

JUNE, 11, 2019. MINISTER OF HIGHWAYS
RDEK.
Tom Shypitka, M.L.A.

Preamble: At present George Rd is a cul de sac with driveways off it to residential homes. George Rd enters on to Jaffray Village Loop Road just before the Jaffray School and Playground. The Playground is used year round by local children. When the Residential area was developed a number of years ago the then RDEK Director for this area lobbied hard for this to be the "centre" of town, no one expected a Truck Stop to be part of it. The Truck Stop (Flying J) is now there. Noise by laws (which are in place for the village) are being ignored. Homes on Aspen Drive are already suffering from big truck engines running all night. There is local concern for the traffic congestion around the Tie Lake turnoff, which Highways knows is a blind corner. This Petition is to bring to the attention of Ministry of Highways, RDEK, our local MLA and our Community the concerns we have for the safety of the Public on George Rd, Jaffray Village Loop Rd and Hwy 3/93 (Tie Lake Junction) as well as concern for noise, dust and in general the quality of Rural Living.

PETITION: We, the undersigned oppose, in the strongest possible terms, George Road becoming a public through road into the property where Pump and Pantry stands.
