Direction: ☐ N ☒ S ☐ E ☐ W

Any highway maintenance/construction activity in immediate collision vicinity? ☐ YES ☒ NO  
(If yes, please include record plan of work site showing all signs and other control(s))

Has location been inspected by MoT since the collision? ☒ YES ☐ NO

Brief description of the vehicle(s) movement(s) just before and during the collision:

NB Semi lost control and appeared to jack knife into SB lane. SB pickup moved to NB lane to avoid a head on collision. The passenger side of the pickup hit the semi's passenger side of the trailer and flipped upside down onto right of way next to NB shoulder. The semi ended in SB ditch facing south, ripped from the trailer still facing north over shoulder.

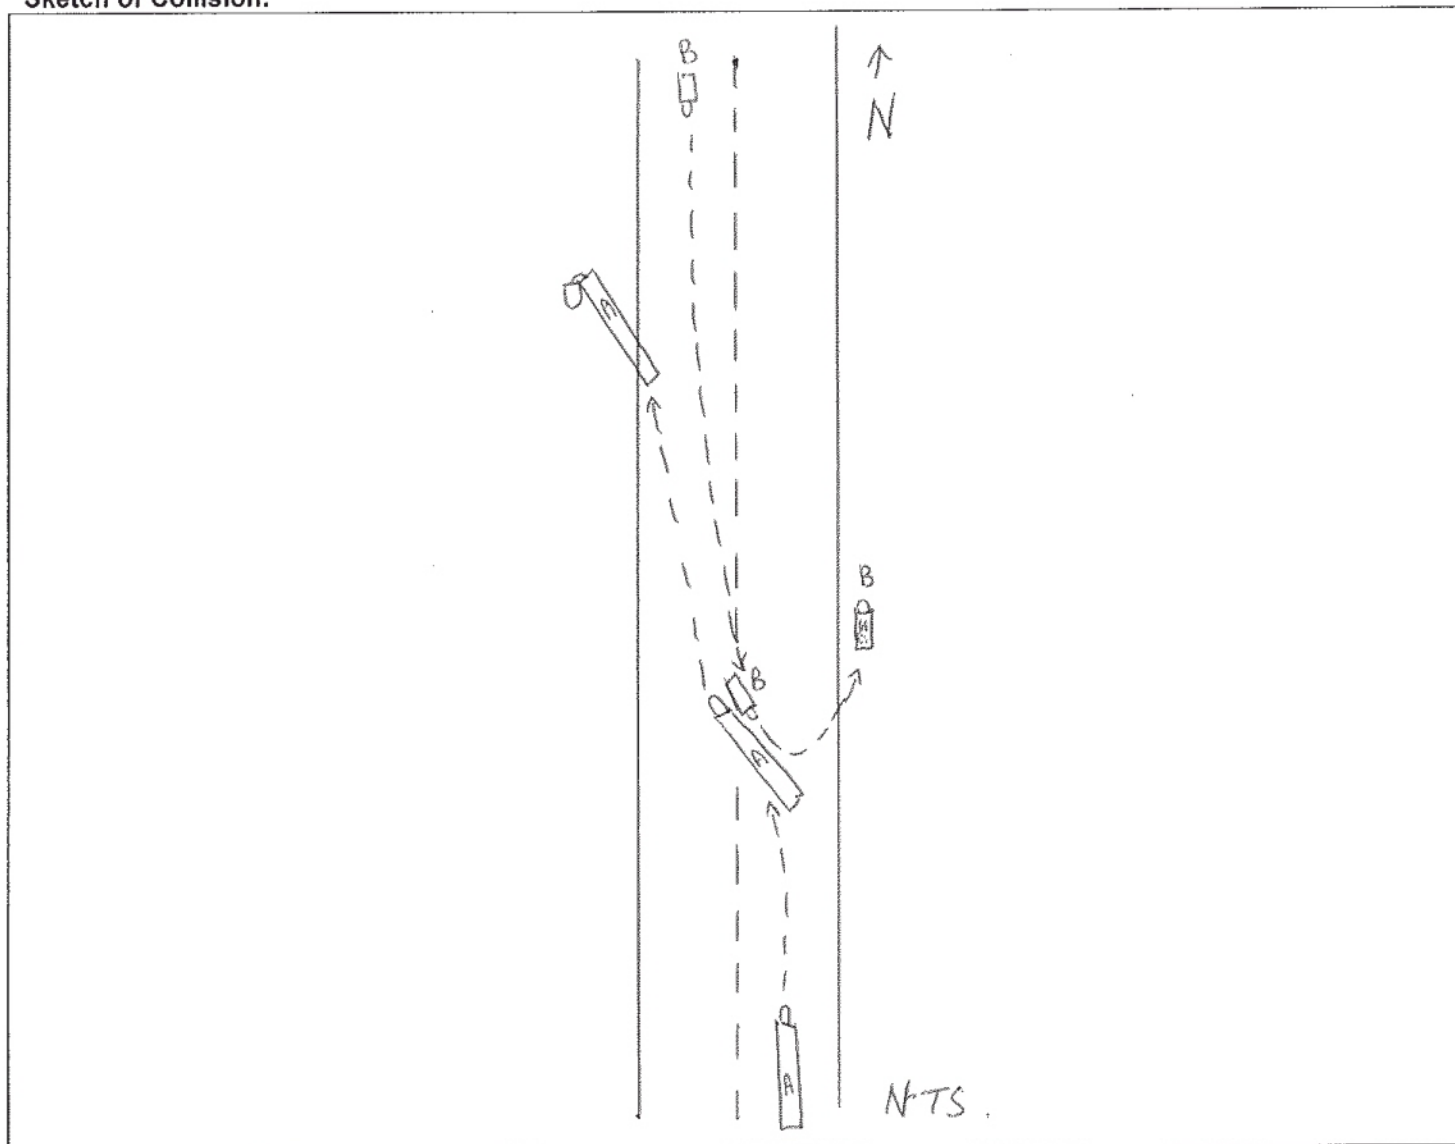

Form completed by: Lucille Green, Area Manager Roads.

(print name and position)

### Other Comments:

Highway surface: Wheel paths were bare with well sanded light ice, with packed snow between. The driver of the pickup was killed upon impact. The driver of the semi was uninjured.

Sketch of Collision:

Optional attachments: Newspaper clips, maintenance report and photos
