Subject: Re: Vesuvius Ferry Terminal

Hello s.22

Thank you for your email. I appreciate your patience as the BC Ferries works to address this challenging situation at Vesuvius.

You have highlighted some very important aspects to helping lighten the load on the neighbourhood in the meantime that need to be looked at seriously.

1. Impact on the road infrastructure of having cars backed up.
2. Lack of washroom infrastructure to service BC Ferries clients
3. Increased cost to your business to supply consumables to fill the gap
4. Lack of garbage collection facilities
5. Potential to run a shuttle service instead of a scheduled service.

I am very interested in hearing a response from BC Ferries on these very reasonable requests for responses and the unreasonable impacts this is having on your business.

Ryan – please forward this to our contact at BC Ferries to expedite a response. I think addressing these issue will go a long way to improve the relationships with ferry users at Vesuvius.

s.22 – we will be in touch as soon as we get a response from Ferries.

Sincerely,

Adam Olsen, MLA
Saanich North and the Islands

Subject: Vesuvius Ferry Terminal

Hello,

I am writing you to express my frustration over some issues at the Vesuvius ferry terminal. I have written to BC ferries and been told to expect a response in 5-6 weeks. I have complained to management in person and this has gone on for years. s.22

s.22 Over the years we have seen an increase yearly in ferry traffic and this summer has been busier than ever, and there is now a smaller boat on this route.

Some days there are 2 or 3 sailing waits, leaving people in their cars on the road for 2 –3 hours. Although many people would believe we are seeing an increase in sales, this is not the case. There are several things that are causing a very negative experience for s.22 ferry travellers. The road is constantly blocked with traffic s.22 have to drive on the wrong side of the road with no safe pull outs s.22

s.22 Ferries are doing their best to control traffic, but they are not professional flaggers and I watch them getting many complaints from drivers. If there was an emergency the road is very unsafe.

Another very big issue is the bathroom situation. The ferry has 2 port-a-pottys that are on the bottom of the ferry dock. A far walk from the ferry parking lot, and at least 1 time per week they are out of order. I was told this is because they do not get pumped out enough and they get full very fast and have to be closed. s.22 s.22

s.22 .Could a bathroom trailer be hired for the summer, I see these at large festivals and events .

The terminal has no recycling facilities, the only garbage can is at the bottom of the ferry dock. This is a long way from the parking lot. s.22

s.22

. I realize it is not the responsibility of the BC

Ferries to handle everyone's garbage also. Garbage removal on Salt Spring is very costly^{s.22}

s.22

. Ferries provides doggie poop bags in the parking lot for people to responsibly pick up their dog messes. Yet again the empty bags are in ferry parking lot and the garbage can is down at the bottom of the dock . Which makes many people just drop of their dog poop in our parking lot. We could go after these people and make a fuss, but being in the hospitality industry and trying to promote Salt Spring as a destination, this would be a negative experience for our guests to the island. I even have seen the BC ferry workers bring in their own garbage can and put it in the upper lot to solve this problem.

I keep being told that BC Ferries is doing all they can and they do not have a bigger boat for this route, they proudly declared at our last meeting on Salt Spring that they are running more sailings on time and that is important to them. This smaller boat is faster and loads and unloads very quickly. Even though the boat is only 8 cars less than the Bowen Queen, I watched overloads all winter. So why when we get thousands of more people in the summer travelling have they not come up with a better solution. Last summer was very busy and saw the same overload situation.

There is so much construction on the island, so many more commuters and commercial traffic is very busy. Perhaps for the busy months a barge could be hired and that would bring the commercial traffic and dangerous cargo over. They could use the same dock and work around the ferry schedule. Another idea talked about at the last meeting would be just letting the ferry load up and go back and forth as a shuttle service. The situation right now is not working, we are making Salt Spring undesirable because people are having such a negative BC Ferry experience.

Thank you for your time,

s.22

Dear MLA Olsen,

Minister Trevena has received your letter regarding the Gulf Islands Seniors Residence Society's application for funding for a Community Hub at Meadowlane, Salt Spring Island. She appreciates you taking the time to share your support for this project and has shared your letter with the Honourable Selina Robinson, Minister of Affairs and Housing, as the Investing in Infrastructure Program – British Columbia – Community, Culture and Recreation Infrastructure, falls under her ministry's purview.

Thank you for taking the time to write.

Sincerely,

Office of the Minister
Ministry of Transportation and Infrastructure

Subject: FW: Update on Keating Interchange

Hi Ryan,

Here are the answers to MLA Olsen's follow-up questions.

1. What is the timeline for the Keating Exchange? Nothing further on this one at this time. Waiting for Federal Government Approval of the business case and cost sharing.
2. As well, it's the District that is looking for an update on the sewer project. If the Ministry isn't aware of any projects in the area it appears there's been a glitch somewhere. Can you just confirm that there are no sewer projects that you know of on MOTI land in Central Saanich? It was an application by Central Saanich for Federal Funding as far as we know. As the application was sent in by the municipality, they would be in the best position for updates as they haven't been shared with us.

I hope this helps.

Subject: RE: Follow up on Gulf Islands roads

Hi Ryan,

Hate to have to do this, but wondering if there's any further availability for MLA Olsen to meet with Minister Trevena the week of the 22nd? It's becoming more likely that MCT will be travelling down from her constit. office Tuesday morning and a Noon meeting is cutting it quite close for travel.

I can make any time at all Tuesday afternoon, or all day Wednesday work for this meeting.

Let me know!

Leah

If you could do 12 that might be better (it's about a 40 minute drive from the leg to our office). Otherwise we can definitely make 12:30 work!

All the best,

Hi Leah,

No worries. Currently he has a meeting at until 11am (that could be moved if necessary) and then another at 1:30pm. So between 11-1:30 something could work, accounting for travel.

Friday that week is totally open as well.

Hi Ryan,

Due to unforeseen circumstances we are hoping to shift this meeting between Minister Trevena and MLA Olsen to the week of July 22nd. Her availability is quite open on the 23rd if you would like to suggest a time that works for MLA Olsen?

Also open to discuss alternates.

Thanks in advance,

Leah Waters

Subject: Follow up on Gulf Islands roads

Hello Minister's Office,

Adam has asked me to follow up on the Minister's offer following question period to meet and discuss the challenges facing the southern Gulf Island roads.

I would be happy to coordinate with your office to set up this meeting. I'll try to give a good range of times that currently work for us:

Afternoon, Monday June 17th

Morning Tuesday June 18th

Afternoon Wednesday, June 19th

Anytime except 12pm Thursday, June 20th

Anytime Monday, June 24th

Afternoon before 4pm, Tuesday June 25th

After that Adam s.22
onwards.

so if those don't work we're looking at Monday, July 15th

All the best,

Ryan Clayton | **Constituency Assistant**

Sorry should have focused on your question.

Yes, this has been dealt with. The mtg was set up with MLA Mayor and MoTI staff, but then the Mayor cancelled at the last minute – he no longer wanted the mtg.

So from MLA Olsen's end and ours it is completed.

Hope this makes sense

Lynne

Subject: FW: Update on Keating Interchange

Hi Ryan,
Here are the answers to MLA Olsen's follow-up questions.

1. What is the timeline for the Keating Exchange? Nothing further on this one at this time. Waiting for Federal Government Approval of the business case and cost sharing.
2. As well, it's the District that is looking for an update on the sewer project. If the Ministry isn't aware of any projects in the area it appears there's been a glitch somewhere. Can you just confirm that there are no sewer projects that you know of on MOTI land in Central Saanich? It was an application by Central Saanich for Federal Funding as far as we know. As the application was sent in by the municipality, they would be in the best position for updates as they haven't been shared with us.

I hope this helps.
Regards,
Lynne

Hi Ryan,

Please accept my apologies for the delay in responding. I hope that the following answers MLA Olsen's questions.

- The ministry has completed the cost-benefit analysis for the proposed Keating Interchange and has applied for federal cost-share funding for the proposed project.
- The advancement of the project to a detailed engineering and design phase is subject to receiving federal cost share funding.
- Local district staff have not been involved in any municipal utility or sewer projects with the District of Central Saanich. You would need to contact the District for more information on this matter.

Let me know if you have any more questions.

Best regards,

Lynne

LEGISLATIVE ASSEMBLY
of BRITISH COLUMBIA

Adam Olsen MLA

Saanich North and the Islands

Dear Minister Trevenay,

As the Member of B.C. Legislative Assembly for North Saanich and the Islands, I want to express my sincere support for the **Community Hub at Meadowlane** on Salt Spring Island for funding under the "**Investing in Infrastructure Program - British Columbia - Community, Culture and Recreation Infrastructure**" program.

The Community Hub is a facility that will provide shared space for community groups, clubs and island residents to gather, recreate, play, learn and engage in music, art and cultural activities. No place like this exists on Salt Spring. With large and fully functional meeting space(s), support facilities like fully accessible washrooms, ample parking, a kitchen and storage for materials and supplies, community groups will finally have a place to meet and offer their programs and services. At their recent AGM, the Salt Spring Seniors Society have voted to move out of their old facility in favour of space in the Community Hub. Other groups have already begun to line up to access space once the building is completed - hopefully in 2021.

Under an agreement with the Capital Regional District, this new facility would also serve as an emergency response facility providing shelter and comfort during storms and emergencies like the recent wind and snow events.

None of this will happen without support from all levels of government and the community. Individuals and groups have already stepped-up to voice their support and back that up with letters and commitments. Local support and funding can only go so far on a project of this magnitude and we need the Provincial Government to take a leadership position - the Investing in Infrastructure B.C. program is perfectly suited to assist.

The Gulf Islands Seniors Residence Society (GISRA) application for \$6.2 million in support for the 16,600 sq ft of Community Hub space has passed all of the initial vetting and is currently being reviewed in your office for approval. The total project exceeds \$25 million and local financing and funding has been identified to add to the Provincial Infrastructure funds and make this facility a reality.

I fully support the GISRA application and I heartily encourage you to give it favourable consideration.

HÍ SW KE,

NEWS RELEASE COMMUNIQUÉ

For Immediate Release
2019TRAN0146-001646
Aug. 26, 2019

Ministry of Transportation and Infrastructure
Infrastructure Canada

Improvements to Highway 17 to support safe, efficient travels in Central Saanich

SAANICHTON – Investing in modern transportation infrastructure is critical to connecting communities, helping businesses compete, and creating a strong economy and middle class.

Jonathan Wilkinson, federal Minister of Fisheries, Oceans and the Canadian Coast Guard, on behalf of François-Philippe Champagne, Minister of Infrastructure and Communities; and Lisa Beare, British Columbia's Minister of Tourism, Arts and Culture, on behalf of Claire Trevena, B.C.'s Minister of Transportation and Infrastructure, have announced funding for a project to improve the Highway 17 corridor and create a new overpass at Keating Cross Road in Central Saanich.

The project involves a new flyover overpass from the Patricia Bay Highway (Highway 17) northbound to Keating Cross Road westbound, eliminating the left turn across highway traffic onto Keating Cross Road. The project will also include a realigned southbound on-ramp to Victoria.

These upgrades will allow vehicles to travel this busy corridor more safely and efficiently, helping keep local businesses competitive and promote regional economic growth.

The Government of Canada is investing more than \$16 million in this project through the New Building Canada Fund, Provincial-Territorial Infrastructure Component—National and Regional Projects, while the District of Central Saanich is contributing \$2.5 million. The provincial government's contribution for the project is pending Treasury Board approval.

Quotes:

Jonathan Wilkinson, federal Minister of Fisheries, Oceans and the Canadian Coast Guard, on behalf of François-Philippe Champagne, Minister of Infrastructure and Communities –

"These improvements to Highway 17 will greatly alleviate the chronic congestion issues people experience daily on this busy regional transportation route. Creating more vehicle capacity and smoother traffic flow will allow people to spend less time on the road and more time at their destinations, supporting economic activity and a higher quality of life."

Lisa Beare, B.C.'s Minister of Tourism, Arts and Culture, on behalf of Claire Trevena, Minister of Transportation and Infrastructure –

"A new overpass will greatly improve safety at this busy intersection and will help prevent collisions. Our government looks forward to working with our federal partners and the District of Central Saanich as we launch the first phase of this important project."

Quick Facts:

- Through the Investing in Canada infrastructure plan, the Government of Canada is investing more than \$180 billion over 12 years in public transit projects, green infrastructure, social infrastructure, trade and transportation routes, and Canada's rural and northern communities.
- More than \$10.1 billion of this funding is supporting trade and transportation projects, including \$5 billion available for investment through the Canada Infrastructure Bank.
