## Strategic Direction

Shannon Salter  
Deputy Minister to the Premier, Cabinet Secretary and Head of the Public Service  
Office of the Premier  
West Annex, Parliament Buildings  
Victoria BC V8V 1X4

Dear Deputy Minister to the Premier:

On February 22, 2024, our government tabled *Budget 2024*, the three-year Budget and Fiscal Plan, and ministry and Crown Agency Service Plans for the 2024/25 to 2026/27 period.

*Budget 2024* provides significant new investments to tackle today's biggest challenges and help British Columbians with the services they rely on most. This includes new funding to help with rising costs, housing, and health care, as well as fighting climate change and building a stronger economy for everyone. The budget also reaffirms government's commitment to true and meaningful reconciliation by supporting opportunities for Indigenous Peoples to be full partners in the inclusive and sustainable province we are building together.

As we look to the year ahead, we continue to feel the impacts of a slowing global economy. In that context, we need to continue prioritizing affordability and essential services. This will require a collective effort to meet the budget targets and ensure our resources are allocated to priorities that will demonstrate results for British Columbians.

You are accountable for ensuring your ministry, and the provincial agencies you are responsible for, manage operations, programs, and services within the appropriation stated in this letter and established through the *Estimates*.

Cabinet Confidences

Please ensure your ministry continues to work closely, and in a timely manner, with Treasury Board Staff to identify any areas of risk to your budget and communicate your mitigation strategies to ensure you meet your budget targets as required by the *Financial Administration Act* and the *Balanced Budget and Ministerial Accountability Act*.

Your 2024/25 budget allocations and future year targets are listed in the table below. Final budgets will be confirmed once Final Supply is passed after the conclusion of the Estimates debate.

## **Appendix B: 2024/25 Operational Policies, Procedures and Directives**

This Appendix has the following sections:

1. Policy or Program Proposals with Financial Implications
2. Operating Contingencies
3. Fiscal Plan Management
4. *BBMAA*, Statutory Appropriations, and Special Accounts
5. Commercial Crown Corporations, Taxpayer-supported Service Delivery Agencies and SUCH Sector Organizations - Fiscal Target Management
6. STOB Management
7. Public Sector Compensation
8. Property Management and Shared Services BC
9. Other Budget Management Requirements

### **1) Policy or Program Proposals with Financial Implications**

Ministries must seek prior Treasury Board approval of:

- Any new policies or programs;
- Changes to existing policies or programs;
- Significant long-term contracts and contract renewals; or
- Major alternative service delivery projects/agreements

Per Treasury Board Directive 2/96, all new program proposals must include a program design plan; a three-year business plan; and a clear description of the accountability structure.

All treasury Board submissions must be consistent with Government's Core Policy and Procedures Manual (CPPM) and Treasury Board Directives.

#### ***a. Targeted Expenditures***

*Budget 2024* provides base budget lifts for targeted initiatives or programs. Ministries may not reallocate targeted funds, including staff specific funding, to other ministry programs without prior approval from the Chair of Treasury Board unless otherwise specified.

#### ***b. Revenues***

Any adjustment to revenue policies including revenue rates, credits, remissions, etc. requires prior approval. Ministry staff should consult TBS to determine the appropriate process.

### *c. Treasury Board Submissions*

Treasury Board Submissions without explicit direction from the Minister of Finance will not be reviewed by Treasury Board. Ministry staff should engage with TBS to confirm direction and scope of any requested submissions.

Ministries are required to consult with TBS to ensure all pertinent information required by Treasury Board to make an informed decision is included in the ministry's submission prior to obtaining final ministerial approval. Ministries must build in timelines for the Treasury Board submission process (as outlined here) into their planning process and should not assume or expect deviation from the established process to meet ministry timelines.

Submissions must include options for how the proposal can be funded or partially funded from reallocation within existing budget. Ministries are required to provide scaled or phased options complete with implementation plans and resourcing requirements to support Treasury Board deliberations. Implementation plans should include target dates and milestones, key outcomes and details on how and when the ministry will collect and report on key performance indicators.

The timing for the review of Treasury Board submissions is dependent on several factors, including the urgency and complexity of the issue, the readiness of materials and the availability of Treasury Board meeting time. Ministries that are unable to meet the Treasury Board timelines can expect their proposal will be rescheduled to a future meeting.

Please refer to the Performance Budgeting Office intranet site for information outlining the Treasury Board submission process/timelines.

#### Other Specific Considerations:

##### *Gender Based Analysis Plus (GBA+) and Indigenous Considerations*

All Treasury Board submissions are expected to outline how GBA+ and Indigenous considerations have been included in the ministry proposal. Please refer to the Cabinet/Treasury Board Request for Decision template for more guidance.

In 2022/23, government provided an investment of \$200 million to the New Relationship Trust, which will support the provision of capacity funding to all First Nations. The priority of this investment is to support First Nations' participation in implementing the Declaration Act Action Plan and legislative alignment work, but can also support strategic, policy, and legislative engagements.

Cabinet Confidences  
Cabinet Confidences

### *Submissions with CleanBC and Other Climate-Related Considerations*

Ministries must engage with the Ministry of Environment and Climate Change Strategy in the development of any Treasury Board submissions related to CleanBC and other climate-related programming in addition to any submissions with implications for the Province's greenhouse gas emission reduction targets.

Ministries with measures that reduce greenhouse gas emissions or adapt to climate change are to work with the Ministry of Environment and Climate Change Strategy to identify ways to incorporate emission reductions associated with those measures into tracking progress towards the Province's reduction targets, and as part of annual climate accountability reporting. This includes emission reductions measures associated with CleanBC programs, investments outside of CleanBC, regulatory measures, and any other measures to reduce emissions.

### *Submissions with FTE Requests*

Ministries must not hire beyond their approved STOB 50 budgets and are directed to not include incremental FTE requests unless explicitly directed by the Minister of Finance. Submissions that require resources must leverage or redirect existing resources or find other ways to create efficiencies through process improvements or technology to the extent possible.

### *d. Cabinet, Cabinet Committee and Cabinet Working Group Submissions*

Cabinet approval of a ministry policy option **does not** constitute automatic approval of an invitation to Treasury Board, as the Minister of Finance must manage the overall fiscal plan, which continually evolves. Cabinet policy direction therefore also does not limit Treasury Board's authority to make decisions about implementation timelines and resource allocations. Executive Financial Officers (EFOs) must review the fiscal impacts and risks prior to finalizing all Cabinet submissions and consult with the Office of the Comptroller General to ensure accurate accounting treatment.

TBS is responsible for reviewing the financial implications of initiatives presented to Cabinet, Cabinet Committees, and Cabinet Working Groups. It is expected that ministry staff and TBS will work together during the drafting of the submission to ensure the accuracy of the presentation of fiscal risks and impacts.

Advice/Recommendations

This process applies to the materials proceeding to Cabinet, Cabinet Committees and Cabinet Working Groups. Advice/Recommendations

Advice/Recommendations

***e. Regulation Changes***

Ministries must obtain Treasury Board approval prior to proposing regulation changes with fiscal implications for government or government agencies (e.g., Crown corporations). Ministries are also accountable for ensuring appropriate consultation is undertaken to evaluate the potential fiscal implications across government. If fiscal implications are expected, ministries should engage TBS early to obtain Treasury Board approval in time to meet implementation timelines.

For regulation changes made through Orders in Council (OIC), the ministry EFO must review and agree to the fiscal impacts and risks. If fiscal impacts are identified, ministry staff are expected to engage their Treasury Board Analyst well in advance of submitting the OIC package to Cabinet Operations to ensure fiscal implications have appropriate Treasury Board approval.

***f. Public Release of Reports and Other Public Commitments***

Advice/Recommendations

***g. Collection of Debt***

Ministries proposing or drafting legislation with penalties or other obligations (e.g., repayment of loans) that may result in debt owed to government are to consult with the Executive Director of the Receivables Management Office within the Ministry of Finance to discuss the process and ensure collection provisions are appropriate.

***h. Internal Recoveries and Program Transfers***

Internal recoveries (including chargebacks) that are fiscal-neutral, meet core policy criteria and/or principles, and that are agreed upon by the affected Deputy Ministers do not require additional Treasury Board approval. EFOs are required to confirm any such transfers, chargebacks or internal recoveries do not create new fiscal costs to government.

All program transfers proposed under the *Constitution Act* are to be completed using the template provided by Cabinet Operations to ensure proper due diligence has been completed. This template includes sign off by the Ministry of Finance. Please contact your Treasury Board Analyst for further information.

## 2) **Operating Contingencies**

Advice/Recommendations

Please refer to Appendix C for information about CRF Capital Contingencies.

## 3) **Fiscal Plan Management**

Advice/Recommendations

## 4) **BBMAA, Statutory Appropriations, and Special Accounts**

Under section 3 of the *Balanced Budget and Ministerial Accountability Act (BBMAA)*, your ministerial salary is reduced by 10 per cent. This will be restored on the day after the *2024/25 Public Accounts* are released, provided your ministry's actual 2024/25 operating spending does not exceed your operating expense accountabilities outlined in Schedule F of the *2024/25 Estimates*.

Your ministry is not to exceed your ministry's 2024/25 budget allocation and future year targets noted in the body of this letter without prior Treasury Board approval. The requirement to obtain Treasury Board approval prior to exceeding budget allocation includes any spending authorized under statutory appropriations.

Unless otherwise directed by Treasury Board, any special account decrease in revenues or increase in expenses, or financing transaction disbursements above the amounts outlined in the *2024/25 Estimates* requires Treasury Board approval.

Advice/Recommendations

5) **Commercial Crown Corporations, Taxpayer-supported Service Delivery Agencies and SUCH Sector Organizations - Fiscal Target Management**

Your ministry is responsible for overseeing the financial position and operating results of commercial Crown corporations, service delivery agencies and SUCH sector organizations (school districts, universities, colleges, health authorities and hospital societies) that fall under your legislated responsibilities.

Commercial Crown corporations, service delivery agencies, and SUCH sector organizations are expected to meet or exceed their financial targets as identified in their three-year service plans as tabled under *Budget 2024*.<sup>Advice/Recommendations</sup>

Advice/Recommendations

Ministries with SUCH sector responsibilities are required to report quarterly to TBS on progress in achieving *Budget 2024* financial targets and to ensure their organizations will collectively meet bottom line, net expense, and debt targets. In addition, all ministries are required to ensure the agencies and organizations for which they are responsible manage their capital projects within approved project budgets or previously approved envelopes, and where necessary develop strategies to ensure projects and envelopes remain within approved provincial funding limits.

Consistent with the principle of ministerial accountability, each ministry and program area charging fees is responsible for ongoing monitoring of its fees to ensure approved fee rates continue to be appropriate and consistent with relevant government policies and regulations.

Cabinet Confidences

-----

Ministries are reminded the fee database is only updated when changes have been legally authorized by Cabinet Regulation / OIC, Ministerial Order or Minister of Finance Directive. # 2023/24 Estimates Note

## Advice to the Premier

**Title:** Freedom of Information Requests – Office of the Premier

**Response:**

- In FY 2023/24, Office of the Premier responded to 146 FOI requests with an average processing time of 39 days and an on time compliance of 98%.
- In FY 2022/23, Office of the Premier responded to 169 FOI requests, with an average processing time of 269 days and an on time compliance of 71%.
- In FY2021/22, Office of the Premier responded to 379 FOI requests with an average processing time of 126 days and an on-time compliance of 81%.
- In FY2020/21 Office of the Premier responded to 782 FOI requests with an average processing time of 57 days and an on time compliance of 90%.

**FOI Issues/ Status:**

**Overdue Requests:**

- Closing large and complex overdue requests was the primary focus for Office of the Premier in FY 2022/23. This focus resulted in increases to average processing days and a decline in timeliness, as files are not counted in the on-time rate until they are closed.
- Since successfully concluding the work of closing the historic backlog of open overdue requests, Office of the Premier has returned to high on time compliance and timeliness. For this fiscal year to date, Office of the Premier has achieved a 98% on time rate at an average response time of 39 days.

**Implementation of Application Fee**

- Public bodies began charging a \$10 application fees for non-personal requests on November 29, 2021.
- Indigenous Governing Entities (IGEs) are exempt from paying application fees.
- Government continues to monitor the impact of the application fee on requests volume and pages processed.

**Decrease in Processing Fee Estimates:**

- In FY 2023/24, the percentage of processing fee estimates issued decreased to 1% of the 158 requests received this fiscal year. This is comparable to FY 2022/23 when only 3% of requests received processing fees, and shows sustained decline from 17% of requests received in FY2020/21.

# 2023/24 Estimates Note

## Advice to the Premier

- All applicants are charged fees based on the same criteria found in s. 75 of FOIPPA and as permitted by schedule 1 of the FOIPPA Regulation.
- Information Access Operations, on behalf of Office of the Premier, is in regular contact with applicants to assist with the wording of their FOI requests. This communication aids in understanding of what the applicants are seeking and helps them be as specific as possible, which also enables a cost-effective process.

### Decrease in Time Extensions / Decrease in Processing Days

- The government of B.C. takes its Freedom of Information and Protection of Privacy Act (FOIPPA) obligations seriously and only takes extensions when it is necessary to do so.
- Time extensions are legislatively permitted and taken on an as/when needed basis for any of the justifications found in section 10 of FOIPPA.
- In FY2023/24, approximately 44% of the files processed by Office of the Premier required an extension, declining from 47% in the prior fiscal year.

### Decrease in No Records Responses:

- 16% of requests closed in FY 2023/24 resulted in “No Records” responses. This is comparable to last year (13%) and is substantially lower than the 32% reported in FY2020/21
- In previous fiscal years, many of the routine, non-topical requests result in a “No Records” response (for example “copies of text messages for a *specified individual*”).
