Thanks for the discussion and background today, Deborah. I worked with Janet and Karen and we have redrafted the material as attached. We will issue a short blurb in the newsletter through the Ministry of Health (distributed next week to all doctors) and include a link to our website where this information will reside. We will also email this information directly to all clinics/physicians who are already participating in the program and if anyone asks questions. We will also be providing a sample letter on our website for physicians/clinics to reference. I trust this addresses the concerns that have been communicated from users and will lead to more consistent application. Brian.

Thanks Brian, I'd like to connect with you about this tomorrow to ensure alignment before any messaging goes to the medical community. We are getting many letters of concern from ferry users who are getting inconsistent treatment w/r/t MAL. There is growing concern that the program is still not meeting the intent of the ministerial order. Let's discuss in more detail tomorrow, thanks Brian.

Hi Deborah - in follow up to yesterday's emails, the attached represents the communications that will be distributed to support the administration of MAL.

1) A short blurb will be included in the newsletter that will be sent to all practicing physicians and doctors next week via the Ministry of Health. Unfortunately it is limited to 150 words, so it includes links to our website for the more fulsome information piece.

2) The longer document will also be emailed by us to all the clinics, hospitals and regional offices that have previously requested MAL.

That should provide a consistent and clear message to all offices with regards to the new Order and expectations.

Thanks, Brian.
