Dear Claire,

s.22. I do not agree with the Horgan govt's proposal to sell alcohol aboard BC Ferries. Do we really want people to have 2 drinks and head out on our highways? I think this will be very unpopular and could cost the NDP the next election.

Sincerely,

s.22

Dear Ms Trevena

I am very concerned about this decision to have alcohol served on BC Ferries.

s.22

I do not want to be faced with another ugly lifelong NDP saga.

Right or wrong, the NDP will wear ANY tragedy connected to this decision. I cannot understand that you all cannot see this. Any accident a driver gets into coming off a ferry is going to be worn by the NDP.

We waited far too long to gain success in BC.

I BEG you to use your influence in caucus and undo this. It is a terrible, horrible, dangerous and it can destroy any chances of re-election - ever,

I don't think I need go into all the many many things that can go wrong here. You read the sites I assume.

Please Ms. Trevena, hear us.

Thank you,

To: claire.trevena@gov.bc.ca
Subject: (Lack of) Transportation

Dear Honourable Claire Trevena,

To help to deliver your mandate and your ministerial objectives, I encourage you to reconsider the existing use of the Fraser Valley railway system to better transport the growing communities population and the robust billion dollar tourism industry populations by connecting the Fraser Valley Region to the Greater Vancouver areas. I hope you recognize an ill-used existing railway infrastructure, which could become a twenty first century model for other B.C. communities too, similar to the efficient European railway transportation system.

Two of my concerns that should be on the priority list for your department is one) that British Columbia has an abundant tourist population who arrive by Cruise ships, plugging the downtown core, and don't get to see the magnificence of our province because of an inadequate transportation system. Despite the effectiveness of the YVR Airport Skytrain, which finally enabled people to adventure to the downtown Vancouver core; it however, does not get tourist dollars into other areas of British Columbia. It could, with modifying an existing railway system that could probably be paid for using tourist dollars. Two) The continued building infrastructure of the Fraser Valley and beyond to Hope B.C. has untapped potential for both tourists AND residents to access these areas; however, the inadequate highway system, despite the recent upgrades, is clearly not sufficient for the ongoing building boom, not to mention it isn't a very green alternative.

The ever increasing fuel prices, the green movement, and future transportation choices are changing at a rapid pace; therefore, why not be pro active and forward thinking? British Columbia can become as competent as the Netherlands and other European countries, by tapping into our existing railway to help move people off the highways and encouraging rail use. It would be cost effective for locals, students, seniors and tourists. It would get people to spend in other communities in B.C. and possibly further grow the housing and development infrastructure as people see other alternatives. If done right, even people with disabilities can be mobile within their own province, an all inclusive transportation system throughout B.C. Would be a model for other Canadian provinces.

The housing market has also driven more families east of Surrey, but the commute is bottle necked past Langley. Commuters are spending more time in their cars and paying more for their gas, while their personal lives are further stressed commuting to simply make ends meet for their families, yet spending more time on the road than with their families. Something has to give, as there are more divorces,

breakups, and stressed constituents in this era than ever before.

Please, I urge you to consider "Rail for the Fraser valley and beyond" because I have seen the changes with the local bus system, the Charter bus system, and even the Handy Dart challenges for simple commutes between Abbotsford to Surrey, or east towards Hope. They come and go, and aren't reliable. In fact my Taxi Savers can't be used cross border from Abbotsford to Surrey, or Mission, etc.. All the while, the transportation infrastructure here in Abbotsford for the past fifteen years, has remained inadequate to none. Yet despite the continued building growth, and the City is gaining more property taxes, so more money should be allocated to build accessible, green transportation.

I urge you to consider the railway as an alternative proposal because it's only going to get worse and cost more to widen a highway, that will only plug up again with all the continued housing being built.

I am writing you this letter in hopes that I, and others, don't have to move to a different province to gain a sustainable lifestyle.

Please, seriously consider using our railway system.

Thank you.

Sincerely;

s.22

You have met Brenda Guiled, the President of Island Pathways here on Salt Spring Island while you were here last May to celebrate 10 years of our bus service. At the time she showed you some information on the Salish Sea Trail Network (Island Pathways May 11, 2018) and later followed up with the "Cycling Salt Spring Island Video". (Island Pathways March 1, 2019).

Gary Gagné and I are directors of Island Pathways and will be attending the BC Cycling Coalition BC Active Transportation Summit on June 17/18 where you will give the keynote at 9 am. We were hoping to have a few minutes of your time either before or after.

Gary and I attended a Bike to School activity this morning at Salt Spring Elementary School. There was a huge turnout of kids learning to handle their small bikes. I remarked to some of the organizing team how I wanted to bring up their safety with you if I could get a chance to meet you at the Summit. As you can see [here](#); Salt Spring has been trying to get cycling safety on our roads improved consistently for years. In 1992, the Minister Art Charbonneau, promised that, in detail.

Just to establish how important we islanders feel Island Pathways is; last week 100+ Women here on Salt Spring chose to donate \$19,000 to Island Pathways. That is a great deal of money on our island but not enough to create a safe bikeway for our children and other cyclists . . . only you can do that.

Thanks

Respectfully -
Bob MacKie

Dear Minister Trevena,

My name is Morgan Paulgaard, from the Canadian Credit Union Association (CCUA), an organization that represents Canada's credit unions outside of Quebec.

As you may be aware, the sector in B.C. includes 42 institutions in 379 locations across the province, with more than 8,600 employees. Credit unions are focused on local communities across the Province where every customer is also a member and owner. In the province, approximately 40 per cent of British Columbians are credit union member-owners; furthermore, credit unions not only hold deep member and community relationships but can also recognize unique opportunities to invest and create meaningful local economic impact.

I am hoping a small group of our credit union advocates can find a time to briefly meet with you on May 29 to highlight the work our sector doing in the province. We hope you will find a meeting to be beneficial to your work.

Attached is a copy of our original request, including a reception invitation for May 28.

Please let me know if we can schedule a time to meet.

Thank you,

Morgan Paulgaard

Reporter is working on a story about the Northern Sea Wolf ferry, which he understands is currently conducting dock trials in preparation for its planned June 3 launch on the discovery coast connector route. He is hoping for a comment or brief interview with Minister Trevena about the vessel – in particular about the records he have attached. I'm looking for a comment from the minister about these two pieces:

- 1) Does the minister believe the decision to purchase the used Northern Sea Wolf vessel was the right financial decision over the alternative option of upgrading two existing ferries, and purchasing a new build vessel (details here), given that the Northern Sea Wolf appears to have gone at least \$20 million over budget?
- 2) Is the minister concerned about the possibility that management of fuel and freshwater will be necessary to keep the vessel's load line from being submerged?

- 1) Does the minister believe the decision to purchase the used Northern Sea Wolf vessel was the right financial decision over the alternative option of upgrading two existing ferries, and purchasing a new build vessel (details here), given that the Northern Sea Wolf appears to have gone at least \$20 million over budget?

Thanks
Lynne

MEDIA RELEASE

May 20, 2019

Website: bctransit.com

BC Transit continues to provide safe rides to new grads

Corporate – High school graduates from over 70 communities across British Columbia will be able to ride the bus for free for two days of their choice during the month of June thanks to the GradPASS program.

BC Transit and its partner communities are once again offering the popular GradPASS program for graduating Grade 12 students all over the province.

Quote from Claire Trevena, Minister of Transportation and Infrastructure.

GradPASS was first introduced in Vancouver in 1988 to encourage safe transportation options during prom season for recent graduates. The Victoria Regional Transit System adopted the program in 1990, with other communities following suit over the years. Today, over 70 communities across the province offer GradPASS to new graduates at the end of May for their use in June.

“BC Transit is pleased to congratulate the graduating class of 2019 for reaching an important milestone in their lives,” said Erinn Pinkerton, BC Transit President and Chief Executive Officer. “Graduating high school is a great accomplishment for all students. BC Transit would like to remind graduates of the importance of choosing transit as a safe and reliable transportation option when celebrating their achievement.”

To use their GradPASS, graduates only need to scratch off their two chosen travel days (does not need to be consecutive) and show the card to their bus driver at the time of boarding. GradPASS cards will be distributed to local schools in late May.

For information on BC Transit schedules, routes and service alerts in your community, please visit bctransit.com, and select your local transit system.

BC Transit congratulates the new Million Miler Award and 50,000 Club Award recipients in Victoria

VICTORIA – On Saturday, May 4, the Honourable Janet Austin, Lieutenant Governor of British Columbia, Catherine Holt, BC Transit Board of Directors Chair, and Erinn Pinkerton, President and Chief Executive Officer of BC Transit, recognized the achievements of BC Transit employees who have shown a commitment to safety.

Quote - Claire Trevena, Minister of Transportation and Infrastructure.

Quote Honourable Janet Austin, Lieutenant Governor of British Columbia

The Million Miler Award is for drivers that have driven 20 years without a preventable accident - the approximate equivalent of driving a million miles safely and without incident. Established in 1978, the Million Miler Award has been presented to 155 BC Transit drivers in Victoria. This year's recipients are Larry Rollier,

The 50,000 Club Award is for staff in safety sensitive positions, including mechanic and warehouse staff, who have 20 years of safe work without a preventable accident – the approximate equivalent of working 50,000 hours. Established in 2016, the 50,000 Club Award has been presented to XX BC Transit staff in Victoria. This year's recipient is Bruce Head.

“At BC Transit, safety is our top priority,” said Erinn Pinkerton, BC Transit Interim President and Chief Executive Officer. “Earning Million Miler status is a huge accomplishment, and I sincerely congratulate <insert names> for reaching this milestone. I would also like to thank them—and all our staff—for their commitment to the safety.”

Subject: Interview request - TRAN Media Request: Kootenay Lake Ferry service questions

Will and Mel,

The below reporter is hoping to speak to someone about the Kootenay Lake ferry/service. Would MLA Mungall be available to take this sometime next week? Responses to the reporter's questions are below. Interview time is flexible for next week.

Let us know and I can help set it up.

Thanks,
Danielle

Deadline ASAP

Request

Reporter is hoping to interview someone on Monday or another day next week about

the decision for the Kootenay Lake Ferry and upgrades. She would also like a written response in regards to her below questions.

QUESTIONS:

Can you confirm that Balfour will remain the terminal location, and did you decide this due to public input, or because of the geological nature of the waterway?

In November 2016, the Province announced its decision to retain the terminal at Balfour and undertake further work to improve the safety and reliability of the service for ferry users. The Province's decision considered both the public's feedback during the public consultation of 2016, and the larger environmental and social/community implications of relocating the terminal to Queens Bay.

What improvements will be made to the highway to increase safety and feasibility relating to the ferry?

Improvements will be made to Highway 31 and 3A to increase the terminal's queueing capacity to accommodate 40% more vehicles during peak season and to improve safety for both Highway 3A and ferry users such as a modifications to Upper Balfour Road, and improvements around the runaway lane in Kootenay Bay.

Is the ministry going to be doing dredging of the channel, and how often(?), as this will need to be done more than once.

The Province will be performing minor dredging in the shallow areas of the channel in the west arm of Kootenay Lake in the fall of 2019. This work will create safe travels for the Kootenay Lake ferries during all seasons, by giving the vessels enough clearance to travel through the water in this channel. It is expected that this dredging will address navigational issues of MV Osprey 2000 in spring 2020, and for the foreseeable future.

The Province is committed to completing this work in compliance with all applicable environmental regulations and with minimal impact on the environment and habitat. The dredging work will be overseen by the Department of Fisheries and Oceans, and the provincial Ministry of Forests, Lands, Natural Resource Operations.

When will the electric ferry be in service?

The new vessel is expected to go into service in 2022. It will be fully completed to make all electric journeys by 2030, once shore power is in place and we know the technology is reliable enough to use on a daily basis.

What can residents expect to see for solutions, between now and then? (Noting that reporter says many are losing jobs due to scheduling issues and timing with current schedule and would like to know what interim solutions will be made)

We appreciate feedback from the public on the current service levels. There are no changes to service planned for the foreseeable future but going forward, the Province will continue to assess ways to improve the ferry service.

How is the funding allocated? How much was put into each terminal? How much funding will be dedicated to the installation and removal of existing buildings, and is that really needed?

The Province has an approved budget of \$54.7 million cost-shared with the federal government – the provincial contribution is \$37.5 million – federal \$17.2 million. The budget includes the new ferry, and upgrades at both terminals.

On May 24, 2019, at 09:28, Stone, Lynne TRAN:EX <Lynne.Stone@gov.bc.ca> wrote:

Quote for approval:

"Ferry service is a lifeline for people living on the Central Coast, and for too long they have been waiting for a modern, reliable and comfortable service. The arrival of the Northern Sea Wolf is wonderful news for local people, Indigenous communities, small businesses and tourism operators who depend on this popular route."

Full BC Ferries release:

NORTHERN SEA WOLF BEGINS DIRECT SEASONAL SERVICE BETWEEN PORT HARDY AND BELLA COOLA

Vessel sails direct seasonal service five times a week until October 10, 2019

VICTORIA – BC Ferries celebrated with Central Coast communities today the Northern Sea Wolf's inaugural direct sailing from Bella Coola to Port Hardy. The seasonal direct service between Port Hardy and Bella Coola is spectacular a 10 hour journey through the Great Bear Rainforest. BC Ferries looks forward to welcoming tourists and locals on board, and supporting tourism in the region with this truly unique travel experience.

On June 2, BC Ferries hosted a public open house on board the Northern Sea Wolf in Bella Coola, prior to the vessel's first direct sailing on June 3. All members of the public were invited on board to tour the ship, see the amenities and meet some of the crew. The vessel features a new galley, bridge, electrical generators, HVAC system, washrooms, elevator, chair lifts, new cafeteria and passenger accommodation area. It includes an outdoor passenger area on the top deck that is sure to be popular with customers. BC Ferries is also holding a public open house in Port Hardy from 7 to 9 p.m. on June 3.

Kwakiutl First Nation's Richard Hunt and Nuxalk Nation's Danika Naccarella designed the artwork that adorns the Northern Sea Wolf. The artwork is displayed on the interior and exterior of the vessel for customers to view, along with profiles of the artists.

BC Ferries and community stakeholders named the Northern Sea Wolf in honour of a First Nations' legend in which the Sea Wolf is a manifestation of the Orca. The designs depict the beauty of the majestic animal, with the Sea Wolf the symbol of family, loyalty and the protector of those travelling their waters.

On May 3 the Northern Sea Wolf departed BC Ferries' refit facility in Richmond and arrived in Bella Coola the following day. The ship conducted sea trials and dock fits at the ports it serves and welcomed local residents on board for a tour at the same time. The fits were successful and on May 18, the Northern Sea Wolf took over from the Nimpkish to provide connector service for residents between Bella Bella, Shearwater, Ocean Falls and Bella Coola. Partial funding for the Northern Sea Wolf project was provided by the federal government through the Provincial-Territorial Infrastructure Component – National and Regional Projects.

For customers looking to discover the majestic Central Coast with convenience and ease, booking a multi-night tour with BC Ferries Vacations. For more information, visit bcferries.com/vacations. For more information about the Northern Sea Wolf and the routes it serves, visit bcferries.com.

New facilities and seismic upgrades for a safe and efficient transit future

Victoria – New facilities bring welcomed upgrades to safety and efficiency for the Victoria Regional Transit System, and other BC Transit systems across the province.

In 2016, the project was announced as a three-phased endeavor, consisting of a new warehouse for the Langford facility (1000 Henry Eng Place), improvements to administrative space for Victoria's transit operators (520 Gorge Road East) and a brand new paint and body shop, including seismic upgrades and retrofitting (also at the Victoria facility).

These projects are part of the almost \$180 million in federal and provincial funding for BC Transit projects that was first announced in June 2016.

“QUOTE,” said Federal Representative. “QUOTE”

Though the new facilities reside within the Victoria Regional Transit System, their benefits are seen province-wide. The new Langford warehouse, a 4,000 square foot facility completed in February 2018, now boasts a centralized stockroom and provincial distribution facility, allowing transit systems throughout the province to be served in the timeliest and most efficient manner possible.

“QUOTE,” Minister Claire Trevena

The new paint and body shop in Victoria has not only improved the seismic integrity of the transit center, but it will also boost the productive capacity of one of the busiest transit repair shops in the province. An average of 1,200 jobs are completed in the body shop each and every year.

“On behalf of the Victoria Regional Transit Commission, we are very proud of these new upgrades,” said Susan Brice, Victoria Regional Transit Commission Chair. “It has been such a positive experience, working together with the federal government, the provincial government and BC Transit, to provide solutions that contribute to safe and efficient transit for our communities.”

Transit operators based in Victoria are now enjoying a new centralized administrative space in which to collaborate, work more effectively and allow for room to grow.

“An effective and efficient operation requires accurately predicting and responding to demand,” said Erinn Pinkerton, BC Transit President and Chief Executive Officer. “This investment in facilities represents our response to projected growth, and a commitment to public transit from our government partners at all levels.”

The facility construction and upgrades represent an investment of \$XX million in supporting provincial public transportation. This project is part of the Public Transit Infrastructure Fund (PTIF), from which approximately XX per cent of construction costs are being provided by the Federal Government and the Province of B.C. The remaining costs were covered by the Victoria Regional Transit Commission.

Delivering on BC Transit's core value of safety, all new construction adhered to rigorous practices set out by the BC Building Code, helping to ensure the physical and seismic integrity of the warehouse complexes.

For more information on the Victoria Regional Transit System, please visit bctransit.com/victoria or call 250-382-6161.

Hi

Lynne sent me the update on the BCF call with this item

- June 3 - Port Hardy inaugural event - Minister Trevena no longer able to attend due to scheduling conflicts.

I think I am going but earlier with Port Hardy council. Need clarification from Fred.

Thanks

C

Hi Claire,

Quote for approval:

s.13

Here is the NR – scheduled to go out May 30.

B.C. Air Access grants help regional airports soar to new heights

VICTORIA – People travelling through B.C. will experience improved safety and convenience at more than a dozen community airports this year, thanks to the latest round of B.C. Air Access Program grants.

Benefits will range from runway resurfacing and terminal building expansions to increased medevac services, weather detection systems and fire protection upgrades. The grants are being awarded to 16 regional airports this year, for 21 different improvement projects.

s.13

The program is in its fifth year, and this year's grants total nearly \$8 million in funding. Seven of the 16 facilities will receive funding for the first time this year, and many facilities are located in remote northern communities that struggle to make needed improvements without support. Applicants are assessed on many factors, including demonstrated need, safety and travel benefits, environmental improvements, links to long-term vision and community support.

This year's recipients have planned projects that will improve airport safety, support medevac and wildfire suppression services, improve economic benefits for the communities that surround them, and reduce environmental risks and greenhouse gas emissions.

"Our airports are vital for B.C. and the people who rely on them. We are thrilled that the Province is, once again, dedicating funding to support these heavily used facilities and make improvements possible," said Heather Bell, Chair of the BC Aviation Council. "We all need to work together to ensure future infrastructure demands are covered as well as the human resources required to operate these critical facilities."

Quick Facts:

- The BC Air Access Program (BCAAP) is a cost-share program that provides funding to assist communities with improvements to their aviation infrastructure. This year, the grants total nearly \$8 million.
- The program, now in its fifth year, has committed nearly \$40 million to 57 airports around the province since 2015.
- BCAAP funding can cover up to 75 per cent of the costs for airside projects and critical infrastructure upgrades (like hazard beacons); 60 per cent of the costs are covered for transitional infrastructure (like terminal buildings or perimeter fencing); 50 per cent of the cost is covered for groundside infrastructure (such as parking lot upgrades).
- B.C. has more than 300 public airports, heliports and water aerodromes, which play a significant role in connecting communities and in supporting the B.C. economy.
- While B.C. is home to 13 per cent of Canada's population, B.C.'s airports handle 20 per cent of Canada's airport traffic and nearly a quarter of all aircraft movements (takeoffs and landings).

The full list of this year's grant recipients can be found in the following backgrounder.

Importance: High

Hi Lynne,

Please find attached the communications materials for next Wednesday’s announcement in Campbell River. The quote approval for Minister Trevena for the news release will be handed through your GCPE shop- I have listed it below if you think we can get approval in a more timely fashion. These materials are fairly final, but I do expect some changes. I am expecting updates in particular to the NR – have yet to receive approved quotes from partners, for example, and hope to have a complete package for you Friday.

We are still waiting for a guest list from our partner North Island College. Please let me know if you’d like to see the guest list prior to invitations being sent out.

As I have updates, I will send them directly to you.

Attached:

- Itinerary
- Event Plan
- News Release
- Key Messages
- Q+A
- Speaking Notes (with the following quote for approval) “Wildfires have a huge impact on our communities, and this is one way government is working to prevent and respond to natural disasters throughout B.C.,” said Trevena. “This project will also have tangible and long-term benefits for students – it opens the door to a range of other jobs doing meaningful work in the natural resources sector.” [UNAPPROVED QUOTE]

Hi Claire,
Here is what I received back from staff:

Almost all major routes have been swept, highway 4a will be swept this week.

- The specifications don't have continual routine sweeping,
- Class 1,2 highways must be swept annually by May 15th EX: (hwy 4a). Including shoulders
- All other highways, including shoulders (Urban highways) June 15th annually.
- "Urban highways" and "designated bike lanes" are swept 3 times annually.

We are looking into our share the road signs and if we need to add anymore.

Subject: Cars and Bikes

Hello Minister Trevena!

I'm contacting you regarding the fact that I have to wear a bike helmet but car drivers do not have to wear any head protection in BC. I have to wear a helmet to protect my head in case of an accident (which, I might add would almost certainly be caused by a car...) while drivers, who are far greater in number, have no requirement to protect their head even though head/brain injury caused by motor vehicle accident is super common. Information on the amount of head trauma caused while driving is widely available. Take this Forbes article about how car crashes are the leading cause of fatal head trauma among teens:

<https://www.forbes.com/sites/jimgorzalany/2012/04/02/forget-football-car-crashes-are-the-leading-cause-of-fatal-head-trauma-among-teens/#23c567bc70bd>

Or this article based on a 2006 study showing that 280000 people in the US receive a motor vehicle induced traumatic brain injury every year.

<https://www.brainandspinalcord.org/motor-vehicle-accident/>

Do you see the problem here? I have to wear a helmet to protect myself from cars, yet people driving cars don't have to wear anything even though they suffer head injuries in FAR greater numbers and are the group of people *actually causing the head injuries*.

I'd love for you to explain why this double standard exists. I think cars are one of the worst things to happen to humanity and frankly, I'm very tired of everyone else having to cater to drivers. I have to wear a helmet and cover myself in lights and orange vests so that DRIVERS can pay less attention? Don't even get me started on government subsidies to help people purchase more environmentally friendly cars while I get NOTHING for biking which produces ZERO EMISSIONS. Where is my bike subsidy for purchasing a zero emission vehicle while simultaneously reducing my burden on our ailing healthcare system?

I hope you can see your way to giving bikes the love they deserve and can work toward the slow and absolutely necessary reduction of cars in BC. Making them all wear appropriate headgear would be a great start :)

Thanks for your time,

Hi Lynne

Lovely to meet you yesterday. We will set up a meeting with Claire and Darren in the very near future but, in the meantime, here's a copy of the letter that was dropped off to the office. The deadline for submission is tomorrow. Are we ok to go ahead and submit our proposal. We are working with the Barclay Group who have done good work over the past year to work towards improving energy efficiency in Homalco. The cost of hydro is a huge issue for us.

Thanks

Hi Lynne,

Good news re Port Alice. The community is embracing this latest proposal which will result in 24/7 emergency coverage – results of community consultation. NR will follow. I'll forward a quote for MCT once I have a draft.

Cheers
kass

Looks like good news on this front and we can expect a NR from Island

- May 6: GEO 1 Executive Director met with Mayor and Council to discuss the alternate care model proposed by the mayor for a 24/7 RN on-call service. The discussion centered around exploring a seven-week in and seven-week out model, in which 2 RNs would alternate, working for seven weeks in the community and seven weeks out of the community. Island Health committed to exploring the feasibility of the option but expressed concern that we would have to displace the RN who is currently in the community and provide housing for the RNs. Island Health also committed to exploring alternative options and stressed that our goal is to create a sustainable and reliable model of care in Port Alice.
- Island Health GEO 1 Executive Director and Director will meet with the Mayor on May 8 to discuss further.

Subject: Fw: Meeting request from BC's Credit Unions
Attachments: 2019_BCAdvocacyDay_Reception_eInvite(600x200).png; 05-14-19-BCAD_Claire Trevena.pdf

Dear Minister Trevena,

My name is Morgan Paulgaard, from the Canadian Credit Union Association (CCUA), an organization that represents Canada's credit unions outside of Quebec.

As you may be aware, the sector in B.C. includes 42 institutions in 379 locations across the province, with more than 8,600 employees. Credit unions are focused on local communities across the Province where every customer is also a member and owner. In the province, approximately 40 per cent of British Columbians are credit union member-owners; furthermore, credit unions not only hold deep member and community relationships but can also recognize unique opportunities to invest and create meaningful local economic impact.

I am hoping a small group of our credit union advocates can find a time to briefly meet with you on May 29 to highlight the work our sector doing in the province. We hope you will find a meeting to be beneficial to your work.

Attached is a copy of our original request, including a reception invitation for May 28.

Please let me know if we can schedule a time to meet.

Thank you,

Morgan Paulgaard

Dear Minister Trevena,

I am looking to follow up on our request sent to you on May 14.

We would be delighted for you to meet a small group of credit union advocates on May 29. Please let me know if you are available.

Further, we are pleased to invite you to our reception at The Union Club of British Columbia on May 28. Please see attached for our invitation banner.

Date: Tuesday, May 28

Time: 6:00 p.m. - 8:00 p.m.

Location: The Union Club of British Columbia, 805 Gordon St.

Appetizers and refreshments will be available.

Please note that we encourage MLAs and staff to please RSVP by the 22nd, so we can make name tags available.

Dear Minister Trevena,

I wanted to follow up from our meeting last fall, October 29 when Rob Ublexis, local timber harvesting contractor and myself met with you regarding a management strategy for the North Road near Fort St. James.

I am curious to know what has developed from the meeting? You had mentioned creating a potential task force or local user team to help in guiding the annual budget for this gravel highway. Local users are concerned for their safety and lives. It is their hope that greater investment and management of the North Road would address their concerns.

From: s.22
Sent: May 22, 2019 8:17 PM
To: Trevena.MLA, Claire
Subject: PST on ebikes

Dear Ms. Trevena,

I was at my local bike shop today to enquire about purchasing an ebike and was surprised to find out that they are not PST exempt. Why is this the case? My purpose in purchasing an ebike is to ride more and drive my car less. In this way I will be lessening my carbon footprint. It seems to me that ebikes get more people out of cars and onto bikes and, however small it might be, this lessens each person's carbon emissions. This is something, I would think, that should be incentivized and encouraged.

I am respectfully asking that you use whatever influence you might have to have ebikes made PST exempt just as non-ebikes are.

Thank you sincerely,

s.22

Tel: 778.782.6691
Fax: 778.782.5297

My name is Isamara Vasconcelos. I got your name from the **Ministry of Transportation and Infrastructure** web page. I am a visiting PhD student at Simon Fraser University from Brazil, and I am conducting research about *Uber* in the city of Vancouver, under the supervision of Professor Peter Hall, from Urban Studies Program.

The title of my research project is "*Interest representation on individual passenger transportation services by ridesharing applications: a study about adoption and resistance to Uber in Vancouver, Canada*". This study aims to explore the narratives from the groups and actors directly involved in the debate about the adoption and resistance to transportation services by ridesharing applications, such as *Uber*, in the city of Vancouver.

For this study, we are going to interview the main actors who have taken part in the public debate of the ridesharing in Vancouver. Considering your recent participation in the public debate, we would like to count with your participation on this research. The purpose of the interview is to understand your opinion and perspective regarding the current resistance to the adoption of passenger transport services by ridesharing applications such as *Uber* in Vancouver. This city is one of the largest in North America where Uber has not received authorization to operate by the relevant government.

Would you be willing to meet with me in order to conduct this interview? The interview would include a standard set of five main questions and would last around 60 minutes. Your participation will be strictly confidential. I will not share your identity or anything we discuss with anyone except my seminar instructor without your permission.

If you agree, before the interview I will be happy to send you a consent form to look over if you would like to know details about this research study. The consent form is a document that tells you what your rights are as a participant, what the study is about, and the risks and benefits of participating.

Given that, can we schedule a place and time? If possible, I can meet you whenever is better for you, please just respond with a place and time that you would like to meet. If you have any questions or concerns about this request or the interview, feel free to contact me at s.22 (local number) and or also Dr. Peter Hall at pvhall@sfu.ca.

Best regards,

Illecillewaet four-laning project employing Revelstokians

Revelstoke Review
Tuesday, May 14, 2019

By Jocelyn Doll

The Illecillewaet Four-Laning Project is scheduled to begin in the next few weeks and BC Infrastructure Benefits, the employer on the project, is currently reviewing job applicants.

Since they launched the website in mid-April the crown agency has received 190 applications, said Geoffrey Nutter, communications coordinator. Of those 60 per cent were from the Revelstoke and Golden area.

The project will provide employment and training opportunities for Indigenous people, women and apprentices as well as local residents, as part of the Community Benefits Agreement.

According to Danielle Pope, media relations for the **Ministry of Transportation** and Infrastructure, the applicant list is 20 per cent women and 10 per cent self-declared Indigenous.

The wages for the project are outlined in the agreement and range from \$14.60 per hour for certain pre-apprentice jobs to \$52.31 per hour for the general foreman electrician.

The tender went out for the project in February and is scheduled to be awarded soon, Nutter said that once it is awarded more details on the project will be available.

Ec Dev Eye

APRIL 2019

Ministry of
Jobs and
Economic
Development

Taking a Look at Ec Dev in B.C.

One of our aims at the ministry of Jobs, Trade and Technology is to ensure we are reaching people, businesses and community in all of the province's economic development regions – providing them with tools, resources and programs to realize their economic development potential.

This month we announced the expansion of the popular [Export Navigator](#) program, with support from Western Economic Diversification Canada, to help more rural business owners in B.C. get their goods to international and interprovincial markets. Now, the program will be available to support for businesses owned by Indigenous peoples, women and youth.

We also have teams travelling throughout B.C. connecting with Indigenous leaders in the Okanagan to better understand current challenges and visiting local government officials at UBCM area association meetings, ensuring we meet the people representing our regions to better understand what they need to grow their local economies.

Get Insights into Immigration with the new Provincial Nominee Program Newsletter

The [BC Provincial Nominee Program](#) (BC PNP) have launched a new communication tool, the [Immigration Insights newsletter](#), to provide in-depth information about the BC PNP and other immigration programs to B.C. employers, associations, third-party representatives and development staff on a quarterly basis. The goal is to provide readers with beneficial content and actionable takeaways that will help stakeholders and communities. Readers can also choose to receive program news and announcements, and notifications of upcoming events.

[Sign up](#) to get the next newsletter delivered to your inbox!

Successful Mission to Japan and Korea

Minister of Jobs, Trade and Technology Bruce Ralston and Minister of State for Trade George Chow undertook a successful trip March 16-22, 2019, aimed at strengthening trade and investment ties and expanding economic opportunities for people in B.C.

Mission activities focused on promoting new trade opportunities in Japan under the [Comprehensive and Progressive Agreement for Economic Partnership](#) (CPTPP) and in Korea through the [Canada-Korea Free Trade Agreement](#) (CKFTA).

The official delegation undertook 32 engagements (meetings, events, and site visits), interacting with approximately 276 unique Ministers' visit included a series of meetings with government officials and industry representatives to showcase B.C.'s potential in technology, digital media, information and communications technology, agrifoods and tourism.

Seafood Expo North America

The Ministry organized and delivered a trade program at [Seafood Expo North America](#) (SENA), North America's largest seafood trade show in Boston. The team brought 18 co-exhibiting companies to the B.C. pavilion. Seven company attendees and seven stand-alone exhibitors participated jointly in programs.

While the program was led by JTT Ministry staff and US Trade and Investment Representatives, the B.C. Minister of Agriculture and Food, Deputy Minister Wes Shoemaker attended SENA in support of the trade initiative and B.C. companies present. B.C. co-exhibitors included at the show, and we expect that number to increase to \$13.9 M over the next 6-9 months.

Okanagan Indigenous Outreach

This past month, the Ministry developed a comprehensive outreach to First Nation communities in the Okanagan to understand their potential and areas for development with local First Nation bands, businesses, and economic development offices.

The Ministry also conducted outreach programs to the [Osoyoos Indian Band](#), [Penticton Indian Band](#), [Westbank First Nation](#), and others, with identified areas of interest for business development, such as land development for agriculture, tourism, and industrial development. This program, specific trade development potential was identified in tourism and inland fisheries.

Natural Products Expo West in Anaheim, California

The Ministry organized and delivered a trade show presence with eight B.C. company co-exhibitors at [Natural Products Expo West](#), the largest trade show and conference for natural, organic and healthy products last month. This show was well-attended, with an indication that the B.C. companies who participated are anticipating sales of \$2,000,000 as a result.

JTT In the News

B.C. Economic Development Indicators

British Columbia's **consumer price index** (CPI) was 2.6% higher (unadjusted) in March 2019 than in 2018. On a monthly basis, the rate of inflation rose 0.7% from February 2019. Consumer prices rose (+2.5%) and Victoria (+2.7%) in March compared to the same month of 2018. Canada's CPI was up 1.3% in March. The rate of inflation in British Columbia (+2.6%), Manitoba (+2.3%), and Alberta (+2.3%) were also positive.

[Read more >>](#)

The value of Canada's **timber, energy, and mineral resource assets** nearly doubled (+91.7%) in 2018. The increase was due to climbing prices for oil and minerals, and marks a substantial recovery. The value of the nation's natural resources declined in 2017.

[Read more >>](#)

The **unemployment rate** in British Columbia was **4.7%** in March, up 0.2 percentage points from February 2019. The rate was 4.5% in March 2018, up 0.2 percentage points from 12 months ago. Both the **labour force** (+12,300) and the **number of jobs** (+12,300) increased in March.

Subject: Phone calendar not syncing

Hello Minister,

Leah said that you were having some issues with you phone, and from her understanding it was with you calendar. I tried giving you a call, but it looks like your busy so I've written out the few steps that should fix the issue. Please call me if it's a different issue, or need anything.

- Open calendar
- select calendar at the bottom
- check which calendar is unable to sync (exchange active sync/gov mail) or (bcgov second mailbox/mincal)
- open setting
- scroll down to and select passwords & accounts
- select the account with the calendar that's not syncing
- turn the calendar off
- tap delete from my iPhone
- turn the calendar back on
- open the calendar app
- select calendar at the bottom
- pull down on the screen to refresh the calendar
- tap done
- wait 30-60 seconds while the calendar loads back onto the device from the server

Subject: Re: 285828 Meeting Request - FW: Introduction

I'm not sure what/who YES VANCOUVER is. Klemtu is indeed an isolated community on the central coast. I'm unaware what/ if any specific ask is.

There are a plethora of challenges for the community - accessing fresh, healthy food being one of them.

They faced serious water shortages last year and the band had to order in bottles of water for drinking and had to hand deliver buckets of grey water for people to flush their toilets. It was a serious and rough go of things. Hard to believe there are droughts in the rainforest but that's a real infrastructure challenge they face.

Jen

Subject: Statement re: Massey

Hello Minister,

We have a number of requests on the Massey today, in relation to Premier's comments, the birthday party protest, and government's work to find a long-term solution. Sage and Issues have approved this version. Are you ok with this as a Ministry statement?

Response:

s.13

Background:

Last week an RFP was posted on BC Bid for a technical team to complete engineering work on the viable options. We expect this work will be completed by the end of November this year. We remain on track to have a business case for the expanded crossing by fall 2020, which will detail costs to inform the Treasury Board process and allow for potential federal funding.

Subject: Calendar Syncing Issues

Hi All,

s.22 wanted all to be aware that IT is still working on the calendar syncing issues that have been ongoing the past few weeks. They have advised that the account is somehow locking itself out intermittently. In the mean time they have advised that you may have to enter the MIN CAL password when prompted on iPhone, iPad, or laptop, which seems to fix the issue for a short time. The password is below for your information:

s.15

As always, I'm here to continue to assist until EOD Friday and then Charly will take over liaising with PREM Tech.

Hope that helps for now!

Leah

Subject: FW: Campbell River Fire Department has contained brush fire, no current risk to homes - NEWS RELEASE & MAP

FYI

May 23, 2019

Campbell River Fire Department has contained brush fire, no current risk to homes

Campbell River and Oyster River firefighters along with members of the Coastal Wildfire team are working to fully extinguish a brush fire that has been contained west of the Beaver Lodge Lands near Campbell River.

"At this time there is no risk to residents or any businesses in the area," says Stephanie Bremer, fire administrative manager with the City of Campbell River Fire Department. *"The fire beyond the hydro transmission lines has been contained and is being held."*

Access to the fire was complicated due to its proximity to BC Hydro transmission lines. Fire crews are currently waiting for B.C. Hydro to ground power lines to provide access to other parts of the fire.

"Some pockets continue to smoulder and we anticipate it will take at least the rest of today to ensure this fire is fully extinguished," Bremer adds.

The fire is approximately one hectare and was first reported around 8:45 p.m. May 23. The cause of the fire has not been determined.

"The fire was between one and two hectares in size when first reported, and it was initially visible from the Merecroft and Dogwood area," Bremer adds.

The closest business is 1.6 km away and closest residential property is approximately 2.5 km away. No evacuation is anticipated.

The City of Campbell River currently has 16 firefighters at the scene, with another team of seven Coastal Wildfire members and two firefighters from the Oyster River Fire Department to assist.

Subject: Re: Twinning of Massey Tunnel

Dear Ms. Trevena-

I was greatly heartened by a news missive I read on the CBC website this morning, with regards to the Fraser River crossing in south Richmond. The rough proposal, as was reported, entailed ~ 6 lanes for vehicular traffic, at least 2 for public transit, and (hopefully) ample space to allow for high speed rail. This is one of the most reasonable and forward thinking proposals I have heard, one that will garner a fair bit of public support, and give us better options for the movement of people and goods for a goodly amount of time in the future. It is such a far more sensible option than the FOUL proposal of a 10 lane bridge, previously proposed by the former (G)liberal government, and I do hope you proceed in a relatively speedy fashion to draw upon the current consensus of local Mayors, and for the options of funding at all sources, especially Federal.

Yours truly,
s.22

Subject: Quadra Island: Green Road Repairs

Hi Lynne,

On May 16th I met with Robert Duncan (CAO We Wai Kai Nation). We discussed repairs on We Wai Road and Green Road. Robert indicated the Bands priority was to complete surface repairs on Green Road and remove hazard trees. We Wai Road is still a priority but the Band has a waterline that needs to be further investigated (repaired/removed) prior to ministry works, we have shared our technical memorandum with Robert for consideration.

s.13; s.16

s.13; s.16. The attached map indicates the project zone with the worst areas outlined in red. However the whole project zone has areas that will require work. The highlighted areas on the map are where the more major works will be completed. The photos don't particularly show it but the depressions in the worst spots drop about 4-5 inches from the center road grade.

Please let me know, if you have any questions or concerns.

Thank you

Alycia

Subject: S.F.U. Gondola plans

Dear Minister Trevena,

I just read the report that Burnaby Council has given approval in principle of the building of a Gondola up to S.F.U. I am elated at the news, and it is my hope that the citizens in the vicinity will give their approval to the proposed project. It was mentioned that due to the cost of the project, it would need support from other levels of government, and I do hope that British Columbia will support this wonderful plan. The federal government of Canada has allocated funds for senior citizens' transportation in the past, (see: Executive Director Stephen D'Souza) and I believe there should also be federal funds available for students' transportation. s.22 the large wave of university students who are supporting and very much needing this form of access to the university. It would eliminate the polluting diesel fueled buses to SFU (ending their ghastly pollution and cost, as well as their lack of service during hazardous weather conditions) - and it could also - this gondola - serve as a tourist attraction and highlight the beauty of the SFU and Burnaby Mountain experience. I do hope that your department will encourage the provincial government's support of this Burnaby transportation endeavor. Also, could you please forward me a link to the BC transportation conference you mentioned in the last email I received from you? Thanks so very much. I really appreciate the sincerity and commitment of you and your staff to making transportation in our province such a progressive endowment.

All the best,

s.22

Subject: RE: Transportation of War Canoes

Good afternoon Grant,

It has been a long time and I wondered if you continued to hold the post as Deputy Minister of Transportation and Infrastructure.

This past weekend, the Seabird Island Indian Band hosted war canoe races, soccer tournament and many other events. These weekend gatherings begin in May and run through the summer. Coast Salish communities host these gatherings. Our families travel from race to race throughout Coast Salish territory on both sides of the Canada-USA border.

A Tribal Policeman, employed by the Nooksack Tribe in Washington State was travelling from Nooksack to Seabird Island. A police constable pulled him over. The end result was that the Nooksack tribal member returned home that evening and thus was not able to participate in the canoe races on Saturday. As news of this matter was shared amongst the Coast Salish families at Seabird – our leaders became concerned.

I raised this matter with Supt. Bryon Massie earlier today. We were advised that the Motor Vehicle Branch Weigh Station can issue the required permits by phone. These officials confirmed that they can and will email the completed permits to those drivers with a cell phone. The electronic copy of the permit kept on a smart phone meets the requirements of carrying the permit.

During our leadership discussion, none of the Chiefs, Councillors or leaders were aware of the requirement for a permit. We heard from Supt. Massie that no RCMP officer has taken enforcement action similar to that of the overly keen Abbotsford Police Officer. Supt. Massie shared concerns about insurance coverage in the event of an incident (accident) involving a truck carrying war canoes without the required permit.

Our leadership is deeply troubled that the BC Government made no effort to inform the Coast Salish communities about a requirement to secure permits. The BC government did not engage our leaders and families to develop regulations jointly to address and resolve safety concerns. Our leadership is deeply troubled about the enforcement action taken without engaging our leadership and families that participate in these activities through the spring and summer seasons annually for these many decades.

We note that the Premier John Horgan government speaks to the United Nations Declaration of Rights of Indigenous Peoples. This matter is important to our leadership and our families. We look forward to a prompt reply to this issue and our request for a meeting with Coast Salish leaders on this matter.

Sgt Wiebe

Thank you for looking into this incident, and for the thorough report from s.22

I believe there is an opportunity to do some awareness training with RCMP and APD, as well as an opportunity to make Canoe Clubs more aware of transporting canoes in a safer manner.

We've been racing and transporting these canoes for at least 70 years, some water festivals are at 127 years.

The race canoe sizes will not change much, the way canoes are transported on top of trucks will not change much. Encouraging pilot cars and some better or safer practices is a good idea.

Hopefully you are open to meeting to discuss these issues.

Chief CHARLIE,

I spoke to s.22 who dealt with this matter. He has provided me with a response as well as some materials from the BC Motor Vehicle Act and the BC Commercial Vehicle Safety Enforcement Branch to help ensure that these circumstances are avoided in the future.

Ultimately it would appear that there are remedies for this situation and on the date of the traffic stop s.22 was acting within his duties under the BC Motor Vehicle Act.

Please let me know if you have any questions or concerns.

Regards,

Colin

Commercial Transport Procedures Manual

3.2.1.C. Specially Authorized Vehicles

Oversize and overload authorization forms (CVSE1022) will be used in lieu of a permit for the following vehicles with or without load:

- Indian War Canoes
- Parade Floats
- Vehicles used for exhibition purposes at fairs and exhibitions
- Other such vehicles as may be authorized by the Ministry through our Victoria office

i) Authority

These authorizations are issued pursuant to Divisions 7.02(1) of the Commercial Transport Act Regulations and no fee is to be charged.

ii) Limitations

These authorizations can be issued to existing policy limits. Any requests to exceed policy limits must be directed to the Commercial Transport Department at CVSE Head Office in Victoria.

iii) Guidelines

- a) CVSE1022 must be completed and carried in the vehicle at all times—must be able to be presented to a peace officer upon request,
- b) Include return trip, if applicable, on CVSE1022, and
- c) Pilot car requirements are applicable

iv) Issuance

CVSE1022 authorizations can be obtained by calling the PPC at 1-800-559-9688. Once completed, the authorization will then be faxed or emailed to the applicant.

Pilot Cars are required when:

Additional Pilot Car Requirements for Front or Rear Projection: (CVSE1000)

- If you are using an allowance for front projection beyond 3 m of the kingpin or beyond 6.5 m measured forward of the turn center of the front steering axle group, a minimum of one pilot car is required (unless otherwise provided for by commodity or vehicle policy).
- If you are using an allowance for rear projection beyond 6.5 m from the turn center of the rear-most axle group, a minimum of one pilot car is required (unless otherwise provided for by commodity or vehicle policy).
- A minimum of two pilot cars will be required if the load exceeds 3.8 m in width and the front projection is in excess of 3 m and/or the rear projection is in excess of 6.5 m.

International Longshore and
Warehouse Union Canada
FOR IMMEDIATE RELEASE

Thursday May 30, 2019 10:30 a.m.

Tentative agreement reached for new contract between International Longshore and Warehouse Union Canada and BC Maritime Employers Association; employer lockout to be lifted at BC ports
VANCOUVER – A tentative agreement has been reached this morning after all-night negotiations between the International Longshore and Warehouse Union Canada and the BC Maritime Employers Association, representing BC port employers.
The BCMEA is lifting immediately a lockout of ILWU members imposed at 8 a.m. Thursday. ILWU has withdrawn its strike notice as well.

ILWU Canada President Rob Ashton said the tentative agreement was reached with the assistance of federal Labour Minister Patty Hajdu, Kathy Peters, Regional Director of the Federal Mediation and Conciliation Service and Peter Simpson the FMCS Director General, all of whom he thanked for their efforts.

No details of the tentative agreement will be released pending ratification votes by ILWU members. The union went through 18 months of negotiations to renew the industry collective agreement that expired March 31, 2018. ILWU Canada members voted 98.4% in favour of a strike if necessary earlier this month.

For more information: Robert Ashton, President of ILWU Canada at 604-254-8141 or cell 604-862-8141 or Bill Tieleman, West Star Communications, cell 778-896-0964 or Jim Thompson in Ottawa 1-613-447-9592

Hi Claire,
Just following up on this.
What did you have in mind. Students pitch their idea to you, the Active Transp. Team or ministry staff?
Thanks
Lynne

“... As you may have heard, the winning team was Mr. Bagley’s Bagels. You may remember that team proposed a bike-share program as an environmentally-friendly transportation solution for youth and included 3-D designs for bike racks that would eventually accommodate e-bikes.

The team members included: Colby Ernst, Scott Henry, Franco Pellegrin and Riley Teramura.

Minister Trevena mentioned that this team may want to pitch their idea to the provincial government so I thought I’d reach out to you to see if there is a way I can connect these youth with the Minister.

We were thrilled with the caliber of projects created at this first hackathon and are already planning next year’s youth event. Again, thank you for your interest. It was very much appreciated by us and the youth.

Hey Lynne

Can you find out from Bowinn's staff why she is coming to CR? I'll also chat with her and we can triangulate.
Also her north shore planning conversation can happen around a caucus meeting.

Have a lovely weekend.

Subject: 4 Regional NRs - BikeBC Grants- for Minister & MLA QUOTE approvals

Hi to MO – here are the 4 regional NRs for BikeBC grants – written by Sukhi Tomana. They all contain the same quote for the Minister...over to you for approval. Also we have put in some placeholder quotes for the MLAs – you will have to tell us which MLAs to plug in – and they are welcome to re-write/ customize their quotes as they like. The editors are asking for 2 business days notice on multiple regional NRs now, so, if we want these to go out Wednesday AM we will need them returned to us by Monday. If you need extra time just let us know and we can push these to go out Thursday instead. Thanks!

Draft Minister quote...

Subject: Bus pass KM
Attachments: IN_Bus Passes Deactivated MAY2019.docx

Importance: High

SUMMARY

Approximately 1,300 BC Bus Pass program card holders, most in the Lower Mainland, have had their Compass Cards deactivated. The issue began on 11 PM on May 4, 2019, during technical maintenance on a Ministry computer system.

Statement from Shane Simpson, Minister of Social Development and Poverty Reduction:

“There was a system error over the weekend that affected a small percentage of BC bus pass holders and the ministry moved quickly to ensure uninterrupted access to transit.

“We are working with TransLink to issue new Compass Cards to everyone affected. In the interim we have taken a number of steps to ensure people have access to transit. Ministry staff have been calling everyone affected and providing them with options. People can go to the TransLink Customer Centre at 590 Beatty Street, show ID, and get a temporary card or we will send a temporary Compass Card to them by courier. People can also call the Ministry toll free line or go to an office to discuss available options.”

On background:

- 1290 BC Bus Pass Program pass holders (approximately 1% of total program participants) have been affected.
- The BC Bus Pass Program is available to low-income seniors and Persons with Disabilities.
- TransLink has also advised that bus drivers and transit staff/police at the skytrain/sea bus will let people on the bus for the next few days without having to tap their card.

Hello Minister Trevena,
It was a pleasure to meet you during the discussion on ridesharing, and thank you for the card, that was very thoughtful.
Further to my comment regarding Klemtu, I wish to introduce you to Operations Manager for the Kitasoo band, Isaiah Robinson.
It would be wonderful to arrange a sit down at your convenience to discuss the isolation of this community, and how perhaps the province can/is working to resolve this situation.
Please let me know if we can put something on the calendar.
Warmly
Kerry and Isaiah

Subject: BC Ferries Weekly Call Summary

BC Ferries Weekly Call – Summary

- FYI - Spirit of British Columbia – BC Ferries says this will be back in service by May 15th - next Wednesday – in time for the May long weekend.
- Monday, May 13th – BC Ferries NR – extra sailings for the May long weekend - will include additional tips on how avoid delays and congestion at terminals.
- BC Ferries pilot of beer & wine –BC Ferries is waiting for approvals / licencing. Once the start date is selected, BC Ferries will issue a NR on this – probably in late May.
- Update on Langdale incident re: Queen of Surrey (ferry hitting dock) - the investigation into the incident is ongoing, no word yet on cause. The vessel is back in service.
- May 7– BC Ferries NR – NR was released earlier this week - starting the sunrise/ sunset discounts for passengers (off peak times) starting on the May Long Weekend (popular program and it helps reduce queues on the prime sailing times) – these discounts will run through to Sept.
- May 13th – Ferry Advisory Meetings start and run for about 6 weeks - (13 meetings)
- FYI - Northern Sea Wolf update – sea trials are going very well. Informal open houses were well attended. Vessel goes into service on May 18 – (indirect route – replacing the Nimpkish) then the regular summer service begins (Route 28) on June 3.
- June 1 – 10 AM - Event and NR - BC Ferries & FN celebration/ blessing – 3 new totem poles on Quadra Island – We Wai Kai Nation – Minister Trevena attending (2 minutes of SN)
- June 2 - Bella Coola Northern Sea Wolf inaugural event – MLA Jennifer Rice attending (2 min of SN);
- June 3 - Port Hardy inaugural event - Minister Trevena no longer able to attend due to scheduling conflicts.
- Mark Collins speaking at Port Hardy Chamber of Commerce. Speech will focus on environment, Northern Sea Wolf.

Dear Mr. Horgan. I was initially very pleased to hear that something was finally going to be done about aggressive driving and speeding. That was short lived. Last week I'm sure I saw Mike Farnsworth on the T.V. assuring motorists they had nothing to worry about as long as they were doing less than 30 kmh OVER the speed limit. Come on! If you REALLY want to make the roads safer this has to be some kind of a joke. Let's put some "teeth" in it. 30 kmh over is just plain ridiculous. If you REALLY want to get tough, issue a warning at 5 kmh. over the speed limit and fines and demerit points starting at 10 kmh. over the speed limit. Too many people are needlessly dying on our roads because no one seems to have the gumption to do anything about it. Thanking you kindly, s.22

Subject: Lifting the Evacuation Order

Hi All,

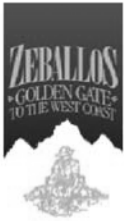

Thank you for returning your responses to me so quickly. Your input was needed to help us help you return to your homes. Here is a summary of what we've heard:

- Some are willing and able to move back to their homes immediately, or in the near future.
- Some do not plan to return, pending the completion of future mitigation.
- Some noted that their property suffered damage from vacancy that would need to be remedied before they could return.
- Some would like to, or at least would consider moving their home to a new lot.

As it stands today, Emergency Management BC has stated that they will not approve extensions of the State of Local Emergency or ESS support beyond May 31st. This revokes the authority of the Village to keep an Evacuation Order in effect. As such, **the Evacuation Order will be lifted, effective at midnight (12:00am) on June 1st.**

For those of you that do not plan to return to your home under current conditions, please let me know how we can support you as the Order is removed. For instance, consider the following:

1. If your home sustained damage during the Evacuation Order, resources *may* be available for clean-up and repairs. To be considered for this support, please assess your need and let me know (in as much detail as possible!) what you would need to bring your property back to move-in condition:
 - a. Materials
 - b. Technical assistance/labour
 - c. Any unique circumstances or considerations (that you know of)

2. If you are interested in moving your home, please let me know:
 - a. If you have another lot to move your home to
 - b. A quote for the moving expense (if you have one)
 - c. Dimensions of your home
 - d. Special considerations that may make moving your home easy or hard (if you are aware of any)
3. If you are not planning to return home and are currently supported by ESS housing allowance, please let me know what support you would need to transition to new housing.

s.13

As always, all evacuees are blind copied on this email.

Thanks,
Meredith

Hi Lynne,

Here are the items that Tahsis Council (so far) as said they would like to canvas with Minister Trevena (as Minister and MLA) on May 21st.

- Head Bay Forest Service Road – paving and signage (for safety)
- Health Care and seniors' issues
- Protection of the McKelvie Creek watershed
- Tahsis municipal wharf (the wharf is at the end of its functional life)
- Community forest
- Economic development – fish farming
- Last mile connectivity
- Regional plan for accessible transportation to and from Campbell River

Subject: Re: Tunnel vs Bridge & other

I have attached a letter I composed outlining my thoughts regarding the Tunnel vs Bridge on Highway 99 and a few other thoughts regarding transit in the Lower Mainland.

Please consider my suggestions, although I am not under the impression that they will all be implemented I think they should be investigated.

I would appreciate a response sometime as to your thoughts on these ideas. Living in Abbotsford and still wishing to drive to cities in the Metro area on occasion to shop or visit family it has become increasingly ugly. These suggestions are in addition to the widening of Highway 1. However I believe better transit should be the goal.

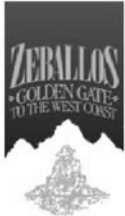

I look forward to hearing from you with your insight to my suggestions.

Thank you

Subject: UPDATE re: Evacuation Order in Zeballos

Hi All,

At tonight's Special Meeting of Council, Council passed a resolution (attached) to maintain the Evacuation Order on the following properties only:

1. 102,104,106 Maquinna Avenue
2. 206 Pandora Crescent
3. 402 B Ferris Road
4. 404 Ferris Road
5. 406 Ferris Road

The Evacuation Order will be lifted for all properties not listed above, effective Thursday, May 2nd at midnight (12:00am).

Council will continue to coordinate with Emergency Management BC and others on a resolution to the remaining Evacuation Order and on mitigation.

Please be in touch if you have any questions or comments.

Thanks,

Meredith Starkey

Cc: Wolfe, Seamus AEST:EX <Seamus.Wolfe@gov.bc.ca>
Subject: Wildfire Announcement

Hi Lynne & Andrea,

Thanks for your patience for helping get this all together. I am working with my comms shop to get all the materials ready.

The dates of the announcements are:

- Campbell River with MLA Trevena May 22 @ 1-2 p.m @North Island College
- Port Alberni with MLA Fraser May 24 @ 9-9:45 a.m. @ North Island College

For your information and planning, I have attached the draft EPs for each announcement- as details are more firmed up in the next 24 hours, I will send over more details.

North Island college will be the on-site contacts and lead on this announcement. We will not have any GCPE or AEST program staff on hand. If each Minister would like a technical briefing, I can help arrange that with our Ministry staff.

Here are the materials that will be coming your way over the next week (I will do my best to send them over all at once)

- Itinerary
- Parking Maps & Passes
- Speaking Notes
- Key Messages & Backgrounder on the Workforce Development Agreement and the stream of funding this program is under
- General Q&A
- North Island College Institutional Profile
- Draft social media posts
- AEST specific issues scan (for media)
- News Release (with a request for quote approval)

- Guest List (which will be approved by AEST MO, with input from your offices)

Please don't hesitate to get in touch if there are any concerns or questions.

Thanks!

Michael Snoddon

Our government is committed to public transit so people get where they need to go - safely and affordably," said Claire Trevena, B.C. Minister of Transportation and Infrastructure. "Through our investment in these buses, we are helping to provide automotive and heavy mechanical students hands-on learning. Thank you to BC Transit and the College of New Caledonia for making this happen."

Subject: For Minister Trevena QUOTE approval - College of New Caledonia (CNC) Release - Bus Donation - also event planned

Hi to MO – Here is an upcoming third party news release from the College of New Caledonia (CNC) about a bus donation.

They have offered quotes to us (TRAN) as well as BC Transit.

Our suggested quote for the Minister below, written by Peggy:

s.13

Here is the draft news release from CNC (below).

FYI they are also planning an event on this item – with their President, Dean of Trades, and a heavy mechanical instructor or student. It will be followed by a lunch.

The date proposed is:

***Thursday, May 30 - 10:30 am**

Would Minister Trevena or a govt MLA like to attend this?

Please advise – thanks!

Donated buses benefit CNC Heavy Mechanical students

PRINCE GEORGE – A pair of donated buses are opening valuable training opportunities for students in the College of New Caledonia's (CNC) Heavy Mechanical Trades program.

The buses were donated by Pacific Western Transit and BC Transit with the Ministry of Transportation and Infrastructure and the City of Prince George as funding partners.

INSERT MINISTRY QUOTE

INSERT information about why PW Transit wanted to donate a bus

INSERT PW TRANSIT QUOTE

BC Transit saw great value in partnering with CNC to provide students with early exposure to the inner workings of public transit vehicles. Often, automotive and heavy mechanical students don't get exposure to a transit bus until they are employed by a place such as BC Transit, or one of its operating partners, as an apprentice, utility person, technician, body person or mechanic.

"An important component of the transit service is ensuring the buses are ready for service, and our team of mechanics across the province work hard every day to achieve that goal," said Erinn Pinkerton, BC Transit President and Chief Executive Officer. "Having an intact bus available for students to work on provides them with a unique learning opportunity about how components, parts, and circuits are arranged on a transit bus and hopefully sparks an interest in pursuing a career with transit."

INSERT CITY OF PRINCE GEORGE QUOTE

The donated buses compliment the commercial transport component of CNC's Heavy Mechanical Trades program. Though its curriculum teaches about working on buses, CNC did not have one for students to get hands-on experience of such concepts taught in the classroom.

"We are grateful to have support from partners who believe in advancing training opportunities at CNC," said Frank Rossi, CNC Dean of the School of Trades and Technologies. "This donation will help students with an interest in commercial transport to align their knowledge to industry needs."

Subject: Guiding Our Future Mentorship Program

Dear Ms. Trevena,

Hi there! My name is Isabella Fiore, and I am the director of Feminist Future. We are sub-organization of Being Our Future, which is a company that works towards supporting youth who are making a difference in their communities. I would like to ask you to become a part of our mentorship program, Guiding Our Future, featuring successful women and youth.

In this program, you will be matched with a youth who shares similar interests to you. Guiding Our Future will connect the two of you together through our website. After this point, yourself and the youth will decide how you would like the mentorship program to operate. You may like to meet once a month over Skype, or perhaps you would choose to text weekly. It is completely up to you. Guiding Our Future is here to connect and

support, but ultimately you and your youth work together to develop a relationship that works well for both of you.

Out of the hundreds of thousands of women in Canada, we decided to choose you because you are an incredible person. The work you have done to advance women in leadership roles has opened the doors for many women after you to become successful in a previously male-dominated space. Thank you endlessly for all that you've done!

Thank you again for your consideration, and I hope to hear back from you shortly!

Isabella Fiore

Director of Feminist Future

Subject: Invitation for Friday May 10 to attend investment announcement by Global Container Terminals

Dear Minister Trevena,

On behalf of GCT Global Container Terminals Inc., we would be honoured if you would join Doron Grosman, President & CEO as he announces a \$160 M investment to densify and modernize its operations at GCT Vanterm. This investment will create 1,186 new direct and indirect jobs and generating \$77M in wages and \$187M in GDP per year. The \$160 million Vanterm upgrade will increase container handling capacity 25% (220,000 TEUs) and allow it to handle larger container ships within its existing footprint while reducing emissions by 55%. This announcement demonstrates continued investments in the Western Trade Corridors which will support high paying port jobs in British Columbia.

Date: Friday, May 10, 2019

Time: 9:00 AM - 9:30 AM

Location: Sheraton Vancouver Wall Centre, 1088 Burrard St, Vancouver, BC V6Z 2R9 (Port McNeill Room)

Thank you very much for your consideration and we hope you can join us for this historic investment announcement in our BC economy.

If you have any questions, please feel free to contact me directly at the number below or Nicole Brassard at 604-240-5788.

Hi Claire,
Here is what I received back from staff:

Almost all major routes have been swept, highway 4a will be swept this week.

- The specifications don't have continual routine sweeping,
- Class 1,2 highways must be swept annually by May 15th EX: (hwy 4a). Including shoulders
- All other highways, including shoulders (Urban highways) June 15th annually.
- "Urban highways" and "designated bike lanes" are swept 3 times annually.

We are looking into our share the road signs and if we need to add anymore.
