, to

overcome this barrier. Could you please advise whether either of these options can be considered.

Thank you so much for your assistance with this issue.

Regards,

Reporter

Shannon Lough, Reporter
The Northern View (Prince Rupert, Terrace)
shannon.lough@thenorthernview.com
250-624-8088

Deadline ASAP

Request

Reporter says: I have a question for highways once again regarding the crosswalks.
Could you tell me what paint was used on the crosswalks for the highway in Prince Rupert?
They were painted last year when the new highway was put in.
My deadline is Wednesday afternoon. Thank you!

In 2013, the ministry completed an installation of a pedestrian controlled signal at McBride and 9th Avenue to provide safer pedestrian crossing. This section of Highway 16 was resurfaced and painted in 2017 to provide a reflective crosswalk and clear line delineation along the route. During this time of year, Prince Rupert and other coastal communities can experience reduced visibility due to heavy precipitation and shorter days.

Background

Recommendation

- The crosswalk markings on Highway 16 in Prince Rupert (which includes the crosswalks, arrows, and stop bars) were completed using Thermoplastic (Thermoplast).

- Thermoplast is melted at a high temperature to form a bond to the pavement.
- Glass beads are also added to the material to make it highly reflective.

Subject: Sunshine valley question

Hello Lori

I have heard back from our staff in Transportation on the question of Sunshine Valley. Sorry for delay. Can we have someone from our South Coast regional office speak with either you or the MLA in the next several days?

It may be useful for them to attend the mtg on Friday but they would like to be in touch in advance.

Let me know if that works and I will have them reach out to your office asap.

Thanks

Derrick

Hi Kevin-

As discussed earlier today. If ashok or Thomas can reach out to Lori Pilon tomorrow that would be much appreciated.

Thank you

Derrick

Yes, that would be great, thanks Derrick! MLA Tegart and I are out of the office until Thursday. However we could take a call at noon on Wednesday on my cell. 250 457-3344. Please confirm if that works for the staff member.

Craig ashbourne will be calling you to discuss this letter that MSR wants to send out early tomorrow morning.

s.13

Just want to make sure that at the MO level we are all okay with wording?

Thanks

Hi Patrick,

Attached is a proposed letter from MSR to Mayor Corrigan, which would be sent to the Mayor tomorrow in advance of their Mayors Council meeting. Our MA is going to connect with yours about the practicality of the letter being confidential, and how much to say about Pattullo. Let me know if you or Grant have any thoughts, but I think that we need to write it with the assumption that it could become public at some point.

Kevin

Hi Kevin and Craig

Here is a rough draft including suggested edits from me and a couple of questions. It would be good to get a read from the MO as to how specific we may wish to be, particularly on provincial \$ (40% of what) and on the regional \$ source.

Thanks

Jacque
