Warnings

3:56 AM PST Monday 18 December 2017

Snowfall warning in effect for:

- Trans-Canada Highway - Eagle Pass to Rogers Pass

Snowfall, with total amounts of 15 to 25 cm is expected.

A Pacific front moving across the BC Interior is spreading snow to the region this morning.

Snow is expected to taper off later today as the front exits the province.

Rapidly accumulating snow could make travel difficult over some locations. Visibility may be suddenly reduced at times in heavy snow.

Snowfall warnings are issued when significant snowfall is expected.

Weather in the mountains can change suddenly resulting in hazardous driving conditions.

ShiftIntoWinter.ca reminds drivers to know before you go. Adjust to winter driving behaviour and use winter tires and chains.

Road conditions are available at www.drivebc.ca.

Please continue to monitor alerts and forecasts issued by Environment Canada. To report severe weather, send an email to ec.tempetepacifique-pacificstorm.ec@canada.ca or tweet reports using #BCStorm.
