Hi everyone,

I've touched up the MLA speaking notes and added two Sample Emails – for the invite and for follow-up. Just a FYI.

Ramesh Ranjan
Ministerial Assistant to the Honourable Claire Trevena
Minister of Transportation and Infrastructure
604-220-5303

Subject: Communications package - Ferries Visioning - Public Engagement (will need 2 QUOTE approvals)

Hi to Min office:

As requested – here is the ferries visioning package (as written by Sonia Lowe and approved through program, ADM and comms)

Attached:

- News Release, MLA Toolkit, KM /QA
- Visioning webpages – will need MO approval on content

We are also working on short speaking notes for Minister Trevena to have on hand in case media attend the media avail/ photo op

Can you let us know who from MO (or a CA) will be attending & taking photos? We will need to receive the photos for our TRAN Newsroom (to attach to the NR).

We will also need QUOTE approvals on the 2 quotes:

“Significant investments are being made in ferry infrastructure with decisions being made today defining the service long into the future,” said Minister of Transportation and Infrastructure Claire Trevena. “We’re asking people what the coastal ferry service could look like in 20, 30 or 40 years and how services should be delivered to better support people and families who live and work on our coast.”

“We’re asking people to weigh in and share their thoughts on what they would like to see for the future of ferry travel,”

said MLA for Courtney-Comox Ronna-Rae Leonard. "Transportation needs are changing – and coastal ferries should also evolve. We want to ensure we have a system in place that is adaptable, dependable and convenient."

Many thanks!

Subject: Lake Country Open House

As discussed at Minister's Council, here are materials related to an open house next week.

Materials include:

- Poster boards
- Feedback form

I feel that everything is in order and do not believe that there will be issues.

Nonetheless, I appreciate your and the Minister's feedback.

Planning to have printers prepare the materials over the weekend.

- The Lake Country Planning Study was identified as a priority area for further review in the Central Okanagan Planning Study (COPS).
- The technical findings of COPS, combined with a request from the District of Lake Country at the 2017 UBCM meeting resulted in a planning study getting underway to look at medium and long term options for the Highway 97 Corridor between Duck Lake and Lodge Road.
- The study includes the Glenmore/Beaver Lake Intersection, which is currently experiencing significant congestion and delays, especially during peak hours.
Work to date includes:
 - A technical assessments to better understand the needs of the corridor.
 - A world café style workshop in June 2019 to collect feedback from the public on the current conditions of the highway and to get their input on potential improvements.
 - Following the workshop, development of 2 interim and 3 long-term options to improve highway 97 through Lake Country.

- An open house is planned for February 5th to collect feedback on these options, prior to identifying a preferred interim and long term option. The meeting will collect feedback through a paper feedback form as well as online via the PlaceSpeak public engagement platform.
- GCPE has been working closely with the team on the open house and materials.
- This is the first BC Government public engagement to use the PlaceSpeak public engagement platform, which is designed to be more interactive and provide more meaningful data and input to the project team.
- The final planning report is expected to be completed in late Spring 2020 and Ministry staff will report back to the community at that time to wrap up the planning work.

Good afternoon Ramesh,

That's very exciting news!

Please meet us at the corner of 5th Street and Fitzgerald Avenue at 1:00 p.m. on Monday, February 3rd to view the complete Fitzgerald Corridor Cycling Expansion Project.

We will have our Public Works Services department secure parking for you both at the location I mentioned above. Please see attached for a photo of the intersection that we will be meeting at for ease of reference. I have highlighted the parking spots in yellow that will be made available as well.

Feel free to reach out to myself 250-703-4837 or Wendy Sorichta 250-703-4856, if you have any further questions.

We look forward to your visit.

Sincerely,
Rayanne

Hi to Min office:

As requested – here is the ferries visioning package (as written by Sonia Lowe and approved through program, ADM and comms)

Attached:

- News Release, MLA Toolkit, KM /QA
- Visioning webpages – will need MO approval on content

We are also working on short speaking notes for Minister Trevena to have on hand in case media attend the media avail/ photo op

Can you let us know who from MO (or a CA) will be attending & taking photos? We will need to receive the photos for our TRAN Newsroom (to attach to the N).

We will also need QUOTE approvals on the 2 quotes:

“Significant investments are being made in ferry infrastructure with decisions being made today defining the service long into the future,” said Minister of Transportation and Infrastructure Claire Trevena. “We’re asking people what the coastal ferry service could look like in 20, 30 or 40 years and how services should be delivered to better support people and families who live and work on our coast.”

“We’re asking people to weigh in and share their thoughts on what they would like to see for the future of ferry travel,” said MLA for Courtenay-Comox Ronna-Rae Leonard. “Transportation needs are changing – and coastal ferries should also evolve. We want to ensure we have a system in place that is adaptable, dependable and convenient.”

Many thanks!

Subject: MLA Glumac - emerging transportation pilot projects

Hi Cindy,

Hope you're well. The news release I had emailed you about last week has been pushed to Thursday to accommodate MLA Glumac's schedule. I'm looking to get your help in booking a few things:

- 1) A 30 min briefing on the pilot projects with MLA Glumac on Wednesday
- 2) A 30 min media prep session with MLA Glumac on Wednesday (ideally right after the briefing)
- 3) A time period on Thursday morning that he is available during. We suspect there will be media interest and would like him to do interviews, if so.

Also, would you happen to know who handles his social media?

Charly, would you be able to assist Cindy in booking TRAN staff for the first two? Deb Bowman to be in on the briefing and Dave Crebo to be in on the media prep.

Call me if anything doesn't make sense! Thanks!

Ramesh

Subject: RE: North Shore Enhanced Towing Services

Good morning, Ken –

Thank you for this information, it's very helpful. I have some follow-up questions for you that can wait until next week, given the snow conditions you're managing right now. I've also copied Ramesh, who has just recently joined MCT's office as an MA.

1. Recognizing there wasn't as substantial an improvement in the contract for the LGB, can you pull similar data for that bridge as well?
2. How is the incident entry duration time measured? (From what point to what point)
3. Does MOTI track incidents outside of the maintenance contract hours?
4. Does MOTI track the time it takes for traffic backups resulting from incidents to clear?
5. Some clarifications on information provided below:
 - Of the total number of incidents that units have responded to, 68% have occurred during the new expanded hours.
 - Does this include LGB or is this stat just for IWMB?
 - Of the incidents responded to 80% were responded to by units capable of towing (flat deck, heavy wrecker).
 - Does this stat also include LGB or just IWMB? Can you offer examples of incidents that would fall into the other 20%?
6. Finally, do you mind giving me a sense of your confidence level in these numbers? For instance, are there sources of error we should be aware of?

Thank you so much for your help with this.

Bowinn

Subject: RE: North Shore Enhanced Towing Services

Afternoon MLA Ma,

The team has pulled out some statistics below, the focus on the information provided is on IWMB, as this is where the significant change in patrol services is highlighted in the current contract.

November 1, 2018 to October 31, 2019

- 195 incident entries at IWMB and its surrounding area (Cassiar Tunnel to Lynn Valley Rd)

- There were 110 events (65 minor events, 45 major events) that occurred within the current maintenance contracts enhanced hours (9:00am to 3:00pm, and 6:30pm to 11:00pm on weekdays - and 6:00am to 11:00pm on weekends and statutory holidays)
 - 39 events took place on weekends
 - Incident entry average duration time: 29:04 minutes ****Improvement of ~11 Minutes from the last round of contracts***

The greater impact to response times is generally for minor incidents (stalls, flat tires etc.) this is represented by the fact that in many cases the length of major events is not dictated by the lack of the presence of a maintenance contractor responding unit but other factors e.g. waiting on specialised alternative responding units.

If you're interested we can speak next week and I can walk through the information with you as well.

Thanks,

Ken Nash

Subject: North Shore Enhanced Towing Services

Evening MLA Ma, Ashok indicated you were inquiring with regards to some additional info on the enhanced towing services in the current maintenance contract. I understand he previously provided a summary. Since then we have been tracking the number of times the new units have been used in the enhanced hours and can offer the following comments:

- The enhancements in the current contract for indent response on the North Shore feature:
 - Extended hours where we now have additional patrol (tow) vehicles stationed around the Ironworkers and Lions Gate Bridge.
 - Type of patrol vehicles is now specified (regular 1 ton wrecker, a flat deck truck, or a heavy wrecker).
- As indicated in the previous table provided in Ashok's email, the enhanced service focuses on the IWMB, specifically:
 - Under the old contract, 32.5 hours per week of enhanced patrols.
 - Under the new contract, 114 hours per week (with an additional hour during a week in which there is a stat holiday) of enhanced patrols.
- Of the total number of incidents that units have responded to, 68% have occurred during the new expanded hours.
 - This is important as the previous alternative during this time period would have been to call in units from the maintenance contractors yard or available subcontractors.
- Another feature of the new contract are the specific requirements for the type of units.
 - Of the incidents responded to 80% were responded to by units capable of towing (flat deck, heavy wrecker).

If you have any further questions or are interested in further data please give me a call.

Thanks,

Ken Nash

Subject: Pilot projects for emerging transportation

Hi Donna,

Here is the draft embargoed release I mentioned in our call. Let me know if you have some thoughts.

Hi Ramesh,

I just asked Rob if he's interested. Waiting to hear back. Would we set up a phone call at 1:20 with the Mayor and tell her we have exciting news to share as the basis for the call?

Sincerely,

Sheridan Hawse
Constituency Assistant to Rob Fleming, MLA for Victoria-Swan Lake

Hi Sheridan,

Ramesh from Minister Claire Trevena's office here. Hope you're well. We're putting out the attached release on Monday afternoon. Mayor Helps is an enthusiastic supporter of piloting e-scooters, e-skateboards and things of the like

s.13

s.13, It's timed for 1:15 pm and is considered embargoed until then.

Let me know if he wants to do that. Feel free to call me if you need more info.

Subject: RE: Correspondence - MVA Pilot Projects

I don't think so but maybe include that anyway. If the substance is them asking, then it would apply.

Hi Ramesh,

Sorry, one question – would this include the golf cart pilot project in places like Chase as well?

Thanks,

Maija Liinamaa

Subject: RE: Correspondence - MVA Pilot Projects

Hi Maija,

Date range: 2 years

The first phase of pilot projects enable municipalities to (legally) test out motorized personal mobility devices like e-scooters and similar devices in their communities. These were enabled by legislation that passed in the Fall sitting. I know Kelowna, amongst others, wrote to our office a number of times. I'm looking to see who were the others.

Does that help?

Ramesh

Hi Ramesch,

Nice to (virtually) meet you! Sure, we can do a search for you.

Is there a specific date range?

Also, off the top of my head, I am not sure what those projects would be for specifically? Can you provide more detail? That will help with the search in terms of keywords.

Kind regards,

Maija Liinamaa

Subject: Correspondence - MVA Pilot Projects

Hi there,

Ramesh Ranjan here. I'm the new MA in Minister Trevena's office. I'm looking for all correspondence from municipalities about the Motor Vehicle Act Pilot Projects and was told to inquire with your team!

Thanks,
Ramesh

Hi Deb,

Thanks again for the briefing yesterday. I was wondering if you could tell me where I can find the enabling legislation where it outlines the 4-5 key details Kathy mentioned?

Hi Deb,

Both would be great. Briefing by phone call would suffice unless you feel like coming to the Legislature!
11 am or 1 pm work for me.

Ramesh

Hi Ramesh, welcome to the ministry! I can absolutely connect.
How would you prefer to get the materials? Do you want me to send you the background in a package or should we arrange a briefing tomorrow – or both?
Please let me know.
Looking forward to working with you, db

FYI to all –

Here is the final NR on the MVA pilot projects, s.13
s.13 and the date inserted. Note
that we will still need to update the link.

The MLA quote was approved before Christmas.

We have this one lined up to go out on Monday Jan 13.

Feel free to share with the MLA and any other interested MLAs.

We will have a photo & tweets closer to the time of release.

Thanks!

FYI: Given that our release will be out next Monday, we'll send this reporter the following information for now:

- **Changes to the Motor Vehicle Act were approved this past fall.**
- **These changes give government the chance to work with communities in researching and testing how new mobility technologies should be used to promote the safety of all road users and address changing public mobility needs.**
- **More information will be coming out soon about how communities can get involved.**
