Here are the highlights and the full amendments which can be read at:

<https://www.leg.bc.ca/parliamentary-business/legislation-debates-proceedings/41st-parliament/4th-session/bills/first-reading/gov25-1>

### Highlights:

- requires the BC Ferries commissioner to prioritize public interest when regulating ferry services, including consideration of the Province's greenhouse gas emission targets;
- facilitates the participation of consumer advocates in the BC Ferry commissioner's regulatory processes to consider the needs of people in the review of ferry services;
- increases the number of BC Ferry Authority directors appointed by government from two to four, to bring a greater public interest perspective to the role of BC Ferries' shareholders;
- ensures that the BC Ferry Authority oversees the strategic direction of BC Ferries in support of public interest including safe, reliable and affordable coastal ferry services in British Columbia;
- requires the BC Ferry Authority to set term limits when appointing directors to the BC Ferry Services Board, to improve the oversight of BC Ferries; and
- expands definition of 'executive' at BC Ferries to include 'vice-presidents,' to provide greater transparency and oversight of executive compensation.

Hi Shirley,

Hope you're well.

Attached is part of our analysis of Mr Redlin's review, some of which (part 1 particularly) is relevant to Bill 25's looming Royal Assent (probably next week or two).

Looks like Bill 25 means your board is going to get some teeth along with some new faces.

Given this news, I'd like to buy you dinner and discuss.

If amenable, please let me know a time and date convenient to you.

In Solidarity,

Graeme

**Subject:** Fisheries Act Review - Applications for Authorization Regulations

Hello everyone,

Today, Fisheries and Oceans Canada (DFO) posted the "[Discussion Paper: Proposed modifications to the Applications for Authorization under Paragraph 35\(2\)\(b\) of the Fisheries Act Regulations](#)" online for a public comment period of 30 days (April 3, 2019 to May 3, 2019).

This discussion paper outlines the proposed changes to the *Applications for Authorization Under Paragraph 35(2)(b) of the Fisheries Act Regulations*, and provides an opportunity to comment on the proposal. Previous engagement on the Regulations was undertaken in summer and fall of 2018.

We invite you to send your [feedback on the discussion paper](#) to [FPP-PPP.XNCR@dfo-mpo.gc.ca](mailto:FPP-PPP.XNCR@dfo-mpo.gc.ca).

As a reminder, Bill C-68 entitled "An Act to amend the *Fisheries Act* and other Acts in consequence" was introduced in the House of Commons on February 6<sup>th</sup>, 2018 and is currently under review within the Senate. The changes to the Regulations proposed in the discussion paper would align the Applications for Authorization Regulations with the amendments to the *Fisheries Act* proposed in Bill C-68.

For additional information about the *Fisheries Act* Review, please refer to DFO's webpage: [a Fisheries Act for the future](#).

DFO will be holding meetings over the next month to explain the contents of the discussion paper. I wanted to ensure you are aware of the existing meetings.

Teleconference meetings with national groups coordinated by DFO National Headquarters staff:

- April 17<sup>th</sup>, 9:00 - 10:30 am: CNGOs
- April 17<sup>th</sup>, 10:30 am – 12:00 pm: Industry

**If you are interested in learning more about the proposed modifications to the Applications for Authorization Regulations presented in the discussion paper, please contact Gabby Pang any time at [Gabrielle.Pang@dfo-mpo.gc.ca](mailto:Gabrielle.Pang@dfo-mpo.gc.ca), or Tola Cooper at [Tola.Cooper@dfo-mpo.gc.ca](mailto:Tola.Cooper@dfo-mpo.gc.ca).**

Thank you again for your ongoing interest in fish and fish habitat protection.

Sincerely,  
Gabby Pang

#### **Background**

The Minister of Fisheries, Oceans and the Canadian Coast Guard was mandated in 2015 to review the changes made in 2012 to the *Fisheries Act*, to restore lost protections and incorporate modern safeguards. On February 6, 2018 the government introduced Bill C-68, *An Act to Amend the Fisheries Act and other Acts in Consequence*. This Bill passed third

reading by the House of Commons on June 20, 2018 and was referred to the Standing Senate Committee on Fisheries and Oceans on December 11, 2018.

While Bill C-68 is undergoing review by Parliament, DFO is engaging in discussions with Canadians on proposed modifications to the *Applications for Authorization under Paragraph 35(2)(b) of the Fisheries Act Regulations* in anticipation of the coming into force of the fish and fish habitat protection provisions of an amended *Fisheries Act*, should the Bill receive Royal Assent.

#### **What engagement has taken place to date on the Applications for Authorization Regulations?**

From July 25, 2018 to September 21, 2018, DFO posted a document online entitled *"Consultation Paper: Approach to a key regulation under the proposed fish and fish habitat provisions of the Fisheries Act"*. The consultation paper sought feedback on the Department's intent to propose changes to the Applications for Authorization Regulations. Comments received were reviewed to support the development of proposed modifications to the Regulations.

#### **What's next?**

This new round of engagement from April 3 to May 3 2019 aims to seek input from Canadians on the proposed modifications to the Regulations. This discussion paper is being published in advance of Royal Assent to allow for the proposed Regulations to be ready to be published in *Canada Gazette*, Part II, as soon as possible following Royal Assent of Bill C-68. It is important that all interested and affected parties provide feedback, as draft Regulations will not be pre-published in *Canada Gazette*, Part I.

**Subject:** Island Corridor Assessment

April 03, 2019

Honourable Claire Trevena, Minister of Transportation and Infrastructure

We are writing to follow up on the correspondence we exchanged in January and February concerning the Provincial assessment of the Island Corridor. We are aware the Request for Proposal has now closed and we assume you will soon be announcing who the successful applicant will be for this project.

We would like to reiterate that the corridor is owned by the ICF in fee simple. In recognition of that ownership, we were told in our meeting in December we would be an active participant in the development of the RFP and also the selection of the contractor.

s.21

Given we were not invited to participate in this process we wanted to ensure that the Province has taken into consideration the following issues:

s.21

The limitations and requirements set out above are in keeping with requirements we have for any contractor on working on our property. This is an active railroad and access and movement on rail property can only be undertaken by persons with the proper rules and operations training. The insurance and indemnification requirements are in keeping with any commercial landowners requirements.

Of particular concern to the Island Corridor Foundation is the following requirement set out in the bid:

#### 3.3.10. INDIGENOUS RELATIONS

a) Develop, lead and implement a communications strategy to communicate, engage, and consult First Nations, as necessary.

b) Undertake consultation with applicable First Nations as required.

In your letter of February 12th you noted meaningful discussion with First Nations are required and stated the ICF "needs to lead these discussions to find support and consensus". This is a responsibility that we take very seriously and we will lead any discussion with First Nations however we would like some clarification from the Province as to exactly what consultation the Province believes is required in relation to this assessment as an assessment will not in anyway impact the lands and resources of First Nations and will be done entirely on ICF owned lands.

We remain committed to working with the Province and trust our requirements as laid out above and our concerns relative to First Nations will be respected.

Sincerely,

Phil Kent  
Co-Chair  
Island Corridor Foundation

Hello,

I am a producer on Driving Law, a weekly podcast by lawyer Kyla Lee of Acumen Law Corporation focused on all legal issues related to driving a vehicle.

It has been running for nearly a year now and its goal is to educate the public about how driving law drives the law.

You can see previous episodes here: <https://itunes.apple.com/ca/podcast/driving-law/id1382454512?mt=2>

We would like to invite Bowinn Ma to be a guest on the show. This would be an opportunity for her to discuss the recent ride-hailing report as well as the future of ride-hailing in B.C.

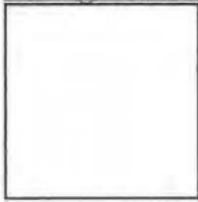

The format is very casual, like a discussion between old friends over coffee (as one listener described it). We can conduct the interview over the phone or at our recording studio at Brazen Bull Creative in Richmond. Whichever is easier. It would take between 20 and 30 minutes.

If you have some time available this week or in the coming weeks, please let me know if this would suit and we can work out a time.

Best,

**Subject:** INFO: 4th WTS iStore Charges (final)

*Hello William & James!*

*Please find attached a spreadsheet showing WTS (SSBC) charges for Information & Technology & Phone Services for the period Feb - Mar/19 details on tab 2, and Q3 to Q 4 Incremental Storage details on tab 3:*

Transportation  
and Infras. - W...

*Here is information on Shared Services BC charges for Information & Technology & Phone Services.*

### *High-Level Description of Funding Model Changes:*

- *Basically, budgets for most of each Ministry's core IT and phone services have been transferred to SSBC. These items are core services, and are called "voted" / "baseline" services - this includes things like computers, phones, etc. Since budgets for these items have been transferred to SSBC, they no longer bill for these on a monthly basis any more. As long as there is no overall increase in these services for the year, there is no charge for these items. If there is a net increase in voted services over the course of the year, SSBC will be charging clients at year-end for the increased amounts. We are in discussions with SSBC to determine how the charge for an increase in voted services will work and we will notify you once a process is in place.*
- *Some items, however are still billed for on a regular basis, and these are called "recovery" services - this includes services such as "calling cards, voice installation services, MFD consumption charges, etc. The attached report is a summary of your "recovery services" for the period April to September 2015. If you are curious to learn more about which products are voted vs. recovery, please see the "Voted and Recoverable Products and Services" sheet [online](#).*

### *What is incremental Storage?*

*Incremental storage is the amount of storage above a base allocation for a specific Information Technology (IT) service.*

### *Are there costs for incremental storage?*

YES. There is a cost for every Gigabyte (GB) over the base allocation for the organization. The costs for each branch are detailed in the Incremental Storage Report. Here is the summary of costs based on service:

Service	Incremental Storage Cost (GB above base allocation)
Messaging, Home Drive, Share Drive , Shared Web	s.17
SharePoint, Shared Database	

### *What is the Incremental Storage Report?*

Workplace Technology Services bills the client organization one pooled incremental storage charge for the entire client organization (at a Ministry Level).

CSD Information Management Branch has developed a report which calculates and breaks down incremental storage and costs by service, and by groups within the client organization. Although there is some margin of error, this report allows cost distribution according to level of usage. The report also enables clients to identify where they can potentially reduce storage (and therefore costs).

### *How much storage do we have without getting charged?*

Service	Base Allocation for entire client organization
Messaging (E-mail)	150 MB X (number of mailboxes)
Home Drive	1.50 GB x (number of Shared File & Print users)
Share Drive	
Shared Database	5.00 GB for each database
Shared Web	0.50 GB for each website
SharePoint	0.25 GB for each SharePoint site

### *How do I determine how storage is being utilized?*

#### Checking E-mail storage:

1. Click on "Tools", "Mailbox Cleanup"
2. Click on "View Mailbox Size"
3. "Total size (including subfolders) indicates the amount of storage utilized"

4. *Reminder that 150MB (150,000 KB) is the base allocation (if everyone is above this amount, the organization will incur incremental storage charges)*

#### *Checking Personal H: drive storage:*

1. *Open Microsoft Explorer.*
2. *Click on the H: Drive*
3. *Press Ctrl-A (highlights all folders in the drive)*
4. *Right-click on the highlighted items and select "Properties"*
5. *The "Size" indicates the total H: drive storage used.*
6. *A good guideline / best-practice to use as an H drive benchmark is 1GB as a maximum.*

#### *How can I find large / old files in my inbox?*

1. *The Mailbox Cleanup tool can be utilized to find messages of a certain age/size*
2. *Click on "Tools", "Mailbox Cleanup"*
3. *There are 2 options to find specific items "Find items older than..." or "Find items larger than".*
4. *Enter the age/size limit, and select "Find"*
5. *The results will be displayed in the Advanced Find dialog box*

#### *How can I easily empty my "deleted items" folder?*

*When you delete a message from any folder other than the deleted items folder, outlook just moves the message to the deleted items folder (it still takes up space in your mailbox). To recover space in the mailbox, the deleted items folder should be emptied regularly.*

1. *Click on "Tools", "Mailbox Cleanup"*
2. *Click on "Empty" to permanently delete items from the "deleted items" folder*
3. *You can also view the size of this folder by clicking "View Deleted Items Size..."*

#### *How do I reduce the amount of storage being utilized?*

*The Incremental Storage Report is a good first step to help identify which areas are contributing most to incremental storage costs (i.e. e-mail, home drive, or shared drives). Depending on which area(s) are contributing most to incremental storage costs, a different approach/strategy may be utilized.*

*In terms of reducing incremental storage, all electronic records must be filed using the approved Administrative Records Classification Schedule (ARCS) or an Operational Classification Records Schedule (ORCS) that has been tailored to the mandate of the organization.*

Please review the summary. If you have any questions or observe any discrepancies, please call our **IMB Service Desk** by phone at 387-8912, or by e-mail at [78912@gov.bc.ca](mailto:78912@gov.bc.ca), and our team would be glad to assist in working with SSBC to obtain answers or resolve billing discrepancies. The items on this summary totalling <sup>s.17</sup> have already been charged to Ministry of Finance, and will be cost-recovered via JV to your coding 034/55001/60410/6301/5500102. JV WTS-LEG190331 will be submitted to Accounts April 3, 2019 for processing.

**Subject:** Uber and Lyft are not ridesharing

Dear Minister,

This morning we launched an article entitled Uber and Lyft are not ridesharing an education piece to inform members of the public of the distinction between ride-hailing and ridesharing.

Given the current climate around ride-hailing in British Columbia, I am asking your cabinet to consider this distinction when deciding on terminology and policies on ride-hailing, to ensure a vibrant competitive landscape for BC companies like Poparide.

Here is an executive summary of the article for your review.

#

With Lyft's IPO last week valuing the company at \$22.4 billion after its first day of trading, and Uber's imminent IPO expected to be around \$120 billion, there is a lot of hype around "ridesharing" at the moment.

However, one side of the story rarely told is that consumers using Uber and Lyft *aren't actually ridesharing*. Uber and Lyft are modern, deregulated taxi services for consumers to hail a ride conveniently through their phones.

There is a widespread misconception amongst the public and in the industry that Uber and Lyft are shared mobility services. This is perpetuated by venture capital funds whose sole ambition is to capture market share to inflate their stock price and bring a return to their investors.

Clever branding combined with compelling marketing have succeeded in influencing consumers and misleading them into thinking they are consuming more responsibly, without presenting the real impact these so-called "ridesharing" services are having on the economy, on communities and on the environment.

The impact of ride-hailing is significant, causing higher congestion in cities that leads to more carbon emissions, changes to consumer habits resulting in a reduction in the use of public transit and low wages with no benefits for drivers, amongst others.

Moreover, the strategy to capture market share at all costs is creating a great deal of speculation in the market about the future of transportation without any clear indication that the current solutions are viable in the long-term.

In fact, Uber and Lyft have never been profitable and have lost money in the billions since their inception. Lyft even declared in their IPO prospectus: "We have a history of net losses and we may not be able to achieve or maintain profitability in the future."

The free market will decide how long to subsidize this race to the bottom to provide cheap rides to the consumer but the long-term challenge remains; providing affordable transportation in a way that is financially viable, has a positive impact on society and is environmentally sound.

This article debunks the myth that Uber and Lyft are ridesharing services. It presents their true social and environmental impacts, and hopes to encourage consumers to reflect on their habits and how they affect the world we live in.

**Subject:** Password and GAL Manager: Setting Up Your Security Profile

Keeping your information secure is a high priority for government. Using the web-based Password and GAL Manager application (accessible from <https://77000.gov.bc.ca>) to reset your IDIR password eliminates the need to verbally share confidential information, such as your password.

(Note: You may be receiving this as a reminder if our records indicate that you have not set up your security profile.)

From this application, you can also manage some of your Global Address List (GAL) information. The GAL is a directory in the Government's Exchange e-mail system and contains information such as your business address and telephone numbers. You can see your entry by clicking on the address book icon in Outlook and typing in your name (lastname, firstname).

To get started, you need to set up your security profile:

Use Internet Explorer to log on to the Workstation Services website at <https://77000.gov.bc.ca>. You will need to enter your IDIR and password.

After logging on to the site, set up your security profile:

1. Click "Update GAL Info" on the left side of the Welcome Page

2. Read the statement on the privacy page.

- If you choose "Decline", you will be returned to the Welcome page and you will not be able to manage your GAL information. You may come back at any time to accept the statement.

- If you choose "Accept", you will proceed to "Update GAL Info and Set Up Security Profile."

3. Answer a short series of questions to complete your profile.

(Note: You will need to remember the answers to these security questions.)

Service Desk personnel are NOT able to read your security data, and the storage of this information is highly secure.

By setting up your security profile as soon as possible, you will avoid follow-up reminders.

Once you have set up your security profile, you can:

1. Change your IDIR password.

2. Update your contact information in the Global Address List (GAL).

If you need help setting up your profile, please contact the 7-7000 Service Desk at (250) 387-7000.

Hello Renee,

As Avi advised you, we are in Holland negotiating contracts with our shipyard. As the first of the ships nears construction completion, interest from 3rd parties is materializing and we are here to lock up the ships. This time issue formed part of INFC's rapid submission to TB and factored heavily into the Board's decision. In other words, time has been -- and remains -- of the essence.

Given that BC prioritized our application and asked the Feds for matching funds, given that the NBCF program expects matching contributions, and having been told that the Province had identified the requested funding, we have been proceeding on the premise the the provincial commitment is solid. However, we have no paper to that effect.

As we proceed to sign the procurement contracts in just two days, our banker and the company require "some" confirmation of that commitment. The risk to us of proceeding without it is enormous.

We finished up with Damen's Compliance Officer yesterday and are sitting down with

their Director of Finance this morning. Clearly, time is of the essence but it is quickly running out.

The assurance can take a number of forms; this is your business, not ours. But some form of written confirmation IS needed urgently.

However, I have left one e-mail and four voice-mail messages for you over the past 3 working days and have yet to receive an acknowledgement, let alone a reply. Thus, our concern is mounting significantly.

Please advise as quickly as possible of the next step(s) and when we can expect written confirmation, in whatever form that may take.

Regards,

David

Hi all - please see revised materials for tomorrow's announcement. This captures all edits from HQ / MO.

MCT's revised quote for approval:

**"British Columbians deserve a ferry service model that puts people first," said Claire Trevena, Minister of Transportation and Infrastructure. "People living in coastal communities depend on the vital service provided by BC Ferries, but for many years they experienced service cuts and climbing fares. Our amendments to the *Coastal Ferry Act* will put people at the heart of decision making."**

Give me a shout if questions.

Thanks,  
Sonia

Hi to all – This NR has gone through program, exec, comms, and HQ approvals.  
This one was written by Jamie in our shop, and is a regional news release lined up for Thursday release at 7 AM.  
Over to you for Minister QUOTE approval please:

"Keeping people and goods moving safely and efficiently in all corners of our province is our top priority," said Minister of Transportation and Infrastructure Claire Trevena. "Paulson Bridge is more than 55-years old. Significantly rehabilitating the bridge and providing other key safety upgrades will ensure it remains reliable for many years to come."

Hello Renee,

As Avi advised you, we are in Holland negotiating contracts with our shipyard. As the first of the ships nears construction completion, interest from 3rd parties is materializing and we are here to lock up the ships. This time issue formed part of INFC's rapid submission to TB and factored heavily into the Board's decision. In other words, time has been -- and remains -- of the essence.

Given that BC prioritized our application and asked the Feds for matching funds, given that the NBCF program expects matching contributions, and having been told that the Province had identified the requested funding, we have been proceeding on the premise the the provincial commitment is solid. However, we have no paper to that effect.

As we proceed to sign the procurement contracts in just two days, our banker and the company require "some" confirmation of that commitment. The risk to us of proceeding without it is enormous.

We finished up with Damen's Compliance Officer yesterday and are sitting down with their Director of Finance this morning. Clearly, time is of the essence but it is quickly running out.

The assurance can take a number of forms; this is your business, not ours. But some form of written confirmation IS needed urgently.

However, I have left one e-mail and four voice-mail messages for you over the past 3 working days and have yet to receive an acknowledgement, let alone a reply. Thus, our concern is mounting significantly.

Please advise as quickly as possible of the next step(s) and when we can expect written confirmation, in whatever form that may take.

Regards,

David

#### **Top Stories in South Asian Media:**

- Surrey shootings - Red fm - Mr. Thind says there is no let up in shootings in Surrey. He talks about the issue of change in policing in Surrey noting that some Surrey councillors are now talking about more public consultation. Callers say that a change in policing must happen.
- ICBC Changes - mr Thind talks to lawyer Amrik Narang about the impact of these changes. Mr Narang feels that the definition of minor injury has become quite complicated and cases might end up in court costing the system perhaps same amount if not more money. There was Discussion on the competency and qualification of the CRT with Mr. Thind pointing out that the existing tribunal might not be qualified to deal with complicated cases. A number of people called in with questions about the changes.
- New rural immigration pilot project - Red FM 4. SNC Lavalin - should JWR be removed from caucus. Mixed reaction from callers with many calling her a hero.
- Homelessness - Spice Radio

**Subject:** Denman/Hornby FAC letter

Dear Minister,

About two weeks ago I sent a letter to your Ministry regarding the recent decision by your government to increase sailings on some coastal ferry routes. As I have not received any reply, other than an automated response, I wanted to send it to what I hope may be a more personal address that you may be able to check from time to time. Keith Rush was good enough to share this with me after I had a discussion with him regarding the Denman/Hornby FAC letter. I am copying Keith as well as Diana Mumford, Co-chairs of the FACC so they are kept in the loop.

There is some urgency to the letter as it impacts on this summer season which as you know is always a very busy time on our two routes. At our last Operations Meeting, about two months ago, working with BC Ferries representatives the FAC was able to come up with a possible solution to the very long waits at all our terminals. We are suggesting a pilot project this summer to determine how effective the plan would be. Now it seems BC Ferries needs a little push to put the plan into operation.

Finally I would like to remind you that at our summer FACC meeting in 2017 I did put in a plea for a return of a sailing on our routes.

I sincerely hope after reading our attached letter you will agree this is a project worth pursuing.

Thank you for your attention in this matter.  
Frank Frketich  
Chairperson  
Denman/Hornby FAC

**Subject:** Vancouver Board of Trade event May 10  
**Attachments:** Minister's participation at Westac April 30 and May 1

Will,

As discussed with the Minister yesterday, we spoke to the Vancouver Board of Trade this morning regarding the Minister's participation at the Vancouver Board of Trade's Gateway Forum 2019 on Friday May 10, from 8 am to 12 pm.

The Board is hoping the Minister will speak and take questions for approximately 20 minutes. The board is flexible on the time of her presentation. There is also a possibility that Min. Garneau will be able to attend – but to date they have not received confirmation. Should Min. Garneau confirm, the Board is suggesting each minister present and bookend the two panel sessions.

The first panel (comprised of the Port of Vancouver, Translink and City of North Vancouver) will discuss aligning infrastructure investments with public sentiments / community impacts. The second panel (comprised of the Port, CN, GCT, and Chamber of Shipping) will discuss technological advancements and sustainability, as well as the investments and policies and practices necessary to meet future demand.

Given the panels and theme of the event, we would suggest the Minister's presentation mirror the remarks she will give at WESTAC. For your reference, I've attached that outline. If you can confirm the Minister's participation, we will work with GCPE to start speaking notes for the Minister.

Interesting, between the time we spoke to the Board of Trade and now, I see that the Board has updated the event website to note the Minister as the Keynote speaker. <https://www.boardoftrade.com/events/individual-events/1545-6399>

Hi Lynne – only one spot left for today. Could do 3:15 live (for 5-6 min) – or, option to do a pretape between now and 1:30 PM today.

Do either of those works? I'll confirm call-in details accordingly.

### Request

Reporter is working on an article on the Pattullo Bridge project and would like to interview a project engineer or project manager about it.

She says: I realise that no bidder has yet been identified, hence I would be looking for an overview briefing on the project, the current status and the challenges for whoever wins the contract. I have seen the information on the website but if there is any other background info such as conference papers or presentations that are in the public domain, I would be very grateful to receive them.

### QUESTIONS:

- 1/ Can you give me a brief overview of the project scope & cost?
- 2/ What is the current status of the project? What are the projected timelines?
- 3/ What challenges do you perceive for the company that wins the contract for this project?

Hi Will and Melanie,

For your approval please, on the below. This info is mostly public from factsheets and news releases. No one is available for an interview on this, so we'll provide the following with your approval.

Thanks,  
Danielle

#### Reporter

Helena Russell, Reporter  
Bridge Design & Engineering Magazine  
[helena@helenarussell.com](mailto:helena@helenarussell.com)

**Deadline** Wednesday, April 3, 2019 12:00 PM

#### Request

Reporter is working on an article on the Pattullo Bridge project and would like to interview a project engineer or project manager about it.

She says: I realise that no bidder has yet been identified, hence I would be looking for an overview briefing on the project, the current status and the challenges for whoever wins the contract. I have seen the information on the website but if there is any other background info such as conference papers or presentations that are in the public domain, I would be very grateful to receive them.

#### QUESTIONS:

- 1/ Can you give me a brief overview of the project scope & cost?
- 2/ What is the current status of the project? What are the projected timelines?
- 3/ What challenges do you perceive for the company that wins the contract for this project?

**Deadline** Wednesday, April 3, 2019 10:00 AM

### Request

Reporter is working on a documentary-style story about the need for winter tires across Canada, and would like to speak to someone from the Ministry about why B.C. recently changed the regulations on when winter tires are needed. Interview would be a pre-tape, by phone, sometime before Wednesday.

### QUESTIONS:

- Why was this specific date (April 30) chosen as the new date to end winter tire season?
- Why was it changed from the original date?
- Why are winter tires needed at all in B.C.?

Hi Steve,

Attached is the violation tickets and Cease and Desist orders that have been issued by PTB since 2017.

As the compliance activity is directed towards the unlicensed driver, the VTs and C&Ds are issued to individuals who were caught picking up passengers through an app based platform. The app based platforms that have had C&E activity directed towards them are:

#### **Top Stories in Chinese Media:**

- BC's carbon tax will rise again today. Some experts estimate that the price of gasoline in Greater Vancouver area will increase to \$1.65 per liter before the Victoria Day long weekend holiday.
- ICBC changes effective today. Two controversial issues: Maximum claim for minor injury is capped at \$5500. Dispute over accident injury claim of \$50,000 less will be transferred from the court to Civil Resolution Tribunal.
- Trial Lawyers Association of BC to file lawsuit against the provincial government over ICBC's revised compensation policy.
- The number of Canadian citizens voting overseas is expected to double this year from 11,000 in 2015 to 30,000 due to the passage of Bill 76 in December 2018.

#### **Top Stories in South Asian Media:**

- ICBC changes- Red FM interviews Minister Eby. AG explains the changes coming to ICBC emphasizing that these changes will bring in the much needed revenue to ICBC. The Thind asked him about privatization to which Minister Eby answered that studying the two provinces of Alberta and Ontario it was clear that privatization wasn't the best solution. Trial lawyers planning to sue the government was also discussed. KRPI – Dr. Romana talked to lawyer Brij Mohan who criticized the government and Minister Eby calling the move of capping minor injuries as an attack on the Charter of Rights and Freedoms. He said the trial lawyers had a strong case against the government. Brij Mohan also referred to Ujjal Dosanjh saying even a former leader of the NDP is opposed to these changes.
- Attack ads by NDP caucus – both KRPI and Media Waves talked about attack ads running on various radio and print media saying that the tax payers money should not be used for these campaign style ads.
- SNC Lavalin

**Request**

Regarding the release about "BC Ferries commissioner makes preliminary price cap decision," reporter is looking for a statement from Minister. He says: I realize the Commissioner sets the price cap - but MOTI serves as the Ministry under which government decisions impacting BC Ferries are made.

Reporter asks:

- Will Minister Trevena be issuing any statement regarding this? Deadline is today due to our going to press, if there's any chance of a statement from Minister Trevena.

**Background**

**Recommendation**

**(To be sent as statement from Minister Claire Trevena)**

Our government has made it clear that our focus is to make life more affordable for British Columbians. We only just received the Commissioner's report, and while disappointed to see the proposed fare increase, we'll take the time to have a closer look and discuss next steps.

Our government has worked hard over the past 18 months to put coastal communities first. We have ensured fares were frozen on the major routes, and that fares were rolled back on the minor and northern routes by 15% - a positive change that is now in its second year. We also recently ensured increased service to routes that were cut in 2014, restoring 2,700 round trips.

Under the former government's watch, BC Ferries fares skyrocketed, impacting ridership and restricting the mobility of island residents. Services were cut entirely, and they failed to take action.

We're working hard to fix the mistakes of the previous government, by keeping fares low and reinstating services cut by the opposition.

Hi Will and Melanie,

Please see the below request for Minister to be interviewed on a driving-focused podcast. Producer is asking for her to speak about ride-hailing and the recent recommendations. See more below. Please let us know if Minister would be available in the coming days/weeks for this.

Thanks,  
Danielle

### Deadline ASAP

### Request

Producer would like to invite Minister on the "Driving Law" weekly podcast to chat about ride hailing and the recent recommendations. Interview could be any time this week or next, by phone, and would be as a 20-30 minute conversation.

The host is lawyer Kyla Lee of Acumen Law Corporation, and the show focused on all legal issues related to driving a vehicle. (Episodes here: <https://itunes.apple.com/ca/podcast/driving-law/id1382454512?mt=2>) The format is very casual, like a discussion over coffee. This would be an opportunity to discuss the recent ride-hailing report as well as the future of ride-hailing in B.C.

Good morning Will;

Geoff just asked me to schedule a meeting with you and Bob Dewar re: Nanaimo. He also mentioned Sheila Malcolmson. Do you know if Sheila is to be involved in the initial meeting as well?

Thanks for your help.
